Fans Larry Olmsted.2021-03-02 “Olmsted opens a window into a psychologically compelling world of passion and purpose.” —Harvey Araton, author of *Our Last Season: A Writer, a Fan, a Friendship* Larry Olmsted’s writing and research have been called “eye-opening” (People), “impressive” (Publishers Weekly, starred review), and “enlightening” (Kirkus Reviews). Now, the New York Times and Washington Post bestselling author turns his expertise to a subject that has never been fully explored, delivering a highly entertaining game changer that uses brand-new research to show us why being a sports fan is good for us individually and is a force for positive change in society. Fans is a passionate reminder of how games, teams, and the communities dedicated to them are vital to our lives. Citing fascinating new studies on sports fandom, Larry Olmsted makes the case that the more you identify with a sports team, the better your social, psychological, and physical health is; the more meaningful your relationships are; and the more connected and happier you are. Fans maintain better cognitive processing as their gray matter ages; they have better language skills; and college students who follow sports have higher GPAs, better graduation rates, and higher incomes after graduating. And there’s more: On a societal level, sports help us heal after tragedies, providing community and hope when we need it most. Fans is the perfect gift for anyone who loves sports or anyone who loves someone who loves sports.

Chronic Fatigue and Its Syndromes Simon Wessely,Matthew Hotopf,Michael Sharpe.1999 Chronic Fatigue Syndrome (also known as M.E) is an illness characterized by the symptom of chronic and severe fatigue, in the absence of an alternative medical condition. It has been the subject of intense media debate over recent years. Such interest has been partially due to the polarization of professional and scientific opinion concerning the topic - what is it, and what causes it? Chronic Fatigue and its syndromes presents an objective and comprehensive review of the problem of chronic fatigue, mixing medical, psychological, social, and historical perspectives. It begins by considering the nature of fatigue, and its physical and psychological origins. The book then introduces the subject of CFS, tracing its historical origins, before considering the epidemiology, and the various aetiological theories for modern forms of the condition - viral, immunological, psychological, psychiatric, and neurological. The book concludes with a clinical section that gives a step by step guide to the assessment and treatment of CFS. Throughout, the authors argue that chronic fatigue and its various syndromes cannot easily be pigeonholed into either physical or psychological categories, and that the ambiguous nature of the illness actually provides us with a valuable chance to explore contemporary attitudes to sickness and health, one not offered by better defined or classified disorders.

Institutional Critique Alexander Alberro, Blake Stimson. 2011-09-30 An anthology of writings and projects by artists who developed and extended the genre of institutional critique. Institutional critique is an artistic practice that reflects critically on its own housing in galleries and museums and on the concept and social function of art itself. Such concerns have always been a part of modern art but took on new urgency at the end of the 1960s, when—driven by the social upheaval of the time and enabled by the tools and techniques of conceptual art—institutional critique emerged as a genre. This anthology traces the development of institutional critique as an artistic concern from the 1960s to the present by gathering writings and representative art projects of artists from across Europe and throughout the Americas who developed and extended the genre. The texts and artworks included are notable for the range of perspectives and positions they reflect and for their influence in pushing the boundaries of what is meant by institutional critique. Like Alberro and Stimson's *Conceptual Art: A Critical Anthology* this volume will shed new light on its subject through its critical and historical framing. Even readers already familiar with institutional critique will come away from this book with a greater and often redirected understanding of its significance. Artists represented include Wieslaw Borowski, Daniel Buren, Marcel Broodthaers, Groupe de Recherche d'Art Visuel, Hans Haacke, Robert Smithson, John Knight, Graciela Carnevale, Osvaldo Mateo Boglione, Guerilla Art Action Group, Art Workers' Coalition, Mierle Laderman Ukeles, Michael Asher, Mel Ramsden, Adrian Piper, The Guerrilla Girls, Laibach, Silvia Kolbowski, Andrea Fraser, Fred Wilson, Mark Dion, Maria Eichhorn, Critical Art Ensemble, Bureau d'Études, WochenKlausur, The Yes Men, Hito Steyerl, Andreas Siekmann.

Physical Activity and the Aging Brain Ronald Ross Watson. 2016-12-15 *Physical Activity and the Aging Brain: Effects of Exercise on Neurological Function* is a complete guide to the manifold effects of exercise and physical activity on the aging brain. Cognitive decline and motor impairment, onset of diseases and disorders, and even changes in family structure and social settings that occur as we age can all impact activity levels, yet continued physical activity is crucial for successful neurological functioning. This book examines the role that exercise and physical activity play in halting or modulating the deleterious effects of these numerous aging concerns by first examining the current state of research into how exercise manifests physical changes in the brain. It then discusses how physical activity combines with other lifestyle factors to benefit the aging brain, including nutrition, computerized brain training, and social engagement. Most significantly, it also covers how physical activity can serve as therapy to help alleviate the symptoms of various neurological diseases impacting aging populations, with particular emphasis on Alzheimer's disease and age-related cognitive decline. The book provides broad coverage of the effects of exercise and physical activity on the aging brain, its therapeutic effects, and the many factors that influence the aging process. Presents research scientists with a complete understanding of the role of exercise in healthy brain aging Considers the roles of nutrition, the mind-body connection, and other lifestyle factors Presents a major resource for exercise and physical activity in the neurological health of older adults Provides a synopsis of key ideas associated with the many aspects of physical activity, along with lifestyle factors that can modify neurological diseases and age-related neurological decline

Notes from Underground Fyodor Dostoevsky.2019-02-12T23:01:19Z Notes from Underground is a fictional collection of memoirs written by a civil servant living alone in St. Petersburg. The man is never named and is generally referred to as the Underground Man. The “underground” in the book refers to the narrator’s isolation, which he described in chapter 11 as “listening through a crack under the floor.” It is considered to be one of the first existentialist novels. With this book, Dostoevsky challenged the ideologies of his time, like nihilism and utopianism. The Underground Man shows how idealized rationality in utopias is inherently flawed, because it doesn’t account for the irrational side of humanity. This novel has had a big impact on many different works of literature and philosophy. It has influenced writers like Franz Kafka and Friedrich Nietzsche. A similar character is also found in Martin Scorsese’s *Taxi Driver*. Notes from Underground was published in 1864 as the first four issues of *Epoch*, a Russian magazine by Fyodor and Mikhail Dostoevsky. Presented here is Constance Garnett’s translation from 1918. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Targeting Zero Simon Sturgis.2019-06-27 Embodied and Whole Life Carbon will change the way buildings are designed, yet carbon emissions associated with the construction and life of buildings are not yet wholly understood by the profession. Energy is assumed to be the province of services engineers, yet energy from materials is as big an issue. Architects have the opportunity to take the lead in redefining how buildings are designed to achieve a low carbon future.

Joe College Tom Perrotta.2006-09-19 For many college students, Spring Break means fun and sun in Florida. For Danny, a Yale junior, it means two weeks behind the wheel of the Roach Coach, his father's lunch truck, which plies the parking lots of office parks in central New Jersey. But Danny can use the time behind the coffee urn to try and make sense of a love life that's gotten a little complicated. There's loyal and patient hometown honey Cindy and her recently dropped bombshell to contend with. And there's also lissome Polly back in New Haven--with her shifting moods, perfect thrift store dresses and inconvenient liaison with a dashing professor. If girl problems aren't enough, there's the constant menace of the Lunch Monsters, a group of thugs who think Danny has planted the Roach Coach in their territory. Joe College is Tom Perrotta's warmest and funniest fiction yet, a comic journey into the dark side of love, higher education and food service.

Irishness and Womanhood in Nineteenth-century British Writing Thomas J. Tracy.2009 Using Lady Morgan's *The Wild Irish Girl* as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps the genealogy of this development in fiction, political discourse, and the popular press, from Edgeworth's *Castle Rackrent* through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s.

Size and Strength Blueprint Josh Bryant,Noah Bryant.2015-01-10 Are you a hard worker? Are you tired of busting your butt and not having the size

and strength to show for it? You can't reach your goals in the gym without a plan! Now you will never have to hit the gym without a set workout again! What you have in your hands is the ultimate blueprint to a bigger, stronger you! Now all your hours sweating and toiling away on the weight pile won't be in vain. Even the most seasoned gym veterans and highly skilled trainers have difficulty consistently coming up with fresh and effective workouts. But for those willing to put in the time (the lazy and uncommitted need not apply), the Size and Strength Blueprint is here to take your strength and physique game to the next level. In this book we show you exactly what to do to put on pounds of quality lean muscle mass, and strength levels to match, in a matter of weeks! These are not theory-based workouts. They have been tested and proven on world-class athletes from IFBB Pros Johnnie Jackson and Branch Warren, World Record Holder Jeremy Hoornstra, professional athletes, and some of the strongest men in the world. Josh and Noah Bryant have been there and done that and are full-time trainers whose clients make up the A-List of the weightlifting world. You can now use the secrets and methods of two of the world's best trainers in your own program. Imagine, in just a couple of months, being more confident, feeling better physically and mentally, and reaching goals you previously thought unattainable, all without living in the gym and doing hours of cannibalizing cardio! The Blueprint is going to be the greatest training investment you have ever made and is an absolute necessity for any serious strength athlete or personal trainer. If you have the work ethic, we have the plan!

Janey the Vet Janey Lowes. 2020-03-19 'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.' - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we

meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.

Differential Equations Robert P. Gilbert, George C. Hsiao, Robert J. Ronkese. 2021 This book illustrates how MAPLE can be used to supplement a standard, elementary text in ordinary and partial differential equation. MAPLE is used with several purposes in mind. The authors are firm believers in the teaching of mathematics as an experimental science where the student does numerous calculations and then synthesizes these experiments into a general theory. Projects based on the concept of writing generic programs test a student's understanding of the theoretical material of the course. A student who can solve a general problem certainly can solve a specialized problem. The authors show MAPLE has a built-in program for doing these problems. While it is important for the student to learn MAPLE's built-in programs, using these alone removes the student from the conceptual nature of differential equations. The goal of the book is to teach the students enough about the computer algebra system MAPLE so that it can be used in an investigative way. The investigative materials which are present in the book are done in desk calculator mode DCM, that is the calculations are in the order command line followed by output line. Frequently, this approach eventually leads to a program or procedure in MAPLE designated by proc and completed by end proc. This book was developed through ten years of instruction in the differential equations course--

This Much Country Kristin Knight Pace. 2019-03-05 A memoir of heartbreak, thousand-mile races, the endless Alaskan wilderness and many, many dogs from one of only a handful of women to have completed both the Yukon Quest and the Iditarod. In 2009, after a crippling divorce that left her heartbroken and directionless, Kristin decided to accept an offer to live at a friend's cabin outside of Denali National Park in Alaska for a few months. In exchange for housing, she would take care of her friend's eight sled dogs. That winter, she learned that she was tougher than she ever knew. She learned how to survive in one of the most remote places on earth and she learned she was strong enough to be alone. She fell in love twice: first with running sled dogs, and then with Andy, a gentle man who had himself moved to Alaska to heal a broken heart. Kristin and Andy married and started a sled dog kennel. While this work was enormously satisfying, Kristin became determined to complete the Iditarod -- the 1,000-mile dogsled race from Anchorage, in south central Alaska, to Nome on the western Bering Sea coast. THIS MUCH COUNTRY is the story of renewal and transformation. It's about journeying across a wild and unpredictable landscape and finding inner peace, courage and a true home. It's about pushing boundaries and overcoming paralyzing fears.

Sport, Physical Activity and Public Health Louise Mansfield. 2019-03-22 This edited collection includes articles which examine the complex relationships between sport, physical activity and public health. It reflects a current expansion in academic, policy and practice interest in sport and physical activity for public health. Our contributors discuss issues connected to the politics and policy of sport, physical activity and public health by focusing on a range of theoretical themes including evidence and knowledge production, national policies and the political promotion of sport and physical activity for health, sports mega-events and public health, social diversity in community sport for health programming, education and training in physical education and fitness sectors, and critical perspectives on partnership working in sport and public health. Overall, the chapters reflect debate about the motivations of national and local government intervention in policy making on public health that includes the role of sport and / or physical activity, and explores the discussions about the impact that such policy decisions have on people and their communities. This book was originally published as a special issue of the International Journal of Sport Policy and Politics.

Fathoms Rebecca Giggs.2020-07-28 Winner of the 2020 Andrew Carnegie Medal for Excellence in Nonfiction * Finalist for the 2020 Kirkus Prize for Nonfiction * Finalist for the PEN/E.O. Wilson Literary Science Writing Award A “delving, haunted, and poetic debut” (The New York Times Book Review) about the awe-inspiring lives of whales, revealing what they can teach us about ourselves, our planet, and our relationship with other species. When writer Rebecca Giggs encountered a humpback whale stranded on her local beachfront in Australia, she began to wonder how the lives of whales reflect the condition of our oceans. *Fathoms: The World in the Whale* is “a work of bright and careful genius” (Robert Moor, New York Times bestselling author of *On Trails*), one that blends natural history, philosophy, and science to explore: How do whales experience ecological change? How has whale culture been both understood and changed by human technology? What can observing whales teach us about the complexity, splendor, and fragility of life on earth? In *Fathoms*, we learn about whales so rare they have never been named, whale songs that sweep across hemispheres in annual waves of popularity, and whales that have modified the chemical composition of our planet’s atmosphere. We travel to Japan to board the ships that hunt whales and delve into the deepest seas to discover how plastic pollution pervades our earth’s undersea environment. With the immediacy of Rachel Carson and the lush prose of Annie Dillard, Giggs gives us a “masterly” (The New Yorker) exploration of the natural world even as she addresses what it means to write about nature at a time of environmental crisis. With depth and clarity, she outlines the challenges we face as we attempt to understand the perspectives of other living beings, and our own place on an evolving planet. Evocative and inspiring, *Fathoms* “immediately earns its place in the pantheon of classics of the new golden age of environmental writing” (Literary Hub).

Human-Animal Relationships in Equestrian Sport and Leisure Katherine Dashper.2016-10-04 Riding, training and caring for horses are visceral experiences that require the immersion of both body and mind. This book provides an in-depth understanding of human-horse relationships and interactions as embodied in equestrian sport and leisure. As a closely focused ethnographic study of the horse world, it explores the key themes of partnership and collaboration in human-horse communication, the formation of individual and collective identities performed through involvement in the horse world, and human-horse interaction as an embodied way of being. This book argues that encounters between humans and horses can reveal the ways that human society has been and continues to be structured through intersection with nonhuman others. Equestrian sport and leisure provides an apt context for considering how such concepts of interspecies communication and collaboration are negotiated, managed, (mis)understood and performed, resulting in a uniquely embodied way of knowing and being in the world. *Human-Animal Relationships in Equestrian Sport and Leisure* is fascinating reading for anyone interested in equestrianism, human-animal studies, theories of embodiment, the sociology of sport, or sport and social theory.

To provide these unique information services, Doody Enterprises has forged successful relationships with more than 250 book publishers in the health sciences ... My favorite part about DigiLibraries.com is that you can click on any of the categories on the left side of the page to quickly see free Kindle books that only fall into that category. It really speeds up the work of narrowing down the books to find what I'm looking for. Freebook Sifter is a no-frills free kindle book website that lists hundreds of thousands of books that link to Amazon, Barnes & Noble, Kobo, and Project Gutenberg for download. LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains. Here is an updated version of the \$domain website which many of our East European book trade customers have been using for some time now, more or less regularly. We have just introduced certain upgrades and changes which should be interesting for you. Please remember that our website does not replace publisher websites, there would be no point in duplicating the information. Our

idea is to present you with tools that might be useful in your work with individual, institutional and corporate customers. Many of the features have been introduced at specific requests from some of you. Others are still at preparatory stage and will be implemented soon.
