For the End of Time Rebecca Rischin.2006 The clarinetist Rebecca Rischin has written a captivating book.... Her research dispels several long-cherished myths about the 1941 premiere.... Rischin lovingly brings to life the other musicians-- tienne Pasquier, cellist; Henri Akoka, clarinetist; and Jean Le Boulaire, violinist--who played with Messiaen, the pianist at the premiere.--Alex Ross, The New Yorker This book offers a wealth of new information about the circumstances under which the Quartet was created. Based on original interviews with the performers, witnesses to the premiere, and documents from the prison camp, this first comprehensive history of the Quartet's composition and premiere held my interest from beginning to end.... For the End of Time touches on many things: faith, friendship, creativity, grace in a time of despair, and the uncommon human alliances that wartime engenders.--Arnold Steinhardt, Chamber MusicThe clarification of the order of composition of the movements is just one of the minor but cumulatively significant ways in which Rischin modifies the widely accepted account of the events at Stalag VIII A.... For the End of Time is a thorough and readable piece of investigative journalism that clarifies some important points about the Quartet's genesis.--Michael Downes, Times Literary Supplement The premiere of Olivier Messiaen's Quartet for the End of Time on January 15, 1941, has been called one of the great stories of twentieth-century music. Composed while Messiaen (1908-1992) was imprisoned by the Nazis in Stalag VIII A, the work was performed under the most trying of circumstances: the temperature, inferior instruments, and the general conditions of life in a POW camp.Based on testimonies by the musicians and their families, witnesses to the premiere, former prisoners, and on documents from Stalag VIII A, For the End of Time examines the events that led to the Quartet's composition, the composer's interpretive preferences, and the musicians' problems in execution and how they affected the premiere and subsequent performances. Rebecca Rischin explores the musicians' life in the prison camp, their relationships with each other and with the German camp officials, and their intriguing fortunes before and after the momentous premiere. This paperback edition features supplementary texts and information previously unavailable to the author about the Quartet's premiere, Vichy and the composer, the Paris premiere, a recording featuring Messiaen as performer, and an updated bibliography and discography.

The food economy Frank Bunte,Hans Dagevos.2023-09-04 The food economy is increasingly shaped by such new issues as sustainability, safety and quality standards, consumer health, and industry concentration. Cultural and ethical arguments gain momentum when aligned with issues such as economic welfare and stakeholder interests. The food economy grows ever more global and encompasses more elusive elements like trust, integrity, transparency, corporate social responsibility and creating emotional bonds with customers. The food economy is inextricably interrelated with globalisation, changes in consumer demand for food and energy, the ICT revolution, sustainability issues, and shifts in the relationship between private companies and public regulators. The Food Economy explores a variety of trends and topics from the broad perspective that their evolution is interdependent with all kinds of counter currents and opposite notions: scarcity goes together with abundance, public and private initiatives co-evolve, slow food is connected with fast food, global brands and local products exist simultaneously. The Food Economy devotes chapters to existing and emerging issues and challenges of the expanding food economy. The Food Economy is relevant to academics, students, policymakers and consumers who are interested in recent developments in the food system and their implications for the food policy and research agendas in the years to come.

Peter Hujar Paul Kasmin Gallery.2016 It's a vanished world, and Peter Hujar was right there in it. The Lower East Side between 1972 and 1985 - filled with artists, wannabe artists and hangers-on - was a community of the misbegotten gathered from every town in America and relocated in the mean streets between Broadway and the Bowery. Nothing but their talent, their flamboyance, their rank gender-bending mockery and their arch irony supported them. Some made their names. Many came to grief. A few made art. In those days, the gutted streets of the Lower East Side looked like a war zone. Everyone lived and worked on the extreme outer

The Recorder David Lasocki, Robert Ehrlich, Nikolaj Tarasov, Michala Petri. 2022-01-01 The fascinating story of a hugely popular instrument, detailing its rich and varied history from the Middle Ages to the present. The recorder is perhaps best known today for its educational role. Although it is frequently regarded as a stepping-stone on the path toward higher musical pursuits, this role is just one recent facet of the recorder's fascinating history--which spans professional and amateur music-making since the Middle Ages. In this new addition to the Yale Musical Instrument Series, David Lasocki and Robert Ehrlich trace the evolution of the recorder. Emerging from a variety of flutes played by fourteenth-century soldiers, shepherds, and watchmen, the recorder swiftly became an artistic instrument for courtly and city minstrels. Featured in music by the greatest Baroque composers, including Bach and Handel, in the twentieth century it played a vital role in the Early Music Revival and achieved international popularity and notoriety in mass education. Overall, Lasocki and Ehrlich make a case for the recorder being surprisingly present, and significant, throughout Western music history.

The Rejection of Consequentialism Samuel Scheffler. 1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Women in Music Karin Pendle, Melinda Boyd. 2012-07-26 *Women in Music: A Research and Information Guide* is an annotated bibliography emerging from more than twenty-five years of feminist scholarship on music. This book testifies to the great variety of subjects and approaches represented in over two decades of published writings on women, their work, and the important roles that feminist outlooks have played in formerly male-oriented academic scholarship or journalistic musings on women and music.

Olivier Messiaen Nigel Simeone. 2017-07-05 When Olivier Messiaen died in 1992, the prevailing image was of a man apart; a deeply religious man whose only sources of inspiration were God and Nature and a composer whose music progressed along an entirely individual path, artistically impervious to contemporaneous events and the whims both of his contemporaries and the critics. Whilst such a view contains a large element of truth, the past ten years has seen an explosion of interest in the composer, and the work of a diverse range of scholars has painted a much richer, more complex picture of Messiaen. This volume presents some of the fruits of this research for the first time, concentrating on three broad, interrelated areas: Messiaen's relationship with fellow artists; key developments in the composer's musical language and technique; and his influences, both sacred and secular. The volume assesses Messiaen's position as a creative artist of the twentieth century in the light of the latest research. In the process, it identifies some of the key myths, confusions and exaggerations surrounding the composer which often mask equally remarkable truths. In attempting to reveal some of those truths, the essays elucidate a little of the mystery surrounding Messiaen as a man, an artist, a believer and a musician. Specifically, the volume covers Messiaen's attitudes and associations to Cocteau, Stravinsky's *Les Noces*, Dutilleux and Toesca, as well as exploring his teaching techniques, the *Traite rythme, de couleur et d'ornithologie*, Messiaen's harmony, performing and transcription techniques, composing for Ondes Martenot, his association with ballet, Saint Fran's d'Assise and the influence of his faith. Messiaen himself contributes directly in the form of a speech that he gave about the tapestry-maker Jean Lur and the collection also includes the first literary translation of *L' en bourgeois*; the garland of poems written by Messiaen's mother, Cle Sauvage, when she was expecting him.
