Sustainable food planning: evolving theory and practice

Andr © Viljoen,Johannes S.C. Wiskerke.2012-03-30 With over half the world's population now deemed to be urbanised, cities are assuming a larger role in political debates about the security and sustainability of the global food system. Hence, planning for sustainable food production and consumption is becoming an increasingly important issue for planners, policymakers, designers, farmers, suppliers, activists, business and scientists alike. The rapid growth of the food planning movement owes much to the fact that food, because of its unique, multi-functional character, helps to bring people together from all walks of life. In the wider contexts of global climate change, resource depletion, a burgeoning world population, competing food production systems and diet-related public health concerns, new paradigms for urban and regional planning capable of supporting sustainable and equitable food systems are urgently needed. This book addresses this urgent need. By working at a range of scales and with a variety of practical and theoretical models, this book reviews and elaborates definitions of sustainable food systems, and begins to define ways of achieving them. To this end 4 different themes have been defined as entry-points into the discussion of 'sustainable food planning'. These are (1) urban agriculture, (2)

integrating health, environment and society, (3) food in urban design and planning and (4) urban food governance.

Big Data Min Chen, Shiwen Mao, Yin Zhang, Victor C.M.

Leung.2014-05-05 This Springer Brief provides a comprehensive overview of the background and recent developments of big data. The value chain of big data is divided into four phases: data generation, data acquisition, data storage and data analysis. For each phase, the book introduces the general background, discusses technical challenges and reviews the latest advances. Technologies under discussion include cloud computing, Internet of Things, data centers, Hadoop and more. The authors also explore several representative applications of big data such as enterprise management, online social networks, healthcare and medical applications, collective intelligence and smart grids. This book concludes with a thoughtful discussion of possible research directions and development trends in the field. *Big Data: Related Technologies, Challenges and Future Prospects* is a concise yet thorough examination of this exciting area. It is designed for researchers and professionals interested in big data or related research. Advanced-level students in computer science and electrical engineering will also find this book useful.

The Experience Economy B. Joseph Pine, James H.

Gilmore.1999 This text seeks to raise the curtain on competitive pricing strategies and asserts that businesses often miss their best opportunity for providing consumers with what they want - an experience. It presents a strategy for companies to script and stage the experiences provided by their products.

Sustainable Development Report 2021 Jeffrey Sachs, Christian

Kroll, Guillaume Lafortune, Grayson Fuller, Finn Woelm.2021-10-14

The Sustainable Development Report 2021 features the SDG Index and Dashboards, the first and widely used tool to assess country performance on the UN Agenda 2030 and the Sustainable Development Goals. The report analyses and outlines what needs to happen for the Decade of Action and Delivery of the SDGs. In

order to build back better following the Covid-19 pandemic, especially low-income countries will need increased fiscal space. The report frames the implementation of the SDGs in terms of six broad transformations. The authors examine country performance on the SDGs for 193 countries using a wide array of indicators, and calculate future trajectories, presenting a number of best practices to achieve the historic Agenda 2030. The views expressed in this report do not reflect the views of any organizations, agency or programme of the United Nations. This title is available as Open Access on Cambridge Core.

Principles of Marketing Gary M. Armstrong, Stewart Adam, Sara Marion Denize, Michael Volkov, Philip Kotler. 2018 An introduction to marketing concepts, strategies and practices with a balance of depth of coverage and ease of learning. Principles of Marketing keeps pace with a rapidly changing field, focussing on the ways brands create and capture consumer value. Practical content and linkage are at the heart of this edition. Real local and international examples bring ideas to life and new feature 'linking the concepts' helps students test and consolidate understanding as they go. The latest edition enhances understanding with a unique learning design including revised, integrative concept maps at the start of each chapter, end-of-chapter features summarising ideas and themes, a mix of mini and major case studies to illuminate concepts, and critical thinking exercises for applying skills.

Vintage Luxury Fashion Daniella Ryding, Claudia E. Henninger, Marta Blazquez Cano. 2018-03-27 Providing a critical insight into the growth of the secondhand luxury and vintage fashion industry, this book offers a compendium of business developments from across the globe, including examples from Europe, the Middle East and Asia. The 'pre-loved or pre-owned' clothing trade has grown as an economic entity, providing a living for over 100,000 people and creating a desirable and essential clothing source in under-developed economies. By debating and

deliberating contemporary cases, the authors illustrate how companies can optimise key managerial activities surrounding product branding, location marketing and supply chain buying. This timely collection is an important read for anyone involved in fashion, but particularly those interested in the retail and marketing perspective of the industry, as it explores an emerging and significant retail format.

Our Common Future .1990

Light in a Dark House Jan Costin Wagner.2013-07-18 Finnish detective Kimmo Joentaa is called to the local hospital in which his young wife died several years before. An unidentified woman in a coma has been murdered by someone who wept over the body, their tears staining the sheets around her. The death marks the start of a series of killings, with the unknown patient at their centre. As autumn turns to winter, and Christmas fast approaches, Kimmo's attempts to unravel the case and identify the first victim are complicated by the disappearance of his sometime girlfriend, who has vanished after a party thrown by the head of the police force, and by a colleague's spiral into the depths of a gambling addiction.

Dialoghi con Guido Alpa. Un volume offerto in occasione del suo LXXI compleanno Giuseppe Conte,Andrea

Fusaro,Alessandro Somma,Vincenzo Zeno-Zencovich.2018-11-01 Il volume raccoglie 35 contributi che, partendo da uno scritto di Guido Alpa, "dialogano" con lui su temi a lui cari, dalla storia del diritto, alla filosofia, all'avvento del 'post-moderno', alla interpretazione e, in generale, ai rapporti fra diritto privato e altre branche del diritto. Numerosi i saggi dedicati alla teoria del

contratto, alla tutela dei consumatori, alla responsabilità civile, alla disciplina dei mercati. Sono inoltre trattati alcune questioni centrali nella più innovativa riflessione scientifica di Guido Alpa: la identità personale, la dignità umana, la auto-determinazione di fine vita.

Consumer Culture Roberta Sassatelli. 2007-04-30 A thorough and wide-ranging synthetic account of social scientific research on consumption which will set the standard for the second generation of textbooks on cultures of consumption. - Alan Warde, University of Manchester The multi-disciplinary nature of the book provides new and revealing insights, and Sassatelli conveys brilliantly the heterogeneity and ambivalent nature of consumer identities, consumer practices and consumer cultures...

Newcomers to consumer culture will find this an invaluable primer and introduction to the major concepts and ideas, while those familiar with the field will find Sassatelli's sharp analysis and discussion both refreshing and inspiring. - James Skinner, Journal of Sociology This is a model of what a text book ought to be. Over the past decade the original debates about consumption have been overlaid by a vast amount of detailed research, and it seems unimaginable that a single text could do justice to all of these. To do so would involve as much a commitment to depth as to breadth. I was quite astonished at how well Sassatelli succeeds in balancing the two... Ultimately, it's the book that I would trust to help people digest what we now have discovered about consumption and start from a much more mature and reflective foundation to consider what more we might yet do. - Daniel Miller, Material World Showing the cultural and institutional processes that have brought the notion of the 'consumer' to life, this book guides the reader on a comprehensive journey through the history of how we have come to understand ourselves as consumers in a consumer society and reveals the profound ambiguities and ambivalences inherent within. While rooted in sociology, Sassatelli draws on the traditions of history,

anthropology, geography and economics to provide: a history of the rise of consumer culture around the world a richly illustrated analysis of theory from neo-classical economics, to critical theory, to theories of practice and ritual de-commoditization a compelling discussion of the politics underlying our consumption practices. An exemplary introduction to the history and theory of consumer culture, this book provides nuanced answers to some of the most central questions of our time.

OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas Third Edition OECD.2016-04-06 This publication provides step-by-step management recommendations endorsed by governments for global responsible supply chains of all minerals, in order for companies to respect human rights and avoid contributing to conflict through their mineral or metal purchasing decisions and practices.

Self-Congruity M. Joseph Sirgy.1986-08-05 Self-Congruity provides a comprehensive understanding of the self-concept, integrating the many references to it in the psychological literature. Using his previous findings, the author considers cognitive-versus-affective phenomena, and intrapersonal, interpersonal, situational, and analytic modes. He then applies his integrated theory to the problem of change in self-concept and behavior.

The Consumer Society Jean Baudrillard.2016-12-13 Jean Baudrillard's classic text was one of the first to focus on the process and meaning of consumption in contemporary culture. Originally published in 1970, the book makes a vital contribution to current debates on consumption. The book includes Baudrillard's most organized discussion of mass media culture, the meaning of leisure, and anomie in affluent society. A chapter on the body demonstrates Baudrillard's extraordinary prescience for flagging vital subjects in contemporary culture long before others. This English translation begins with a new introductory

essay.

Prosperity without Growth Tim Jackson.2016-12-08 What can prosperity possibly mean in a world of environmental and social limits? The publication of *Prosperity without Growth* was a landmark in the sustainability debate. Tim Jackson's piercing challenge to conventional economics openly questioned the most highly prized goal of politicians and economists alike: the continued pursuit of exponential economic growth. Its findings provoked controversy, inspired debate and led to a new wave of research building on its arguments and conclusions. This substantially revised and re-written edition updates those arguments and considerably expands upon them. Jackson demonstrates that building a 'post-growth' economy is a precise, definable and meaningful task. Starting from clear first principles, he sets out the dimensions of that task: the nature of enterprise; the quality of our working lives; the structure of investment; and the role of the money supply. He shows how the economy of tomorrow may be transformed in ways that protect employment, facilitate social investment, reduce inequality and deliver both ecological and financial stability. Seven years after it was first published, *Prosperity without Growth* is no longer a radical narrative whispered by a marginal fringe, but an essential vision of social progress in a post-crisis world. Fulfilling that vision is simply the most urgent task of our times.

How is Your MPA Doing? Robert S. Pomeroy, John E. Parks, Lani M. Watson.2004 Guidebook which aims to improve MPA management by providing a framework that links the goals and objectives of MPAs with indicators that measure management effectiveness. The framework and indicators were field-tested in 18 sites around the world, and results of these pilots were incorporated into the guidebook. Strategic Retail Management Joachim Zentes,Dirk

Morschett,Hanna Schramm-Klein.2016-10-07 This book is

devoted to the dynamic development of retailing. The focus is on various strategy concepts adopted by retailing companies and their implementation in practice. This is not a traditional textbook or collection of case studies; it aims to demonstrate the complex and manifold questions of retail management in the form of twenty lessons, where each lesson provides a thematic overview of key issues and illustrates them via a comprehensive case study. The examples are all internationally known retail companies, to facilitate an understanding of what is involved in strategic retail management and illustrate best practices. In the third edition, all chapters were revised and updated. Two new chapters were added to treat topics like corporate social responsibility as well as marketing communication. All case studies were replaced by new ones to reflect the most recent developments. Well-known retail companies from different countries, like Tesco, Zalando, Hugo Boss, Carrefour, Amazon, Otto Group, are now used to illustrate particular aspects of retail management.

Vivere senza supermercato Elena Tioli.2017-03-15 Code,

imballaggi, prodotti inutili e dannosi per la salute e per

l'ambiente, filiera lunga, inquinamento e sfruttamento, bisogni indotti da pubblicità, lunghe attese per trovare parcheggio, per scegliere, per pagare: questo è il supermercato. E chi pensa che rinunciare sia difficile, inutile o addirittura impossibile, dovrà ricredersi. Vivere senza supermercato non solo è possibile ma è addirittura facile e piacevole: parola di chi lo ha fatto. Entrare in relazione con i produttori, scoprire la provenienza e l'origine delle

merci, informarsi sulle conseguenze, personali e globali, di ciò che si acquista e si consuma: vivere senza supermercato significa tutto questo e molto altro ancora. Significa fare una spesa ecologica, consapevole e responsabile, dando un nuovo valore ai propri gesti e un peso diverso ai propri soldi. Significa cambiare stile di vita e modo di pensare. Vivere senza supermercato significa guadagnarci: in soldi, salute, relazioni e tempo. Una scelta alla portata di tutti.

Essentials of Marketing Communications Jim Blythe.2006
Essentials of Marketing Communications 3rd edition gives students a concise overview of the strategic and tactical decision-making processes involved in marketing communications. It also links the current theories of marketing communications to consumer behaviour issues as well as explaining how marketing communications works in the real world. The text is ideal for those studying marketing communications for the first time.

Microbiological Analysis of Food and Water N.F. Lightfoot, E.A. Maier.1998-04-22 With the help of leading Quality Assurance (QA) and Quality Control (QC) microbiology specialists in Europe, a complete set of guidelines on how to start and implement a quality system in a microbiological laboratory has been prepared, supported by the European Commission through the Measurement and Testing Programme. The working group included food and water microbiologists from various testing laboratories, universities and industry, as well as statisticians and QA and QC specialists in chemistry. This book contains the outcome of their work. It has been written with the express objective of using simple but accurate wording so as to be accessible to all microbiology laboratory staff. To facilitate reading, the more specialized items, in particular some statistical treatments, have been added as an annex to the book. All QA and QC tools mentioned within these guidelines have been developed and applied by the authors in their own laboratories. All aspects dealing with reference materials and interlaboratory studies have

been taken in a large part from the projects conducted within the BCR and Measurement and Testing Programmes of the European Commission. With so many different quality control procedures, their introduction in a laboratory would appear to be a formidable task. The authors recognize that each laboratory manager will choose the most appropriate procedures, depending on the type and size of the laboratory in question. Accreditation bodies will not expect the introduction of all measures, only those that are appropriate for a particular laboratory. Features of this book: • Gives all quality assurance and control measures to be taken, from sampling to expression of results • Provides practical aspects of quality control to be applied both for the analyst and top management • Describes the use of reference materials for statistical control of methods and use of certified reference materials (including statistical tools).

Sustainable Luxury and Social Entrepreneurship Miguel Angel Gardetti, María Eugenia Girón. 2017-09-08 Luxury products are now seen by a growing number of global consumers as an important and more widely available way of expressing personal aspirations and values. Most consumers of luxury products and services use them as status symbols and symbols of success. However, the definition of success - and the way it is perceived by others - is changing. Many of these successful consumers now want the brands they use to reflect their concerns and aspirations. Such products come with a heavy social and environmental cost. Sustainable luxury is about rediscovering the old meaning of luxury - a considered purchase of a beautifully crafted object with built-in social and environmental value. The social entrepreneurs documented in this book highlight the relationship between personal values and sustainability, entrepreneurship and innovation in developing and marketing luxury products. The pioneers outline how they have developed inclusive supply chains with poor and vulnerable communities.

Their stories prove that luxury need not be a destructive force. Instead, this book opens a window on a world where entrepreneurial pioneers can change the rules of the game.

Geographies of Rural Cultures and Societies Moya

Kneafsey.2017-09-08 The last decade or so has witnessed a flourishing of research in rural geography; in particular, approaches which have developed socio-cultural perspectives on rural issues. This book brings together well-established and newer researchers to examine the position of rural social and cultural geography at the beginning of the 21st century and to suggest new research agendas. It offers critical evaluations of theoretical positions and advances, introduces new conceptual and methodological tools and reports on recent empirical work on a variety of topical issues in a number of countries. With diverse theoretical and empirical content, the book makes a valuable contribution to the development of research into changing social and cultural geographies of rurality in 'developed' or 'Western' countries.

Integrated Reporting Chiara Mio.2016-08-11 This book is a timely addition to the fast-growing international debate on Integrated Reporting, which offers a holistic view of the evolution and practice of Integrated Reporting. The book covers the determinants and consequences of Integrated Reporting, as well as examining some of the most relevant issues (particularly in the context of the United States) in the debate about Integrated Reporting.

The Green Marketing Manifesto John Grant.2009-08-11 We are currently eating, sleeping and breathing a new found religion of everything 'green'. At the very heart of responsibility is industry and commerce, with everyone now racing to create their 'environmental' business strategy. In line with this awareness, there is much discussion about the 'green marketing opportunity' as a means of jumping on this bandwagon. We need to find a sustainable marketing that actually delivers on green objectives,

not green theming. Marketers need to give up the many strategies and approaches that made sense in pure commercial terms but which are unsustainable. True green marketing must go beyond the ad models where everything is another excuse to make a brand look good; we need a green marketing that does good. The Green Marketing Manifesto provides a roadmap on how to organize green marketing effectively and sustainably. It offers a fresh start for green marketing, one that provides a practical and ingenious approach. The book offers many examples from companies and brands who are making headway in this difficult arena, such as Marks & Spencer, Sky, Virgin, Toyota, Tesco, O2 to give an indication of the potential of this route. John Grant creates a 'Green Matrix' as a tool for examining current practice and the practice that the future needs to embrace. This book is intended to assist marketers, by means of clear and practical guidance, through a complex transition towards meaningful green marketing. Includes a foreword by Jonathon Porritt.

Imbrocciamola! Dalle minerali al rubinetto, piccola guida al consumo critico dell'acqua Luca Martinelli.2010

World Development Report 2019 World Bank.2018-10-31 Work is constantly reshaped by technological progress. New ways of production are adopted, markets expand, and societies evolve. But some changes provoke more attention than others, in part due to the vast uncertainty involved in making predictions about the future. The 2019 World Development Report will study how the nature of work is changing as a result of advances in technology today. Technological progress disrupts existing systems. A new social contract is needed to smooth the transition and guard against rising inequality. Significant investments in human capital throughout a person's lifecycle are vital to this effort. If workers are to stay competitive against machines they need to train or retool existing skills. A social protection system that includes a minimum basic level of protection for workers and

citizens can complement new forms of employment. Improved private sector policies to encourage startup activity and competition can help countries compete in the digital age. Governments also need to ensure that firms pay their fair share of taxes, in part to fund this new social contract. The 2019 World Development Report presents an analysis of these issues based upon the available evidence.
