No Bull Music Theory for Guitarists James Shipway.2019-03-25 Unlock essential guitar theory to boost your ability and confidence as a guitarist. Easy language. Music reading not required! (includes audio lessons -

see inside book for details) Inside the 12 chapters of this guitar theory book you'll learn about intervals, triads, major and minor keys, chord sequences - and understand how to apply them to your playing, improvising and songwriting. I'll use diagrams and simple, non-intimidating language to teach you in minutes, things which confuse some guitarists for years. This guitar music theory book is for you if: - You want to boost your music theory knowledge so you can become the guitar player you really want to be - You're a singer songwriter who needs to learn about chords, keys and chord progressions in order to write great songs (like you hear on recordings!) - You want to learn music theory but are unsure where to start - You're a student who needs a crash course in music theory essentials to prepare for college auditions, entrance exams etc - You're a beginner who wants to easily learn how music works as you take your first steps in learning to play guitar so you can avoid confusion, improve faster and learn more easily - You feel confused and intimidated by the 'jargon' you hear other musicians or YouTube teachers use - You 'kind of' understand theory... but you're not really sure how well! What will this book teach you about? In the 12 lessons you'll find super clear explanations, practical examples and quiz questions on: - The Musical Alphabet (the only 12 notes used in all music!) - Tones and Semitones - The Major Scale (learn what it actually is...) - Major and Minor Triads (as used in most pop, country, rock and folk music) - Major Scale Intervals (major 3rds, perfect 4ths...what are they?) - Chromatic Intervals (discover what weird names like diminished and augmented really mean) - Major Keys (Parts 1 & 2) - Chord Progressions (start writing pro sounding chord sequences and songs of your own) - Pentatonic Scales (the most common guitar scales ever...) - The Natural Minor Scale (essential for minor key soloing in rock, pop and other styles) - Minor Key Basics (learn the secrets of awesome minor key songs and chord sequences) How will you learn and remember all this? Easy! Each chapter introduces a new element of guitar theory. You get a clear but detailed explanation of the concept and multiple examples/practical exercises, FAQs and more to drive your understanding home. Test yourself using the quiz questions at the end of each chapter (answers supplied). To help you play certain practical examples there is also an appendix of common open chord shapes and barre chords at the back of the book. Plus, every chapter is also available to you as an audio file so you can immerse yourself in guitar theory whilst at the gym or walking the dog! You'll find details for these in the book. You Can Do This ... and without all the bull! 'No Bull Music Theory for Guitarists' will make your journey as a guitarist much more enjoyable and way less confusing than mine has been! As a self-taught 18 year old guitarist, it literally took me years to figure this stuff out. I've taught the material in this book to thousands of musicians around the world both in person and via my website, and I can tell you this: Learning about music theory doesn't need to be scary, confusing, difficult or something that you avoid doing because you don't know where to start. It's time to become the guitar player you know you could be!

Beyond Pentatonics Graham Tippett.2018-05-25 A lot of students ask me how they can take their improvisation skills to the next level and move beyond pentatonic scales and into modes and arpeggios. My response is to tell them not to abandon pentatonic scales in favor of modes and other soloing devices, but to use them as a springboard and a solid foundation from which to expand their harmonic awareness. If you play rock, blues and even jazz, you'll be using pentatonic scales for the rest of your life, so there's no need to discard them! In this book, we'll be using the much-loved minor pentatonic scale as the basis for learning and having a quick way to access the modes of the major scale, as well as the basic seventh chord arpeggios. This means that when you go to improvise, you'll have a vast array of options with which to go beyond pentatonic soloing. Work through this book daily and I guarantee you a smooth and painless transition from pentatonics to incorporating modes and arpeggios into your playing.

To provide these unique information services, Doody Enterprises has forged successful relationships with more than 250 book publishers in the health sciences ... International Digital Children's Library: Browse through a wide selection of high quality free books for children here. Check out Simple Search to get a big picture of how this library is organized: by age, reading level, length of book, genres, and more. eBookLobby is a free source of eBooks from different categories like, computer, arts, education and business. There are several sub-categories to choose from which allows you to download from the tons of books that they feature. You can also look at their Top10 eBooks collection that makes it easier for you to choose. In the free section of the Google eBookstore, you'll find a ton of free books from a variety of genres. Look here for bestsellers, favorite classics, and more. Books are available in several formats, and you can also check out ratings and reviews from other users. Amazon's star rating and its number of reviews are shown below each book, along with the cover image and description. You can browse the past day's free books as well but you must create an account before downloading anything. A free account also gives you access to email alerts in all the genres you choose. You can search for a specific title or browse by genre (books in the same genre are gathered together in bookshelves). It's a shame that fiction and non-fiction aren't separated, and you have to open a bookshelf before you can sort books by country, but those are fairly minor quibbles. The split between "free public domain ebooks" and "free original ebooks" is surprisingly even. A big chunk of the public domain titles are short stories and a lot of the original titles are fanfiction. Still, if you do a bit of digging around, you'll find some interesting stories. The Literature Network: This site is organized alphabetically by author. Click on any author's name, and you'll see a biography, related links and articles, quizzes, and forums. Most of the books here are free, but there are some downloads that require a small fee. Looking for a new way to enjoy your ebooks? Take a look at our guide to the best free ebook readers
