Christ and the New Covenant Jeffrey R. Holland.2006-01-01 Introducing a major new doctrinal work written by Elder Jeffrey R. Holland who shares his apostolic witness of the central figure of the Book of Mormon—the Lord Jesus Christ. For most of a decade, Elder Holland has read the Book of Mormon repeatedly and thoroughly, focusing on all references to the Savior and his teachings. The result is an intelligent observation and thorough study of the Book of Mormon's contribution to our understanding of Christ. On the illustrated edition: Elder Holland's classic examination of Jesus Christ as the principal and commanding figure in the Book of Mormon is now available as an illustrated keepsake. This landmark book explores what the Book of Mormon reveals about the character, attributes, and mission of our Savior. In his warm and thoughtful style, Elder Holland explains why, more than any other book, the Book of Mormon has taught me to love the Lord Jesus Christ and to consider the full wonder and grandeur, the eternally resonating power of the atoning sacrifice he made for us. Stunning full-color illustrations by Walter Rane, Robert Barrett, Simon Dewey, Joseph Brickey, and others bring vibrant new life to this beloved volume.

Why We Took the Car Wolfgang Herrndorf.2014-01-07 A beautifully written, darkly funny coming-of-age story from an award-winning, bestselling German author making his American debut. Mike Klingenberg doesn't get why people think he's boring. Sure, he doesn't have many friends. (Okay, zero friends.) And everyone laughs at him when he reads his essays out loud in class. And he's never invited to parties - including the gorgeous Tatiana's party of the year. Andre Tschichatschow, aka Tschick (not even the teachers can pronounce his name), is new in school, and a whole different kind of unpopular. He always looks like he's just been in a fight, his clothes are tragic, and he never talks to anyone. But one day Tschick shows up at Mike's house out of the blue. Turns out he wasn't invited to Tatiana's party either, and he's ready to do something about it. Forget the popular kids: Together, Mike and Tschick are heading out on a road trip. No parents, no map, no destination. Will they get hopelessly lost in the middle of nowhere? Probably. Will meet some crazy people and get into serious trouble? Definitely. But will they ever be called boring again? Not a chance.

Constructing and Representing Territory in Late Medieval and Early Modern Europe Overlaet DAMEN.2021-12-08 In recent political and constitutional history, scholars seldom specify how and why they use the concept of territory. In research on state formation processes and nation building, for instance, the term mostly designates an enclosed geographical area ruled by a central government. Inspired by ideas from political geographers, this book explores the layered and constantly changing meanings of territory in late medieval and early modern Europe before cartography and state formation turned boundaries and territories into more fixed (but still changeable) geographical entities. Its central thesis is that analysing the notion of territory in a premodern setting involves analysing territorial practices: practices that relate people and power to space(s). The book not only examines the construction and spatial structure of premodern territories but also explores their perception and representation through the use of a broad range of sources: from administrative texts to maps, from stained glass windows to chronicles.
