History of Architectural Conservation Jukka Jokilehto.2007-06-07 A History of Architectural Conservation expands knowledge about the conservation of ancient monuments, works of art and historic buildings. It includes the origins of the interest in conservation within the European context, and the development of the concepts from Antiquity and the Renaissance to the present day. Jokilehto illustrates how this development has influenced international collaboration in the protection and conservation of cultural heritage, and how it has formed the principal concepts and approach to conservation and restoration in today's multi-cultural society. This book is based on archival research of original documents and the study of key restoration examples in countries that have influenced the international conservation movement. Accessible and of great interest to students and the general public it includes conservation trends in Europe, the USA, India, Iran and Japan.

Threads and Traces Carlo Ginzburg.2012-09-02 This book is a translation of historian Carlo Ginzburg's latest collection of essays. Through the detective work of uncovering a wide variety of stories or microhistories from fragments, Ginzburg takes on the bigger questions: How do we draw the line between truth and fiction? What is the relationship between history and memory? Stories range from medieval Europe, the inquisitional trial of a witch, seventeenth-century antiquarianism, and twentieth-century historians--Provided by publisher.

Mathematical Lives CLAUDIO BARTOCCI,Renato Betti,Angelo Guerraggio,Roberto Lucchetti.2010-10-01 Steps forward in mathematics often reverberate in other scientific disciplines, and give rise to innovative conceptual developments or find surprising technological applications. This volume brings to the forefront some of the proponents of the mathematics of the twentieth century, who have put at our disposal new and powerful instruments for investigating the reality around us. The portraits present people who have impressive charisma and wide-ranging cultural interests, who are passionate about defending the importance of their own research, are sensitive to beauty, and attentive to the social and political problems of their times. What we have sought to document is mathematics' central position in the culture of our day. Space has been made not only for the great mathematicians but also for literary texts, including contributions by two apparent interlopers, Robert Musil and Raymond Queneau, for whom mathematical concepts represented a valuable tool for resolving the struggle between 'soul and precision.'

The Baron in the Trees Italo Calvino.2017 Cosimo di Rondó, a young Italian nobleman of the eighteenth century, rebels against his parents by climbing into the trees and remaining there for the rest of his life. He adapts efficiently to an existence in the forest canopy he hunts, sows crops, plays games with earth-bound friends, fights forest fires, solves engineering problems, and even manages to have love affairs. From his perch in the trees, Cosimo sees the Age of Enlightenment pass by and a new century dawn. Long considered one of Calvino's finest works, The baron in the trees exemplifies this brilliant writer's gift for fantasy.--Page [4] of cover.

Fruits of Migration Cornel Zwierlein,Vincenzo Lavenia.2018 Italians adhering to Protestantism or other forms of heterodoxy mostly had to leave their country after ca. 1550 due to Rome's pressure. The connectivities with Central Europe (not only Germany) as destination of that movement have been often neglected.

Lettere a Oreste Macrí Dario Collini.2018-11-30 Con questo libro curato da Dario Collini, che raccoglie il lavoro di giovani ricercatori guidati da Anna Dolfi («GREM» «NGEM») che si sono occupati dei 17.000 pezzi epistolari del Fondo Macrí, si offre uno straordinario strumento di lavoro a chi si interessa di Ermetismo, di critica e poesia del Novecento italiano. Ombre dal fondo o 'luci intermittenti' che siano, i bagliori mandati dagli epistolari sono segni della genesi umana della cultura, visto che conservano traccia di quanto è legato al quotidiano che contribuisce alla costruzione della 'grande' storia e della progettualità; intellettuale e politica che l'accompagna. Ecco allora che letture, libri, riviste, collaborazioni, amicizie, risentimenti, viaggi, passioni letterarie e private emergono da questi registri, a dare voce a un'epoca e ai suoi protagonisti.
