The Assyrian Tragedy Mar Eshai Shimun, Catholicos Patriarch. 2010-07-01 His Holiness Mar Eshai Shimun XXIII, Catholicos Patriarch was the Supreme Head of the Church of the East, its Universal Pastor from 1920 until his assassination in 1975. Born in southern Turkey, His Holiness was raised with care, having received theological and liturgical training in the Middle East and in England at St. Augustine's College and later Cambridge University. He worked tirelessly fighting for the Church of the East and his Assyrian people. Often in danger of his life, he met with foreign diplomats and heads of states appealing to the League of Nations and later, the United Nations all the while contacting world leaders and discussing with them the Assyrian Question. In later years, he was received throughout the Middle East by Islamic Heads of state in a most respectful and amiable of circumstances which speaks to his worldly sophistication and influence as a truly great leader. Mar Eshai Shimun was a profound scholar, an exemplary writer, and a charismatic speaker as well as being a recognized subject matter expert in Ecclesiastical History and an authority the on History of Christianity in the Middle East and Far East. An innovative leader of the Church and Assyrian people, well schooled in both the ecclesiastical aspects of his vocation, as well as geo-political issues. Attuned to the needs of his flock and nation he mindfully navigated the tenuous landscape with uncompromising ethics, integrity and superior leadership, which were the hallmarks of his character and a truly remarkable Patriarch. His agility in managing both the secular and temporal affairs bespoke his magnificent stewardship of the Assyrian people and the Church of the East.

Massacres, Resistance, Protectors David Gaunt. 2006 This is a pioneering historical investigation of the Assyrian, Chaldean, and Syrian Christian minorities during World War I, who suffered the same fate as the Armenians. Ethnic cleansing and large-scale massacres occurred throughout northern Mesopotamia and parts of Ottoman-occupied Iran. Based on primary sources from official Russian, Turkish, and West European archives, as well as hitherto unused manuscript sources and oral histories published here for the first time, this book attempts to give a full picture of the events of 1915. The book concentrates on the Assyrians of Urmia and Hakkari and on the Syrians of Diyarbakir province, particularly in Tur Abdin.

The Journey of William of Rubruck to the Eastern Parts of the World William Rubruck, William Woodville Rockhill, Alex Struik. 2012-09-21 William of Rubruck (circa 1220 - 1293) was a Flemish Franciscan missionary and explorer. His account is one of the masterpieces of medieval geographical literature comparable to that of Marco Polo. Born in Rubrouck, Flanders, he is known also as William of Rubruk, Willem van Ruysbroeck, Guillaume de Rubrouck or Willielmus de Rubruquis. A Flemish Franciscan monk, William had participated in the crusade of King Louis IX of France to Palestine and there heard about the Mongols from friar Andrew of Longjumeau, a Dominican who had been involved in papal diplomacy aimed at trying to enlist the Mongols in the Christian crusade against the Muslims. Rubruck then decided to undertake his own mission to the Mongols in the hope of promoting their conversion to Christianity. His roundtrip journey lasted the better part of three years. William had the distinction of being the first European to visit the Mongol capital of Karakorum on the Orhon River and return to write about it. In his report to King Louis IX titled *Itinerarium fratris Willielmi de Rubruquis de ordine fratrum Minorum, Galli, Anno gratia 1253 ad partes Orientales*. (The Journey Of William Of Rubruck To The Eastern Parts Of The World) he provides a unique description of the Khan's palace and detail about the individuals of various ethnicities and religions whom he encountered.

Genocide, War Crimes and the West Doctor Adam Jones. 2013-07-04 Genocide and war crimes are increasingly the focus of scholarly and activist attention. Much controversy exists over how, precisely, these grim phenomena should be defined and conceptualized. *Genocide, War Crimes & the West* tackles this controversy, and clarifies our understanding of an important but under-researched dimension: the involvement of the US and other liberal democracies in actions that are conventionally depicted as the exclusive province of totalitarian and authoritarian regimes. Many of the authors are eminent scholars and/or renowned activists; in most cases, their contributions are specifically written for this volume. In the opening and closing sections of the book, analytical issues are considered, including questions of responsibility for genocide and war crimes, and institutional responses at both the domestic and international levels. The central section is devoted to an unprecedentedly broad range of original case studies of western involvement, or alleged involvement, in war crimes and genocide. At a moment in history when terrorism has become a near universal focus of public attention, this volume makes clear why the West, as a result of both its historical legacy and contemporary actions, so often excites widespread resentment and opposition throughout the rest of the world.

People of Ancient Assyria Jørgen Læssøe. 2014-10-24 Was Assyria merely a more brutal, more uncivilized and less interesting offshoot of the culture created by Sumerians and Babylonians in Southern Mesopotamia at the dawn of history? Do the Assyrian reliefs that fill our museums give a complete picture of the phenomenon that was Assyria? Was the contribution of this people to world culture merely an incredibly effective military organization? The answers to these questions are sought here in this detailed book from 1963, referring to personal documents of the time, in the letters Assyrians wrote to one another rather than in the annals of the rulers.

Assyrians, Kurds, and Ottomans Hirmis Aboona. 2008 Many scholars, in the U.S. and elsewhere, have decried the racism and Orientalism that characterizes much Western writing on the Middle East. Such writings conflate different peoples and nations, and movements within such peoples and nations, into unitary and malevolent hordes, uncivilized reservoirs of danger, while ignoring or downplaying analogous tendencies towards conformity or barbarism in other regions, including the West. Assyrians in particular suffer from Old Testament and pop culture references to their barbarity and cruelty, which ignore or downplay massacres or torture by the Judeans, Greeks, and Romans who are celebrated by history as ancestors of the West. This work, through its rich depictions of tribal and religious diversity within Mesopotamia, may help serve as a corrective to this tendency of contemporary writing on the Middle East and the Assyrians in particular. Furthermore, Aboona's work also steps away from the age-old oversimplified rubric of an Arab Muslim Middle East, and into the cultural mosaic that is more representative of the region. In this book, author

Hirmis Aboona presents compelling research from numerous primary sources in English, Arabic, and Syriac on the ancient origins, modern struggles, and distinctive culture of the Assyrian tribes living in northern Mesopotamia, from the plains of Nineveh north and east to southeastern Anatolia and the Lake Urmia region. Among other findings, this book debunks the tendency of modern scholars to question the continuity of the Assyrian identity to the modern day by confirming that the Assyrians of northern Mesopotamia told some of the earliest English and American visitors to the region that they descended from the ancient Assyrians and that their churches and identity predated the Arab conquest. It details how the Assyrian tribes of the mountain dioceses of the Nestorian Church of the East maintained a surprising degree of independence until the Ottoman governor of Mosul authorized Kurdish militia to attack and subjugate or evict them. Assyrians, Kurds, and Ottomans is a work that will be of great interest and use to scholars of history, Middle Eastern studies, international relations, and anthropology.

The Forgotten Genocide Sébastien de Courtois.2004 The first and only extensive treatment of the genocide of the Aramaic-speaking Christians of the Middle East, in particular the Syriac Orthodox communities, in the late 1800s and early 1900s under the Ottomans. Courtois basis his study on the diplomatic archives of the French Foreign Affairs office (Quai D'orsay), the archives of the Dominican Mission at Mosul, Iraq, written eastern eyewitness accounts, and oral interviews with genocide survivors conducted by the author. Based on a doctoral research, the books gives accurate facts and balanced conclusions on a very sensitive topic. (Translated from the French by Vincent Aurora.)

The Church of the East Christoph Baumer.2016-09-05 The so-called 'Nestorian' Church (officially known as the Apostolic Assyrian Church of the East, with its See in Baghdad) was one of the most significant Christian communities to develop east of the Roman Empire. In its heyday the Church had 8 million adherents and stretched from the Mediterranean to China. Christoph Baumer is one of the very few Westerners to have visited many of the most important Assyrian sites and has written the only comprehensive history of the Church, which now fights for survival in its country of origin, Iraq, and is almost forgotten in the West. He narrates its rich and colorful trajectory, from its apostolic beginnings to the present day, and discusses the Church's theology, christology, and uniquely vigorous spirituality. He analyzes the Church's turbulent relationship with other Christian churches and its dialogue with neighboring world religions such as Zoroastrianism, Manichaeism, Islam, Buddhism, and Taoism. Richly illustrated with maps and over 150 full-color photographs, the book will be essential reading for those interested in a fascinating, but neglected Christian community which has profoundly shaped the history of civilization in both East and West.
