From Novice to Expert Patricia E. Benner. 2001 This coherent presentation of clinical judgement, caring practices and collaborative practice provides ideas and images that readers can draw upon in their interactions with others and in their interpretation of what nurses do. It includes many clear, colorful examples and describes the five stages of skill acquisition, the nature of clinical judgement and experiential learning and the seven major domains of nursing practice. The narrative method captures content and contextual issues that are often missed by formal models of nursing knowledge. The book uncovers the knowledge embedded in clinical nursing practice and provides the Dreyfus model of skill acquisition applied to nursing, an interpretive approach to identifying and describing clinical knowledge, nursing functions, effective management, research and clinical practice, career development and education, plus practical applications. For nurses and healthcare professionals.

Living Autobiographically Paul John Eakin.2011-03-15 Autobiography is naturally regarded as an art of retrospect, but making autobiography is equally part of the fabric of our ongoing experience. We tell the stories of our lives piecemeal, and these stories are not merely about our selves but also an integral part of them. In this way we live autobiographically; we have narrative identities. In this book, noted life-writing scholar Paul John Eakin explores the intimate, dynamic connection between our selves and our stories, between narrative and identity in everyday life. He draws on a wide range of autobiographical writings from work by Jonathan Franzen, Mary Karr, and André Aciman to the New York Times series Portraits of Grief memorializing the victims of 9/11, as well as the latest insights into identity formation from the fields of developmental psychology, cultural anthropology, and neurobiology. In his account, the self-fashioning in which we routinely, even automatically, engage is largely conditioned by social norms and biological necessities. We are taught by others how to say who we are, while at the same time our sense of self is shaped decisively by our lives in and as bodies. For Eakin, autobiography is always an act of self-determination, no matter what the circumstances, and he stresses its adaptive value as an art that helps to anchor our shifting selves in time.

Language and Identity J. Joseph.2004-05-28 Offering a uniquely broad-based overview of the role of language choice in the construction of national, ethnic and religious identity, this textbook examines a wide range of specific cases from various parts of the world in order to arrive at some general

principles concerning the links between language and identity. It will benefit students and researchers in a wide range of fields where identity is an important issue and who currently lack a single source to turn to for an overview of sociolinguistics.

What Hell Is Not Alessandro D'Avenia.2019-01-24 The school year is finished, exams are over and summer stretches before seventeen-year-old Federico, full of promise and opportunity. But then he accepts a request from one of his teachers to help out at a youth club in the destitute Sicilian neighbourhood of Brancaccio. This narrow tangle of alleyways is controlled by local mafia thugs, but it is also the home of children like Francesco, Maria, Dario, Totò: children with none of Federico's privileges, but with a strength and vitality that changes his life forever. Written in intensely passionate and lyrical prose, What Hell Is Not is the phenomenal Italian bestseller about a man who brought light to one of the darkest corners of Sicily, and who refused to give up on the future of its children.

In the Sea There are Crocodiles Fabio Geda.2011-08-09 When ten-year-old Enaiatollah Akbari's small village in Afghanistan falls prey to Taliban rule in early 2000, his mother shepherds the boy across the border into Pakistan but has to leave him there all alone to fend for himself. Thus begins Enaiat's remarkable and often punishing five-year ordeal, which takes him through Iran, Turkey, and

Greece before he seeks political asylum in Italy at the age of fifteen. Along the way, Enaiat endures the crippling physical and emotional agony of dangerous border crossings, trekking across bitterly cold mountain pathways for days on end or being stuffed into the false bottom of a truck. But not everyone is as resourceful, resilient, or lucky as Enaiat, and there are many heart-wrenching casualties along the way. Based on Enaiat's close collaboration with Italian novelist Fabio Geda and expertly rendered in English by an award-winning translator, this novel reconstructs the young boy's memories, perfectly preserving the childlike perspective and rhythms of an intimate oral history. Told with humor and humanity, *In the Sea There Are Crocodiles* brilliantly captures Enaiat's moving and engaging voice and lends urgency to an epic story of hope and survival.

Inscribing Sorrow Christos Tsagalis.2008-12-10 Fourth-century Attic grave epigrams reflect a transitional phase in the evolution of the genre of epigram. They testify to a shift of interest towards social issues such as the family, the deceased's age and profession. In a turbulent period of restlessness and uncertainty that followed the devastating Peloponnesian war, the commemoration of the departed in private monuments became an effective mechanism of displaying publicly a new set of social concerns. This book explores this decisive phase in the evolution of the epigram by reconstructing as many ancient contexts as possible on the one hand, and studying sepulchral epigrams as a poetic art on the other.

The Painted Body Michel Thévoz.1984 Man is distinguished from animals by a self-retouching impulse, an urge to remake his own body. This book surveys and illustrates the different kinds of body decoration, such as painting, make-up, tattooing, and scarring, which have been practiced all

over the world from prehistoric times to the Body Art and cosmetics of today. The social implications are spelled out in detail.

On Modern Poetry Guido Mazzoni.2022-04-19 Guido Mazzoni tells the story of poetry's revolution in the modern age. The chief transformation was the rise of the lyric as it is now conceived: a genre in which a first-person speaker talks about itself. Mazzoni argues that modern poetry embodies the age of the individual and has wrought profound changes in the expectations of readers.

The Eloquence of Ghosts Florian Mussgnug.2010 Giorgio Manganelli (1922-1990), one of Italy's most radical and original writers, went further than most in exploring the creative possibilities of hybrid genres and open forms. Ostentation, theatricality, and a love of drapery and verbal excess are defining features of his body of work, which ranges from prose fiction, literary criticism, and drama to travel writing, treatises, commentaries, and imaginary interviews. This study examines the wealth of Manganelli's imagination - his grotesque animals, speaking corpses, and melancholy spectres - and argues that his spectacular eloquence was shaped by an exceptional awareness of literary and philosophical models. Following Manganelli's lead, the author addresses issues such as the boundaries of meaningful language, the relationship between literary and visual texts, fantasy and realism, and the power of literature to express the apprehensions and intimations of human consciousness.

Learning About Particles - 50 Privileged Years J. Steinberger.2005 Embedded in an autobiographic framework, this book retraces vividly and in some depth the golden years of particle physics as witnessed by one of the scientists who made seminal contributions to the understanding of what is now known as the Standard Model of particle physics. Well beyond a survey of interest to historians of sciences and researchers in the field, this book is a must for all students and young researchers who have learned about the theoretical and experimental facts that make up the standard model through modern textbooks only. It will provide the interested reader with a first hand account and deeper understanding of the multilayered and sinuous development that finally led to the present architecture of this theory.

The Clothing of Books Jhumpa Lahiri.2017-02-09 How do you clothe a book? In this deeply personal reflection, Pulitzer Prize-winning author Jhumpa Lahiri explores the art of the book jacket from the perspectives of both reader and writer. Probing the complex relationships between text and image, author and designer, and art and commerce, Lahiri delves into the role of the uniform; explains what book jackets and design have come to mean to her; and how, sometimes, “the covers become a part of me.”

Ithaca Forever Luigi Malerba.2021-02-23 After twenty years, Odysseus finally returns to Ithaca, but instead of receiving the homecoming he had hoped for finds himself caught in an intense battle of wills with his faithful and long-suffering wife Penelope. When Penelope recognizes him under the guise of a beggar, she becomes furious with him for not trusting her enough to include her in his

plans for ridding the palace of the Suitors. As a result, she plays her own game of fictions to make him suffer for this lack of faith, inspiring jealousy, self-doubt, and misgivings in her husband, the legendary Homeric hero. In this captivating retelling of the *Odyssey*, Penelope rises as a major force with whom to be reckoned. Shifting between first-person reflections, *Ithaca Forever* reveals the deeply personal and powerful perspectives of both wife and husband as they struggle for respect and supremacy within a marriage that has been on hold for twenty years. Translated by PEN award-winner Douglas Grant Heise, Luigi Malerba's novel gives us a remarkable version of this greatest work of western literature: Odysseus as a man full of doubts and Penelope as a woman of great depth and strength.

Loco Motrix Amelia Rosselli. 2012-03 A musician, musicologist, and self-defined "poet of research," Amelia Rosselli (1930–96) was one of the most important poets to emerge from Europe in the aftermath of World War II. Following a childhood and adolescence spent in exile from Fascist Italy between France, England, and the United States, Rosselli was driven to express the hopes and devastations of the postwar epoch through her demanding and defamiliarizing lines. Rosselli's trilingual body of work synthesizes a hybrid literary heritage stretching from Dante and the troubadours through Ezra Pound and John Berryman, in which playful inventions across Italian, English, and French coexist with unadorned social critique. In a period dominated by the confessional mode, Rosselli aspired to compose stanzas characterized by a new objectivity and collective orientation, "where the I is the public, where the I is things, where the I is the things that happen." Having chosen Italy as an "ideal fatherland," Rosselli wrote searching and often discomposing verse that redefined the domain of Italian poetics and, in the process, irrevocably changed the Italian language. This collection, the first to bring together a generous selection of her

poems and prose in English and in translation, is enhanced by an extensive critical introduction and notes by translator Jennifer Scappettone. Equipping readers with the context for better apprehending Rosselli's experimental approach to language, *Locomotrix* seeks to introduce English-language readers to the extraordinary career of this crucial, if still eclipsed, voice of the twentieth century.

Ever Yours Vincent van Gogh. 2014 In addition to his many remarkable paintings and drawings, Vincent van Gogh (1853-1890) left behind a fascinating and voluminous body of correspondence. This highly accessible book includes a broad selection of 265 letters, from a total of 820 in existence, that focus on Van Gogh's relentless quest to find his destiny, a search that led him to become an artist; the close bond with his brother Theo; his fraught relationship with his father; his innate yearning for recognition; and his great love of art and literature. The correspondence not only offers detailed insights into Van Gogh's complex inner life, but also re-creates the world in which he lived and the artistic avant-garde that was taking hold in Paris. The letters are accompanied by a general introduction, historic family photographs, and reproductions of 100 actual letters that contain sketches by Van Gogh. In sum, this book is the essential book on Van Gogh's letters, which every art and literature lover needs to own.

Relational Social Work Fabio Folgheraiter. 2003-10-30 In this innovative book, a revised English edition of an important Italian text, Fabio Folgheraiter presents a systematic introduction to networking and reflexive practice in social work. He draws on Italian experience and practice in community care and development to foster a deeper understanding of the relational core of social 'problems' and 'solutions', demonstrating an alternative approach to the current trend in positivistic evidence-based methods. The text explores how the interested parties in social care (users, carers,

neighbours, volunteers, professional workers, managers, policy makers) can acquire a shared power in care planning and decision making. Folgheraiter demonstrates that when this networking and empowerment occurs, caring initiatives become truly social based and their efficacy increases. This book provides the framework for the repositioning of social care practice in relation to the state and civil society. The model of practice proposed is an important step towards the development of networks that can effect change locally, nationally and globally.

The Cinema of Me Alisa Lebow.2012-05-29 When a filmmaker makes a film with herself as a subject, she is already divided as both the subject matter of the film and the subject making the film. The two senses of the word are immediately in play - the matter and the maker—thus the two ways of being subjectified as both subject and object. Subjectivity finds its filmic expression, not surprisingly, in very personal ways, yet it is nonetheless shaped by and in relation to collective expressions of identity that can transform the cinema of 'me' into the cinema of 'we'. Leading scholars and practitioners of first-person film are brought together in this groundbreaking collection to consider the theoretical, ideological, and aesthetic challenges wrought by this form of filmmaking in its diverse cultural, geographical, and political contexts.

After Words Elizabeth Leake.2011-01-01 After Words investigates how the suicide of an author informs critical interpretations of the author's works. Suicide itself is a form of authorship as well as

a revision, both on the part of the author, who has written his or her final scene and revised the 'natural' course of his or her life, and on the part of the reader, who must make sense of this final act of writing. Elizabeth Leake focuses on twentieth-century Italian writers Guido Mor-selli, Amelia Rosselli, Cesare Pavese, and Primo Levi, examining personal correspondence, diaries, and obituaries along with popular and academic commemorative writings to elucidate the ramifications of the authors' suicides for their readership. She argues that authorial suicide points to the limitations of those critical stances that exclude the author from the practice of reading. In this innovative and accessible assessment of some of the key issues of authorship, Leake shows that in the aftermath of suicide, an author's life and death themselves become texts to be read.

Design and Truth in Autobiography Roy Pascal. 2015-08-20 Originally published in 1960. Is there an art of autobiography? What are its origins and how has it come to acquire the form we know today? For what does the autobiographer seek, and why should it be so popular? This study suggests some of the answers to these questions. It takes the view that autobiography is one of the dominant and characteristic forms of literary self-expression and deserves examination for its own sake. This book outlines a definition of the form and traces its historical origins and development, analyses its 'truth' and talks about what sort of self-knowledge it investigates.

Venice Saved Simone Weil.2019-06-13 Towards the end of her life, the French philosopher and mystic Simone Weil (1909-43) was working on a tragedy, Venice Saved. Appearing here in English for the first time, this play explores the realisation of Weil's own thoughts on tragedy. A figure of affliction, a central theme in Weil's religious metaphysics, the central character offers a unique insight into Weil's broader philosophical interest in truth and justice, and provides a fresh perspective on the wider conception of tragedy itself. The play depicts the plot by a group of Spanish mercenaries to sack Venice in 1618 and how it fails when one conspirator, Jaffier, betrays them to the Venetian authorities, because he feels compassion for the city's beauty. The edition includes notes on the play by the translators as well as introductory material on: the life of Weil; the genesis and purport of the play; Weil and the tragic; the issues raised by translating Venice Saved. With additional suggestions for further reading, the volume opens up an area of interest and research: the literary Weil.
