Chianti Classico Bill Nesto,Frances Di Savino.2016-09-20 This book tells the story of the ancient land named Chianti and the modern wine appellation known as Chianti Classico. In 1716, Tuscany's penultimate Medici ruler, Cosimo III, anointed the region of Chianti, along with three smaller areas in the Florentine State, as the world's first legal appellations of origin for wine. In the succeeding centuries, this milestone was all but forgotten. By the late nineteenth century, the name Chianti, rather than signifying this historic region and its celebrated wine, identified a simple Italian red table wine in a straw-covered flask. È In the twenty-first century, Chianti Classico emerged as one of Italy's most dynamic and fashionable wine zones. Chianti Classico relates the fascinating evolution of Chianti as a wine region and reveals its geographic and cultural complexity. Bill Nesto, MW, and Frances Di Savino explore the townships of Chianti Classico and introduce readers to the modern-day winegrowers who are helping to transform the region. The secrets of Sangiovese, the principal vine variety of Chianti, are also revealed as the book unlocks the myths and mysteries of one of Italy's most storied wine regions. The publication of Chianti Classico coincides with the three hundredth anniversary of the Medici decree delimiting the region of Chianti on September 24, 1716.

Aesthetics and Technology in Building Pier Luigi Nervi.1965 Here is a verbal and pictorial illustration of the credo that has guided one of the world's most distinguished architects throughout his career. Architecture is, and must be, a synthesis of technology and art. Using nearly 200 drawings and photographs, including plans, interesting details, various stages of construction, and both interior and exterior views of some of his major works, Mr. Nervi shows how his philosophy is put into practice. Referring to most of his important projects, he discusses solutions to various functional and construction requirements where he used precast and cast-in-place concrete, emphasizing the richness of this material. Mr. Nervi stresses the advantages of reinforced concrete, which, he says, allows greater flexibility and makes it easier to satisfy his triple demand of economy, technical correctness, and aesthetic satisfaction. In predicting the future of architecture he stresses the necessity of architectural solutions that are functionally and technically sound. His final remarks concern his ideas about the proper course of study for architecture students, training that will produce architects with a far greater technical sense than in the past, a technical sense which results in a constant search for economic efficiency.

What Hell Is Not Alessandro D'Avenia.2019-01-24 The school year is finished, exams are over and summer stretches before seventeen-year-old Federico, full of promise and opportunity. But then he accepts a request from one of his teachers to help out at a youth club in the destitute Sicilian neighbourhood of Brancaccio. This narrow tangle of alleyways is controlled by local mafia thugs, but it is also the home of children like Francesco, Maria, Dario, Totò: children with none of Federico's privileges, but with a strength and vitality that changes his life forever. Written in intensely passionate and lyrical prose, What Hell Is Not is the phenomenal Italian bestseller about a man who brought light to one of the darkest corners of Sicily, and who refused to give up on the future of its children.

Ἡδύπαθεια Arcestratus (of Gela.),S. Douglas Olson,Alexander Sens.2000 Arcestratos of Gela was the author of a mock-epic poem, most likely entitled the Hedupatheia or Life of Luxury, that presented itself as a gastronomic tour of the Mediterranean world. Written sometime in the first two-thirds of the fourth century BCE, the Hedupatheia was widely read in the late classical and early Hellenistic periods and was translated into Latin by Ennius, through whom it influenced the work of later Roman poets including Horace. It survives today in fragments totalling about 330 lines. The Hedupatheia is a fundamental source for our understanding not only of fourth-century literature but also of the significance of food and dining and the reception of epic poetry in late classical society. This edition is based on a fresh examination of the manuscripts and is the first to combine an authoritative critical text of the fragments with a translation, a detailed philological and historical commentary, and an extensive introduction situating the poem in its literary, social, and cultural context.

Non Stop - le mie emozioni da Modena Park a qui Vasco Rossi,Michele Monina.2019-07-23 Negli ultimi tempi mi guardo intorno e vedo la disperazione della gente. Ecco, io voglio fare qualcosa contro questa disperazione, e la sola cosa che posso fare, che possiamo fare insieme, è cantare, suonare, stare bene. Vasco è un libro aperto. Nel senso letterale del termine: questo libro. Che è il suo racconto - parola per parola, foto per foto - della grande impresa appena compiuta: il Vasco NonStop Live 019. Un libro che è un concentrato di Vasco pensiero registrato dallo scrittore e critico musicale Michele Monina in tempo reale, mentre si sta allestendo il tour, mentre il tour si sta svolgendo, fino all'ultima data, fino all'ultimo fuoco d'artificio. Un diario in presa diretta del tour più emozionante di sempre. Una lunghissima chiacchierata iniziata subito dopo il concerto record del Modena Park e che affronta non solo la musica, ma tutte le tematiche sociali che per oltre quarant'anni hanno accompagnato la sua produzione e la sua carriera. Dall'emarginazione al pregiudizio, dalla voglia di libertà alla volontà di contrastare con tutte le forze e l'ironia l'idea ottusa che vuole l'altro da sé sempre e comunque peggiore. Un Vasco a tutto tondo, sempre più diretto, incisivo, come nei testi delle sue canzoni. Un Vasco anche più risolto, quello di questo secondo tempo della sua carriera, certo non meno arrabbiato, ma più deciso a farsi portavoce di un disperato bisogno di felicità proprio oggi, nell'epoca degli hater e del razzismo prêt-à-porter. Dai preparativi del suo ennesimo record, sei sold out di fila a San Siro, alla chiusura in bellezza con la magica trasferta in Sardegna, rivivrete le tappe del Tour grazie ai commenti di Vasco e alle emozionanti immagini dell'album fotografico che completa il libro.

Paris Primitive Sally Price.2007-10-15 In 1990 Jacques Chirac, the future president of France and a passionate fan of non-European art, met Jacques Kerchache, a maverick art collector with the lifelong ambition of displaying African sculpture in the holy temple of French culture, the Louvre. Together they began laying plans, and ten years later African fetishes were on view under the same roof as the Mona Lisa. Then, in 2006, amidst a maelstrom of controversy and hype, Chirac presided over the opening of a new museum dedicated to primitive art in the shadow of the Eiffel Tower: the Musée du Quai Branly. Paris Primitive recounts the massive reconfiguration of Paris's museum world that resulted from Chirac's dream, set against a backdrop of personal and national politics, intellectual life, and the role of culture in French society. Along with exposing the machinations that led to the MQB's creation, Sally Price addresses the thorny questions it raises about the legacy of colonialism, the balance between aesthetic judgments and ethnographic context, and the role of institutions of art and culture in an increasingly diverse France. Anyone with a stake in the myriad political, cultural, and anthropological issues raised by the MQB will find Price's account fascinating.

Comprehensive Geriatric Assessment Alberto Pilotto,Finbarr C. Martin.2017-12-29 This book offers an up-to-date review on the principles and practice of multidimensional assessment and management of the older individual, which represents the cornerstone of modern clinical practice in the elderly. The early chapters cover the main elements and scope of the comprehensive geriatric approach and explain the pathways of care from screening and case finding through to in-depth assessment and treatment planning. Subsequent chapters review the evidence of how best to apply the multidimensional assessment and management approach in defined healthcare settings and within specific clinical areas, such as cancer and

surgery. Finally, the education and training challenges are reviewed and the prospects for future clinical service and research in this important field are examined. The book is very timely given the recent advances in application of this approach, which reflect the growing international realization that older people are “core business” in many clinical areas where the role of specialist geriatric medicine has hitherto been limited. Accordingly, the book will be relevant to a wide range of clinicians. The authorship comprises many of the best known and widely published experts in their respective fields.

Anchored in photojournalism but working against the grain of spectacle, Tillim portrays the communities, social landscapes and symbolic structures of societies altered by conflict. From explorations of modernist architecture and its utopian ruins in post-colonial Angola, Congo and Mozambique, to the homes and private lives of Johannesburg's inner-city residents, Tillim's work raises timely questions about the politics and representation of the built environment.

Separate Rooms Pier Vittorio Tondelli.2004 Leo is an Italian writer in his thirties. Thomas, his German lover, is dead. On a plane to Munich, Thomas's home town, Leo slips into a reverie of their meeting and life in Paris, nights in Thomas's flat in Montmartre and a desperate, drug-induced flight through the forests of northern France that spells the end for Leo and Thomas' languid, erotic life together. Leo travels to find anonymity. Structured in three musical movements, *Separate Rooms* is a story of ideal love, broken by absence and separation. When Thomas was alive, he and Leo had separate rooms in order to preserve the urgency of their passion. Now, Leo faces solitude, the impossible striving of memory to recreate life and the hostility of a prejudiced world. *Separate Rooms*, Tondelli's last book, is a powerful novel of the strength of love and the trauma of death.

Monsanto Jim Gerritsen.2017-10-18 As a manufacturer of food and animal feed, seeds and chemical products, Monsanto is relentlessly developing and marketing new technologies. The monopoly it has arguably secured by dubious means bears no relation to its negligence with regard to potential risks. Particularly in light of the devastating consequences that are still causing suffering to people and the environment in many places, the company's self-portrayal as a forward-looking, omnipotent force for good seems cynical. The photographer Mathieu Asselin, who lives in France and Venezuela, has tried his hand at the daunting task of exploring the issues surrounding Monsanto. His investigative photographic study manages to capture the complexity of this topic, creating links between past, present and future and illuminating many different aspects from a variety of perspectives.

What If I Had Never Tried It Enrico Borghi, Valentino Rossi.2009-09-10 Arguably the world's all-time greatest motorcycle road racing champion, Valentino Rossi is without a doubt the best--and the best-loved--in modern times. In *What If I Had Never Tried It* he tells his remarkable story for the first time. And as might be expected, the story he tells is fast-paced, full of surprises, action-packed, and always entertaining. The son of 1970s racer Graziano Rossi (whose number, 46, he wears when racing), Valentino was born in Urbino, Italy in 1979. Here he relates how he started racing as a teenager, first with karts and minimotos (minibikes). He then traces his rapid and seemingly inexorable progress--from the 125 class to the 250 class to the 500s and finally on to 990 cc four-stroke, now known as MotoGP--to become a seven-time World Champion in Grand Prix racing by the time he was twenty-six. As he describes starting his career as a clownish upstart, only to emerge as “The Doctor” so famed for his precision, Rossi's crowd-pleasing character comes through in abundance. One moment a charismatic jokester, the next an insightful analyst, he is finally the single-minded, focused, strategic racer with split-second skills the rest of us can only dream of, giving us a glimpse of how one man has forever changed the face of motorcycle road racing.

The final output is a system of thinking for the decision making processes in sensitive mountain landscapes.

Once Upon a Time in Italy Christopher Frayling.2005-07 In the mid-1960s an unknown Italian film director named Sergio Leone was given \$200,000 and some leftover film stock, and he went to make a Western. With an American TV actor named Clint Eastwood and a script based on a samurai epic, Leone wound up creating A Fistful of Dollars, the first in a trilogy of films (with For a Few Dollars More and The Good, the Bad, and the Ugly) that was violent, cynical, and visually stunning.
