Atlas de la Chine. La puissance alternative Thierry Sanjuan,Carine Henriot.2023-10-11T00:00:00+02:00 La Chine doit surmonter une crise sans précédent où se conjuguent de multiples défis : autoritarisme politique, fragilités internes, économie bousculée, rivalités économiques ou enjeux environnementaux. Le pays continue cependant de bouleverser les équilibres mondiaux et se place en véritable alternative à l'Occident, notamment grâce à son rayonnement en Asie. • Comment la Chine, et sa culture millénaire, s'inscrit-elle dans la mondialisation ? • Jusqu'où le pays étend-il son influence dans le monde ? • Comment les profonds changements sociaux touchent-ils la population : contrôle numérique, crédit social... ? • Dans son développement à marche forcée, quelle est la place accordée à la transition écologique ? Cette cinquième édition, et ses plus de 120 cartes et infographies, a été entièrement mise à jour pour saisir les enjeux, nombreux et nouveaux, auxquels la Chine est aujourd'hui confrontée.

A Sketch of Chinese History, Ancient and Modern Karl Friedrich August Gützlaff.1834 China is daily becoming more and more an object of interest and curiosity to European nations, in proportion as commerce, the fore-runner, if not the cause, of all improvement.in the arts of civilization, discloses its resources, and sheds new light on the character and intellectual cultivation of its inhabitants. Hitherto, the remoteness of its situation with respect to Britain, and the rude, inhospitable nature of its policy toward strangers, have concurred in perpetuating the erroneous impressions created by travelers imperfectly informed, or prone to exaggeration. Among the unfounded notions sedulously propagated by the advocates of arbitrary power, is the opinion that this vast empire, the government of which may be regarded as the beau ideal of despotism, has been torn by fewer revolutions and civil wars than the free states of the West; and that its military power is a kind of colossus, fabricated by the wisdom of ages, which no force or policy that could be exerted by any European nation would suffice to overthrow.--Amazon.com.

Bringing Together China and the West Stuart M. McManus.2023-01-01 2023— In 2023, The Chinese University of Hong Kong celebrates the sixtieth anniversary of its foundation. This occasion provides a moment for reflection on the historical and contemporary meanings of the university's mission "to combine tradition with modernity and to bring together China and the West." To this end, the celebrations include an exhibition of the University Library's burgeoning collection of Western rare books about China, which is recorded and contextualized in this catalogue. This splendid volume features books, maps, and manuscripts from the fifteenth to the mid-nineteenth centuries. Among its treasures are some of the very finest works of early Sinology. Many of these were written by celebrated Jesuit missionaries like Matteo Ricci and Johann Adam Schall von Bell, who though few in number almost single-handedly founded modern Sinology through their deep engagement with early modern Chinese society and culture. As the writings of these missionaries percolated back to Europe, knowledge about China grew exponentially as European books about China became more accurate and detailed. Through its extended introduction, images, and descriptions, this catalogue illustrates the dynamic early history of the West's longstanding and profound interest in China, thereby giving members of the university community and the public at large an opportunity to consider how we might better "combine tradition with modernity and bring together China and the West." *Journal of the China Branch* .1894

Christianity in China Xiaoxin Wu.2015-07-17 Now revised and updated to incorporate numerous new materials, this is the major source for researching American Christian activity in China, especially that of missions and missionaries. It provides a thorough introduction and guide to primary and secondary sources on Christian enterprises and individuals in China that are preserved in hundreds of libraries, archives, historical societies, headquarters of religious orders, and other repositories in the United States. It includes data from the beginnings of Christianity in China in the early eighth century through 1952, when American missionary activity in China virtually ceased. For this new edition, the institutional base has shifted from the Princeton Theological Seminary (Protestant) to the Ricci Institute for Chinese-Western Cultural Relations at the University of San Francisco (Jesuit), reflecting the ecumenical nature of this monumental undertaking.
