The Conservation of Archaeological Sites in the Mediterranean Region Marta De la Torre.1998-02-26 One of the greatest challenges faced today by those responsible for ancient cultural sites is that of maintaining the delicate balance between conserving these fragile resources and making them available to increasing numbers of visitors. Tourism, unchecked development, and changing environmental conditions threaten significant historical sites throughout the world. These issues are among the topics dealt with in this book, which reports on the proceedings of an international conference on the conservation of classical sites in the Mediterranean region, organized by the Getty Conservation Institute and the J. Paul Getty Museum. The book includes chapters discussing management issues at three sites: Piazza Armerina, Sicily; Knossos, Crete; and Ephesus, Turkey. While visiting these sites, conference participants examined how issues raised at these locales can illuminate the challenges of management and conservation faced by complex heritage sites the world over. Additional chapters discuss such topics as the management of cultural sites, the reconstruction of ancient buildings, and ways of presenting and interpreting sites for today's visitors.

Captain Andre Degorce is reunited with Lieutenant Horace Andreani, with whom he experienced the horrors of combat and imprisonment in Vietnam. Captives now pass from the Captain's hands into Andreani's: one-time victims have become torturers. Andreani has fully embraced his new status, but Degorce has lost all sense of himself, only finding peace when he is with Tahar, a commander in the National Liberation Army. Why Africa is Poor Greg Mills.2012-10-01 Economic growth does not demand a secret formula. Good development examples now abound in East Asia and further afield in others parts of Asia, and in Central America. But why then has Africa failed to realise its potential in half a century of independence? Why Africa is Poor demonstrates that Africa is poor not because the world has denied the continent the market and financial means to compete: far from it. It has not been because of aid per se. Nor is African poverty solely a consequence of poor infrastructure or trade access, or because the necessary development and technical expertise is unavailable internationally. Why then has the continent lagged behind other developing areas when its people work hard and the continent is blessed with abundant natural resources? Stomping across the continent and the developing world in search of the answer, Greg Mills controversially shows that the main reason why Africa's people are poor is because their leaders have made this choice.

Globalization and Informal Jobs in Developing Countries Marc Bacchetta,Ekkehard Ernst,Juana P. Bustamante.2009 World trade has expanded significantly in recent years, making a major contribution to global growth. Economic growth has not led to a corresponding improvement in working conditions and living standards for many workers. In developing countries, job creation has largely taken place in the informal economy, where around 60 per cent of workers are employed. Most of the workers in the informal economy have almost no job security, low incomes and no social protection, with limited opportunities to benefit from globalization. This study focuses on the relationship between trade And The growth of the informal economy in developing countries. Based on existing academic literature, complemented with new empirical research by the ILO And The WTO, The study discusses how trade reform affects different aspects of the informal economy. it also examines how high rates of informal employment diminish the scope for developing countries to translate trade openness into sustainable long-term growth. The report analyses how well-designed trade and decent-work friendly policies can complement each other so as to promote sustainable development and growing prosperity in developing countries.

We Cry in Silence Smita Sharma.2022-06-07 Photojournalist Smita Sharma started investigating child trafficking in 2015, when she met Meena, a young schoolgirl from West Bengal, India, who was seduced by a man who approached her while walking to school. With gifts and a promise of marriage, he enticed her to run away with him in just a few days. A week later Meena found herself locked in a brothel 1,000 miles from her home. We Cry In Silence is a result of a six year investigation by Sharma where she documented cross border trafficking of minor girls in India and Bangladesh for sex work. The book will also include a chapter on the under-reported issue of trafficking of indigenous girls for domestic servitude. Using darkness to bring her subjects' stories to light, Sharma creates a space for nuanced storytelling on this complex global issue of modern day slavery.A part of this project was commissioned and published globally as Stolen Lives by National Geographic Magazine in October 2020.Stolen Lives was awarded at the Amnesty International Media Awards in the photojournalism category in 2021.

Under Fire Henri Barbusse.2021-05-28 Under Fire (1916) is a novel by Henri Barbusse. Written from notes taken while Barbusse was serving in the First World War, the novel was quickly recognized as a powerful tale of perseverance and comradery in the face of unspeakable suffering. Intended to promote the cause of pacifism, Under Fire is deeply critical of the rich and powerful men whose inability to live peacefully leads time and again to the sacrifice of countless human lives. "Each country whose frontiers are consumed by carnage is seen tearing from its heart ever more warriors of full blood and force. One's eyes follow the flow of these living tributaries to the River of Death. To north and south and west afar there are battles on every side. Turn where you will, there is war in every corner of that vastness." Even from a distance, war is hell on earth, but it is not something that

can be described in the abstract, if it can be described at all. Such a luxury—available only to the leaders who declare war’s beginning and end—is not afforded to those are sent to fight. Following a squad of French volunteers on the Western front, Henri Barbusse provides a realistically brutal vision of death and survival that refuses to glorify the loss of a single life. As a soldier-turned-pacifist, Barbusse brings his reader as close as possible to the trenches and fields of battle in order to dispel the myths that continue to justify and obscure the deaths of the poor and powerless. With a beautifully designed cover and professionally typeset manuscript, this edition of Henri Barbusse’s *Under Fire* is a classic work of French literature reimagined for modern readers.
