Shadow Banking and U.S. Financial Regulatory Policy Vivian Kelemen.2014 Shadow banking refers to financial firms and activities that perform similar functions to those of depository banks. Although the term is used to describe dissimilar firms and activities, a general policy concern is that a component of shadow banking could be a source of financial instability, even though that component might not be subject to regulations designed to prevent a crisis, or be eligible for emergency facilities designed to mitigate financial turmoil once it has begun. This book develops a general framework for analysing financial intermediation, and applies these concepts to several specific shadow banking sectors. The book focuses on comparing and contrasting the fundamental economic problems of simple banking and associated policy responses to analogous problems and policy proposals in shadow banking.

Anglomania Ian Buruma.2015-09-10 With its distinctive history of civil liberties and the delicate balance between social order and the free pursuit of self-interest, England has always fascinated its continental neighbours. Buruma examines the history of ideas of Englishness and what Europeans have admired (or loathed) in England across the centuries. Voltaire wondered why British laws could not be transplanted into France, or even to Serbia; Karl Marx thought the English were too stupid to start a revolution; Goethe worshipped Shakespeare; and the Kaiser was convinced that Britain was run by Jews. Combining the stories of European Anglophiles and Anglophobes with memories of his own Anglo-Dutch-German-Jewish family, this utterly original book illuminates the relationship between Britain and Europe, revealing how Englishness - and others' views of it - have shaped modern European history.

Rethinking a Lot Eran Ben-Joseph.2015 As the number of passenger cars in the world increases daily, so too does Earth's supply of parking spaces. In some cities, parking lots cover more than one-third of the metropolitan footprint--but their design and function has not been rethought since the 1950s. Here, urban designer Eran Ben-Joseph shares a different vision for parking's future--aesthetically pleasing, environmentally and architecturally responsible. He provides a visual history of this often-ignored urban space, introducing us to some of the many alternative and nonparking purposes that parking lots have served. He shows us parking lots that are lushly planted with trees and flowers and beautifully integrated with the rest of the built environment. With purposeful design, Ben-Joseph argues, parking lots could be significant public places, contributing as much to their communities as great boulevards, parks, or plazas.--From publisher description.

Dalit Feminist Theory Sunaina Arya, Aakash Singh Rathore. 2019-09-09 Dalit Feminist Theory: A Reader radically redefines feminism by introducing the category of Dalit into the core of feminist thought. It supplements feminism by adding caste to its study and praxis; it also re-examines and rethinks Indian feminism by replacing it with a new paradigm, namely, that caste-based feminist inquiry offers the only theoretical vantage point for comprehensively addressing gender-based injustices. Drawing on a variety of disciplines, the chapters in the volume discuss key themes such as Indian feminism versus Dalit feminism; the emerging concept of Dalit patriarchy; the predecessors of Dalit feminism, such as Phule and Ambedkar; the meaning and value of lived experience; the concept of Difference; the analogical relationship between Black feminism and Dalit feminism; the intersectionality debate; and the theory-versus-experience debate. They also provide a conceptual, historical, empirical and philosophical understanding of feminism in India today. Accessible, essential and ingenious in its approach, this book is for students, teachers and specialist scholars, as well as activists and the interested general reader. It will be indispensable for those engaged in gender studies, women's studies, sociology of caste, political science and political theory, philosophy and feminism, Ambedkar studies, and for anyone working in the areas of caste, class or gender-based discrimination, exclusion and inequality.
