Really the Blues Mezz Mezzrow, Bernard Wolfe. 2016-02-23 Hailed as an “American counter-culture classic,” this “funny” and candid musical memoir offers a delicious glimpse into the 1930s jazz scene (The Wall Street Journal) Mezz Mezzrow was a boy from Chicago who learned to play the sax in reform school and pursued a life in music and a life of crime. He moved from Chicago to New Orleans to New York, working in brothels and bars, bootlegging, dealing drugs, getting hooked, doing time, producing records, and playing with the greats, among them Louis Armstrong, Bix Beiderbecke, and Fats Waller. *Really the Blues*—the jive-talking memoir that Mezzrow wrote at the insistence of, and with the help of, the novelist Bernard Wolfe—is the story of an unusual and unusually American life, and a portrait of a man who moved freely across racial boundaries when few could or did, “the odyssey of an individualist . . . the saga of a guy who wanted to make friends in a jungle where everyone was too busy making money.”

Sori's Harvest Moon Day Uk-Bae Lee, Ök-pae Yi. 1999 As she travels from the city to her grandmother's village, a young girl looks forward to her family's celebration of Chu-Suk, the harvest moon festival.

Plant Invasions in Protected Areas Llewellyn C. Foxcroft, Petr Pyšek, David M. Richardson, Piero Genovesi. 2013-11-27 This book is the first comprehensive global review of all aspects of alien plant invasions in protected areas. It provides insights into advances in invasion ecology emanating from work in protected areas, and the link to locally relevant management support for protected areas. The book provides in-depth case studies, illuminating interesting and insightful knowledge that can be shared across the global protected area network. The book includes the collective understanding of 80 ecologists and managers to extract as much information as possible that will support the long-term management of protected areas, and the biodiversity and associated ecosystem services they maintain. “This outstanding volume draws together pretty much all that can be said on this topic, ranging from the science, through policy, to practical action”. Dr. Simon N. Stuart, IUCN Species Survival Commission, UK. This important and timely volume addresses two of the most serious problems affecting biodiversity conservation today: assessing the extent to which protected areas are impacted by biological invasions and the complex problems of managing these impacts. Written by leading specialists, it provides a comprehensive overview of the issues and gives detailed examples drawn from protected areas across the world. Professor Vernon H. Heywood, School of Biological Sciences, University of Reading, UK

Ocean of Letters Pier M. Larson. 2009-05-14 *Ocean of Letters* is a remarkable history of imperialism, language, and creolization in the largest African diaspora of the Indian Ocean in the early modern period. Ranging from Madagascar to the Mascarenes, the Comores, and South Africa, Pier M. Larson sheds new light on the roles of slavery, emancipation, oceanic travel, Christian missions, and colonial linguistics in the making of Malagasy-language literacy in the islands of the western Indian Ocean. He shows how enslaved and free Malagasy together with certain European colonists and missionaries promoted the Malagasy language, literacy projects and letter writing in the multilingual colonial societies of the region between the seventeenth and mid-nineteenth centuries. Addressing current debates in the history of Africa and the African diaspora, slavery, abolition, creolization and the making of modern African literatures, the book crosses thematic as well as geo-imperial boundaries and brings fresh perspectives to Indian Ocean history.

Dictionary of Jamaican English Frederic G. Cassidy, Robert Brock Le Page. 2002 The method and plan of this dictionary of Jamaican English are basically the same as those of the Oxford English Dictionary, but oral sources have been extensively tapped in addition to detailed coverage of literature published in or about Jamaica since 1655. It contains information about the Caribbean and its dialects, and about Creole languages and general linguistic processes. Entries give the

pronunciation, part-of-speech and usage of labels, spelling variants, etymologies and dated citations, as well as definitions. Systematic indexing indicates the extent to which the lexis is shared with other Caribbean countries.

The Spanish Second Republic Revisited Manuel Álvarez Tardío, Fernando del Rey Reguillo.2013 The Spanish Civil War is one of the most studied events in modern European history. Its origins, that is to say the politics of the Second Republic (1931-1936), have been much debated. The republican period has been much idealised and in particular the myth of Spanish democracy beset by fascism, of which Franco was its leading figure, has been much cultivated. But was this really the case? Recently historians of the Republic have proposed a new and non-ideological perspective on the 1930s. Spain's path was at once different yet in many ways similar to that of Europe during the inter-war period. *The Spanish Second Republic Revisited* brings together leading and innovative specialists to analyse the main obstacles to the consolidation of democracy in Spain and to debate

the principal stereotypes of the traditional historiography of both left and right. The issues addressed include: the breakdown of democracy; whether the CEDA was an opportunity or a threat; the centrist appeal under the Republic; how the elections were viewed and conducted; the transformation of fascism; new revelations about the Communist party; the politics of exclusion at the local level; the perceived necessity for repression; new perspectives on the Civil Guard; the role of intellectuals in the Republic; and revisionism and sectarian history. The Spanish Second Republic Revisited offers a new and dynamic vision of why Spanish democracy failed to consolidate itself and why it finally fell into the terror of civil war. The book is essential reading for all those interested in modern European history.

Malaysia's Demographic Transition Richard Leete.1996 Richard Leete presents a detailed and original analysis of the dimensions of the fertility transition that has occurred among the three major ethnic communities in Peninsular Malaysia since 1957 and among the ethnic communities in Sabah and Sarawak since 1960.

The Malays Anthony Milner.2011-03-25 Just who are 'the Malays'? This provocative study poses the question and considers how and why the answers have changed over time, and from one region to another. Anthony Milner develops a sustained argument about ethnicity and identity in an historical, 'Malay' context. The Malays is a comprehensive examination of the origins and development of Malay identity, ethnicity, and consciousness over the past five centuries. Covers the political, economic, and cultural development of the Malays Explores the Malay presence in Brunei, Singapore, Indonesia, Thailand, Cambodia, Sri Lanka, and South Africa, as well as the modern Malay show-state of Malaysia Offers diplomatic speculation about ways Malay ethnicity will develop and be challenged in the future

Mosses, Liverworts, and Hornworts IUCN/SSC Bryophyte Specialist Group.2000-01-01 Bryophytes are of great importance in their ecosystems and for human well-being. They stabilize soil crust through colonization of bare grounds and rocks; they are essential in nutrient recycling, biomass production, and carbon fixing; they control water through an effective retention mechanism; and they have economic value as peat for fuel, horticulture, oil absorption, and as sources of a wide variety of chemical compounds. Bryophytes have long been used for medicinal purposes and provide a food source for reindeer, geese, ducks, sheep, musk-ox, lemmings, and other rodents. Threats include deforestation, cultivation of forests, reclamation of land, urbanization, roads, dam-building, mining, drainage of wetlands and over-grazing. This plan reviews the situation worldwide and proposes a variety of initiatives. It is aimed at those who work with and care about nature conservation, including governmental and non-governmental organizations as well as politicians and the general interested public.

Russians Versus Fischer Dmitry Plisetsky,Sergey Voronkov.2005 This magnificent volume contains the extraordinary story of the prolonged battle between Bobby Fischer, the lone American genius who is perhaps the most famous chess player of all time, and the long-standing and all-dominating Soviet chess machine. For the first time readers will be able to view virtually all the secret documents on the Fischer problem, many of which have never previously been published. These include papers from the archives of the KGB, the Communist Party Central Committee, the USSR Sports Committee, and the Chess Federation. Together with this, there are reports and analysis of Fischer's personality and play, written at the demand of the Soviet authorities by the country's leading Grandmasters, legends such as Mikhail Tal, Tigran Petrosian, Vassily Smyslov, Paul Keres, Victor Korchnoi, and Efim Geller. Also contained in *Russians Versus Fischer* are annotations and the stories on all of the 158 chess encounters between Fischer and his Soviet adversaries, and a large number of rare photographs and drawings. This book is a significantly enlarged and updated version of the one first published in Russia in 1994.

Compassionate Conservatism Marvin Olasky.2000-07-05 Compassionate conservatism is a new political force in the land, sweeping the grassroots of people of all faiths, races, and ethnicities. In its parts it offers solutions to many of our most intractable problems; in its whole it is nothing less than an innovative philosophy of government. No author is more qualified to explain its power and

promise than Marvin Olasky, described by The New York Times as the godfather of compassionate conservatism. Compassionate conservatism offers a new paradigm for how the government can and should intervene in the economy. It begins with a long-lost premise about human behavior: economics, by itself, is not what changes lives. Only faith, and deeply held beliefs, can do that. For decades government has focused only on material well-being, ignoring the passions and convictions that make life worth living. What is conservative about the new movement is that its leaders also know that government cannot instill these beliefs. What it can do is help them flourish. It can give aid, inspiration, and direction to America's natural armies of compassion that have been a hallmark of our history since the founding. Compassionate conservatism offers a way to transcend the root problems that currently oppress too many deserving Americans. It offers a unique vision of the triangular relationship between the state, our many churches, and our tens of thousands of charities. It is a true reinvention of welfare, a wholesale revolution in the welfare state, and a redefinition of the social safety net. In *Compassionate Conservatism* Marvin Olasky takes us on a road trip with his son, Daniel, across the country, showing exactly how the new movement is unfolding. Along the way, he offers a set of principles, and a brief tour through history to show that these are not so much radically new ideas as rediscoveries of long-lost wisdom. Read this book for a blueprint of the future of politics and welfare in America.

The Conjuror's Guide to St. Expedite Denise Alvarado.2013-12-25 He could quite possibly be the most effective unofficial saint of urban legend ever to have been discovered. For a variety of reasons, the Roman Catholic Church will not officially recognize St. Expedite; but, at the same time, they won't discount him either. That's because he's just too damned popular. And, according to his devotees, he's just that damned good. But that's okay, New Orleans Voudou has no problem embracing St. Expedite as one of her patron saints. And hoodoos, rootworkers, conjure doctors, spiritualists and sorcerers appreciate his worth, as well. No officialities are needed in these camps. Because when a saint works as well-and more importantly, as quickly-as St. Expedite works, he is more than welcome in the wide world of conjure. Indeed, St. Expedite is the go-to saint for fast solutions to problems of all kinds. His quick response makes him extremely popular among those who strive to put an end to procrastination and delays and to those who seek financial success. He is

petitioned for prompt solutions to business problems and has recently been coined the Patron Saint of Nerds due to his association with computer programmers and hackers. St. Expedite is also known as one of the lawyers of impossible causes, and as such, is petitioned for court cases and legal issues, as well. Written for the individual interested in the mystical and folk magic aspects of the Minute Saint - St. Expedite - this book delves into areas of his history and patronage never before found in one publication. This book contains more than the usual description, wordplay, prayers and suggested offerings of pound cake and public gratitude. A detailed description of where he is found around the world and how he fits into the various religiomagical landscapes, including contemporary cults of devotion and decapitation, Haitian Vodou expeditions and death conjure, individual and community relationships, and public and secret celebrations and workings are described. His origin stories, legend as a member of the Thundering Legion, and other presuppositions are explored. And, the campaign to denounce and erase any legitimacy associated with St. Expedite by the Catholic Church is presented as a curious quandary, given the multitudes of peoples across the globe who revere him and love him and swear by his legendary ability to fix problems with lightning speed. An examination of references to St. Expedite or St. Espidee as he is referred to, in the Hyatt texts is also provided in this book. Many of the works are provided in contemporary language so it is easy to understand for the reader, while others are kept in their original transcriptions for historical value. Learn how informants petitioned him for court scrapes, banishing, road opening, getting a job and many other purposes. In addition, St. Expedite is discussed within the context of New Orleans Voodoo as Baron Samedi, including his relationship to the Skull and Bones Gang and Mardi Gras, not as public celebration, but as the underlying Spirit who kicks off and drives the festival of decadence and debauchery. This book provides details for working with St. Expedite within the context of folk Catholicism, hoodoo and New Orleans Voodoo. From setting up an altar, to an obscure nine hour novena similar to the one developed by students in the Ursuline convent in the late 1700s, to many additional, original conjures never before revealed to the public will keep the modern conjurer busy for years to come as the problems of daily life inevitably present themselves again and again. For the first time ever, find all of the information available on St. Expedite, and then some, at your fingertips in this excellent reference book.

Warm Waters Vlad Sokhin.2021-09-07 Documenting the devastating effects of global warming and climate change, Warm Waters is a multi-year photographic documentary across the Pacific and Arctic Oceans, from Northern Alaska to the remote outposts of New Zealand. The journey started in 2013 in Papua New Guinea, where photographer Vlad Sokhin documented illegal logging and deforestation. In 2014, Sokhin covered the rise of sea levels, coastal erosion and the effects of El Niño in Papua New Guinea, Kiribati, Nauru, the Marshall Islands and Niue. In 2015, 2016 and 2018, he extensively covered the aftermath of tropical cyclones across Pacific island nations and delved deeper into documenting struggles of the affected communities, their resilience and adaptation to the realities of global warming. In 2019, he documented severe drought in Timor-Leste, caused by the weather anomalies. Warm Waters also looks at other environmental issues our planet is facing, such as climate migrants and their resettlement, permafrost melting, coral bleaching, and the need for renewable energy. The book shows the evidence of fight, adaptation, and hope of remote island and coastal communities. It takes you right into the lives of Inupiat and Yupik people in Alaska, and to the towns and villages that are being destroyed by the sea and coastal erosion on the Russian Kamchatka Peninsula. You will see how scientists work in the field, studying the effects of climate change, and how the people, affected by extreme weather conditions, are trying to survive and rebuild their lives after catastrophic events have ruined their land and homes. Warm Waters not only shows tragedy however; it shows the beauty of our planet, communities living in harmony with nature, and people that are tirelessly working to protect their fragile shores from the biggest environmental threat ever they have ever faced.

The Art of Mbira Paul F. Berliner.2019-12-24 Growing out of the collaborative research of an American ethnomusicologist and Zimbabwean musician, Paul F. Berliner's *The Art of Mbira* documents the repertory for a keyboard instrument known generally as mbira. At the heart of this work lies the analysis of the improvisatory processes that propel mbira music's magnificent creativity. In this book, Berliner provides insight into the communities of study, performance, and worship that surround mbira. He chronicles how master player Cosmas Magaya and his associates have developed their repertory and practices over more than four decades, shaped by musical interaction, social and political dynamics in Zimbabwe, and the global economy of the music industry. At once a detailed exposition of the music's forms and practices, it is also an indispensable historical and cultural guide to mbira in a changing world. Together with Berliner and Magaya's compendium of mbira compositions, *Mbira's Restless Dance*, *The Art of Mbira* breaks new ground in the depth and specificity of its exploration of an African musical tradition, and in the entwining of the authors' collaborative voices. It is a testament to the powerful relationship between music and social life—and the rewards of lifelong musical study, performance, and friendship.

The Lady in the Looking Glass Virginia Woolf.2011-02-15 'People should not leave looking-glasses hanging in their rooms any more than they should leave open cheque books or letters confessing some hideous crime.' 'If she concealed so much and knew so much one must prize her open with the first tool that came to hand - the imagination.' Virginia Woolf's writing tested the boundaries of modern fiction, exploring the depths of human consciousness and creating a new language of sensation and thought. Sometimes impressionistic, sometimes experimental, sometimes brutally cruel, sometimes surprisingly warm and funny, these five stories describe love lost, friendships formed and lives questioned. This book includes *The Lady in the Looking Glass*, *A Society*, *The Mark on the Wall*, *Solid Objects* and *Lappin and Lapinova*.

The Politics of Survival Marc Abélès.2009-12-11 In this provocative analysis of global politics, the anthropologist Marc Abélès argues that the meaning and aims of political action have radically

changed in the era of globalization. As dangers such as terrorism and global warming have moved to the fore of global consciousness, foreboding has replaced the belief that tomorrow will be better than today. Survival, outlasting the uncertainties and threats of a precarious future, has supplanted harmonious coexistence as the primary goal of politics. Abélès contends that this political reorientation has changed our priorities and modes of political action, and generated new debates and initiatives. The proliferation of supranational and transnational organizations—from the European Union to the World Trade Organization (WTO) to Oxfam—is the visible effect of this radical transformation in our relationship to the political realm. Areas of governance as diverse as the economy, the environment, and human rights have been partially taken over by such agencies. Non-governmental organizations in particular have become linked with the mindset of risk and uncertainty; they both reflect and help produce the politics of survival. Abélès examines the new global politics, which assumes many forms and is enacted by diverse figures with varied sympathies: the officials at meetings of the WTO and the demonstrators outside them, celebrity activists, and online contributors to international charities. He makes an impassioned case that our accounts of globalization need to reckon with the preoccupations and affiliations now driving global politics. *The Politics of Survival* was first published in France in 2006. This English-language edition has been revised and includes a new preface.

Creoles in Education Bettina Migge, Isabelle Léglise, Angela Bartens. 2010 This volume offers a first survey of projects from around the world that seek to implement Creole languages in education. In contrast to previous works, this volume takes a holistic approach. Chapters discuss the sociolinguistic, educational and ideological context of projects, policy developments and project implementation, development and evaluation. It compares different kinds of educational activities focusing on Creoles and discusses a list of procedures that are necessary for successfully developing, evaluating and reforming educational activities that aim to integrate Creole languages in a viable and sustainable manner into formal education. The chapters are written by practitioners and academics involved in educational projects. They serve as a resource for practitioners, academics and persons wishing to devise or adapt educational initiatives. It is suitable for use in upper level undergraduate and post-graduate modules dealing with language and education with a focus on lesser used languages.

Essais Sur L'histoire de France François Guizot. 1841

Perspectives on French Colonial Madagascar Eric T. Jennings. 2018-08-11 This book is a vivid history of Madagascar from the pre-colonial era to decolonization, examining a set of French colonial projects and perceptions that revolve around issues of power, vulnerability, health, conflict, control and identity. It focuses on three lines of inquiry: the relationship between domination and health fears, the island's role during the two world wars, and the mystery of Malagasy origins. The Madagascar that emerges is plural and fractured. It is the site of colonial dystopias, grand schemes gone awry, and diverse indigenous reactions. Bringing together deep archival research and recent scholarship, Jennings sheds light on the colonial project in Madagascar, and more broadly, on the ideas which underpin colonialism.
