Derrida and Joyce Andrew J. Mitchell, Sam Slote. 2013-05-01 All of Derrida's texts on Joyce together under one cover in fresh, new translations, along with key essays covering the range of Derrida's engagement with Joyce's works. Bringing together all of Jacques Derrida's writings on James Joyce, this volume includes the first complete translation of his book *Ulysses Gramophone: Two Words for Joyce* as well as the first translation of the essay "The Night Watch." In *Ulysses Gramophone*, Derrida provides some of his most thorough reflections on affirmation and the "yes," the signature, and the role of technological mediation in all of these areas. In "The Night Watch," Derrida pursues his ruminations on writing in an explicitly feminist direction, offering profound observations on the connection between writing and matricide. Accompanying these texts are nine essays by leading scholars from across the humanities addressing Derrida's treatments of Joyce throughout his work, and two remembrances of lectures devoted to Joyce that Derrida gave in 1982 and 1984. The volume concludes with photographs of Derrida from these two events.

Corpus Studies in Contrastive Linguistics Stefania Marzo, Kris Heylen, Gert De Sutter. 2012-09-05 Contrastive Linguistics, like other linguistic disciplines, is becoming more and more data-oriented, relying increasingly on the statistical analysis of corpus data to reveal and investigate the similarities and dissimilarities between languages. The volume *Corpus Studies in Contrastive Linguistics* illustrates this current trend with a representative sample of contrastive linguistic case studies. These cover a range of linguistic phenomena (syntax, modality and discourse) and pursue different types of research questions (grammaticalization, pragmatic function, stylistic function, typological profile). Accordingly, they use different types of corpora: contemporary and historical texts, written and spoken discourse, and various text types, such as academic discourse and political discourse. Five different languages are represented (English, French, Dutch, Spanish and Lithuanian) with English as a language of comparison in each contribution. The studies all show that quantitative analyses are not at odds with insightful qualitative interpretations or functional approaches to language, but rather complement each other. This volume was originally published as a special issue of *International Journal of Corpus Linguistics* 15:2 (2010).

The Vocal Library .1800

Acts of Literature Jacques Derrida. 2017-09-25 First published in 1992. Acts of Literature, compiled in close association with Derrida, brings together for the first time a number of Derrida's writings on literary texts on the question of literature. The essays discuss literary figures such as Rousseau, Mallarmé, Joyce, Shakespeare and Kafka. Comprising pieces spanning Derrida's career, the collection includes a substantial new interview with him on questions of literature, deconstruction, politics, feminism and history. Derek Attridge provides an introductory essay on deconstruction and the question of literature, and offers suggestions for further reading. These essays examine the place and function of literature in Western culture. They highlight Derrida's interest in literature as a significant cultural institution and as a peculiarly challenging form of writing, with inescapable consequences for our thinking about philosophy, politics and ethics. This book should be of interest to undergraduates and academics in the field of literary theory and criticism and continental philosophy.
