

Who Created The Eu Migrant Crisis And Why

Solidarity. From the Heart or by Force ? Lucas

Schramm.2018-07-27 Master's Thesis from the year 2018 in the subject Politics - International Politics - Topic: European Union, grade: 2,0, College of Europe (Department for European and Governance Studies), language: English, abstract: In the years 2015 and 2016, the European Union (EU) and (some of) its member states were facing a very high number of asylum-seekers. This inflow revealed the shortcomings and dysfunctionalities of the European asylum system and plunged the EU into one of its biggest crises: Member states could hardly agree on common measures, and different national preferences for dealing with asylum-seekers led to profound and ongoing political divisions. Germany, which particularly was affected by the inflow, sought to 'europeanize' the phenomenon and to distribute the loads more evenly across the EU - but met major resistance. Contrarily to the widely held view - both in the academic literature and the European public - that Germany, in recent years, has shaped and even dominated European politics, it largely failed with its main policy proposals in the refugee and migrant crisis. To uncover the reasons, the present thesis applies an analytical model of 'political leadership'. Based on current academic research, relevant newspaper articles and self-conducted expert interviews, it is argued that there might have been supply but not sufficient demand for successful German political leadership. In doing so, this thesis so far is the only larger academic paper that explicitly links the latest research on political leadership with Germany's role in the EU's refugee and migrant crisis.

Europe - Germany and the Migrant Crisis Frank Keith. The migrant crisis has a solid grip on Europe. For months it's been in the forefront of news accounts. As 2015 comes to a close, it's apparent that the challenges and problems this situation poses for the EU are only the beginning. The continent faces ever greater numbers of people fleeing the third-world. The reasons are many, the problems they bring with them too. If allowed to go unchecked, they could prove to be insurmountable. The essay encompasses many facts and figures, some scarcely known to the general public, even to those who are forced to live through the largest waves of human migration seen in this part of the world since WWII.

Small States and the European Migrant Crisis Tómas Joensen, Ian Taylor. 2021-04-26 This edited book examines the experience of small states in Europe during the 2015–2016 migration crisis. The contributions highlight the challenges small states and the European Union faced in addressing the massive irregular flow of migrants and refugees into Europe and the Schengen Area. Small states adopted a number of coping strategies and proved relatively effective in navigating the storm they faced. Externally they pursued strategies of shelter-seeking, hiding, hedging and norm entrepreneurship, while domestically they tended to securitize migration and to pursue scapegoating by blaming the EU and other states for the nature and magnitude of the crisis. During this crisis management, their small administrations proved resilient and flexible in their responses, despite suffering from limited resources and being subject to the shifting preferences of stronger actors. This book shows that independent of whether we view the migration crisis as a crisis for the European Union or Europe as a whole, or how we interpret the intensity and severity of the crisis, this was a crisis for small states in Europe. The crisis disrupted the liberal and institutionalized order upon which small states in the region had increasingly based their policies and influence for more than 60

years.

Unravelling Europe's 'migration crisis' Crawley, Heaven, Duvell, Franck. 2017-12-13 What is it like to travel to Europe over land and sea in order to secure a future for yourself and your family? Why are so many people willing to risk their lives crossing the Mediterranean? What are their hopes and fears? And why is Europe, one of the richest regions of the world, unable to cope? Drawing on compelling first-hand accounts from 500 people who arrived on the shores of Europe in 2015, this important new book unpacks their routes, experiences and decisions. It provides a framework for understanding the dynamics underpinning recent unprecedented levels of migration across, and loss of life in, the Mediterranean, casting new light on the 'migration crisis' and challenging politicians, policy makers and the media to rethink their understanding of why and how people move.

Political and Military Sociology Karthika Sasikumar, Danijela Dudley. 2018-08-06 This special edition of *Political and Military Sociology: An Annual Review* encompasses a full range of coverage on the European refugee crisis. Contributions include a focus on the characteristics and motivations of modern-day migrants, an analysis of the inconsistent standards displayed by the European Union, and the militarization happening across parts of Europe in response. The volume leads with a discussion on the identity of the refugees: who are they and what are their reasons for leaving their homelands? Following chapters cover the response across Europe in countries including Serbia, Greece, Turkey, and Italy. The penultimate chapter examines the European Union's inadequate response to the unfolding crisis, and the book concludes with a central analysis of the agreements between the EU and transit countries with remarks on the unintended consequences that have emerged.

Nobody Move! Roderick Parkes. 2017

Migration Law, Policy and Human Rights Rachael

Dickson. 2022-04-28 Migration is one of the greatest societal

challenges of our time. It has many facets, from mass movements to escape war, climate, or human rights abuses to the search for economic opportunity and prosperity. Illicit industries facilitate border crossings at the expense of safety, and governments face problems of processing and integrating new arrivals. These challenges have had a profound impact in Europe, calling into question central values of solidarity and human rights. This book analyses the law and policy of migration in the European Union (EU) and its relationship to understandings of the EU as an international human rights actor. It examines the role crisis plays in determining the priorities of migration policy and the impact political exigencies have on the rights of migrants. This book problematises the EU Area of Freedom, Security, and Justice as a 'home.' Taking a governmentality approach to critique discourse, the idea of a holistic approach is deconstructed to explore notions of wellness, resilience, responsabilisation and externalisation. The EU's pursuit of a holistic approach to managing migration in crisis indicates problems with EU solidarity, and the tactics employed to bring the crisis under control reveal security concerns that provoke questions about the EU as an international human rights actor. Both this framework for analysis and the empirical findings make a significant contribution to how the migration crisis can be theorised using adaptable conceptual tools. Under this form of governance, migration becomes a phenomenon to be treated so that its symptoms are ameliorated. This book will be of interest to students and scholars of the EU, migration, and human rights as well as policymakers, commentators, and activists in these areas.

African Migrants and the Refugee Crisis Olayiwola

Abegunrin, Sabella O. Abidde. 2020-11-12 This book discusses African migration and the refugee crisis. Economic, political and social tension in the Middle East and in many parts of the Global South has induced historic mass migration across national and international borders. The situation is especially dire in Africa,

where a sizable number of Africans have chosen or have been forced to leave their countries of origin for Europe and North America. Written by an international team of scholars, this edited book traces the refugee crisis around the world, telling the necessary story of forced migration, intentional exclusion, and human insecurity from an Afrocentric lens. The volume is divided into three sections. Section I places African migration within the broader contexts of international history, law, economics, and policy. Section II discusses cases of African migration to Europe, Latin America, and the Mediterranean. Section III considers negative consequences of mass African migration, including the restriction and criminalization of migration, post-traumatic stress disorder, and gender-based violence. A compelling account of risk, resilience, and global power dynamics, this volume will be useful to students and researchers interested in African studies, migration, peace and conflict studies, and policy as well as professionals, practitioners, NGOs, IGOs, governmental and humanitarian organizations.

Bordered Lives Hsiao-Hung Pai. 2018-04-17 The headlines about Europe's migration crisis have now subsided, though they continue to influence the political agenda all over the continent. Though there are moments when the human reality cuts through, as with the shocking picture of Alan Kurdi's body on the beach, for the most part the individual stories are lost amid the hysteria over cutting migrant numbers and shutting the doors of Fortress Europe. Award-winning journalist Hsiao-Hung Pai specializes in communicating poignant human stories that many people find it convenient to keep out of sight and out of mind. She travels to meet migrants and asylum-seekers who have just been washed up on the shores of Lampedusa or Sicily and have been absorbed into dismal reception camps. While journalists ordinarily pitch up in such places and file their colour pieces before moving on to the next hot topic, Hsiao-Hung follows through, staying in touch with some of those she encounters - many of them children -

throughout their journeys: into mainland Italy, to Germany where they face harassment from far-right groups, and to the appalling conditions in the camps on the coast of northwest France

Fortress Europe? Annette Jünemann, Nikolas Scherer, Nicolas Fromm. 2017-03-16 An unprecedented number of people is currently on the move seeking refuge in Europe. Large parts of European societies respond with anxiety and mistrust to the influx of people. Nationalist, anti-migrant parties from Slovakia over Germany to the UK have gained increasing support among the electorate and challenge the political mainstream. Europe is struggling how to respond. While the search for solutions is ongoing one pattern seems to be emerging: Fortress Europe is in the making. Unfortunately, few of these discussions and measures consider the structural root causes and dynamics of migration, the motives of migrants or societal challenges more thoroughly. This book seeks to address this deficit. Taking migration and asylum policies as a starting point, it analyses the various dimensions underpinning migration. In doing so, it identifies why receiving countries are in many ways part of the problem. To eschew an overtly Euro-centric perspective and stimulate a debate between science and politics, it contains contributions by academics and practitioners alike from both shores of the Mediterranean.

Legal aspects of the EU policy in tackling the migration crisis
Vadym Yasinskyi. 2019-05-07 Master's Thesis from the year 2018 in the subject Law - European and International Law, Intellectual Properties, grade: 1, University of Vienna, language: English, abstract: The development of modern world is impossible to imagine without processes of migration of the population. Migration crisis, which began in the EU states in April 2015 in connection with uncontrolled flow of refugees and migrants from zones of armed conflicts in middle East as well as in number of African and Asian states with unfavorable socio-economic conditions caused extremely negative effect on the internal

political situation and the perspectives of the development of both individual Member States of the EU and European community as a whole. Being one of globalization process manifestation, migration in large causes positive influence on social, economic and political development of states, contributes to integration of integration of international community , cultural convergence of peoples, development of productive forces. However, if migration processes have uncontrolled character, the level of state security is significantly reducing. Especially it has to be considered in the present period when global community faces terrorist threats and violence. The relevance of my master thesis is stipulated by exacerbation of illegal immigration problem due to widening of the EU in recent times, which entailed improvement of national legislations and the European Law in this field. Thus, there is a necessity of the analysis of the EU law application experience in sphere of tackling the illegal migration.

The Migrant Crisis Melani Barlai, Birte Fährnich, Christina Griessler, Markus Rhomberg. 2017-06-05 For a long time migration to Europe has been a subordinate issue on the public agenda. But with the recent wave of refugees from Arab and African countries, the question of how the EU, national governments and societies are able to cope with the arrival of millions of migrants, has become a core theme of public discourse. This volume displays the debates for the countries which are on the migration routes or which are among the most desired targets, hence are the most affected. The book thus attempts to give a broader European perspective on the migrant crisis and its public repercussions. Identifying Security Logics in the EU Policy Discourse Maciej Stępką. 2022 This open access book investigates the complexity and the modalities of securitization of migration and border control at the EU level. It discusses and compares how different

EU institutions and agencies have been deploying different logics of security, e.g. humanitarianism or management of risk, while framing increased migratory flows and so called migration crisis as a security problem. The book argues that the (re)development of EU migration and border control policies in response to increased migratory flows of 2015 have revealed an increasingly tangled nature of securitization of migration in the EU. This is reflected in the intertwining of security logics where migrants and human mobility tend to be securitized through different, sometimes multiple, interpretative lenses at different stages of policy framing. From a theoretical point of view, the book develops a fresh analytical perspective that further contributes to burgeoning discussion on securitization theory. By bridging the literature on policy framing and securitization it makes a significant contribution to the debates on both securitization and migration. As such this book is of great interest to students, academics, policy makers and all those working in the fields of EU politics, migration, security, and international relations.

"States must protect all migrants against violence based on racism and xenophobia, exploitation, and forced labor. Migrants should not be detained without legitimate reasons or forcefully send back to their home country. States must take responsibility for and fulfill these responsibilities meticulously for refugees, asylum seekers and immigrants to be able to rebuild their lives safely against serious dangers. Sharing responsibility for global problems is fair in the 21st century". İçindekiler

Migration: The Challenge of European States Jaroslav Bardovic, Jakub Mihalik.2019-11-27 In the US as well as in Europe, migration and migration policy is one of the top issues. This timely volume gathers distinguished authors from academic institutions throughout Europe addressing the growing importance of migration policy making and the refugee crisis that European Union member states and other countries are currently facing. By focusing on the most important effects that the

migration from Third World countries has brought to the European Union, they provide a critical overview of the politicization, securitization, and social discourse of migration. The authors analyze the impacts on public administration and governance and also discuss the rise of the radical right in EU member states, the rise of populism, and the alienation of citizens from formal politics which is also caused by the growing interest in security and public safety. The pan-European character of the publication's scope is vested in its narration; the contributors cover the situation in Western Europe, the critical positions of the Visegrad countries as well as foreign policy making in Slovenia and the Western Balkans. Moreover, the authors address case studies from states such as Armenia and Moldova, including their labor migrants in the Western world. The collection is completed by contrasting and discussing the immigration policies of countries that are well-known for their open and liberal immigration activities such as Australia, Canada, New Zealand, and the United States.

Migration Policy in Crisis Ibrahim Sirkeci, Emília Lana de Freitas Castro, Ülkü Sezgi Sözen. 2018-08-27 Migration and challenges associated with human mobility are here to stay. We, as migration scholars, reiterate, rethink, reconsider what we do know and identify areas for further investigation constantly. Every year we get intrigued by volumes of research and scholarship presented at the Migration Conferences (TMC) since 2012. At the fifth conference in 2017 held at Harokopio University in Athens, about 400 papers were disseminated by researchers covering different aspects, approaches, methods, and takes on human mobility. This edited volume in hand here, although inspired and shaped by the contributions initially presented at the TMC 2017, is more than a conference proceedings book. The volume includes not only more experienced and distinguished academics but also new researchers committed to high quality scholarship in this field. "Migration has become an everyday topic in the last years, and

the arrival of persons fleeing for their lives or human rights or in search of a better life has been deemed as a “crisis”. In reality, though, Politics are creating a crisis of protection. This book flashes out this scenario in Europe, pointing to the crisis of policies towards migrants in the EU. To face the challenges in the current international setting balancing the interests of States and the needs of human beings is essential. This requires analysis a commitment to being comprehensive, propositional and analytical and this book delivers this.” – Liliana Lyra Jubilut, Professor in International Law, Member of the IOM Migration Research Leaders’ Syndicate, Brazil “Whenever we hear the voices of irresponsible populists trying to destroy the European project, we should never forget that we live in and have to fight for an age of enlightenment. The volume at hand provides a superb reminder.”

Migration, Terrorism, and the Future of a Divided Europe

Christopher Deliso. 2017-05-18 A fundamental resource for anyone interested in the long-term ramifications of the European migration crisis, this book objectively assesses how Europe's future course will be impacted by the key security, political, and economic trends and events stemming from the migration crisis. The November 13, 2015 Paris terrorist attacks marked the definitive moment when the migration crisis became associated with terrorism, stoking an increasingly heated debate over the perceived dangers of migration, Islam, and extremist politics in Europe. The sudden emergence of migration as the mobilizing factor for European security, political discourse, and socio-economic realities has profoundly affected Europe's contrasting perceptions of its own identity and values, precipitating an increasingly global response to tackling migration challenges in Europe and worldwide. *Migration, Terrorism, and the Future of a Divided Europe: A Continent Transformed* chronicles the turbulent events of the 2015–2016 migration crisis, creating a context in which future political, economic, social, and security trends in Europe can be understood. The study also examines in detail the deep history of the ideological origins and histories of treaties and policies that have defined the European Union and its guidance of the crisis. Readers will gain insight into the origins, factual realities, and projected ramifications for the continent's future security, politics, and socio-economic identity; the impact of media coverage on public perception; the differing policies and rhetoric of rival right- and left-wing parties in Europe; and the

new security threats arising from a widened terrorist threat matrix that will comprise new targets, methods, and logistics. Finally, the book outlines the larger policy actions and trends expected, on the global level, towards handling future migration crises, and explains how this will have an impact on Europe. This important new work is the cumulative result of author Chris Deliso's extensive academic background in European history and thought; his on-the-ground presence in the target region before, during, and after the crisis; and his interviews with security officials, diplomatic figures, and practitioners directly involved with shaping the policies that were visible during the crisis. Offering a broad historical context, the text portrays the current crisis within the context of a much longer institutional and ideological divide that has existed in Europe and shaped policies for almost a century.

Solidarity and the 'Refugee Crisis' in Europe Óscar García Agustín, Martin Bak Jørgensen. 2018-07-19 New forms of solidarity are being shaped as a response to the European “refugee crisis.” The state—in the form of national governments—has not been able to implement any viable or sustainable solution to the crisis, but the solidarity movement has been very visible and active in European countries. This book offers a conceptualization of three types of solidarity: autonomous, civic, and institutional solidarity. This framework is applied to three case studies, illustrating the emergence of different forms of solidarity: the City Plaza Hotel in Athens, the Danish “friendly neighbors,” and Barcelona as refuge city.

Migration and Mobility in the European Union Andrew Geddes, Leila Hadj-Abdou, Leiza Brumat. 2020-04-22 International migration and mobility whether from outside the EU or in the form of free movement by EU citizens are controversial and potentially divisive issues that are and will remain at the top of the EU's political agenda. This fully revised and updated text

analyses the complex and often controversial nature of policymaking in this fast-developing field, and brings the discussion up to date as the ramifications of the so-called 'migration crisis' continue to unfold. It offers an exploration of the dynamics of migration and mobility in the EU including different types of migration; the EU's policy framework within which national policies are now located; and considers the widespread notion and public perception of policy failure in this field. Unique in its portrayal of policy responses to migration in Europe, this text will be essential reading for undergraduate and postgraduate students of the politics of migration, European integration and the Politics of EU, as well as anyone with an interest in this fascinating policy area.

How to Deal with Refugees? Gerhard Besier, Katarzyna Stoklosa. 2018-05-30 2015 was without any doubt the year of migrations. Over the subsequent two years, we have certainly seen the migration flows reduce, but it was never going to be possible to halt them altogether. From the outset of this phenomenon, numerous academics and researchers have dedicated themselves to the topic. They analyse the causes, the course of the migration flows, parallels and impacts, as well as possible scenarios of the migration movement. A wide-reaching debate has evolved on the topic of migration, to which the authors in this anthology were also keen to contribute conflict regulations attempts. In this publication, historians, political scientists, philosophers, sociologists, geographers, human geographers, economists, literary scientists, legal scholars, theologians and psychiatrists from a range of European and Non-European countries have each contributed from their individual standpoints.

National Rhetorics in the Syrian Immigration Crisis Clarke Rountree, Jouni Tilli. 2019-10-01 The Syrian refugee crisis seriously challenged countries in the Middle East, Europe, the United States, and elsewhere in the world. It provoked reactions from humanitarian generosity to anti-immigrant warnings of the

destruction of the West. It contributed to the United Kingdom's "Brexit" from the European Union and the election of Donald Trump as president of the United States. This book is a unique study of rhetorical responses to the crisis through a comparative approach that analyzes the discourses of leading political figures in ten countries, including gateway, destination, and tertiary countries for immigration, such as Turkey, several European countries, and the United States. These national discourses constructed the crisis and its refugees so as to welcome or shun them, in turn shaping the character and identity of the receiving countries, for both domestic and international audiences, as more or less humanitarian, nationalist, Muslim-friendly, Christian, and so forth. This book is essential reading for scholars wishing to understand how European and other countries responded to this crisis, discursively constructing refugees, themselves, and an emerging world order.

Solidarity in the European Union Andreas Grimmel, Susanne My Giang. 2017-06-30 This volume approaches the current crisis of solidarity in the European Union from a multidisciplinary perspective. The contributions explore the concept of solidarity, its role in the European integration process, and analyze the risks entailed by a lack of solidarity. Experts from various academic fields, such as political science, law, sociology, and philosophy, shed new light on contemporary challenges such as the migrant and refugee crisis, the Eurozone crisis, nationalist and separatist movements, and Brexit. Finally, they also discuss different solutions for the most pressing problems in EU politics. The book has two main aims: Firstly, to show that solidarity is a key element in solving the EU's contemporary problems; and secondly, to reveal how the crisis of solidarity has become a crucial test for the integration project, as the nature of the crisis goes beyond the well-known shortcomings in the EU's structure and problem-solving capacities.

the Andrew Carnegie Medals for Excellence 2017 “Galvanizing and deeply compassionate.” —O Magazine From Time magazine’s European Union correspondent, a powerful exploration of the refugee crisis in the Mediterranean, told through the stories of migrants who have made the perilous journey into Europe In 2015, more than one million migrants and refugees, most fleeing war-torn countries in Africa and the Middle East, attempted to make the perilous journey into Europe. Around three thousand lost their lives as they crossed the Mediterranean and Aegean in rickety boats provided by unscrupulous traffickers, including over seven hundred men, women, and children in a single day in April 2015. In one of the first works of narrative nonfiction on the ongoing refugee crisis and the civil war in Syria, *Cast Away* describes the agonizing stories and the impossible decisions that migrants have to make as they head toward what they believe is a better life: a pregnant Eritrean woman, four days overdue, chooses to board an obviously unsafe smuggler’s ship to Greece; a father, swimming from a sinking ship, has to decide whether to hold on to one child or let him go to save another. Veteran journalist Charlotte McDonald-Gibson offers a vivid, on-the-ground glimpse of the pressures and hopes that drive individuals to risk their lives. Recalling the work of Katherine Boo and Caroline Moorehead, *Cast Away* brings to life the human consequences of one of the most urgent humanitarian issues of our time.

Europe and the Refugee Crisis Frances Trix.2018-11-29 Since 2014, more than 60 million people have been displaced from their homes across the Middle East and Africa. The European Refugee Crisis, as it has come to be known, is now the largest such crisis since the aftermath of World War II. How have local communities reacted to the influx of asylum seekers? And what can we learn from their responses? Frances Trix here offers a wide-ranging ethnographical and anthropological study of local, individual responses to refugees, from Macedonia to Germany. Based on

extensive interviews and field work in Europe, Trix focuses for the first time on the ways that refugees have been welcomed - or not, as the case may be - by various individuals and communities. Her work ranges from Macedonians who established an NGO and lobbied to allow the refugees to use the train, to the police charged with border management; from a German organic food store owner who by her actions set the positive tone in her village, a retired IT manager who coordinates refugee volunteers for his entire town, to the district work organisation director who deems refugees unsuitable for multiple reasons. The material is measured throughout against Trix's anthropological experience, as well as reference to the historical and political contexts in which events are unfolding. This book is essential reading for all those working on the refugee crisis and the prospects - both local and global - for the future.

At Europe's Edge Cetta Mainwaring, 2019-09-05 The Mediterranean Sea is now the deadliest region in the world for migrants. Although the death toll has been rising for many years, the EU response remains fragmented and short sighted. Politicians frame these migration flows as an unprecedented crisis and emphasize migration control at the EU's external boundaries. In this context, *At Europe's Edge* investigates why the EU prioritizes the fortification of its external borders; why migrants nevertheless continue to cross the Mediterranean and to die at sea; and how EU member states on the southern periphery respond to their new role as migration gatekeepers. The book addresses these questions by examining the relationship between the EU and Malta, a small state with an outsized role in migration politics as EU policies place it at the crosshairs of migration flows and controls. The chapters combine ethnographic methods with macro-level analyses to weave together policymaker, practitioner, and migrant experiences, and demonstrate how the Mediterranean is an important space for the contested construction of 'Europe'. This book provides rich insight into the

unexpected level of influence Malta exerts on EU migration governance, as well as the critical role migrants and their clandestine journeys play in animating EU and Maltese migration policies, driving international relations, and producing Malta's political power. By centring on the margins, the book pushes the boundaries of our knowledge of the global politics of migration, asylum, and border security.

Reclaiming migration Vicki Squire, Nina Perkowski, Dallal Stevens, Nick Vaughan-Williams. 2021-03-10 Reclaiming migration critically assesses the EU's migration policy by presenting the unheard voices of the so-called migrant crisis. It undertakes an extensive analysis of a counter-archive of migratory testimonies, co-produced with people on the move across the Mediterranean during 2015 and 2016, to document how EU policy developments create precarity on the part of those migrating under perilous conditions. The book draws attention to the flawed assumptions embedded within the policy agenda, while also exploring the claims and demands for justice that are advanced by people on the move. Written collectively by a team of esteemed scholars from across multiple disciplines, Reclaiming migration makes an important contribution to debates surrounding migration, borders, postcolonialism and the politics of knowledge production.

Lights in the Distance Daniel Trilling. 2018-09-18 Immersive, engrossing report on the European refugee crisis A mother puts her children into a refrigerator truck and asks, "What else could I do?" A runaway teenager comes of age on the streets, sleeping in abandoned buildings. A student leaves his war-ravaged country behind because he doesn't want to kill. Everyone among the thousands of people who come to Europe in search of asylum each year possesses a unique story. But those stories don't end as they cross into the West. In Lights in the Distance, acclaimed journalist Daniel Trilling draws on years of reporting to build a portrait of the refugee crisis as seen through the eyes of the

people who experienced it firsthand. As the European Union has grown, so has a tangled and often violent system designed to filter out unwanted migrants. Visiting camps and hostels, sneaking into detention centers, and delving into his own family's history of displacement, Trilling weaves together the stories of people he met and followed from country to country. In doing so, he shows that the terms commonly used to define them—"refugee" or "economic migrant," "legal" or "illegal," "deserving" or "undeserving"—fall woefully short of capturing the complex realities. The founding story of the EU is that it exists to ensure the horrors of the twentieth century are never repeated. Now, as it comes to terms with the worst refugee crisis since the Second World War, its declared values of freedom, tolerance and respect for human rights are being put to the test. *Lights in the Distance* is a uniquely powerful and illuminating exploration of the nature and human dimensions of the crisis.

Constitutionalising the External Dimensions of EU

Migration Policies in Times of Crisis Sergio Carrera, Juan Santos Vara, Tineke Strik. This discerning book examines the external dimension EU migration and asylum policies in times of crisis. It thoroughly assesses patterns of co-operation in EU migration management with a focus on co-operation with the global south. A key resource for academics and students focussing on EU Law and migration more specifically, this book will also appeal to policy-makers, legal practitioners and international organisation representatives alike.

Media coverage of the "refugee crisis": A cross-European perspective

Georgiou, Myria, Zaborowski, Rafal. 2017-05-19
Media have played an important role in framing the public debate on the "refugee crisis" that peaked in autumn of 2015. This report examines the narratives developed by print media in eight European countries and how they contributed to the public perception of the "crisis", shifting from careful tolerance over the summer, to an outpouring of solidarity and humanitarianism in

September 2015, and to a securitisation of the debate and a narrative of fear in November 2015. Overall, there has been limited opportunity in mainstream media coverage for refugees and migrants to give their views on events, and little attention paid to the individuals' plight or the global and historical context of their displacement. Refugees and migrants are often portrayed as an undistinguishable group of anonymous and unskilled outsiders who are either vulnerable or dangerous. The dissemination of biased or ill-founded information contributes to perpetuating stereotypes and creating an unfavourable environment not only for the reception of refugees but also for the longer-term perspectives of societal integration.

The EU Migration System of Governance Michela

Ceccorulli, Enrico Fassi, Sonia Lucarelli. 2020-10-01 This book

explores the norms, practices, and main actors in the EU Migration System of Governance (EUMSG). Bringing a fresh perspective to the analysis of asylum and migration in Europe, the volume unpacks the European Union's approach to migration and points to the principles and actions of EU member states.

Moreover, it explores the EUMSG's performance through the lenses of three alternative yet coexistent understandings of justice (non-domination, impartiality, and mutual recognition), thereby overcoming a unilateral ethical viewpoint and moving away from the 'open-closed borders' debate.

Who Created the Eu Migrant Crisis and Why? J. A.

Sexton. 2017-07-11 The migrant crisis. Most of us throughout the western world have heard about it. Sometimes we've heard good things, sometimes bad. On Twitter, for example, we tend to hear a lot about epidemics of crime and rape, as well as chaotic demonstrations of violence - burning and overturning of vehicles, blockading of roads, flash mobs, etc. - in relation to the so-called Syrian refugees fleeing war-torn Syria. On YouTube and other official venues, which are subject to stricter regulation, oversight and perception management, we tend to hear mostly only good

things about the refugees. What we don't hear a lot about is who is behind this migrant crisis. And if we do not know much about who is behind it, then we cannot very well understand why it's happening. We get only bits and pieces in videos, essays, blogs and Tweets online. And what we do get online is either incorrect or incomplete. That's where this book comes into the picture. We are going to give you all of the correct why's in one, concise presentation. The goal of this book is to provide all Westerners with a comprehensive, if brief, explanation of the migrant crisis in a straightforward, unemotional, objective manner. This book is intended to be passed around and shared with others who are perplexed by this ongoing development. On the Web: <https://wilkmocy.com>

The European Migrant Crisis Riley M. Townsend.2015-09-02 The European Migrant Crisis is out of control and worsening each day. This is a complex immigration issue that involves many international organizations and countries. There is no current unified policy for the rising numbers of refugees and migrants, and we have reached a critical point. Riley M. Townsend's curated collection *The European Migrant Crisis*, covers the statistics, history, and main issues of this current international dilemma.

The Disaster of European Refugee Policy Marina Lukšič Hacin, Neža Kogovšek Šalamon, Igor Ž. Žagar.2019-01-29 This volume addresses the mass arrival of migrants and refugees in Europe in 2015 and 2016, and the crisis of response that unfolded across the continent. The chapters critically discuss this crisis and help the reader to understand why the refugees and migrants fled, what kind of response they faced and what was wrong with the reactions of the states. Despite the fact that all the authors are based in Slovenia, the volume transcends this particular state and covers theoretical and practical aspects of the crisis which are not geographically limited to only one country or region. It addresses a variety of audiences, such as students, researchers,

sociologists, political scientists, lawyers, geographers and philosophers, and will appeal to those who seek to understand forced migration and refugee protection, states' responses to migration and asylum seekers, and the rise of hate speech, racism, xenophobia and authoritarianism in Europe.

The European Migrant Crisis Mary E. Johnson.2015-10-30 The European refugee crisis arose through the rising number of refugees and migrants coming to the European Union, across the Mediterranean Sea or through Southeast Europe, and applying for asylum. Learn all about this unprecedented upheaval in this collection of articles by Mary E. Johnson.

The European Refugee Crisis Michèle Wagner.2019-07-01 Seminar paper from the year 2019 in the subject Politics - International Politics - Topic: European Union, grade: 1,7, University of Applied Sciences Essen, language: English, abstract: The problem of this term paper is the same which millions of Europeans discuss daily, does the refugee crisis create more advantages or more disadvantages? Does it entail risks or does it bring more opportunities than expected? This paper is intended to give a picture of migration in Europe and to show that migration is a widespread and strategic component of the industrialization history of Europe over the last 300 years. Starting with the migration of workers from Westphalia to Amsterdam in the 18th century or the migration of Italian workers to German railway and urban construction in the 19th century. Migrant workers who came to Paris and German Jews who fled to neighboring countries as far as the USA. It is intended to show how history can contribute to seeing today's refugee and immigration policy in a different light and to correcting the notion that Europe is not a continent of immigration. There will not be a comprehensive overview of individual events, but rather a focus on how migrations arise, happen and end. How they give host countries the chance to develop, but also the risks involved in receiving and caring for refugees. The focus of this work will be

on the flow of refugees from 2015 to 2018.

Europe Migration Crisis Michael C. Melvin.2016-02-06 Europe migration crisis has indeed created alot of political debates and public point of views. The Doctor does a great job by factually highlighting the issue based on timeline and history this he did by presenting the issue as a European as well global issue that affects all countries including the United States. With total factuality and graphic analysis the book explains in great details about everything that one needs to know about migration crisis in europe starting with its origin and timeline. Details in the book are indeed quite recommended for anyone wanting to come in grasp with the progress that been made towards averting as well reducing the crisis, and the political directions that has and will be made in efforts to curtailing the problem.

Transnational Migration and Border-Making Robert Sata.2020-06-18 This book deals with the ongoing processes of migration and boundary-(re)making in Europe and other parts of the world.

The New Odyssey Patrick Kingsley.2016-05-03 Europe is facing a wave of migration unmatched since the end of World War II - and no one has reported on this crisis in more depth or breadth than the Guardian's migration correspondent, Patrick Kingsley. Throughout 2015, Kingsley travelled to 17 countries along the migrant trail, meeting hundreds of refugees making epic odysseys across deserts, seas and mountains to reach the holy grail of Europe. This is Kingsley's unparalleled account of who these voyagers are. It's about why they keep coming, and how they do it. It's about the smugglers who help them on their way, and the coastguards who rescue them at the other end. The volunteers that feed them, the hoteliers that house them, and the border guards trying to keep them out. And the politicians looking the other way. The New Odyssey is a work of original, bold reporting written with a perfect mix of compassion and authority by the journalist who knows the subject better than any other.

The Role of EU Agencies in the Eurozone and Migration

Crisis Johannes Pollak, Peter Slominski. 2020-11-30 This book provides a wealth of empirical material to understand key aspects of EU governance including its plurality of actors and policy making modes and its functioning during crisis management. Authored by legal scholars and political scientists, it presents new research and insights on the role of EU agencies in the context of the Euro and migration crises. Specifically, the contributions assess why the crises have led to the creation of new EU agencies and what roles these agencies have performed since their inception; how the crisis, notably the migration crisis, has impacted on existing EU agencies; how EU agencies have shaped the policies during and after the crises; and, how the crisis has affected the accountability of EU agencies. This book is essential in understanding the intricacies of EU crisis management and the specific role of EU agencies therein, as well as EU governance more broadly.
