Poetry, Politics, and the Body in Rimbaud Robert St. Clair.2018-08-30 Bodies abound in Rimbaud's poetry in a way that is nearly unprecedented in the nineteenth-century poetic canon: lazy, creative, rule-breaking bodies, queer bodies, marginalized and impoverished bodies, revolting and revolutionary, historical bodies. The question that Poetry, Politics, and the Body seeks to answer is: What does this corporeal density mean for reading Rimbaud? What kind of sense are we to make of this omnipresence of the body in the Rimbaldian corpus, from first to last—from the earliest poems in verse celebrating the sheer, simple delight of running away from wherever one is and stretching one's legs out under a table, to the ultimate flight away from poetry itself? In response, this book argues that the body appears—often literally—as a kind of gap, breach, or aperture through which Rimbaud's poems enter into contact with history and a larger body of other texts. Simply put, the body is privileged 'lyrical material' for Rimbaud: a figure for human beings in their exposed, finite creatureliness and in their unpredictable agency and interconnectedness. Its presence in the early work allows us not only to contemplate what a strange, sensuous thing it is to be embodied, to be both singular and part of a collective, it also allows the poet to diagnose, and the reader to perceive, a set of seemingly intractable, 'real' socio-economic, political, and symbolic problems. Rimbaud's bodies are, in other words, utopian bodies: sites where the historical and the lyrical, the ideal and the material, do not so much cancel each other out as become caught up in one another.

Threads and Traces Carlo Ginzburg.2012-09-02 This book is a translation of historian Carlo

Ginzburg's latest collection of essays. Through the detective work of uncovering a wide variety of stories or microhistories from fragments, Ginzburg takes on the bigger questions: How do we draw the line between truth and fiction? What is the relationship between history and memory? Stories range from medieval Europe, the inquisitional trial of a witch, seventeenth-century antiquarianism, and twentieth-century historians--Provided by publisher.

Painted Love Hollis Clayson.2003-10-30 In this engrossing book, Hollis Clayson provides the first description and analysis of French artistic interest in women prostitutes, examining how the subject

was treated in the art of the 1870s and 1880s by such avant-garde painters as Cézanne, Degas, Manet, and Renoir, as well as by the academic and low-brow painters who were their contemporaries. Clayson not only illuminates the imagery of prostitution-with its contradictory connotations of disgust and fascination-but also tackles the issues and problems relevant to women and men in a patriarchal society. She discusses the conspicuous sexual commerce during this era and the resulting public panic about the deterioration of social life and civilized mores. She describes the system that evolved out of regulating prostitutes and the subsequent rise of clandestine prostitutes who escaped police regulation and who were condemned both for blurring social boundaries and for spreading sexual licentiousness among their moral and social superiors. Clayson argues that the subject of covert prostitution was especially attractive to vanguard painters because it exemplified the commercialization and the ambiguity of modern life.

Dynamics of the Image Emmanuel Alloa, Chiara Cappelletto. 2020-05-05 Images are not neutral conveyors of messages shipped around the globe to achieve globalized spectatorship. They are powerful forces that elicit very diverse responses and can resist new visual hegemonies of our global world. Bringing together case studies from the field of media, art, politics, religion, anthropology and science, this volume breaks new ground by reflecting on the very power of images beyond their medial exploitation. The contributions by Hans Belting, Susan Buck-Morss, Georges Didi-Huberman, W.J.T. Mitchell, and Ticio Escobar among others testify that globalization does not necessarily equal homogenization, and that images can open up alternative ways of picturing what is to come.

The Philosopher's Touch François Noudelmann.2012-01-03 Renowned philosopher and prominent French critic François Noudelmann engages the musicality of Jean-Paul Sartre, Friedrich Nietzsche, and Roland Barthes, all of whom were amateur piano players and acute lovers of the medium. Though piano playing was a crucial art for these thinkers, their musings on the subject are largely scant, implicit, or discordant with each philosopher's oeuvre. Noudelmann both recovers and integrates these perspectives, showing that the manner in which these philosophers played, the composers they adored, and the music they chose reveals uncommon insight into their thinking styles and patterns. Noudelmann positions the physical and theoretical practice of music as a dimension underpinning and resonating with Sartre's, Nietzsche's, and Barthes's unique philosophical outlook. By reading their thought against their music, he introduces new critical formulations and reorients their trajectories, adding invaluable richness to these philosophers' lived and embodied experiences. The result heightens the multiple registers of being and the relationship between philosophy and the senses that informed so much of their work. A careful reader of music, Noudelmann maintains an elegant command of the texts under his gaze and appreciates the discursive points of musical and philosophical scholarship they involve, especially with regard to recent research and cutting-edge critique.

Fashionable Nonsense Alan Sokal, Jean Bricmont. 2014-01-14 In 1996 physicist Alan Sokal published an essay in *Social Text*--an influential academic journal of cultural studies--touting the deep similarities between quantum gravitational theory and postmodern philosophy. Soon thereafter, the essay was revealed as a brilliant parody, a catalog of nonsense written in the cutting-edge but impenetrable lingo of postmodern theorists. The event sparked a furious debate in academic circles and made the headlines of newspapers in the U.S. and abroad. Now in *Fashionable Nonsense: Postmodern Intellectuals' Abuse of Science*, Sokal and his fellow physicist Jean Bricmont expand from where the hoax left off. In a delightfully witty and clear voice, the two thoughtfully and thoroughly dismantle the pseudo-scientific writings of some of the most fashionable French and American intellectuals. More generally, they challenge the widespread notion that scientific theories are mere narrations or social constructions.

Beauvoir in Time Meryl Altman. 2020-11-23 *Beauvoir in Time* situates Simone de Beauvoir's *The Second Sex* in the historical context of its writing and in later contexts of its international reception, from then till now. The book takes up three aspects of Beauvoir's work more recent feminists find embarrassing: bad sex, dated views about lesbians, and intersections with race and class. Through close reading of Beauvoir's writing in many genres, alongside contemporaneous discourses (good and bad novels in French and English, outmoded psychoanalytic and sexological authorities,

ethnographic surrealism, the writing of Richard Wright and Franz Fanon), and in light of her travels to the U.S. and China, the author uncovers insights more recent feminist methodologies obscure, showing that Beauvoir is still good to think with today.

Critical Resistance David Couzens Hoy. 2005-08-12 This book serves as both an introduction to the concept of resistance in poststructuralist thought and an original contribution to the continuing philosophical discussion of this topic. How can a body of thought that mistrusts universal principles explain the possibility of critical resistance? Without appeals to abstract norms, how can emancipatory resistance be distinguished from domination? Can there be a poststructuralist ethics? David Hoy explores these crucial questions through lucid readings of Nietzsche, Foucault, Bourdieu, Derrida, and others. He traces the genealogy of resistance from Nietzsche's break with the Cartesian concept of consciousness to Foucault's and Bourdieu's theories of how subjects are formed through embodied social practices. He also considers Levinas, Heidegger, and Derrida on the sources of ethical resistance. Finally, in light of current social theory from Judith Butler to Slavoj Žižek, he challenges poststructuralism as a category and suggests the term post-critique as a more accurate description of contemporary Continental philosophy. Hoy is a leading American scholar of poststructuralism. *Critical Resistance* is the only book in English that deals substantively with the topical concept of resistance in relation to poststructuralist thought, discussions of which have dominated Continental social thought for many years.

The Myth of the Other Franco Rella. 1994 Rella came of age as a philosopher in Italy during the period of the crisis of reason or more generally the exhaustion of classical rationality in its authority

to structure experience. For Rella, unlike many others, the tensions of the crisis are productive. In *The Myth of the Other*, he presents a unique perspective on four seminal French thinkers: Lacan, Foucault, Deleuze, and Bataille. Moe's masterful translation brings this remarkable Italian thinker to American readers for the first time. This slim book may very well change the way American scholars think about the crisis of the other and the self coming out of French poststructuralism.

Hors de Moi Thalia Palanque. 2014-04 Stella est une lycéenne fraîchement débarquée de Miami après l'accident de voiture qui a coûté la vie à sa meilleure amie Ever. Après un internement en hôpital psychiatrique, elle tente de passer inaperçue en intégrant son nouveau lycée de Boston. Elle n'aspire qu'à une chose: qu'on la laisse tranquille... elle et ses remords. C'est sans compter sur sa particularité, un don dont elle a hérité lors de l'accident, qui lui fera rencontrer Sebastian de façon fort peu conventionnelle. Un don qui s'avère être à la fois son plus grand bonheur et son secret le plus lourd. Une relation naissante entre deux mondes, qu'il faut protéger pour lui permettre d'éclorre dans le monde réel. Stella va pouvoir vérifier si l'amour a des frontières. *Hors de moi*, un voyage où le corps et l'esprit n'empruntent pas le même chemin, où l'amour est grand, mais où la réalité est dure.

The Versailles Effect Mark Ledbury, Robert Wellington. 2020-12-10 The essays in this volume show that Versailles was not the static creation of one man, but a hugely complex cultural space; a centre of power, but also of life, love, anxiety, creation, and an enduring palimpsest of aspirations, desires, and ruptures. The splendour of the Château and the masterpieces of art and design that it contains mask a more complex and sometimes more sordid history of human struggle and achievement. The case studies presented by the contributors to this book cannot provide a comprehensive account of the Palace of Versailles and its domains, the life within its walls, its visitors, and the art and

architecture that it has inspired from the seventeenth century to the present day: from the palace of the Sun King to the Penthouse of Donald Trump. However, this innovative collection will reshape-or even radically redefine-our understanding of the palace of Versailles and its posterity.

Of Spirit Jacques Derrida.1989 I shall speak of ghost, of flame, and of ashes. These are the first words of Jacques Derrida's lecture on Heidegger. It is again a question of Nazism—of what remains to be thought through of Nazism in general and of Heidegger's Nazism in particular. It is also politics of spirit which at the time people thought—they still want to today—to oppose to the inhuman. Derrida's ruminations should intrigue anyone interested in Post-Structuralism. . . . This study of Heidegger is a fine example of how Derrida can make readers of philosophical texts notice difficult problems in almost imperceptible details of those texts.—David Hoy, *London Review of Books* Will a more important book on Heidegger appear in our time? No, not unless Derrida continues to think and write in his spirit. . . . Let there be no mistake: this is not merely a brilliant book on Heidegger, it is thinking in the grand style.—David Farrell Krell, *Research in Phenomenology* The analysis of Heidegger is brilliant, provocative, elusive.—Peter C. Hodgson, *Religious Studies Review*

Exile, Non-Belonging and Statelessness in Grangaud, Jabès, Lubin and Luca GREG.

KERR.2021-06-07 A close study of four French-language poets and the poetry of exile. Poetry has often been understood as a powerful vector of collective belonging. The idea that certain poets are emblematic of a national culture is one of the chief means by which literature historicizes itself, inscribes itself in a shared cultural past, and supplies modes of belonging to those who consume it. But, how does the exiled, migrant, or translingual poet complicate this narrative? For Armen Lubin, Ghérasim Luca, Edmond Jabès, and Michelle Grangaud, the practice of poetry is inseparable from a sense of restlessness or unease. Ranging across borders within and beyond the Francosphere--from Algeria, Armenia, Egypt, and Romania--this book shows how a poetic practice inflected by exile, statelessness, or non-belonging has the potential to disrupt long-held assumptions about the relation between subjects, the language they use, and the place from which they speak.
