ICDL Exam Cram 2 Michael Gunderloy, Mike Gunderloy, Susan Sales Harkins. 2004 The ICDL Exam Cram 2 covers exactly what readers need to know to earn their International Computer Driving License credential, which is used in more than 90 countries worldwide. Though the exam is new to the U.S., the ICDL program is the global standard for measuring fundamental computer competency for those who use a computer regularly as part of their work, school and/or home lives. The program is taught at several major training providers, universities, as well as the governments of the United States, Japan, Germany, and the United Kingdom. The certification is supported by such companies as IBM, CompTIA, and the Virginia Board of Education. This book is the perfect solution for readers of all skill levels. For those who are more familiar with the exam material, the Exam Cram is the ideal refresher that ensures you have covered the essentials. For those in need of more in-depth study materials, the ICDL Exam Cram 2 is the ultimate complement guide for larger training guides, instructor-led classes, and/or CBT training.

ICDL Review Questions. Exam Cram 2 Susan Harkins. 2004 The ICDL program has become the global standard for measuring fundamental computer competency for those who use a computer regularly as part of their work, school and/or home lives. The ICDL exam measures readers' knowledge of basic concepts of Information Technology (IT) and verifies you have a fundamental understanding of how to use a personal computer and computer software applications. The exam covers seven topic areas: Fundamental Concepts of Information Technology (IT), Using the Computer and Managing Files, Word Processing, Spreadsheets, Databases, Presentations, and Information and Communication. Key ICDL partners include IBM and CompTIA, and the program is taught at several major training providers (NETg, Element K, ExecuTrain, New Horizons, KLM, etc), universities (Cambridge University, Oxford University), as well as the governments of the United States, Japan, Germany, and the United Kingdom). The ICDL Practice Questions Exam Cram 2 provides students with more than 500 questions to test their knowledge of the concepts covered in the International Computer Driving License exam.; It's the perfect complement to any training materials for students studying for the ICDL, which is recognized in more than 90 countries worldwide.

Advanced Linux Programming CodeSourcery LLC, Mark L. Mitchell, Alex Samuel, Jeffrey Oldham. 2001-06-11 This is the eBook version of the printed book. If the print book includes a CD-ROM, this content is not included within the eBook version. Advanced Linux Programming is divided into two parts. The first covers generic UNIX system services, but with a particular eye towards Linux specific information. This portion of the book will be of use even to advanced programmers who have worked with other Linux systems since it will cover Linux specific details and differences. For programmers without UNIX experience, it will be even more valuable. The second section covers material that is entirely Linux specific. These are truly advanced topics, and are the techniques that the gurus use to build great applications. While this book will focus mostly on the Application Programming Interface (API) provided by the Linux kernel and the C library, a preliminary introduction to the development tools available will allow all who purchase the book to make immediate use of Linux.

Interleaving Planning and Execution for Autonomous Robots Illah Reza Nourbakhsh. 2012-12-06 Interleaving Planning and Execution for Autonomous Robots develops a formal representation for interleaving planning and execution in the context of incomplete information. This work bridges the gap between theory and practice in robotics by presenting control architectures that are provably sound, complete and optimal, and then describing real-world implementations of these robot architectures. Dervish, winner of the 1994 AAI National Robot Contest, is one of the robots featured. Interleaving Planning and Execution for Autonomous Robots is based on the author's PhD research, covering the same material taught in CS 224, the very popular Introduction to Robot Programming Laboratory taught at Stanford for four years by Professor Michael

Genesereth and the author.

Reinforcement Learning Marco Wiering, Martijn van Otterlo. 2012-03-05 Reinforcement learning encompasses both a science of adaptive behavior of rational beings in uncertain environments and a computational methodology for finding optimal behaviors for challenging problems in control, optimization and adaptive behavior of intelligent agents. As a field, reinforcement learning has progressed tremendously in the past decade. The main goal of this book is to present an up-to-date series of survey articles on the main contemporary sub-fields of reinforcement learning. This includes surveys on partially observable environments, hierarchical task decompositions, relational knowledge representation and predictive state representations. Furthermore, topics such as transfer, evolutionary methods and continuous spaces in reinforcement learning are surveyed. In addition, several chapters review reinforcement learning methods in robotics, in games, and in computational neuroscience. In total seventeen different subfields are presented by mostly young experts in those areas, and together they truly represent a state-of-the-art of current reinforcement learning research. Marco Wiering works at the artificial intelligence department of the University of Groningen in the Netherlands. He has published extensively on various reinforcement learning topics. Martijn van Otterlo works in the cognitive artificial intelligence group at the Radboud University Nijmegen in The Netherlands. He has mainly focused on expressive knowledge representation in reinforcement learning settings.

Networking for Home and Small Businesses, CCNA Discovery Learning Guide Allan Reid, Jim Lorenz. 2007-11-30 Networking for Home and Small Businesses CCNA Discovery Learning Guide Allan Reid • Jim Lorenz Networking for Home and Small Businesses, CCNA Discovery Learning Guide is the official supplemental textbook for the Networking for Home and Small Businesses course in the Cisco® Networking Academy® CCNA® Discovery curriculum version 4. The course, the first of four in the new curriculum, teaches networking concepts by applying them to a type of network you may encounter in a home or small office. The Learning Guide, written and edited by instructors, is designed as a portable desk reference to use anytime, anywhere to reinforce the material from the course and organize your time. In addition, the book includes expanded coverage of CCENTTM/CCNA exam topics. The book's features help you focus on important concepts to succeed in this course: Chapter Objectives–Review core concepts by answering the focus questions listed at the beginning of each chapter. Key Terms–Refer to the lists of networking vocabulary introduced and highlighted in context in each chapter. The Glossary defines each key term. Summary of Activities and Labs–Maximize your study time with this complete list of all associated exercises at the end of each chapter. Check Your Understanding–Evaluate your readiness with the end-of-chapter questions that match the style of questions you see in the online course quizzes. The answer key explains each answer. Challenge Questions and Activities–Apply a deeper understanding of the concepts with these challenging end-of-chapter questions and activities. The answer key explains each answer. Hands-on Labs–Master the practical, hands-on skills of the course by performing all the tasks in the course labs and additional challenge labs included in Part II of the Learning Guide. Allan Reid is the curriculum lead for CCNA and a CCNA and CCNP® instructor at the Centennial College CATC in Toronto, Canada. Jim Lorenz is an instructor and curriculum developer for the Cisco Networking Academy. How To–Look for this icon to study the steps you need to learn to perform certain tasks. Interactive Activities–Reinforce your understanding of topics with more than 50 different exercises from the online course identified throughout the book with this icon. The files for these activities are on the accompanying CD-ROM. Packet Tracer Activities– Explore and visualize networking concepts using Packet Tracer exercises interspersed throughout some chapters. The files for these activities are on the accompanying CD-ROM. Packet Tracer v4.1 software developed by Cisco is available separately. Hands-on Labs–Work through all 26 course labs and 3 additional challenge labs included in Part II of the book. The labs are an integral part of the CCNA Discovery curriculum, so you can review the core text and the lab material to prepare for all your exams. Companion CD-ROM **See instructions within the ebook on how to get access to the files from the CD-ROM that accompanies this print book.** The CD-ROM includes Interactive Activities Packet Tracer Activity files IT Career Information Taking Notes Lifelong Learning OSI Model Overview This book is part of the Cisco Networking Academy Series from Cisco Press®. Books in this series support and complement the Cisco Networking Academy curriculum.

KPI Mega Library RACHAD. BAROUDI. 2016-10-28 The purpose of this guide book is to give the reader a quick and effective access to the most appropriate Key Performance Indicator (KPI). The 36,000 KPIs are categorized in a logical and alphabetical order. Many organizations are spending a lot of funds on building their strategic planning and performance management capabilities. One of the current challenges is the difficulty to know what KPIs are used in similar situations. This book main objective is to acquaint the reader with available KPIs measuring performance of a specific industry, sector, international topic, and functional area. The book is divided into three sections: 1) Organization Section: 32 Industries | 385 Functions | 11,000 KPIs 2) Government Section: 32 Sectors | 457 Functions | 12,000 KPIs 3) International Section: 24 Topics | 39 Sources | 13,000 KPIs REVIEWS: It's very interesting book. Let me also use this opportunity to congratulate you on it Augustine Botwe, M&E Consultant - Sweden Thank you for this book. As an OD and performance consultant, it will be great to have a reference like this to help assist clients and not reinvent the wheel. Congratulations on making this happen with admiration Sheri Chaney Jones - Ohio, USA Fabulous book! I bought it for my company. Good work! Elizabeth Amini, CEO, Strategist - LA, USA Congratulations for this tremendous work you have done with this book! Roxana Goldstein, Monitoring Consultant - Argentina This looks like a very important reference for me in my BSC consulting practice. Edy Chakra, Partner, ADDIMA Consulting - UK Congratulations for your book, it is very comprehensive! Rafael Lemaitre - Manager at Palladium Group - Spain Many thanks for sharing this valuable information. I will use as reference in my work. Edi Indriyotomo - Senior IT Mgr. - Indonesia I am reading my copy of your great book KPI Mega Library which I bought from Amazon. Thank you, great effort! Basel A - Kuwait It's a great idea, for folks who don't have a clue where to start. If you're a strategy consultant who shapes strategies for your clients, you need a tailored set of performance metrics Shelley Somerville, Social Change Strategist - LA, USA A very comprehensive list of KPIs across a number of functions, industries, etc. As an organizational consultant, I could use this resource as a jumping off point to discuss KPIs with a client based on their particular needs. This book could be a great tool to pick and choose the correct KPIs based on a number of criteria Anthony Bussard - Dynamic, Innovative HR Effectiveness Consultant - Boston

Engineering Fundamentals: An Introduction to Engineering, SI Edition Saeed Moaveni. 2011-01-01 Specifically designed as an introduction to the exciting world of engineering, ENGINEERING FUNDAMENTALS: AN INTRODUCTION TO ENGINEERING encourages students to become engineers and prepares them with a solid foundation in the fundamental principles and physical laws. The book begins with a discovery of what engineers do as well as an inside look into the various areas of specialization. An explanation on good study habits and what it takes to succeed is included as well as an introduction to design and problem solving, communication, and ethics. Once this foundation is established, the book moves on to the basic physical concepts and laws that students will encounter regularly. The framework of this text teaches students that engineers apply physical and chemical laws and principles as well as mathematics to design, test, and supervise the production of millions of parts, products, and services that people use every day. By gaining problem solving skills and an understanding of fundamental principles, students are on their way to becoming analytical, detail-oriented, and creative engineers. E-Learning in the Middle East and North Africa (MENA) Region Alan S. Weber, Sihem Hamlaoui. 2018-02-27 In the last decade, due to factors of ICT infrastructural and broadband maturation, rising levels of educational attainment and computer literacy, and diversification strategies, e-learning has exploded in the Middle East and North Africa (MENA) region. However, significant barriers remain in the region's e-learning development: lack of research on outcomes and effectiveness, paucity of Arabic language learning objects, monopolies and high cost of telecommunications, cultural taboos, accreditation, censorship, and teacher training. This unique volume is the first comprehensive effort to describe the history, development, and current state of e-learning in each of the 20 MENA countries from Algeria to Yemen. Each entry is expertly written by a specialist who is acutely familiar with the state of e-learning in their respective country, and concludes with a bibliography of key reports, peer-reviewed books and articles, and web resources. E-Learning in the Middle East and North Africa (MENA) proves itself as a vital compendium for a wide readership that includes academics and students, transnational program directors, international education experts, MENA government departments, commercial vendors and investors, and ICT development and regulatory agencies involved in e-learning in the Middle East.

Visions and Concepts for Education 4.0 Michael E. Auer, Dan Centea. 2021-02-05 This book contains papers in the fields of Interactive, Collaborative, and Blended Learning; Technology-Supported Learning; Education 4.0; Pedagogical and Psychological Issues. With growing calls for affordable and quality education worldwide, we are currently witnessing a significant transformation in the development of post-secondary education and pedagogical practices. Higher education is undergoing innovative transformations to respond to our urgent needs. The change is hastened by the global pandemic that is currently underway. The 9th International Conference on Interactive, Collaborative, and Blended Learning: Visions and Concepts for Education 4.0 was conducted in an online format at McMaster University, Canada, from 14th to 15th October 2020, to deliberate and share the innovations and strategies. This conference's main objectives were to discuss guidelines and new concepts for engineering education in higher education institutions, including emerging technologies in learning; to debate new conference format in worldwide pandemic and post-pandemic conditions; and to discuss new technology-based tools and resources that drive the education in non-traditional ways such as Education 4.0. Since its beginning in 2007, this conference is devoted to new learning approaches with a focus on applications and experiences in the fields of interactive, collaborative, and blended learning and related new technologies. Currently, the ICBL conferences are forums to exchange recent trends, research findings, and disseminate practical experiences in collaborative and blended learning, and engineering pedagogy. The conference bridges the gap between 'pure' scientific research and the everyday work of educators. Interested readership includes policymakers, academics, educators, researchers in pedagogy and learning theory, school teachers, industry-centric educators, continuing education practitioners, etc.

Objects, Components, Models and Patterns Richard F. Paige, Bertrand Meyer. 2008-07-12 This book constitutes the thoroughly refereed proceedings of the 46th International Conference on Objects, Components, Models and Patterns, TOOLS EUROPE 2008, held in Zurich, Switzerland, in June/July 2008. The 21 papers presented in this book were carefully reviewed and selected from 58 submissions. TOOLS played a major role in the spread of object-oriented and component technologies. It has now broadened its scope beyond the original topics of object technology and component-based development to encompass all modern, practical approaches to software development. At the same time, TOOLS kept its traditional spirit of technical excellence, its acclaimed focus on practicality, its well-proven combination of theory and applications, and its reliance on the best experts from academia and industry.

Learning Analytics Gwo-Jen Hwang, Hui-Chun Chu, Chengjiu Yin. 2018-12-18 Learning analytics is one of the most important research issues in the field of educational technology. By analyzing logs and records in educational databases and systems, it can provide useful information to teachers, learners, and decision makers - information which they can use to improve teaching strategies, learning performances, and educational policies. However, it is a great challenge for most researchers to efficiently analyze educational data in a meaningful way. This book presents various learning analytics approaches and applications, including the process of determining the coding scheme, analyzing the collected data, and interpreting the findings. This book was originally published as a special issue of Interactive Learning Environments.

ICDL3 Brendan Munnely, Paul Holden. 2003 The ICDL (International Computing Drivers Licence) is an internationally recognized certificate of end-user computing skills. It provides objective proof that the holder has achieved a standard of competence in the most common business applications. Employers are increasingly relying on the ICDL to validate training courses and to recruit computer-literate staff.

Higher National Engineering Mike Tooley, Lloyd Dingle. 2007-06 Higher National Engineering 2nd Edition is a new edition of this extremely successful course book, covering the compulsory core units of the 2003 BTEC Higher National Engineering schemes. Full coverage is given of the common core units for HNC/D (units 1 - 3) for all pathways, as well as the two different Engineering Principles units (unit 5) for mechanical and electrical/electronic engineering, and the additional unit required at HND for these pathways (Engineering Design - unit 6). Students following the HNC and HND courses will find this book essential reading, as it covers the core material they will be following through the duration of their course. Knowledge-check questions and activities are included throughout, along with learning summaries, innovative 'Another View' features, and applied maths integrated alongside the appropriate areas of engineering studies. The result is a clear, straightforward and easily accessible text, which encourages independent study. Like the syllabus itself, this book is ideal for students progressing to HNC/HND from AVCE, as well as A-Level and BTEC National. The topics covered are also suitable reading for students following BTEC Foundation Degrees in Engineering/Technology, as well as Foundation Degrees in Engineering run by UK institutions nationwide.

Social Robotics Haizhou Li, John-John Cabibihan, Yeow Kee Tan. 2010-11-05 The papers in this volume were the fruitful scientific results of the Second International Conference on Social Robotics (ICSR), held during November 23-24, 2010 in Singapore, which was jointly organized by the Social Robotics Laboratory (SRL), Interactive Digital Media Institute (IDMI), the National University of Singapore and 2 Human Language Technology Department, the Institute for Infocomm Research (I R), A*STAR, Singapore. These papers address a range of topics in social robotics and its applications. We received paper submissions from America, Asia,

and Europe. All the papers were reviewed by at least three referees from the 32-member Program Committee who were assembled from the global community of social robotics researchers. This volume contains the 42 papers that were selected to report on the latest developments and studies of social robotics in the areas of human--robot interaction; affective and cognitive sciences for interactive robots; design philosophies and software architectures for robots; learning, adaptation and evolution of robotic intelligence; and mechatronics and intelligent control.

The Cambridge Handbook of Infant Development Jeffrey J. Lockman,Catherine S. Tamis-LeMonda.2020-08-13 This multidisciplinary volume features many of the world's leading experts of infant development, who synthesize their research on infant learning and behaviour, while integrating perspectives across neuroscience, socio-cultural context, and policy. It offers an unparalleled overview of infant development across foundational areas such as prenatal development, brain development, epigenetics, physical growth, nutrition, cognition, language, attachment, and risk. The chapters present theoretical and empirical depth and rigor across specific domains of development, while highlighting reciprocal connections among brain, behavior, and social-cultural context. The handbook simultaneously educates, enriches, and encourages. It educates through detailed reviews of innovative methods and empirical foundations and enriches by considering the contexts of brain, culture, and policy. This cutting-edge volume establishes an agenda for future research and policy, and highlights research findings and application for advanced students, researchers, practitioners, and policy-makers with interests in understanding and promoting infant development.
