Professional Responsibility Ciaran Sugrue, Tone Solbrekke. 2014-06-23 What does professional responsibility entail in an increasingly insecure, unpredictable and de-regulated world? This is the core question addressed in this text. The point of departure for the various contributions is that professional responsibility is a way of being in the world that includes a particular mandate - to behave in a manner consistent with moral and societal obligations as a professional. Increasingly, however, there is a lack of consensus as to what such mandates imply, and even more dissensus as to what appropriate exercise of responsibility entails. One of the distinctive features of this book is the manner in which it combines normative and empirical dimensions. It moves beyond dualistic perspectives to create a more inclusive conversation on professional responsibility. In the face of increasing complexity of professional work, professional responsibility remains open to further development. The book signals direction for the development of professional responsibility, and while seeking to give direction to ongoing deliberations avoids the pitfalls of performativity. The chapters are grounded in a variety of disciplinary perspectives and traverse various professional boundaries in a self-reflexive manner to create more inclusive, transformative and generative narratives on professional responsibility. This is achieved by: Focusing on normative dimensions of professional work and combining these with a focus on empirical aspects of professional practice in a variety of setting, and Recognising the inevitable tensions between personal trust and responsibility, and largely depersonalised policies and strategies of quality control when normative and empirical aspects of professional responsibility are situated within their policy environments. The concluding narrative moves beyond deconstruction, complexity and critique of these considerations to a construction of new imagined horizons of professional responsibility from

theoretical, conceptual and practical perspectives. This text sets out to transform professional responsibility through a re-configuration of its constituent elements in imaginative and creative ways and by indicating the 'real world' import of re-charting the field.

Liberal White Supremacy Angie Beeman.2022-09-01 In Liberal White Supremacy, Angie Beeman argues that white supremacy is maintained not only by right-wing conservatives or stereotypically uneducated working-class racial bigots but also by progressives who operate from a liberal ideology of color-blindness, racism-evasiveness, and class elitism. This distinction provides insight on divisions among progressives at the local level, in community organizations, and at the national level, in the Democratic Party. By distinguishing between liberal and radical approaches to racism, class oppression, capitalism, and social movement tactics, Beeman shows how progressives continue to be limited by liberal ideology and perpetuate rather than dismantle white supremacy, all while claiming to be antiracist. She conceptualizes this self-serving process as “liberal white supremacy,” the tendency for liberal European Americans to constantly place themselves in the superior moral position in a way that reinforces inequality. Beeman advances what she calls action-oriented and racism-centered intersectional approaches as alternatives to progressive organizational strategies that either downplay racism in favor of a class-centered approach or take a talk-centered approach to racism without developing explicit actions to challenge it.

Human Judgment B. Brehmer,C.R.B. Joyce.1988-09-01 There are four basic goals for research in SJT (Social Judgment Theory): - to analyze judgment tasks and judgmental processes; - to analyze the relations between judgmental systems (i.e. to analyze agreement and its structure), and between

tasks and judgmental systems (i.e. to analyze achievement and its structure; - to understand how relations between judgmental systems and between judgmental systems and tasks come to be whatever they are (i.e. to understand processes of communication and learning and their effects upon achievement and agreement); - to find means of improving the relation between judgmental systems (improving agreement) and between judgmental systems and tasks (improving achievement).

Profile of an Effective School Superintendent Dale Boddy.2021-03-25 ABOUT THE INFORMANT Ed Noyce, the informant or subject of this field study, was the Superintendent of the Wapiti Falls School District in 1994. Pseudonyms are used throughout his story, but he is real and so are the people, events, and locations herein. Why Ed Noyce? Ed was identified by an expert panel as an effective school superintendent. Asked for his comments, the real Ed Noyce wrote: "I am also grateful to those staff members, school board members, and others who agreed to participate. It can be quite threatening to have an unknown observer attending meetings at which private feelings and opinions are being shared. Yet, to the best of my recollection, no one showed even the slightest

hesitation having an unknown observer recording their every move. The researcher deserves much credit for the way he managed to put others at ease.” ABOUT THE ETHNOLOGY Naturalistic observations were collected, digested, collated, and curated to provide a cultural portrait. The purpose was to better understand superintendent leadership. Three key attributes common to all leaders—spending sufficient time on the job, focusing on key attributes of the organization’s mission, and respecting the individuals serving within the organization— were used and individualized for our informant. Everyday encounters are described in detail. Follow along as Ed applied his core strengths and attributes in leading district staff, students, elected officials, and community. Leadership strategies are enumerated and validated in two case studies. In one, Ed and his district faced a crisis which tested elected officials, teachers, administrators, and finally Ed. Inner strengths were revealed; strengths attributed to work-life balance. Leadership will always be complex. Hence no all-encompassing theory of leadership will be offered. In this cultural portrait the premises held to be true are threefold: watch, reflect, improve.

The Successful Principal Dr. Robert Cunard.2017-07-21 The Successful Principal takes its reader through the arc of the principalship, beginning with teaching, moving on to promotion to the administrative office and how to achieve it, describing how to go about entry planning, going into depth about the challenges and opportunities the principal faces in leading a school, and moving into a focus on how to thrive as a principal while growing the skills of others. This is a book designed to give principals advice on how to do the job well. The book is buttressed by research where appropriate, and it pays particular attention to the principal's basic conundrum, which is this: while he/she is arguably the face and leader of the school, he/she is often the person with the least actual

power in the system. The book takes a realistic look at the principal's power, opportunities, and structural and political limitations and then teaches its readers how successful principals find a way forward in spite of those challenges.

Birdville School; A Portrait of Small-Town America in the 20th Century Bob Barrage.2019-01-03 Birdville School opened in 1922 on the corner of two dirt roads at the edge of a fallow farm. Over the next 67 school years it witnessed, and influenced, the unfolding story of the town that grew up around it, amid flood, brushfire, blizzard, tornado, and earthquake; poverty and prosperity; war, peace, and cold war; and even the collapse of the earth beneath its foundations. Its auditorium and cafeteria hosted PTA meetings, plays, movies, concerts, basketball tournaments, holiday parties, Girl Scout and Boy Scout meetings, polio vaccination clinics, and war-time rationing registrations and scrap-collection drives. Local sand-lot softball, baseball, and football teams competed in the same surrounding fields that swarmed with gleeful children at recess, and that echoed with the roar of low-flying aircrafts snagging mailbags on their tail hooks. Among its staff were thespians, musicians, firemen, outdoorsmen, and athletes, including a singer who performed in the Coolidge White House, a candidate for the state legislature, an army medic, and a ball player

who faced off against the Homestead Grays and the Pittsburgh Pirates. By the time classes concluded for the last time in 1989, thousands of children - including the author - had benefitted from the care, instruction, and example of the Birdville School family. This book is a feeble tribute to those who made us who we are.

Canada's Residential Schools: The History, Part 2, 1939 to 2000 Commission de vérité et réconciliation du Canada.2016-01-01 Between 1867 and 2000, the Canadian government sent over 150,000 Aboriginal children to residential schools across the country. Government officials and missionaries agreed that in order to “civilize and Christianize” Aboriginal children, it was necessary to separate them from their parents and their home communities. For children, life in these schools was lonely and alien. Discipline was harsh, and daily life was highly regimented. Aboriginal languages and cultures were denigrated and suppressed. Education and technical training too often gave way to the drudgery of doing the chores necessary to make the schools self-sustaining. Child neglect was institutionalized, and the lack of supervision created situations where students were prey to sexual and physical abusers. Legal action by the schools’ former students led to the creation of the Truth and Reconciliation Commission of Canada in 2008. The product of over six years of research, the Commission’s final report outlines the history and legacy of the schools, and charts a pathway towards reconciliation. *Canada’s Residential Schools: The History, Part 2, 1939 to 2000* carries the story of the residential school system from the end of the Great Depression to the closing of the last remaining schools in the late 1990s. It demonstrates that the underfunding and unsafe

living conditions that characterized the early history of the schools continued into an era of unprecedented growth and prosperity for most Canadians. A miserly funding formula meant that into the late 1950s school meals fell short of the Canada Food Rules. Overcrowding, poor sanitation, and a failure to adhere to fire safety rules were common problems throughout this period. While government officials had come to view the schools as costly and inefficient, the churches were reluctant to countenance their closure. It was not until the late 1960s that the federal government finally wrested control of the system away from the churches. Government plans to turn First Nations education over to the provinces met with opposition from Aboriginal organizations that were seeking "Indian Control of Indian Education." Following parent-led occupation of a school in Alberta, many of the remaining schools came under Aboriginal administration. The closing of the schools coincided with a growing number of convictions of former staff members on charges of sexually abusing students. These trials revealed the degree to which sexual abuse at the schools had been covered up in the past. Former students, who came to refer to themselves as Survivors, established regional and national organizations and provided much of the leadership for the campaign that led to the federal government issuing in 2008 an apology to the former students and their families.

Threading the Evaluation Needle Todd A. DeMitchell, Mark A. Paige. 2019-12-10 Teachers stand at the intersection of educational goals, directing students down the road to success or to the byways

of diminished opportunities. They are the most important school variable effecting student achievement. Consequently, placing and retaining only qualified and effective teachers in our nation's classrooms is a critical responsibility of school leaders. Effective supervision and evaluation requires that the school leader possess the knowledge of effective instruction, exhibit skills in documentation of professional conduct, and embrace a professional approach with the will to place and keep students at the center of school policy and practice decisions. Supervising and evaluating teachers is a difficult, but essential work. Research shows that time and expertise are necessary to effectively supervise and to build a case for adverse employment decisions, when necessary. Threading the Evaluation Needle: The Documentation of Teacher Unprofessional Conduct addresses the legal and professional knowledge that structures discipline and dismissal in the public schools. The authors, based on their educational, legal, and research experience, provide templates for various types of documentation necessary to effectively build a case for discipline. This book seeks to give principals the tools and knowledge to institute in good faith a fair and accurate documentation system.
