A Man and a Motorcycle Bette Dam.2014-08-28 With a secondhand motorcycle, the support of a few powerful tribesmen and a good friend in the CIA, the unknown Hamid Karzai willed himself to power as the new hope of Afghanistan. Acclaimed journalist Bette Dam chronicles the astonishing rise of Afghanistan's U.S.-backed leader from obscurity to one of the most influential figures in the global war on terror. Following the 2001 toppling of the Taliban, a fragile Afghanistan was on the brink. Karzai, armed with a recipe for victory came within inches of helping the U.S. declare victory in the war on terror. But sentiments run high in post-9/11 America, and the desire for revenge derailed an early chance at peace. As U.S. troops leave Afghanistan, and power is handed to a new president, Karzai's legacy remains one of betrayal, mistrust, and missed opportunities.

Asian Popular Culture Anthony Y.H. Fung.2013-05-29 This book examines different aspects of Asian popular culture, including films, TV, music, comedy, folklore, cultural icons, the Internet and theme parks. It raises important questions such as - What are the implications of popularity of Asian popular culture for globalization? Do regional forces impede the globalizing of cultures? Or does the Asian popular culture flow act as a catalyst or conveying channel for cultural globalization? Does the globalization of culture pose a threat to local culture? It addresses two seemingly contradictory and yet parallel processes in the circulation of Asian popular culture: the interconnectedness between Asian popular culture and western culture in an era of cultural globalization that turns subjects such as Pokémon, Hip Hop or Cosmopolitan into truly global phenomena, and the local derivatives and versions of global culture that are necessarily disconnected from their origins in order to cater for the local market. It thereby presents a collective argument that, whilst local social formations, and patterns of consumption and participation in Asia are still very much dependent on global cultural developments and the phenomena of modernity, yet such dependence is often concretized, reshaped and distorted by the local media to cater for the local market.

Touch Laura U. Marks.2002 In Touch, Laura U. Marks develops a critical approach more tactile than visual, an intensely physical and sensuous engagement with works of media art that enriches our understanding and experience of these works and of art itself. These critical, theoretical, and personal essays serve as a guide to developments in nonmainstream media art during the past ten years -- sexual representation debates, documentary ethics, the shift from analog to digital media, a new social obsession with smell. Marks takes up well-known artists like experimental filmmaker Ken Jacobs and mysterious animators the Brothers Quay, and introduces groundbreaking, lesser-known film, video, and digital artists. From this emerges a materialist theory -- an embodied, erotic relationship to art and to the world. Marks's approach leads to an appreciation of the works' mortal bodies: film's volatile emulsion, video's fragile magnetic base, crash-prone Net art; it also offers a productive alternative to the popular understanding of digital media as virtual and immaterial. Weaving a continuous fabric from philosophy, fiction, science, dreams, and intimate

experience, Touch opens a new world of art media to readers.

Open Space Technology Harrison Owen.2009-03 This book, like all books, comes to an end, but that is by no means the end of the story of Open Space. In fact it is safe to say that we have barely begun. The total simplicity of Open Space (sit in a circle, create a bulletin board, open a marketplace, and go to work) contrasts radically with the quality of results and speed of achievement. The conventional theory and practice of meeting and organization would suggest that what happens in Open Space should not occur. But it does, not once but thousands of times in all parts of the world. So the continuing story of Open Space is all about this wonderful anomaly. Why does it work? How does it work? And perhaps most intriguing - if it works in Open Space (whatever it is) why couldn't it work twenty-four hours a day, seven days a week, 365 days of the year? My best guess is that it is the primal power of self-organization, and if so the real significance of Open Space has little to do with better meetings, and everything to do with a deepening understanding of who we really are and how we might most effectively get on in this world. But all of that is an unfolding story and, as I would see it, a wonderful, ongoing natural experiment. And you are invited to participate. ---- Harrison Owen, Camden, Maine
