African American Islam Aminah Beverly McCloud.2014-07-16 Islam is a vital, growing religion in America. Little is known, however, about the religion except through the biased lens of media reports which brand African American Muslims as Black Muslims and portray their communities as places of social protest. African American Islam challenges these myths by contextualizing the experience and history of African American Islamic life. This is the first book to investigate the diverse African American Islamic community on its own terms, in its own language and through its own synthesis of Islamic history and philosophy.

This book promises to be a valuable resource that couples will turn to for many years both as a refresher and as a reference.

Muslim Families, Politics and the Law Ralph Grillo.2016-03-09 Contemporary European societies are multi-ethnic and multi-cultural, certainly in terms of the diversity which has stemmed from the immigration of workers and refugees and their settlement. Currently, however, there is widespread, often acrimonious, debate about 'other' cultural and religious beliefs and practices and limits to their accommodation. This book focuses principally on Muslim families and on the way in which gender relations and associated questions of (women's) agency, consent and autonomy, have become the focus of political and social commentary, with followers of the religion under constant public scrutiny and criticism. Practices concerning marriage and divorce are especially controversial and the book includes a detailed overview of the public debate about the application of Islamic legal and ethical norms (shari'a) in family law matters, and the associated role of Shari'a councils, in a British context. In short, Islam generally and the Muslim family in particular have become highly politicized sites of contestation, and the book considers how and why and with what implications for British multiculturalism, past, present and future. The study will be of great interest to international scholars and academics researching the governance of diversity and the accommodation of other faiths including Islam.

The Marriage Contract in Islamic Law in the Shari'ah and Personal Status Laws of Egypt and Morocco Dawoud Sudqi El Alami.1992-01-01 This book is an analysis of the contract of marriage according to the Islamic Shari'ah and of the way in which this is applied in the Personal Status Laws of two modern Islamic states. It examines the prerequisites for marriage, the elements which go to form the contract, the processes involved in making the contract, and the institution of marriage itself. The author expresses the essential Islamic concepts of marriage faithfully whilst making the work as accessible as possible to readers of various backgrounds. It will be of interest to legal professionals, to academics and students of Islamic Law, and to those interested in Islam, the Middle East and North Africa. Useful Tables of Laws and Cases are included.

Feminism, Law, and Religion Marie Failinger,Elizabeth Schiltz,Susan J. Stabile.2016-04-15 With contributions from some of the most prominent voices writing on gender, law and religion today, this book illuminates some of the conflicts at the intersection of feminism, theology and law. It examines a range of themes from the viewpoint of identifiable traditions such as Judaism, Christianity, Islam and Buddhism, from a theoretical and practical perspective. Among the themes discussed are the cross-over between religious and secular values and assumptions in the search for a just jurisprudence for women, the application of theological insights from religious traditions to legal issues at the core of feminist work, feminist legal readings of scriptural texts on women's rights and the place that religious law has assigned to women in ecclesiastic life. Feminists of faith face challenges from many sides: patriarchal remnants in their own tradition, dismissal of their faith commitments by secular feminists and balancing the conflicting loyalties of their lives. The book will be essential reading for legal and religious academics and students working in the area of gender and law or law and religion.

Muslim Communities in North America Yvonne Yazbeck Haddad,Jane I. Smith.1994-08-04 This book provides the first in-depth look at Muslim life and institutions forming in North America. It considers the range of Islamic life in North America with its different racial-ethnic and cultural identities, customs, and religious orientations. Issues of acculturation, ethnicity, orthodoxy, and the changing roles of women are brought into focus. The authors provide insight into the lives of recent immigrants who are asking what is Islamically appropriate in a non-Muslim environment.

Contrasts are drawn between Sunni and Shi'i groups, and attention is given to the activities of some Sufi organizations. The growing Islamic community among African-American Muslims is examined, including the followers of Warith Deen Muhammed and the sectarians identified with black power, such as the Nation of Islam, Darul Islam, and the Five Percenters. The authors document the challenges and issues that American Muslims face, such as prejudice and racism; pressure from overseas Muslims; dress and education; the influence of Islamic revivalism on the development of the community in this country; and the maintenance of Muslim identity amidst the pressure for assimilation.

Polygyny Debra Majeed. 2016-10-26 Captivating, provocative, and groundbreaking. Taking up the mandate that women's realities matter, Majeed writes with depth and analytical rigor about a topic we have scarcely begun to understand.--Amina Wadud, author of *Inside The Gender Jihad* Tackles the contours and intimacies of a much practiced but seldom spoken about quasi-marriage that leaves women without legal support. A much-needed text on an extremely sensitive topic. Majeed excavates this terrain with finesse and a deft scholarly hand.--Aminah Beverly McCloud, coeditor of *An Introduction to Islam in the 21st Century* Utilizes ethnographic research methods to imaginatively and constructively complexify the reality of polygyny in the lives of African American Muslim women.--Linda Elaine Thomas, author of *Under the Canopy* Majeed's womanist approach is critical, yet balanced enough to include the concerns of women, men, and children, affording readers a broad and vital gaze into the lives of these unconventional households.--Zain Abdullah, author of *Black Mecca* A powerful and long overdue study of polygyny in African American Muslim communities.--Shabana Mir, author of *Muslim American Women on Campus* Debra Majeed sheds light on families whose form and function conflict with U.S. civil law. Polygyny--multiple-wife marriage--has steadily emerged as an alternative to the low numbers of marriageable African American men and the high number of female-led households in black America. This book features the voices of women who welcome polygyny, oppose it, acquiesce to it, or even negotiate power in its practices. Majeed examines the choices available to African American Muslim women who are considering polygyny or who are living it. She calls attention to the ways in which interpretations of Islam's primary sources are authorized or legitimated to regulate the rights of Muslim women. Highlighting the legal, emotional, and communal implications of polygyny, Majeed encourages Muslim communities to develop formal measures that ensure the welfare of women and children who are otherwise not recognized by the state.

Temporary Marriage in Islamic Law Sachiko Murata - XKP. 2015-11-06 The present work is based on an MA dissertation completed in 1974 under the direction of Professor Abu 'l-Qasim Gurji of the Faculty of Theology at Tehran University (most of the Persian text was published under the title *Izdiwaj-i muwaqqat: (mut'a-sigha)* - One major purpose of the present study is to trace the origin of this divergence between Sunni and Shi'i law by going back to the sources and arguments on both sides. A second purpose is to describe the legal situation of *mut'a* in Shi'ism. al-islam.org This book is one of the many Islamic publications distributed by Ahlulbait Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Contemporary Bioethics Mohammed Ali Al-Bar, Hassan Chamsi-Pasha. 2015-05-27 This book discusses the common principles of morality and ethics derived from divinely endowed intuitive reason through the creation of al-fitr' a (nature) and human intellect (al-'aql). Biomedical topics are presented and ethical issues related to topics such as genetic testing, assisted reproduction and organ transplantation are discussed. Whereas these natural sources are God's special gifts to human beings, God's revelation as given to the prophets is the supernatural source of divine guidance through which human communities have been guided at all times through history. The second part of the book concentrates on the objectives of Islamic religious practice - the maqa' sid - which include: Preservation of Faith, Preservation of Life, Preservation of Mind (intellect and reason), Preservation of Progeny (al-nasl) and Preservation of Property. Lastly, the third part of the book discusses selected topical issues, including abortion, assisted reproduction devices, genetics, organ transplantation, brain death and end-of-life aspects. For each topic, the current medical evidence is followed by a detailed discussion of the ethical issues involved.

Covenant Marriage in Comparative Perspective John Witte (Jr.), Eliza Ellison. 2005-10-20 Covenant marriages requiring premarital counseling and tighter strictures on divorce have recently emerged in some American states. At the same time, the doctrine of covenant has reemerged in religious circles as a common way to map the spiritual dimensions of marriage. *Covenant Marriage in Comparative Perspective* brings together eminent scholars from Jewish, Orthodox, Catholic, Protestant, and Islamic religious traditions as well as experts on American covenant marriage. The introduction carries out an unprecedented comparison of contract and covenant in Jewish, Christian, and Muslim understandings of marriage. The rest of the book elucidates various facets of marriage from the perspectives of both jurisprudence and religion, producing an enlightening integrated picture of the legal and spiritual dimensions of marriage.

Muslim Marriage in Western Courts Pascale Fournier. 2016-04-29 This book describes and analyses the notion of Mahr, the Muslim custom whereby the groom has to give a gift to the bride in consideration of the marriage. It explores how Western courts, specifically in Canada, the United States, France, and Germany, have approached and interpreted Mahr. Although the outcomes of the cases provide an illustrative framework for the book, the focus is broader than simply the adjudicative endeavours. The work explores the concept of liberalism, which purportedly champions individuals and individual choice concurrently with freedom and equality. Tensions between and among these concepts, however, inevitably arise. The acknowledgment and exploration of these intertwined tensions forms an important underpinning for the book. Through the analysis of case law from these four countries, this study suggests that transplanting Mahr from Islamic law into a Western courtroom cannot be undone: it immediately becomes rooted in the countries' legal, historical, political, and social backgrounds and flourishes (or fails) in diverse and unexpected ways. Rather than being the concept described by classical Islamic jurists, Mahr is interpreted according to wildly varied legal constructs and concepts such as multiculturalism, fairness, public policy, and gender equality. Moreover, Islamic law travels with a multiplicity of voices, and it is this complex hybridity (a fragmented and disjointed Mahr) which will be mediated through Western law. Returning to the overarching concept of liberalism, the book proposes that distributive consequences rather than recognition occupy central place in the evaluation of the legal options available to Muslim women upon divorce.

Windows of Faith Gisela Webb. 2000-03-01 This collection of essays brings together voices from the most recent development in Muslim women's studies, namely, the burgeoning network of Muslim women working on issues of women's human rights through engaged revisionist scholarship in such areas as theology, law and jurisprudence, and women's literature. The essayists are leading Islamic women scholars in North America who

affirm their religious self-identity in their acknowledgment of, and striving toward solving, serious problems women have faced in Muslim societies and communities around the world. Their approach is designated as scholarship-activism because it comes from the common conviction that to look at women's issues from within the Islamic perspective must unite issues of theory and practice. Any theory or analysis of women's nature, role, rights, or problems must include attention to the practical, on-the-ground issues involved in actualizing the Qur'anic mandate of social justice.

Concomitantly, any considerations of practical solutions to problems and injustices faced by women must have a solid theological grounding in the Qur'anic world view. Contributors include representatives from the variety of constituents of Islam in America immigrant and indigenous—whose works are in the forefront of Islamic discussion and reform today: Amina Wadud, Nimat Hafez Barazangi, Maysam J. al-Faruqi, Azizah Y. al-Hibri, Asifa Quraishi, Riffat Hassan, Aminah Beverly McCloud, Mohja Kahf, Rabia Terri Harris, and Gwendolyn Zoharah Simmons.

Family Law in a Changing America Douglas NeJaime, R. Richard Banks, Joanna L. Grossman, Suzanne A. Kim. 2024-02-15 *Family Law in a Changing America* highlights law and family patterns as they are now, not as they were decades ago. By focusing on key changes in family life, the casebook attends to rising equality and inequality within and among families. The law, formally at least, accords more equality and autonomy than ever before; yet, as our society has grown more economically unequal, so too have family patterns diverged, with marriage and marital child-rearing becoming a mark of privilege. A number of developments—mass incarceration, the privatization of care, and reproductive technologies—have also contributed to disparities based on race, class, and gender. The casebook reflects the law's continuing emphasis on marriage, but also treats nonmarital families as central. Rather than privilege the marital heterosexual family, the casebook organizes the presentation of the law around (1) adult relationships and (2) parent-child relationships. New to the Second Edition: Updated coverage on reproductive justice and abortion access Expanded and updated coverage of the Indian Child Welfare Act Updated coverage on the child welfare system and a focus on debates over abolition Professors and students will benefit from: Text that includes dramatic changes in family patterns, including declining marriage rates, with differential rates based on race and class; increasing rates of nonmarital cohabitation and nonmarital parenting; tensions between women's increasing education and employment and the perseverance of the gendered division of labor in families An approach that decenters the marital heterosexual family and instead is structured around the general topics of adult relationships and parent-child relationships Focus on the scope of family law, including extensive coverage of crucial sites of family regulation that are traditionally given short shrift Emphasis on multiple modes of legal interpretation (common law, constitutional, statutory) and multiple actors in the legal system (judges, legislators, lawyers, experts, social workers) Practical problems and exercises that illuminate the gaps, tensions, and implications of existing doctrine; some of the problems include postscripts explaining how the issue was resolved by a court or legislature An approach that draws on more recent cases and cutting-edge issues and that includes extensive coverage of the rights of unmarried partners, reproductive justice, assisted reproduction; parentage (including intentional parenthood, functional parenthood, and multi-parent arrangements), adoption (including open adoption, transracial adoption, and the Indian Child Welfare Act), the child welfare system, and family support

Ketubbah Shalom Sabar. 2000 The custom of illuminating the traditional Jewish marriage contract, the ketubbah, developed over the last four centuries into a rich and varied form of Jewish folk art. This book offers a broad selection from one of the outstanding collections of ketubbot,

representing Jewish communities from the Near East to Northern Europe. It focuses particularly on the ketubbot of Italy, where the art of the illuminated ketubbah found its most beautiful expression during the seventeenth and eighteenth centuries, under the influence of Renaissance and Baroque art. Co-produced with the Israel Museum, Jerusalem, home to one of the largest collections of ketubbot, this book also offers a fascinating account of Jewish marriage customs and a vivid picture of diverse Jewish communities. --Book Jacket.

What Is an American Muslim? Abdullahi Ahmed An-Na'im. 2014-01-02 Since 2001, there has been a tremendous backlash against the very idea that it is possible to be both American and Muslim—the controversy over the so-called Ground Zero Mosque and the attempts to ban shari'a law are examples. Even within the Muslim community many leaders urge believers to integrate more fully into the mainstream of American life. Is it possible to be both fully American and devoutly Muslim? An American citizen born and raised in the Sudan, an internationally recognized scholar of Islam, and a human rights activist, Abdullahi Ahmed An-Na'im brings a unique perspective to this crucial question. By demanding that Muslims assimilate, he argues, allies and critics alike assume that American Muslims are a monolithic bloc, a permanent minority set apart from that which is truly American. An-Na'im wholeheartedly rejects this notion and urges Muslims to embrace their faith without fear. Islam, he argues, is one of many dimensions of identity—Muslims are also members of different ethnic groups, political parties, and social circles, not to mention husbands and wives, fathers and mothers, baseball fans and movie buffs. In short, Muslims share a vast array of identities with other Americans, but the most important identity they all share is as citizens. Muslims, An-Na'im argues, must embrace the full range of rights and responsibilities that come with American citizenship, and participate fully in civic life, while at the same time asserting their right to define their faith for themselves. They must view themselves, simply, as American citizens who happen to be Muslims. *What Is an American Muslim?* is a bold and provocative take on the future of Islam in America.

Sharia Tribunals, Rabbinical Courts, and Christian Panels Michael J. Broyde. 2017 This book explores the rise of private arbitration in religious and other values-oriented communities, and it argues that secular societies should use secular legal frameworks to facilitate, enforce, and also regulate religious arbitration. It covers the history of religious arbitration; the kinds of faith-based dispute resolution models currently in use; how the law should perceive them; and what the role of religious arbitration in the United States and the western world should be. Part One examines why religious individuals and communities are increasingly turning to private faith-based dispute resolution to arbitrate their litigious disputes. It focuses on why religious communities feel disenfranchised from secular law, and particularly secular family law. Part Two looks at why American law is so comfortable with faith-based arbitration, given its penchant for enabling parties to order their relationships and resolve their disputes using norms and values that are often different from and sometimes opposed to secular standards. Part Three weighs the proper procedural, jurisdictional, and contractual limits of arbitration generally, and of religious arbitration particularly. It identifies and explains the reasonable limitations on religious arbitration. Part Four examines whether secular societies should facilitate effective, legally enforceable religious dispute resolution, and it argues that religious arbitration is not only good for the religious community itself, but that having many different avenues for faith-based arbitration which are properly limited is good for any vibrant pluralistic democracy inhabited by diverse faith groups.

Muslim Family Law in Western Courts Elisa Giunchi.2014-03-26 This book focuses on Islamic family law as interpreted and applied by judges in Europe, Australia and North America. It uses court transcriptions and observations to discuss how the most contentious marriage-related issues - consent and age of spouses, dower, polygamy, and divorce - are adjudicated. The solutions proposed by different legal systems are reviewed , and some broader questions are addressed: how Islamic principles are harmonized with norms based on gender equality, how parties bargain strategically in and out of court, and how Muslim diasporas align their Islamic worldview with a Western normative narrative.

Law and Justice around the World Mikaila Mariel Lemonik Arthur.2020-02-25 Law and Justice around the World is designed to introduce students to comparative law and justice, including cross-national variations in legal and justice systems as well as global and international justice. The book draws students into critical discussions of justice around the world today by: taking a broad perspective on law and justice rather than limiting its focus to criminal justice systems examining topics of global concern, including governance, elections, environmental regulations, migration and refugee status, family law, and others focusing on a diverse set of global examples, from Europe, North America, East Asia, and especially the global south, and comparing the United States law and justice system to these other nations continuing to cover core topics such as crime, law enforcement, criminal courts, and punishment including chapter goals to define learning outcomes sharing case studies to help students apply concepts to real life issues Instructor resources include discussion questions; suggested readings, films, and web resources; a test bank; and chapter-by-chapter PowerPoint slides with full-color maps and graphics. By widening the comparative lens to include nations that are often completely ignored in research and teaching, the book paints a more realistic portrait of the different ways in which countries define and pursue justice in a globalized, interconnected world.

The book introduces the reader to some of the many facets of the lives of American Muslims that can only be understood in their interactions with Islam's entanglement in the American experiment.

Islamic Divorce in North America Julie Macfarlane.2012-04-30 Policy-makers and the public are increasingly attentive to the role of shari'a in the everyday lives of Western Muslims, with negative associations and public fears growing among their non-Muslim neighbors in the United States and Canada. The most common way North American Muslims relate to shari'a is in their observance of Muslim marriage and divorce rituals; recourse to traditional Islamic marriage and, to a lesser extent, divorce is widespread. Julie Macfarlane has conducted hundreds of interviews with Muslim couples, as well as with religious and community leaders and family conflict professionals. Her book describes how Muslim marriage and divorce processes are used in North America, and what they mean to those who embrace them as a part of their religious and cultural identity. The picture that emerges is of an idiosyncratic private ordering system that reflects a wide range of attitudes towards contemporary family values and changes in gender roles. Some women describe pervasive assumptions about restrictions on their role in the family system, as well as pressure to accept these values and to stay married. Others of both genders describe the gradual modernization of Islamic family traditions - and the subsequent emergence of a Western shari'a--but a continuing commitment to the rituals of Muslim marriage and divorce in their private lives. Readers will be challenged to

consider how the secular state should respond in order to find a balance between state commitment to universal norms and formal equality, and the protection of religious freedom expressed in private religious and cultural practices.

Beyond the Exotic Amira El-Azhary Sonbol.2021-02-15 Most research has accepted stereotypical images of Muslim women, treating their outward manifestations, such as veiling, as passive and oppressive. Muslim women have been depicted as different, and by exoticizing (orientalizing) them—or Islamic society in general—“they” have been dealt with outside of general women’s history and regarded as having little to contribute to the writing of world history or to the life of their sisters worldwide. By approaching widely used sources with different questions and methodologies, and by using new or little-used material (with much primary research), this book redresses these deficiencies. Scholars revisit and reevaluate scripture and scriptural interpretation; church records involving non-Muslim women of the Arab world; archival court records dating from the present back to the Ottoman period; and the oral and material culture and its written record, including oral history, textbooks, sufi practices, and the politics of dress. By deconstructing the past, these scholars offer fresh perspectives on women’s roles and aspirations in Middle East societies.

Muslim Women in America Yvonne Yazbeck Haddad,Jane I. Smith,Kathleen M. Moore.2006-03-02 The treatment and role of women are among the most discussed and controversial aspects of Islam. The rights of Muslim women have become part of the Western political agenda, often perpetuating a stereotype of universal oppression. Muslim women living in America continue to be marginalized and misunderstood since the 9/11 terrorist attacks. Yet their contributions are changing the face of Islam as it is seen both within Muslim communities in the West and by non-Muslims. In their public and private lives, Muslim women are actively negotiating what it means to be a woman and a Muslim in an American context. Yvonne Yazbeck Haddad, Jane I. Smith, and Kathleen M. Moore offer a much-needed survey of the situation of Muslim American women, focusing on how Muslim views about and experiences of gender are changing in the Western diaspora. Centering on Muslims in America, the book investigates Muslim attempts to form a new American Islam. Such specific issues as dress, marriage, childrearing, conversion, and workplace discrimination are addressed. The authors also look at the ways in which American Muslim women have tried to create new paradigms of Islamic womanhood and are reinterpreting the traditions apart from the males who control the mosque institutions. A final chapter asks whether 9/11 will prove to have been a watershed moment for Muslim women in America. This groundbreaking work presents the diversity of Muslim American women and demonstrates the complexity of the issues. Impeccably researched and accessible, it broadens our understanding of Islam in the West and encourages further exploration into how Muslim women are shaping the future of American Islam.

The Islamic Marriage Contract Asifa Quraishi, Frank E. Vogel.2022-10-07 It is often said that marriage in Islamic law is a civil contract, not a sacrament. If this is so, this means that the marriage contract is largely governed by the same rules as other contracts, such as sale or hire. But at the same time marriage is a profound concern of the Islamic scriptures of Qur'an and Sunna, and thus at the very core of the law and morality of Islam and of the individual, familial, and social life of Muslims. This volume collects papers from many disciplines examining the Muslim marriage contract. Articles cover doctrines as to marriage contracts (e.g., may a wife stipulate monogamy?); historical instances (e.g., legal advice from thirteenth-century Spain); comparisons with Jewish and canon law; contemporary legal and social practice; and projects of activists for women worldwide. Demonstrating a new and powerful focus for comparative and historical inquiries into Islamic law and social practices, this book marks a fresh point of departure for the study of Muslim women.

Unveiling the Energy of Verbal Art: An Mental Sojourn through **Use American Islamic Marriage Contract Template**

In a global inundated with monitors and the cacophony of immediate conversation, the profound power and psychological resonance of verbal beauty frequently fade into obscurity, eclipsed by the continuous onslaught of sound and distractions.
