A Children's Play of the Stations of the Cross Heather

Clever.2011-03-17 In this play, The Stations of the Cross become meaningful for children as they reenact Jesus' story and depict His suffering, sacrifice, and love. This book includes the script for A Children's Play of the Stations of the Cross, personal writing sections, directing notes annotated along the side of the script (for the young actor's ease of reading), pictures and directions for costumes/props, suggestions on how to tweak the play to make it suitable for your needs, and sample letters. If you are unable to put this play together at this time, it still serves as a fantastic

read. Reading through this is a great way to introduce young children to the Stations of the Cross, and it is also helpful for anyone, regardless of age, to reflect on Jesus' Passion. I have had the honor of viewing this play as written and directed by Heather Cleaver, and I have also been honored to have co-directed this play three times . . . What makes this play spectacular is how the characters come alive so that the audience feels both the characters pain and their joy. Karen Plichta, Primary School Teacher

Parallel Learning of Reading and Writing in Early

Childhood Mary Shea. 2011-04-28 Parallel Learning of Reading and Writing in Early Childhood explores why it's important to provide a balanced language learning environment for young children and offers approaches for children to practice and explore language. Writing - a different but parallel process - can open the door to reading, and an effective writing approach in the home and early childhood classrooms leads to the development of phonemic awareness, understanding of phonetic principles, vocabulary, fluency, and comprehension. Effective early childhood teachers are those that extend the knowledge children have amassed at home and use the knowledge of how children learn naturally in the world to inform their practice. This book offers the purpose, context, and outcomes of including writing right from the start in young children's literacy learning. Through analysis of writing samples, research, and principles of best practices, Shea outlines the essential ingredients for early language learning and provides a developmentally appropriate approach to language learning. Throughout the chapters, Shea integrates discussion of assessment, classroom environment, instructional/teacher scaffolding, and differentiating instruction across developmental levels along with the supporting theory. Special features: vignettes and descriptions of Pre-K, K, and Grade 1 classrooms that incorporate writing across the day artifacts of children's writing that demonstrate an evolution of

[Reading and Writing Instruction in the Twenty-First Century](#)

Ellen C. Carillo. 2021-08-02 Robert Scholes passed away on December 9, 2016, leaving behind an intellectual legacy focused broadly on textuality. Scholes's work had a significant impact on a range of fields, including literary studies, composition and rhetoric, education, media studies, and the digital humanities, among others. In *Reading and Writing Instruction in the Twenty-First Century* contemporary scholars explore and extend the continued relevance of Scholes's work for those in English and writing studies. In this volume, Scholes's scholarship is included alongside original essays, providing a resource for those considering everything from the place of the English major in the twenty-first century to best practices for helping students navigate misinformation and disinformation. *Reading and Writing Instruction in the Twenty-First Century* not only keeps Scholes's legacy alive but carries it on through a commitment, in Scholes's (1998) own words, to "offer our students . . . the cultural equipment they are going to need when they leave us."

Portals of Promise Debbie Pushor, the Parent Engagement Collaborative the Parent Engagement Collaborative. 2013-10-30 Working with parents is a significant aspect of educators' roles, yet it is rare to find curriculum in teacher education programs designed to prepare individuals to consider, in philosophical, theoretical, and pedagogical ways, who they will be in relationship with parents and why. Schools, therefore, remain hierarchical structures in which parents are marginalized in relation to decisions affecting teaching and learning. This book begins with Pushor's conceptualization of a "curriculum of parents," a curriculum which explores beliefs and assumptions about parents, a vision for education in which educators work alongside parents and family members in the learning and care of children, and a desire for reform. She describes a curriculum of parents, in the form of three graduate teacher education courses, which she lived out in relationship with students. Graduate students then capture their experiences immersed in this curriculum - what they each took up, how it shaped their knowledge, attitudes, and practices, and how they lived it out as they returned to their classrooms, schools, and early learning centres. This book is a storied account of their intense immersion in a curriculum of parents and the resulting impact living that curriculum has had on who they are in relation to parents and families. It is an honest and vulnerable account of their shared and individual journeys. They puzzle over the complexities and the successes of their work and the resulting impact. This is not a book of best practice, but an invitation to other educators to consider, as they did, what they do and how it could be different.
