**Female founders in Byzantium and beyond** Lioba Theis, Margaret Mullett, Michael Grünbart. 2014 This volume presents the results of a scholarly meeting which focused on the patronage of women in the Byzantine Empire. In their scope, the articles address broadly not only the founding or re-founding of churches and monasteries, but also their rich decoration, as well as numerous smaller donations. In spite of increased attention to gender research in recent years, a comparative treatment of the legal and economic potential that women in Byzantium could exercise in order to exert independent influence has been lacking; thus a gender-specific viewpoint for the volume was intentionally chosen.

**Tattoo** Albert Parry. 2006-02-01 This pioneering 1933 survey approaches body art from a variety of angles, including artistic, semiotic, psychological, sociological, and cultural perspectives. One of the first studies to analyze the subconscious motivations and erotic implications behind tattooing, it examines overt and subliminal messages of romance, patriotism, and religious fervor. 27 illustrations.

**Beyond Exceptionalism** Rebekka Mallinckrodt, Josef Köstlbauer, Sarah Lentz. 2021-08-23 While the economic involvement of early modern Germany in slavery and the slave trade is increasingly receiving attention, the direct participation of Germans in human trafficking remains a blind spot in historiography. This edited volume focuses on practices of enslavement taking place within German territories in the early modern period as well as on the people of African, Asian, and Native American descent caught up in them.

**Race, Resistance and the Ainu of Japan** Richard M. Siddle. 2012-06-14 Once thought of as a 'vanishing people', the Ainu are now reasserting both their culture and their claims to be the 'indigenous' people of Japan. *Race, Resistance and the Ainu of Japan* is the first major study to trace the outlines of Ainu history. It explores the ways in which competing versions of Ainu identity have been constructed and articulated, shedding light on the way modern relations between the Ainu and the Japanese have been shaped.

**An Underground Life** Gad Beck, Frank Heibert. 1999 That a Jew living in Nazi Berlin survived the Holocaust at all is surprising. That he was a homosexual and a teenage leader in the resistance and yet survived is amazing. But that he endured the ongoing horror with an open heart, with love and without vitriol, and has written about it so beautifully is truly miraculous. This is Gad Beck's story.

**Sign Talk** Ernest Thompson Seton.2020-02-10 In offering this book to the public after having had the manuscript actually on my desk for more than nine years, let me say frankly that no one realizes better than myself, now, the magnitude of the subject and the many faults of my attempt to handle it. My attention was first directed to the Sign Language in 1882 when I went to live in Western Manitoba. There I found it used among the various Indian tribes as a common language, whenever they were unable to understand each other's speech. In later years I found it a daily necessity when traveling among the natives of New Mexico and Montana, and in 1897, while living among the Crow Indians at their agency near Fort Custer, I met White Swan, who had served under General George A. Custer as a Scout. He had been sent across country with a message to Major Reno, so escaped the fatal battle; but fell in with a party of Sioux, by whom he was severely wounded, clubbed on the head, and left for dead. He recovered and escaped, but ever after was deaf and practically dumb. However, sign-talk was familiar to his people and he was at little disadvantage in daytime. Always skilled in the gesture code, he now became very expert; I was glad indeed to be his pupil, and thus in 1897 began seriously to study the Sign Language. In 1900 I included a chapter on Sign Language in my projected Woodcraft Dictionary, and began by collecting all the literature. There was much more than I expected, for almost all early travellers in our Western Country have had something to say about this lingua franca of the Plains. As the material continued to accumulate, the chapter grew into a Dictionary, and the work, of course, turned out manifold greater than was expected. The Deaf, our School children, and various European nations, as well as the Indians, had large sign vocabularies needing consideration. With all important print on the subject I am fairly well conversant, besides which I have had large opportunities in the field and have tried to avail myself of them to the fullest extent, carrying my manuscript from one Indian tribe to another, seeking out always the best sign-talkers among them, collecting and revising, aiming to add all the best signs in use to those already on record.

Flight and Refuge Josef Eisinger.2016-08-30 Flight and Refuge. Reminiscences of A Motley Youth by Josef Eisinger After a calm, middle-class childhood in Vienna, the author escapes, at fifteen, from Nazi-occupied Austria to Britain. He finds work as a farm 'lad' in Yorkshire, and then, as a dish washer in a Brighton hotel. Following the fall of France, he is interned as an enemy alien and is shipped to Canada. Confined in a series of internment camps, he acquires new skills as lumberjack and carpenter, and is also able to resume his interrupted education thanks to an informal school run by fellow inmates, like himself, mostly Jewish refugees. Thanks to a benevolent sponsor he is released from internment and enrolls in the mathematics and physics honors course at the University of Toronto. He joins the Canadian Army, and after the war ends, he completes his undergraduate studies. Wishing to visit his parents - they had found refuge in Palestine following a harrowing escape from Vienna - he joins the crew of a freighter bound for the Mediterranean as an ordinary seaman. Following his return, he wins a teaching fellowship at MIT and earns his PhD degree for an investigation of the internal structure of nuclei. He enters a richly varied research career in physics, molecular biology, and the history of science, settles down, and creates a family. Four appendices deal with the authors' roots, his parents' escape, and his life in science. \*\*\* Josef

Eisinger, professor emeritus at the Mount Sinai School of Medicine, New York, is the author of more than 150 articles in professional journals. His recent books, *Einstein on the Road* and *Einstein at Home* were published by Prometheus Books (2011, 2016).

*The Tattooed Lady* Amelia Klem Osterud. 2014-11-06 Living in a time when it was scandalous even to show a bit of ankle, a small number of courageous women covered their bodies in tattoos and traveled the country, performing nearly nude on carnival stages. These gutsy women spun amazing stories for captivated audiences about abductions and forced tattooing at the hands of savages, but little has been shared of their real lives. Though they spawned a cultural movement—almost a quarter of Americans now have tattoos—these women have largely faded into history. *The Tattooed Lady* uncovers the true stories behind these women, bringing them out of the sideshow realm and into their working class realities. Combining thorough research with more than a hundred historical photos, this updated second edition explores tattoo origins, women's history, circus lore, and includes even more personal and professional details from modern tattooed ladies. A fascinating read, *The Tattooed Lady* pays tribute to a group of unique and amazing women whose legacy lives on.

**Zelluloid** Esther Schlicht, Max Hollein. 2010 ZELLULOID is dedicated to a particular genre of artistic film, in which the image is generated directly, by physically processing the film strip. Unlike other forms of experimental film, the film material is interpreted as if it were a canvas by using a diverse range of artistic processes: through painting, drawing, collage on the celluloid, scores and scratches in the photographic emulsion, chemical manipulation or the direct lighting of photo-sensitive media. This exhibition catalogue contains outstanding examples of 'films without a camera' and features some 20 international artists and filmmakers from the 1930s to the present day. Published on the occasion of the exhibition *Zelluloid: Film ohne Kamera*, June ndash; August 2010, Schirn Kunsthalle Frankfurt. English and German text.

**The Eternal Nazi** Nicholas Kulish, Souad Mekhennet. 2014-03-25 From the New York Times reporters who first uncovered S.S. officer Aribert Heim's secret life in Egypt comes the never-before-told story of the most hunted Nazi war criminal in the world. Dr. Aribert Heim worked at the Mauthausen concentration camp for only a few months in 1941 but left a devastating mark. According to the testimony of survivors, Heim euthanized patients with injections of gasoline into their hearts. He performed surgeries on otherwise healthy people. Some recalled prisoners' skulls set out on his desk to display perfect sets of teeth. Yet in the chaos of the postwar period, Heim was able to slip away from his dark past and establish himself as a reputable doctor and family man in the resort town of Baden-Baden. His story might have ended there, but for certain rare Germans who were unwilling to let Nazi war criminals go unpunished, among them a police investigator named Alfred Aedtner. After Heim fled on a tip that he was about to be arrested, Aedtner turned finding him into an overriding obsession. His quest took him across Europe and across decades, and into a close alliance with legendary Nazi hunter Simon Wiesenthal. The hunt for Heim became a powerful symbol of Germany's evolving attitude toward the sins of its past, which finally crested in a desire to see justice done at almost any cost. As late as 2009, the mystery of Heim's disappearance remained unsolved. Now, in *The Eternal Nazi*, Nicholas Kulish and Souad Mekhennet reveal for the first time how Aribert Heim evaded capture--living in a working-class neighborhood of Cairo, praying in Arabic, beloved by an adopted Muslim family--while inspiring a manhunt that outlived him by many years. It is a brilliant feat of historical detection that illuminates a nation's dramatic reckoning with the crimes of the Holocaust.

*Resisting the Holocaust* Ruby Rohrlich. 1998-10 Jewish resistance.

*Second-generation Holocaust Literature* Erin Heather McGlothlin. 2006 This volume aims to expand the commonly-used definition of second-generation literature, which refers to texts written from the perspective of the children of survivors, to include texts written from the point of view of the children of Nazi perpetrators.

**Sex after Fascism** Dagmar Herzog.2007-02-11 What is the relationship between sexual and other kinds of politics? Few societies have posed this puzzle as urgently, or as disturbingly, as Nazi Germany. What exactly were Nazism's sexual politics? Were they repressive for everyone, or were some individuals and groups given sexual license while others were persecuted, tormented, and killed? How do we make sense of the evolution of postwar interpretations of Nazism's sexual politics? What do we make of the fact that scholars from the 1960s to the present have routinely asserted that the Third Reich was sex-hostile? In response to these and other questions, *Sex after Fascism* fundamentally reconceives central topics in twentieth-century German history. Among other things, it changes the way we understand the immense popular appeal of the Nazi regime and the nature of antisemitism, the role of Christianity in the consolidation of postfascist conservatism in the West, the countercultural rebellions of the 1960s-1970s, as well as the negotiations between government and citizenry under East German communism. Beginning with a new interpretation of the Third Reich's sexual politics and ending with the revisions of Germany's past facilitated by communism's collapse, *Sex after Fascism* examines the intimately intertwined histories of capitalism and communism, pleasure and state policies, religious renewal and secularizing trends. A history of sexual attitudes and practices in twentieth-century Germany, investigating such issues as contraception, pornography, and theories of sexual orientation, *Sex after Fascism* also demonstrates how Germans made sexuality a key site for managing the memory and legacies of Nazism and the Holocaust.

**Poison and Poisoning in Science, Fiction and Cinema** Heike Klippel,Bettina Wahrig,Anke Zechner.2017-11-14 This book is about poison and poisonings; it explores the facts, fears and fictions that surround this fascinating topic. Poisons attract attention because they are both dangerous and hard to discover. Secretive and invisible, they are a challenging object of representation. How do science studies, literature, and especially film—the medium of the visible—explain and show what is hidden? How can we deal with uncertainties emerging from the ambivalence of dangerous substances? These considerations lead the editors of this volume to the notion of “precarious identities” as a key discursive marker of poisons and related substances. This book is unique in facilitating a multi-faceted conversation between disciplines. It draws on examples from historical cases of poisoning; figurations of uncertainty and blurred boundaries in literature; and cinematic examples, from early cinema and arthouse to documentary and blockbuster. The contributions work with concepts from gender studies, new materialism, post-colonialism, deconstructivism, motif studies, and discourse analysis.

*Queen of Air and Darkness* Cassandra Clare.2019-10-08 Dark secrets and forbidden love threaten the very survival of the Shadowhunters in

*Days of Masquerade* Claudia Schoppmann.1996 In *Days of Masquerade* Claudia Schoppmann offers the first in-depth account of lesbians living in Germany during the Third Reich. Through a series of interviews, Schoppmann recounts the lives of perpetrators, bystanders, and victims: women who fought against Hitler's regime, others who married gay men to ward off suspicion, and one who remained active despite fairly clear pronouncements of her sexuality. Schoppmann enriches these vivid oral histories with the findings of her archival research, including a fascinating look at Nazi policy papers. She explores the drive toward sexual emancipation in Imperial and Weimar Germany and presents a comprehensive overview of Nazi attitudes and policies toward homosexual men and women. Identifying ways in which the Nazi positions were highly gender-specific, she points out that lesbianism was seen as less reprehensible than male homosexuality, since it was not considered a threat to women's reproductive potential. *Days of Masquerade* demonstrates that lesbianism, though not criminalized or subjected to systematic persecution as was male homosexuality, was driven underground by the Nazis, the thriving lesbian communities that had flourished during the Weimar Republic effectively destroyed. An eloquent reminder of the forgotten victims of the Third Reich, *Days of Masquerade* also points out that the experiences of gay men and lesbians during the Nazi era were not one and the same. As a major chapter in the social history of lesbians, Schoppmann's work opens new doors for students of lesbian and gay history, women's studies, and modern German and European history.

**Acting in Public** Raumlaborberlin (Group).2008 Mountain hiking in the ruins of Berlin's Palast der Republik, former home of the East German parliament; building a hotel in an abandoned prefab high-rise; creating an architectural sculpture in an allotment garden... For the last 10 years the radical, utopian Berlin-based interdisciplinary team raumlaborberlin has been carrying out sensational interventions and activities that shape a new perception of architecture--acting in public in order to force the questioning of public and private space and activities. In this galvanizing and well designed volume, a conversation on design processes and working methods within raumlabor complements detailed presentations of the group's most important projects while an illustrated index introduces 72 projects in text and image. The firm's objective is to attract attention to alternative strategies of urban renewal and urban planning and to encourage residents to become involved in shaping their own living environments: We call on people to get involved, we want to show them that becoming part of urban processes is worth the risk.

*Goethe and the Poets of Arabia* Katharina Mommsen.2014 A comprehensive account of Goethe's relationship to Arabian culture, mediated by his interest in certain poets and texts and by his highly nuanced attitude toward Islam.

*The Meaning of Particle/prefix Constructions in German* Robert B. Dewell.2011 This is really two books in one: a valuable reference resource, and a groundbreaking case study that represents a new approach to constructional semantics. It presents a detailed descriptive survey, using extensive examples collected from the Internet, of German verb constructions in which the expressions *durch* ('through'), *über* ('over'), *unter* ('under'), and *um* ('around') occur either as inseparable verb prefixes or as separable verb particles. Based on that evidence, the author argues that the prefixed verb constructions and particle verb constructions themselves have meaning, and that this meaning involves subjective construal processes rather than

objective information. The constructions prompt us to distribute focal attention according to patterns that can be articulated in terms of Talmy's notion of 'perspectival modes'. Among the other topics that play an important role in the analysis are incremental themes, reflexive trajectors, fictive motion, 'multi-directional paths', and 'accusative landmarks'.

*The Devotion and Promotion of Stigmatics in Europe, c. 1800-1950* Tine Van Osselaer, Andrea Graus, Leonardo Rossi, Kristof Smeyers. 2020-10-12 In the nineteenth century a new type of mystic emerged in Catholic Europe. While cases of stigmatisation had been reported since the thirteenth century, this era witnessed the development of the 'stigmatic': young women who attracted widespread interest thanks to the appearance of physical stigmata. To understand the popularity of these stigmatics we need to regard them as the 'saints' and religious 'celebrities' of their time. With their 'miraculous' bodies, they fit contemporary popular ideas (if not necessarily those of the Church) of what sanctity was. As knowledge about them spread via modern media and their fame became marketable, they developed into religious 'celebrities'.

**Lew the Jew Alberts** Don Ed Hardy. 2015-05-20 The original creator of tattoo flash was largely unknown. Now a private collection of works by this Jewish tattooer from New York, Lew the Jew Alberts, has come to light. Around 1905 he was the first to make these design sheets commercially available, as well as developing the electric tattoo machine. His previously unpublished and rare original tattoo artwork is being published as a tattoo flash collection for the first time. Albert Kurzman (1880-1954) aka Lew the Jew was one of America's most influential tattoo artists at the beginning of the 20th century. Operating primarily on New York's Bowery, Lew constructed some of the earliest electric tattoo machines, and was the first to design and market printed design sheets to other tattooers. His artwork in these flash displays codified the repertoire of American tattooing, and many are still in use today. This first book to document this amazing man presents over 150 drawings. Included in these is correspondence between Al and two of his closest confidants, San Francisco Bay Area tattooers Brooklyn Joe Lieber and C.J. Pop Eddy. These candid fragments provide a vivid sense of a hardboiled, secretive world. Additional business cards, vintage tattoo photographs, and previously unknown biographical data illuminate the then-shadowy business of skin art. This material laid the ground for the avalanche of tattooing that permeates the world today.
