*Narration, Navigation, and Colonialism* Jamal Eddine Benhayoun.2006 The texts collected in this book are all produced and located within the converging fields of navigation and displacement. The connection between navigation and narration becomes clear when we realise that most of the authors and heroes of the accounts discussed by the author were, in one way or another, involved in shipping and navigation and that their accounts were produced within fluid and floating spaces and in the course of intriguing voyages and long cruises. In all cases, these narratives start with the narrators on board ships and end with them once again taking charge of their ships and sailing back home. In this book, the author argues that the seventeenth- and eighteenth-century English narratives of adventure and captivity were not produced within clearly demarcated territories and on dry land, but within spaces of indeterminacy, struggle, and transition.

*Greek Prepositions* Pietro Bortone.2010-04-22 This is the most comprehensive history of the Greek prepositional system ever published. It is set within a broad typological context and examines interrelated syntactic, morphological, and semantic change over three millennia. By including, for the first time, Medieval and Modern Greek, Dr Bortone is able to show how the changes in meaning of Greek prepositions follow a clear and recurring pattern of immense theoretical interest. The author opens the book by discussing the relevant background issues concerning the function, meaning, and genesis of adpositions and cases. He then traces the development of prepositions and case markers in ancient Greek (Homeric and classical, with insights from Linear B and reconstructed Indo-European); Hellenistic Greek, which he examines mainly on the basis of Biblical Greek; Medieval Greek, the least studied but most revealing phase; and Modern Greek, in which he also considers the influence of the learned tradition and neighbouring languages. Written in an accessible and non-specialist style, this book will interest classical philologists, as well as historical linguists and theoretical linguists.

They traveled together for a few days by stealing cars, until the police and her uncle caught up to them, with tragic results. As he investigates the brutal murders of several young girls, the past and present begin to blur in his mind.

The Geography of Creativity Gunnar Törnqvist.2011-01-01 'Gunnar Törnqvist, one of the world's most distinguished economic geographers, can fairly claim to have discovered the notion of the geography of creativity over thirty years ago. This remarkable book summarises his immensely original and important research on the subject, which now dominates the geographical literature. It is the book that the world has been waiting for him to publish.' Sir Peter Hall, University College London, UK 'This book offers a comprehensive perspective on the salience of context in fostering or hindering creativity. After several decades of research and teaching, Gunnar Törnqvist has become a foremost authority on the subject. Here, his elegant conceptual overview is complemented by a methodologically-innovative scrutiny of career journeys, including those of Nobel Prize laureates. The Geography of Creativity will be warmly welcomed by not only cultural geographers, but also by scholars in various fields of social science and humanities.' Anne Buttimer, University College Dublin, Ireland What is creativity and who exactly is creative? In this insightful and highly readable book, Gunnar Tornqvist attempts to answer these questions by arguing that geographical millieux are hotbeds for creativity and renewal places where pioneers in art, technology and science have gathered and developed their special abilities. In light of ongoing social and economic transformations, special attention is paid to the institutional settings in firms and universities. The goal is to identify those features which facilitate and those which impede the creative process. Individual lives are illustrated through the autobiographies of hundreds of Nobel Laureates. Their life paths reveal the importance of geographic mobility and contact patterns for the development of creativity and international prestige. From these biographies we can also see how local millieux and schools have influenced many scientists. The Geography of Creativity will be of great benefit to academics and students in regional science, economic geography and economics.

The Abbess of Castro Stendhal.2021-12-03 'The Abbess of Castro' is a novella by Stendhal which recounts the untimely tragic romance between the daughter of the wealthiest man in Lazio and a penniless gangster. It may be a tale of star-crossed lovers set in Italy, but this novella is so much more than an alternative Romeo and Juliet. Beneath the surface lies an eye-opening tale of political machinations that Machiavelli would be proud of, violent family feuds and swashbuckling adventures. Claimed to be translated from 16th Century manuscripts, 'The Abbess of Castro' packs an extra punch with its extremely unsympathetic view on warfare and an acute critique on ardent individuals undone by passion. Stendhal is widely regarded to be an eminent example of Romantic Realism throughout his work and directly influenced the world-famous Russian author Leo Tolstoy in his depictions of war, especially in Tolstoy's works 'Sevastopol Sketchers', 'The Invaders', 'The Cossacks' and 'Youth and Childhood'. Stendhal (1783-1842), the pseudonym of Marie-Henry Beyle, was a French writer. A pioneer of literary realism and master of the psychological portrayals of his characters, he is best known for his novels 'The Red and the Black' (1830) and 'The Charterhouse of Parma' (1839).

*Annie Dunne* Sebastian Barry.2010-11-25 OLD GOD'S TIME (MARCH 2023), SEBASTIAN BARRY'S STUNNING NEW NOVEL, AVAILABLE TO PRE-ORDER NOWAnnie Dunne and her cousin Sarah live and work on a small farm in a remote and beautiful part of Wicklow in late 1950s Ireland. All about them the old green roads are being tarred, cars are being purchased, a way of life is about to disappear. Like two old rooks, they hold

to their hill in Kelsha, cherishing everything. When Annie's nephew and his wife are set to go to London to find work, their two small children, a little boy and his older sister, are brought down to spend the summer with their great-aunt. It is a strange chance for happiness for Annie. But against that happiness moves the figure of Billy Kerr, with his ambiguous attentions to Sarah, threatening to drive Annie from her last niche of safety in the world. The world of childish innocence also proves darkened and puzzling to her, and she struggles to find clear ground, clear light - to preserve her sense of love and place against these subtle forces of disquiet. A summer of adventure, pain, delight and ultimately epiphany unfolds for both the children and their elderly caretakers in this poignant and exquisitely told story of innocence, loss and reconciliation.

*Easter Island* Jennifer Vanderbes. 2004-06-01 In this extraordinary fiction debut—rich with love and betrayal, history and intellectual passion—two remarkable narratives converge on Easter Island, one of the most remote places in the world. It is 1913. Elsa Pendleton travels from England to Easter Island with her husband, an anthropologist sent by the Royal Geographical Society to study the colossal moai statues, and her younger sister. What begins as familial duty for Elsa becomes a grand adventure; on Easter Island she discovers her true calling. But, out of contact with the outside world, she is unaware that World War I has been declared and that a German naval squadron, fleeing the British across the South Pacific, is heading toward the island she now considers home. Sixty years later, Dr. Greer Farraday, an American botanist, travels to Easter Island to research the island's ancient pollen, but more important, to put back the pieces of her life after the death of her husband. A series of brilliant revelations brings to life the parallel quests of these two intrepid young women as they delve into the centuries-old mysteries of Easter Island. Slowly unearthing the island's haunting past, they are forced to confront turbulent discoveries about themselves and the people they love, changing their lives forever. Easter Island is a tour de force of storytelling that will establish Jennifer Vanderbes as one of the most gifted writers of her generation.

*The Return of Little Big Man* Thomas Berger. 2013-03-12 The legendary Jack Crabb takes another riotous romp through the Old West in an acclaimed novel that's "impressive and delightful . . . very Mark Twain" (Daily News, New York). Jack Crabb is now 112 years old, and he isn't done spinning yarns. In this sequel to Berger's beloved novel Little Big Man, one of literature's wildest survivors continues his breathtaking tall tales of the Old West. Crabb claims to have witnessed most of the great historical events of the western frontier: hiding behind a wagon after a drunken Doc Holliday provokes the shootout at the OK Corral; joining Buffalo Bill Cody and Annie Oakley on tour with their international Wild West show; even taking tea with Queen Victoria when she came out of seclusion after a quarter century. No matter where Crabb lays his hat, he keeps his wizened, wry, and sharp commentary at the ready. The Return of Little Big Man is a sidesplitting novel of surprising emotional depth. This ebook features an all-new introduction by Thomas Berger, as well as an illustrated biography of the author including rare images and never-before-seen documents from his personal collection.

*1434* Gavin Menzies. 2009-10-06 The New York Times bestselling author of *1421* offers another stunning reappraisal of history, presenting compelling new evidence that traces the roots of the European Renaissance to Chinese exploration in the fifteenth century. The brilliance of the Renaissance laid the foundation of the modern world. Textbooks tell us that it came about as a result of a rediscovery of the ideas and ideals of classical Greece and Rome. But now bestselling historian Gavin Menzies makes the startling argument that in the year 1434, China—then the world's most technologically advanced civilization—provided the spark that set the European Renaissance ablaze. From that date onward, Europeans embraced Chinese intellectual ideas, discoveries, and inventions, all of which form the basis of western civilization today. Florence and Venice of the early fifteenth century were hubs of world trade, attracting traders from across the globe. Based on years of research, this marvelous history argues that a Chinese fleet—official ambassadors of the emperor—arrived in Tuscany in 1434, where they were received by Pope Eugenius IV in Florence. The delegation presented the influential pope with a wealth of Chinese learning from a diverse range of fields: art, geography (including world maps that were passed on to Christopher Columbus and Ferdinand Magellan), astronomy, mathematics, printing, architecture, steel manufacturing, military weaponry, and more. This vast treasure trove of knowledge spread across Europe, igniting the legendary inventiveness of the Renaissance, including the work of such geniuses as da Vinci, Copernicus, Galileo, and more. In 1434, Gavin Menzies combines this long-overdue historical reexamination with the excitement of an investigative adventure. He brings the reader aboard the remarkable Chinese fleet as it sails from China to Cairo and Florence, and then back across the world. Erudite and brilliantly reasoned, *1434* will change the way we see ourselves, our history, and our world.

**Hegel's Naturalism** Terry Pinkard. 2013-11 Terry Pinkard draws on Hegel's central works as well as his lectures on aesthetics, the history of philosophy, and the philosophy of history in this deeply informed and original exploration of Hegel's naturalism. As Pinkard explains, Hegel's version of naturalism was in fact drawn from Aristotelian naturalism: Hegel fused Aristotle's conception of nature with his insistence that the origin and development of philosophy has empirical physics as its presupposition. As a result, Hegel found that, although modern nature must be understood as a whole to be non-purposive, there is nonetheless a place

for Aristotelian purposiveness within such nature. Such a naturalism provides the framework for explaining how we are both natural organisms and also practically minded (self-determining, rationally responsive, reason-giving) beings. In arguing for this point, Hegel shows that the kind of self-division which is characteristic of human agency also provides human agents with an updated version of an Aristotelian final end of life. Pinkard treats this conception of the final end of being at one with oneself in two parts. The first part focuses on Hegel's account of agency in naturalist terms and how it is that agency requires such a self-division, while the second part explores how Hegel thinks a historical narration is essential for understanding what this kind of self-division has come to require of itself. In making his case, Hegel argues that both the antinomies of philosophical thought and the essential fragmentation of modern life are all not to be understood as overcome in a higher order unity in the State. On the contrary, Hegel demonstrates that modern institutions do not resolve such tensions any more than a comprehensive philosophical account can resolve them theoretically. The job of modern practices and institutions (and at a reflective level the task of modern philosophy) is to help us understand and live with precisely the unresolvability of these oppositions. Therefore, Pinkard explains, Hegel is not the totality theorist he has been taken to be, nor is he an identity thinker, à la Adorno. He is an anti-totally thinker.

*Urban Margins* Martina Rieker.2008 Urban studies of the global South have paid particular attention to megacities, such as Mumbai or Johannesburg, while more peripheral urban landscapes—including small and medium-sized towns as well as the margins of megacities themselves—remain overlooked. Emerging from the work of the Shehr Comparative Urban Landscapes Network, an academic initiative that seeks to further a social-historical and critical understanding of contemporary cities and urban practices, this special issue of *Social Text* takes up the question of marginality in contemporary urban cartographies in the Middle East, South Asia, and Africa. *Urban Margins* explores the complex processes through which citizens produce and negotiate these marginalized landscapes and in turn are informed by them. Focusing on Douala in Cameroon and Dakar in Senegal, one essay discusses how the state's failure to provide for its citizens has led many to turn to informal networks and affiliations—whether kin-based, local, translocal, gendered, religious, or secular—for survival. Rendering the urban landscape of these cities in terms of these networks and the ways that they shape a citizen's interaction with the city, the essay considers the political possibilities for African cities where diverse multilingual and ethnic populations face the challenges, pitfalls, and compromises of coexistence. Examining how female migrant workers negotiate various spaces within the urban landscape of the free trade zone outside of Colombo, Sri Lanka, another essay details how the city represents a site of personal autonomy and political possibilities for both women and men. One contributor addresses the city of Ramallah in the embattled West Bank—the de facto Palestinian capital and the only cosmopolitan space within the occupied territories—to consider how the Palestinian urban middle class remains haunted by the unmodern within its own history and present. Another surveys changes in the cultural significance of roads, forts, and town walls in Bahla, Oman, in the aftermath of the country's 1970 coup d'état. Contributors. Kamran Asdar Ali, Allen Feldman, Sandya Hewamanne, Mandana E. Limbert, Rosalind Morris, Martina Rieker, AbdouMaliq Simone, Lisa Taraki

I Heard God Laughing Hafiz,Daniel Ladinsky.2006-09-26 From bestselling poet Daniel Ladinsky, a rich collection that brings the great Sufi poet Hafiz to Western readers To Persians, the poems of Hafiz are not "classical literature" from a remote past but cherished wisdom from a dear and intimate friend that continues to be quoted in daily life. With uncanny insight, Hafiz captures the many forms and stages of love. His poetry outlines the stages of the mystic's "path of love"—a journey in which love dissolves personal boundaries and limitations to join larger processes of growth and transformation. With this stunning collection, Ladinsky has succeeded brilliantly in capturing the essence of one of Islam's greatest poetic and spiritual voices. "If you haven't yet had the delight of dining with Daniel Ladinsky's sweet, playful renderings of the musings of the great saints, *I Heard God Laughing* is a perfect appetizer. . . . This newly released edition of his first playful foray into Hafiz's divinely inspired poetry is essential reading. . . . **111 Places in Vienna that You Shouldn't Miss** Peter Eickhoff.2013 Wiener Schintzel, apple strudel, the Prater, Schoebrunn, and the beautiful Blue Danube?The Viennese are proud of the fact that in Austria's capital, even the sights are really worth seeing. Beyond the well-trodden paths, however, a completely unknown, kinky, even morbid Vienna can be found -- with less icing and dreams of waltzes and more living and dying (after all, the saying goes that Vienna is the most beautiful city to die in). The city lives up to its reputation from unaccustomed perspectives as well: a slaughterhouse in which hippie idol Leonard Cohen was once a squatter; a museum with murderers; an 18th-century looney bin shaped like a UFO; a store for erotic underwear in an Archbishop's palace, Trotsky's garden; the corner on which Third Man Harry Lime supposedly died in an accident; narrow 16th-centuryalleyways and, of course, all the Kafka, coffeehouse culture, and Klimt you can eat; famous assassinations and grim reminders of the Nazi past. This guide will introduce you to a Vienna which is still alive although it's bursting with history -- the pulsating city which many consider the most beautiful city in Europe. --[original inside book jacket].

*Family Business and Regional Development* Rodrigo Basco,Roger Stough,Lech Suwala.2021-04-07 This book explores the relationship between families, firms, and regions and the extent to which these relationships contribute to regional economic and social development. Although family business participation in economic activities has been a common phenomenon since pre-industrial societies, and its importance has evolved throughout time and across spatial contexts, the book suggests that these factors have often been neglected in family business and regional studies. Taking this research gap into account, the book aims to deepen our understanding of the role family firms play in the regional economy. In particular, it explores two seldom studied questions. Firstly, what role do family firms play in regional development? Secondly, how do different spatial regional contexts shape family firm operations and performance? *Family Business and Regional Development* presents a model of spatial familiness and uses themes such as productivity, networks and competitiveness to shed new light on family businesses. Moreover, it approaches the juxtaposition between family business and regional studies to encourage the cross-fertilisation of ideas, theories, and research

methods between the two fields. Bringing together leading experts in entrepreneurship, regional economics, and economic geography, this book will be a valuable reading for advanced students, researchers and policymakers interested in family firms, regional studies and economic geography.
