Secrets of a Pet Whisperer Terri Steuben.2021 In Secrets of a Pet Whisperer, you will learn an easy and effective way to communicate with your pets. Terri has been listening to animals all her life. What she's heard from them is that humans do a poor job of communicating. In her book, Terri shares the simple communication technique she developed for her clients around the world and has taught to owners of dogs, cats, horses, birds, hamsters, snakes, pigs and other animals. You will learn how to use Terri's Talking Pictures so you can start sending clear messages that your pets will understand. She shares the basics of human-animal communication and the over-used phrases and commands you should always avoid. She describes the exact combination of words and thoughts that will enable you to correct bad behaviors like barking, jumping, chewing, kicking and scratching. In addition, Terri gives advice on what to say in both everyday situations, such as leaving for work or going for a walk, and in special circumstances, like moving or taking your pets on vacation. She provides specific instructions on how to prepare for an emergency and help your pets survive a disaster. She also describes communication concerns for various stages of an animal's life. In this second edition, Terri has added even more advice, including information on food, medications, holidays, bathing and car rides as well as fun and funny pet stories. Terri's insights will give you and appreciation of how animals think and react to what you say...and to what you don't say. You will discover how effective the right words and thoughts can be. Put Terri's powerful communication approach to the test. You will see their behavior in a new light, help them be good instead of bad, and deepen the bonds you have with your pets.

**You Can't Text Your Pet** Steven Doornbos.2015-10-19 Every day all over the world families leave their homes to go to their jobs, school or other activities that require them to leave their pets at home alone. And although we don't like having to do that it is something over which we have little if any control. Pets stay home alone for extended periods of time and without supervision. That can be the beginning of a disaster and one that unfortunately happens all too often. The family returns home and finds that something has been broken, chewed on, eaten or destroyed. Nobody is happy about the situation but in truth the pet doesn't have a clue why you're upset and is just happy to have you home. So what can be done about this dilemma that is played out each day? There are answers to this and we're going to explore some of them within the next few pages. Basically I can tell you that it isn't the pet's fault that things get destroyed while you're away. Okay, yes they are the perpetrator of the act but in reality they are animals and have a certain amount of anxiety while you're away. Even small children tend to act out when the parent isn't visible in the home and it is no different with your pet. What's worse is that there is no way for you, the pet owner, to communicate what is going on or why you leave the house each day. Indeed it would be nice if we could simply send a short text to our pets during the day and assure them that all is well and that we have not abandoned them. Perhaps we would even text them saying that we will return and maybe even bring with us a treat especially for them. But alas that is not possible so we are faced with either confining the pet to a particular area of the home or garage or simply pet proofing the home with the hope that everything will be as we left it when we return.
