Investor Protection and Corporate Governance Alberto Chong,Florencio Lopez de Silanes.2007-06-26 'Investor Protection and Corporate Governance' analyzes the impact of corporate governance on firm performance and valuation. Using unique datasets gathered at the firm-level the first such data in the region and results from a homogeneous corporate governance questionnaire, the book examines corporate governance characteristics, ownership structures, dividend policies, and performance measures. The book's analysis reveals the very high levels of ownership and voting rights concentrations and monolithic governance structures in the largest samples of Latin American companies up to now, and new data emphasize the importance of specific characteristics of the investor protection regimes in several Latin American countries. By and large, those firms with better governance measures across several dimensions are granted higher valuations and thus lower cost of capital. This title will be useful to researchers, policy makers, government officials, and other professionals involved in corporate governance, economic policy, and business finance, law, and management.

Encyclopedia of Arab Women Filmmakers Rebecca Hillauer.2005 Arab women filmmakers: Who are they? What drives them? What are their experiences in a male-dominated profession? How do they function within the contexts - and constraints - of patriarchal societies? The answers are complex and sometimes surprising, as complex and surprising as the vastly different films these women direct. In this unprecedented book, Rebecca Hillauer assembles a comprehensive and penetrating look into the history of Arab women's filmmaking, as well as the political and social background of the countries - Egypt, Iraq, Lebanon, Syria, Algeria, among others - from which these artists emerged. In addition to the biographies, filmographies, and discussions of their most important works, lively, in-depth interviews allow us to hear from the filmmakers themselves. Collectively, these women, who hail from a wide range of professional, religious, and social backgrounds, provide a varied and vivid picture of what it means to work in creative and journalistic fields in the modern Arab world. For Hillauer, the subject of a film, its genesis, and the personal story of the artist who created it reveal far more than a particular approach to cinematography. Arab women filmmakers and their main characters (who are often semi-autobiographical) not only afford us a look at seldom-seen facets of Arab societies, they personify an alternative women's 'model,' one that is far removed from western clichés. Broad in scope, and rich in insight, Arab Women Filmmakers is a must read for cineastes as well as students of film, feminism, and the Middle East.
