Cold War Social Science Mark Solovey, Christian Dayé. 2021-05-13 This book explores how the social sciences became entangled with the global Cold War. While duly recognizing the realities of nation states, national power, and national aspirations, the studies gathered here open up new lines of transnational investigation. Considering developments in a wide array of fields - anthropology, development studies, economics, education, political science, psychology, science studies, and sociology - that involved the movement of people, projects, funding, and ideas across diverse national contexts, this volume pushes scholars to rethink certain fundamental points about how we should understand - and thus how we should study - Cold War social science itself.

Muck City Bryan Mealer.2013-08-13 In a town deep in the Florida Everglades, where high school football is the only escape, a haunted quarterback, a returning hero, and a scholar struggle against terrible odds. The loamy black “muck” that surrounds Belle Glade, Florida once built an empire for

Big Sugar and provided much of the nation's vegetables, often on the backs of roving, destitute migrants. Many of these were children who honed their skills along the field rows and started one of the most legendary football programs in America. Belle Glade's high school team, the Glades Central Raiders, has sent an extraordinary number of players to the National Football League - 27 since 1985, with five of those drafted in the first round. The industry that gave rise to the town and its team also spawned the chronic poverty, teeming migrant ghettos, and violence that cripples futures before they can ever begin. Muck City tells the story of quarterback Mario Rowley, whose dream is to win a championship for his deceased parents and quiet the ghosts that haunt him; head coach Jessie Hester, the town's first NFL star, who returns home to "win kids, not championships"; and Jonteria Williams, who must build her dream of becoming a doctor in one of the poorest high schools in the nation. For boys like Mario, being a Raider is a one-shot window for escape and a college education. Without football, Jonteria and the rest must make it on brains and fortitude alone. For the coach, good intentions must battle a town's obsession to win above all else. Beyond the Friday night lights, this book is an engrossing portrait of a community mired in a shameful past and uncertain future, but with the fierce will to survive, win, and escape to a better life.

The First World Festival of Negro Arts, Dakar 1966 David Murphy.2016 In April 1966, thousands of artists, musicians, performers and writers from across Africa and its diaspora gathered in the Senegalese capital, Dakar, to take part in the First World Festival of Negro Arts (Premier Festival Mondial des arts nègres). The international forum provided by the Dakar Festival showcased a wide

array of arts and was attended by such celebrated luminaries as Duke Ellington, Josephine Baker, Aimé Césaire, André Malraux and Wole Soyinka. Described by Senegalese President Léopold Sédar Senghor, as 'the elaboration of a new humanism which this time will include all of humanity on the whole of our planet earth', the festival constituted a highly symbolic moment in the era of decolonization and the push for civil rights for black people in the United States. In essence, the festival sought to perform an emerging Pan-African culture, that is, to give concrete cultural expression to the ties that would bind the newly liberated African 'homeland' to black people in the diaspora. This volume is the first sustained attempt to provide not only an overview of the festival itself but also of its multiple legacies, which will help us better to understand the 'festivalization' of Africa that has occurred in recent decades with most African countries now hosting a number of festivals as part of a national tourism and cultural development strategy.

Twerp Mark Goldblatt. 2014-05-13 It's not like I meant for him to get hurt. . . . Julian Twerski isn't a bully. He's just made a big mistake. So when he returns to school after a weeklong suspension, his English teacher offers him a deal: if he keeps a journal and writes about the terrible incident that got him and his friends suspended, he can get out of writing a report on Shakespeare. Julian jumps at the chance. And so begins his account of life in sixth grade--blowing up homemade fireworks, writing a love letter for his best friend (with disastrous results), and worrying whether he's still the fastest kid in school. Lurking in the background, though, is the one story he can't bring himself to tell, the one story his teacher most wants to hear. Inspired by Mark Goldblatt's own childhood growing up in 1960s Queens, *Twerp* shines with humor and heart. This remarkably powerful story will have readers laughing and crying right along with these flawed but unforgettable characters. The Sea-Wolf Jack London.2018-10-17 The Sea-Wolf is a psychological adventure novel by American novelist Jack London about a literary critic, survivor of an ocean collision, who comes under the dominance of Wolf Larsen, the powerful and amoral sea captain who rescues him. The Sea Wolf tells the story of a soft, domesticated protagonist, in this novel's case an intellectual man named Humphrey van Weyden, forced to become tough and self-reliant by exposure to cruelty and brutality. The story starts with him aboard a San Francisco ferry, called Martinez, which collides with another ship in the fog and sinks. He is set adrift in the Bay, eventually being picked up by Wolf Larsen. Larsen is the captain of a seal-hunting schooner, the Ghost. Brutal and cynical, yet also highly intelligent and intellectual (though highly biased in his opinions, as he was self-taught), he rules over his ship and terrorizes the crew with the aid of his exceptionally great physical strength. Van Weyden adequately describes him as an individualist, hedonist, and materialist. Larsen does not believe in the immortality of the soul, he finds no meaning in his life save for survival and pleasure and has come to despise all human life and deny its value. Being interested in someone capable of

intellectual disputes, he somewhat takes care of Van Weyden, whom he calls 'Hump', while forcing him to become a cabin boy, do menial work, and learn to fight to protect himself from a brutal crew. A key event in the story is an attempted mutiny against Wolf Larsen by several members of the crew. The organizers of the mutiny are Leach and Johnson. Johnson had previously been beaten severely by Larsen, and Leach had been punched earlier while being forced to become a boat-puller, motivating the two. The first attempt is by sending Larsen overboard; however, he manages to climb back onto the ship. Searching for his assailant, he ventures into the sleeping quarters, located beneath the main deck, the only exit being a ladder. Several, at least seven men, take part in the mutiny and attack Larsen. Larsen however, demonstrating his inhuman endurance, strength, and conviction, manages to fight his way through the crew, climb the ladder with several men hanging off him, and escape relatively unharmed. Van Weyden is promoted as mate, for the original mate had been murdered. Larsen later gets his vengeance by torturing his crew, and constantly claiming that he is going to murder Leach and Johnson at his earliest convenience, being the hunting season is done, as he can't afford to lose any crew. He later allows them to be lost to the sea when they attempt to flee on a hunting boat.

iPractice Jennifer Mishra,Barbara Fast.2018-10-01 This book provides new practical tools that bridge the gap between familiar, easy-to-use technology and musical practice to enhance musicianship and motivate students. Authors Jennifer Mishra and Barbara Fast provide ideas for use with students of all levels, from beginners to musicians performing advanced repertoire. This book is written for teachers (both studio teachers and ensemble directors), but can be read by performers to help give new guidance to their own practice sessions. Some strategies in this book would not have

been possible without advances in technology; others expand tried-and-true practice strategies with the use of technology. Most of the technologies discussed are free or inexpensive and don't require extensive specialist equipment or learning. Rather than replacing quality practice strategies, technology brings new tools to the practicing tool box. The strategies lay the foundation for how technology can be used in the practice room and are intended to spark creativity. The book encourages teachers and students to vary the integration of practice strategies with technology in personal ways to fit their own studios or practice routines. This book is all about exploring our musical practice through technology. The ideas in this book will invigorate your musical practice and lead to even more creativity between you and your students

The Opposite Field Jesse Katz.2010-07-13 Here is one of the most remarkable, ambitious, and utterly original memoirs of this generation, a story of the losing and finding of self, of sex and love and fatherhood and the joy of language, of death and failure and heartbreak, of Los Angeles and

Portland and Nicaragua and Mexico, and the shifting sands of place and meaning that can make up a culture, or a community, or a home. Faced with the collapse of his son's Little League program—consisting mostly of Latino kids in the largely Asian suburb of Monterey Park, California—Jesse Katz finds himself thrust into the role of baseball commissioner for La Loma Park. Under its lights the yearnings and conflicts of a complex immigrant community are played out amid surprising moments of grace. Each day—and night—becomes a test of Jesse's judgment and adaptability, and of his capacity to make this peculiar pocket of L.A.'s Eastside his home. While Jesse soothes egos, brokers disputes, chases down delinquent coaches and missing equipment, and applies popsicles to bruises, he forms unlikely alliances, commits unanticipated errors, and receives the gift of unexpected wisdom. But there's no less drama in Jesse's complicated personal life as he grapples with a stepson who seems destined for trouble, comforts his mother (a legendary Oregon politician) when she's stricken with cancer, and receives hard lessons in finding—and holding on to—the love of a good woman. Through it all, Jesse's emotional mainstay is his beloved son, Max, who quietly bests his father's brightest hopes. Over nine springs and summers with Max at La Loma, Jesse learns nothing less than what it takes to be a father, a son, a husband, a coach, and, ultimately, a man. This is an epic book, a funny book, a sexy book, a rapturously evocative and achingly poignant book. Above all it is true, in that it happened, but also in a way that transcends mere facts and cuts to the quick of what it means to be alive.

Evening in the Palace of Reason James R. Gaines.2006-02-28 Johann Sebastian Bach created what may be the most celestial and profound body of music in history; Frederick the Great built the colossus we now know as Germany, and along with it a template for modern warfare. Their fleeting encounter in 1757 signals a unique moment in history where belief collided with the cold certainty of reason. Set at the tipping point between the ancient and modern world, Evening in the Palace of Reason captures the tumult of the eighteenth century, the legacy of the Reformation, and the birth of the Enlightenment in this extraordinary tale of two men.

Exercised Daniel Lieberman.2021-01-05 If exercise is healthy (so good for you!), why do many people dislike or avoid it? These engaging stories and explanations will revolutionize the way you

think about exercising—not to mention sitting, sleeping, sprinting, weight lifting, playing, fighting, walking, jogging, and even dancing. “Strikes a perfect balance of scholarship, wit, and enthusiasm.” —Bill Bryson, New York Times best-selling author of *The Body* • If we are born to walk and run, why do most of us take it easy whenever possible? • Does running ruin your knees? • Should we do weights, cardio, or high-intensity training? • Is sitting really the new smoking? • Can you lose weight by walking? • And how do we make sense of the conflicting, anxiety-inducing information about rest, physical activity, and exercise with which we are bombarded? In this myth-busting book, Daniel Lieberman, professor of human evolutionary biology at Harvard University and a pioneering researcher on the evolution of human physical activity, tells the story of how we never evolved to exercise—to do voluntary physical activity for the sake of health. Using his own research and experiences throughout the world, Lieberman recounts without jargon how and why humans evolved to walk, run, dig, and do other necessary and rewarding physical activities while avoiding needless exertion. *Exercised* is entertaining and enlightening but also constructive. As our increasingly sedentary lifestyles have contributed to skyrocketing rates of obesity and diseases such as diabetes, Lieberman audaciously argues that to become more active we need to do more than medicalize and commodify exercise. Drawing on insights from evolutionary biology and anthropology, Lieberman suggests how we can make exercise more enjoyable, rather than shaming and blaming people for avoiding it. He also tackles the question of whether you can exercise too much, even as he explains why exercise can reduce our vulnerability to the diseases mostly likely to make us sick and kill us.
