**Illustrations of Freemasonry** Capt William Morgan.2010-02-02 This controversial, and fully illustrated book forms a cornerstone of the mythology surrounding anti-Freemasonry. Captain William Morgan, was a disenchanted Freemason, based in Batavia, New York. After he was ejected by the local lodge, he announced he would publish a book exposing the secretive Masonic rituals. Shortly before the book was published in 1826, Morgan disappeared, and three Free Masons were later convicted of kidnapping. Although there were claims that Morgan had been murdered, others say that he was forced to leave the country. The incident led to widespread hostility towards Freemasons in the United States.

**The Art and Architecture of Freemasonry** James Stevens Curl.2002 Due to the secrecy of Masonic society, the members heavily relied upon symbols and icons to communicate. This groundbreaking study details the secret society's influence on modern American and European aesthetics. In its own way, this book may be one of the most important contributions to an understanding of Western art, and will be invaluable to architects, artists, and anyone interested in the esoteric ideas and iconography of Freemasonry. Concepts such as death, trial, and descent into the depths are prevalent in Masonic architecture, and have permeated the designs of parks, gardens, and cemeteries for centuries. Architectural history professor James Stevens Curl also looks at the way Masonic ideas have permeated other art forms from literature to the performing arts, where operas like Mozart's *The Magic Flute* used Masonic elements in everything from the characters' names to the music to the stage designs-the original drawings of which are included here. The 190 exceptional illustrations are accompanied by detailed, informative captions.

**The Byrom Collection** Joy Hancox.1992 Before he was executed for his part in the Jacobite rebellion, Siddal had lived near Manchester in a farmhouse now altered and the home of the author of this book. Curious about Siddal's silence at the trial, Joy Hancox came to believe he had gone to the gallows to protect someone else. Her investigations revealed a close connection between Siddal and his neighbour John Byrom, a respected member - along with Newton, Wren and Hans Sloane - of The Royal Society. Byrom, who was known to harbour Jacobite sympathies, invented a system of shorthand (later developed by Pitman) which might well have provided protection against any charge of heresy after he formed his Cabala Club. Already his loyalty to the Stuarts had denied him a career at Cambridge and in the Church.
