The Demand for Dental Care Willard G. Manning,Rand Corporation.1986 Using data from a randomized trial in health insurance, this report examines the effect of cost sharing on use of dental services other than

orthodontia. The data come from a nonaged, noninstitutionalized civilian population of four urban and two rural sites. The authors reach two major conclusions: (1) Reducing the level of cost sharing increases demand for dental services; dental expenses rise 46 percent when the coinsurance rate falls from 95 percent to 0 percent, subject to a catastrophic limit on out-of-pocket expenses. (2) Increased income affects dental visits differently than dental expenditures; lower-income individuals tend to have more expensive visits than high-income individuals.

Medicare and Other Health Insurances Linda Meckler.2021-06-06 Medicare explained. Other insurances explained. Medical Insurance Terminology explained. A sample appeal letter. This book is for all consumers including medical providers. To understand this book in its entirety, you must take the time to read the words and understand them. When I was writing this book, I used medical terminology. I became aware that most people don't understand these terms. That is how this chapter came about. Accept Assignment Participating providers who accept Medicare means that the medical provider accepts Medicare's approved healthcare services as full payment. Medical providers are required to submit a bill and (file a claim) to Medicare for the care they receive. Medicare will process the bill and pay your provider directly. You are responsible for paying a 20% coinsurance for Medicare-covered services. Certain providers, such as clinical social workers and physician assistants, must always take assignment if they accept Medicare. When a Medical Provider bills your medical insurance company at the accepted Pre-Set contracted rate. The patient only pays for the co-pay, deductible, or the percentage of your policy indicated on your Explanation of Benefits. (EOB) This varies with different insurance companies. Example: Blue Cross, Medicare, Tricare, Etc. Account Auditing This is when a person from your Medical Provider's Office goes into every open account (or balance owing) and asks the following questions: Was the claim billed? Was it billed to the correct insurance company? Was the payment made? Was an adjustment made? Was the secondary insurance billed and paid? Does it need to be re-billed? Does it need to be appealed? If everything is okay on the account, the account balance is now transferred to you, the patient to be paid. Acupuncture Acupuncture points are believed to stimulate the central nervous system by placing needles into the acupuncture point at a 90-degree angle. This, in turn, releases chemicals into the muscles, spinal cord, and brain. These biochemical changes may stimulate the body's natural healing abilities and promote physical and emotional well-being. Affordable Health Care Act (Obama Care) Lowest Prices. Government Discounts Easy Enrollment In 2010, each of the 50 states had to decide to either create a state-run health insurance exchange or offer enrollment through a federally operated exchange. California chose to create its exchange and called it Covered California. What Does The California Health Exchange Do? It helps individuals and families obtain medical insurance that includes the minimum essential benefits required by the law. Certain carriers are certified to offer subsidized Obama Care Plans, Price plans, and dental plans through the Exchange. For qualified consumers, rates can be better if the medical plan is purchased through the marketplace. For people with a household income that is below 400% of the Federal Poverty Level (FPL), Covered Ca qualify them to receive financial assistance, a Subsidy, which reduces their premium. If income is between 138% and 250% of the Federal Poverty Level (FPL), the State Exchange may also qualify individuals
