Animal Beauty Christiane Nusslein-Volhard.2019-05-14 An illustrated exploration of colors and patterns in the animal kingdom, what they communicate, and how they function in the social life of animals. Are animals able to appreciate what humans refer to as “beauty”? The term scarcely ever appears nowadays in a scientific description of living things, but we humans may nonetheless find the colors, patterns, and songs of animals to be beautiful in apparently the same way that we see beauty in works of art. In *Animal Beauty*, Nobel Prize-winning biologist Christiane Nüsslein-Volhard describes how the colors and patterns displayed by animals arise, what they communicate, and how they function in the social life of animals. Watercolor drawings illustrate these amazing instances of animal beauty. Darwin addressed the topic of ornament in his 1871 book *The Descent of Man and Selection in Relation to Sex*, and did not hesitate to engage with criteria of beauty, convinced that animals experienced color and ornament as attractive and agreeable in the same way that we do, and that the role this played in mate choice pointed to a “sexual selection” distinct from natural selection. Nüsslein-Volhard examines key examples of ornament and sexual selection in the animal kingdom and lays the groundwork for biological aesthetics. Noting that color patterns have not been a research priority—perhaps because they appeared to be nonessential luxuries rather than functional necessities—Nüsslein-Volhard looks at recent scientific developments on the topic. In part

because of Nüsslein-Volhard's own research on the zebrafish, it is now possible to decipher the molecular genetic mechanisms that lead to production of colors in animal skin and its appendages and control its pattern and distribution.

Barriers to Inclusion Justin J. W. Powell.2015-12-03 Barriers to Inclusion offers a comparative and historical account of the rise of special education over the twentieth century in the United States and Germany. This institutional analysis demonstrates how categorical boundaries, professional groups, social movements, and education and social policies shaped the schooling of children and youth with disabilities. It traces the evolution of special education classification, explores growing special education organizations, and examines students' learning opportunities and educational attainments. Highlighting cross-national differences over time, the author also investigates demographic and geographic variability within the federal democracies, especially in segregation and inclusion rates of disabled and disadvantaged children. Germany's elaborate system of segregated special school types contrasts with diverse American special education classrooms mainly within regular schools. Joining historical case studies with empirical indicators, this book reveals persistent barriers to school integration as well as factors that facilitate inclusive education reform in both societies.

The Theory of Communicative Action Jürgen Habermas.2015-10-07 This study offers a systematic reconstruction of the theoretical foundations and framework of critical social theory. It is Habermas' magnum opus, and it is regarded as one of the most important works of modern social thought. In this second and final volume of the work, Habermas examines the relations between action concepts and systems theory and elaborates a framework for analyzing the developmental tendencies of modern societies. He discusses in detail the work of Marx, Durkheim, G.H. Mead and Talcott Parsons, among others. By distinguishing between social systems and what he calls the life-world, Habermas is able to analyze the ways in which the development of social systems impinges upon the symbolic and subjective dimensions of social life, resulting in the kind of crises, conflicts and protest movements which are characteristic of advanced capitalist societies in the late-20th century.

Studying Bilinguals François Grosjean.2008-02-22 Even though more than half the world's population is bilingual, the study of bilinguals has lagged behind that of monolinguals. With this book, which draws on twenty-five years of the author's research, François Grosjean contributes significantly to redressing the balance. The volume covers four areas of research: the definition and characterization of the bilingual person, the perception and production of spoken language by bilinguals, the sign-oral bilingualism of the Deaf, and methodological and conceptual issues in research on bilingualism. While the author takes a largely psycholinguistic approach, his acute linguistic and sociolinguistic awareness is evident throughout and especially so in his reflections on what it means to be bilingual and bicultural. The book also defends increased co-operation among researchers in connecting fields such as the language sciences and the neurosciences.

Mary's Little Donkey Gunhild Sehlin.2016-09-15 A long time ago in the Holy Land lived a scruffy little donkey who hated hard work. And then he met gentle, kind Mary, and his world changed forever. When Mary and Joseph have to travel the long journey to Bethlehem, who can they rely on to get them there safely? This is a unique version of the traditional nativity story, told from the child-friendly perspective of the little donkey, who grows in confidence and pride as Mary and Joseph place their trust in him. The story ends with the wonder of the birth of Jesus, and the little donkey's promise to keep looking after his new family. Adapted for younger children from Gunhild Sehlin's classic chapter book, this Christmas story is sumptuously illustrated by H el ene Muller, with marvelous details of the Holy Land.

The Most Important Thing Antonella Abbatiello.2022-03-15 The animals of the forest have assembled to discuss what is the most important thing: to have a trunk like an elephant, quills like a porcupine, or a long neck like a giraffe? Naturally, every animal is convinced that its particular trait is the most important one and that everyone should have it. But when the double pages open to show all the animals with the quills of a porcupine, the long neck of a giraffe, or the trunk or the elephant, everyone must agree that the true importance lies precisely in their collective 'diversity'. It is that which makes them all unique and essential to life of the forest. The Most Important Thing received a UNESCO honorable mention for peace and collaboration. An important message of diversity and inclusion delivered in the form of a charming modern fable.

The Who & The What Ayad Akhtar.2014-10-07 The author of Homeland Elegies and Pulitzer Prize winner Disgraced explores the conflict that erupts within a Muslim family in Atlanta when an independent-minded daughter writes a provocative novel that offends her more conservative father and sister. Zarina has a bone to pick with the place of women in her Muslim faith, and she's been writing a book about the Prophet Muhammad that aims to set the record straight. When her traditional father and sister discover the manuscript, it threatens to tear her family apart. With humor and ferocity, Akhtar's incisive new drama about love, art, and religion examines the chasm between our traditions and our contemporary lives.

Manet Pierre Bourdieu. 2018-05-18 What is a 'symbolic revolution'? What happens when a symbolic revolution occurs, how can it succeed and prevail and why is it so difficult to understand? Using the exemplary case of Édouard Manet, Pierre Bourdieu began to ponder these questions as early as the 1980s, before making it the focus of his lectures in his last years at the Collège de France. This second volume of Bourdieu's previously unpublished lectures provides his most sustained contribution to the sociology of art and the analysis of cultural fields. It is also a major contribution to our understanding of impressionism and the works of Manet. Bourdieu treats the paintings of Manet as so many challenges to the conservative academicism of the pompier painters, the populism of the Realists, the commercial eclecticism of genre painting, and even the 'Impressionists', showing that such a revolution is inseparable from the conditions that allow fields of cultural production to emerge. At a time when the Academy was in crisis and when the increase in the number of painters challenged the role of the state in defining artistic value, the break that Manet inaugurated revolutionised the aesthetic order. The new vision of the world that emerged from this upheaval still shapes our categories of perception and judgement today - the very categories that we use everyday to understand the representations of the world and the world itself. This major work by one of the greatest sociologists of the last 50 years will be of great interest to students and scholars in sociology, art history and the social sciences and humanities generally. It will also appeal to a wide readership interested in art, in impressionism and in the works of Manet.

Rosetsu Matthew McKelway, Khanh Trinh. 2018 Accompanying a major exhibition on the 18th-century Japanese painter Nagasawa Rosetsu, this book features the artist's most important paintings. Born into the family of a low-ranking samurai, Nagasawa Rosetsu (1754-1799) is renowned today as one of the most imaginative artists of early modern Japan. His visually stunning

and highly idiosyncratic paintings earned him a place in Japan's Lineage of Eccentrics. This book surveys Rosetsu's art with sixty of his most important paintings, beginning with his earliest works in the realist mode of his teacher Maruyama Okyo, and ending with his haunting, visionary, and occasionally bizarre final masterpieces. Screen paintings, scrolls, and albums depicting Zen eccentrics, raucous children, ethereal beauties, otherworldly landscapes, and vivacious animals and birds take viewers on a journey through Rosetsu's own travels and into his unbridled imagination.

Global Activism Peter Weibel. 2015-08-21 Documenting and describing the emerging "performative democracy," the first new art form of the twenty-first century. Today political protest often takes the form of spontaneous, noninstitutional, mass action. Mass protests during the Arab Spring showed that established systems of power—in that case, the reciprocal support among Arab dictators and Western democracies—can be interrupted, at least for a short moment in history. These new activist movements often use online media to spread their message. Mass demonstrations from Tahrir Square in Cairo to Taksim Square in Istanbul show the power of networked communication to fuel "performative democracy"—at the center of which stands the global citizen. Art is emerging as a public space in which the individual can claim the promises of constitutional and state democracy. Activism may be the first new art form of the twenty-first century. *global aCtIVISm* (the capitalized letters form the Latin word *civis*, emphasizing the power of citizens) describes and documents politically inspired art—global art practices that draw attention to grievances and demand the

transformation of existing conditions through actions, demonstrations, and performances in public space. Essays by leading thinkers—including Noam Chomsky, Antonio Negri, Peter Sloterdijk, and Slavoj Žižek—consider the emerging role of the citizen in the new performative democracy. The essays are followed by images of art objects, illustrations, documents, and other material (first shown in an exhibition at ZKM Center for Art and Media, Karlsruhe) as well as case studies by artists and activists. Essays by Can Altay, Sruti Bala and Veronika Zangl, Tatiana Bazzichelli, Olaf Bertram-Nothnagel, Angela Bonadies, Robin Celikates, Korhan Gümüs, Dietrich Heißenbüttel, Bruno Latour, Sarah Maske, Ugo Mattei, Graham Meikle, André Mesquita, Marcus Michaelsen, Walter D. Burmese Puppets Noel Francis Singer.1992 Thought to date from the twelfth century, Burmese puppet theatre is a dazzling blend of lifelike characters, songs, and courtly dialogue. Employed as a vehicle for both propaganda and protest, it draws on Burma's rich cultural and religious heritage for its plays and has had a marked influence on other local art forms, particularly dance. Complete with

many unpublished photographs, this colourful introduction describes the theatre's customs, rules, and changing patterns, and celebrates the remarkable beauty of the puppets and the skills of the puppeteers.

Not Friends Rebecca Bender.2015-09-29 Giraffe and Bird are not friends. Not even a little bit. The bird pesters the giraffe with his face-making, feather-pruning, and disgusting eating habits. The giraffe annoys the bird with his bad breath, ear-swatting, and lack of respect for personal space. Of course they are always fighting. Of course they would be better off without each other. Except, it turns out, maybe they wouldn't be. With bold acrylic illustrations, expressive word play, and laugh-out-loud storytelling, award-winning author-illustrator Rebecca Bender delivers an odd-couple tale that is anything but your average friendship story. Satisfyingly un-sweet and uproariously irreverent, Not Friends invites thoughtful discussion about children's relationships with each other—though first you'll have to wait for the giggling to stop.

Other Russias Victoria Lomasko.2017-06-15 From a renowned graphic artist and activist, an incredible portrait of life in Russia today 'Victoria Lomasko's gritty, street-level view of the great Russian people masterfully intertwines quiet desperation with open defiance. Her drawings have an on-the-spot immediacy that I envy. She is one of the brave ones' - Joe Sacco, author of Palestine What does it mean to live in Russia today? What is it like to grow up in a forgotten city, to be a migrant worker or to grow old and seek solace in the Orthodox church? For the past eight years, graphic artist and activist Victoria Lomasko has been travelling around Russia and talking to people as she draws their stories. She spent time in dying villages where schoolteachers outnumber students; she stayed with sex workers in the city of Nizhny Novgorod; she went to juvenile prisons and spoke to kids who have no contact with the outside world; and she attended every major

political rally in Moscow. The result is an extraordinary portrait of Russia in the Putin years -- a country full of people who have been left behind, many of whom are determined to fight for their rights and for progress against impossible odds. Empathetic, honest, funny, and often devastating, Lomasko's portraits show us a side of Russia that is hardly ever seen.

The Great Big Book of Families Mary Hoffman.2015-03-05 What is a family? Once, it was said to be a father, mother, boy, girl, cat and dog living in a house with a garden. But as times have changed, families have changed too, and now there are almost as many kinds of families as colours of the rainbow - from a mum and dad or single parent to two mums or two dads, from a mixed-race family to children with different mums and dads, to families with a disabled member. Mary Hoffman takes a look through children's eyes at the wide varieties of family life: from homes, food, ways of celebrating, schools and holidays to getting around, jobs and housework, from extended families, languages and hobbies to pets and family trees - and she concludes that, for most people, their own family is the best one of all! With Ros Asquith's delightful pictures, this book takes a fresh, optimistic look at families of today.

From Trent to Vatican II Raymond F. Bulman, Frederick J. Parrella.2006-05-25 The second Vatican Council was convened by Pope John XXIII between 1962 and 1965. It marked a fundamental shift toward the modern Church and its far-reaching innovations replaced or radically changed many of the practices, rules, and attitudes that had dominated Catholic life and culture since the Council of Trent in the sixteenth century. In this book a distinguished team of historians and theologians offers an impartial investigation of the relationship between Vatican II and Trent by examining such issues as Eucharistic theology, liturgical change, clerical reform, the laity, the role of women, marriage,

confession, devotion to Mary, and interfaith understanding. As the first book to present such a comprehensive study of the connection between the two great Councils, this is an invaluable resource for students, theologians, and church historians, as well as for bishops, clergy, and religious educators.

Trilingualism in Family, School, and Community Charlotte Hoffmann, Jehannes Ytsma. 2004 Countries in Africa, America, Asia and Europe provide the sociolinguistic contexts described in this volume. They involve settings where three or more languages are spoken and where speakers are trilingual. With the focus on family, school and the wider community, the book illustrates personal, social, cultural and political factors contributing to the acquisition and maintenance of trilingualism and highlights a rich pattern of trilingual language use.

The Young Vermeer Edwin Buijsen.2010 Johannes Vermeer (1632-1675) is world-famous for his scenes of daily life, such as a kitchen maid pouring milk, a woman having a music lesson, or a lady writing a letter. However, when Vermeer began painting around the age of 21, he focused primarily on traditional subjects derived from the Bible and classical mythology. Not only do these early works differ greatly from his later paintings in terms of subject matter, they also differ in style. The exhibition unites three paintings from the beginning of Vermeer's artistic career: the Mauritshuis' Diana and her nymphs of c. 1653-1654, is joined by Christ in the house of Martha and Mary (c. 1655) from the National Gallery of Scotland in Edinburgh, and The Procuress (1656) from the Staatliche Kunstsammlungen in Dresden. These three paintings afford an image of the artist seeking his own style. All three paintings have recently been restored.
