Queen of the Owls Barbara Linn Probst.2020-04-07 A chance meeting with a charismatic photographer will forever change Elizabeth's life. Until she met Richard, Elizabeth's relationship with Georgia O'Keeffe and her little-known Hawaii paintings was purely academic. Now it's personal. Richard tells Elizabeth that the only way she can truly understand O'Keeffe isn't with her mind—it's by getting into O'Keeffe's skin and reenacting her famous nude photos. In the intimacy of Richard's studio, Elizabeth experiences a new, intoxicating abandon and fullness. It never occurs to her that the photographs might be made public, especially without her consent. Desperate to avoid exposure—she's a rising star in the academic world and the mother of young children—Elizabeth demands that Richard dismantle the exhibit. But he refuses. The pictures are his art. His property, not hers. As word of the photos spreads, Elizabeth unwittingly becomes a feminist heroine to her students, who misunderstand her motives in posing. To the university, however, her actions are a public scandal. To her husband, they're a public humiliation. Yet Richard has reawakened an awareness that's haunted Elizabeth since she was a child—the truth that cerebral knowledge will never be enough. Now she must face the question: How much is she willing to risk to be truly seen and known?

A Coming of Age James Salibur O'Donnell.1999 In 1945, Albania was an extremely under-developed nation compared to other countries in Europe. So in studying Enver Hoxha's forty-year reign (1945-85) it is necessary to recognize him as a leader who accomplished great things for Albania while concurrently enmeshing the country in policies that were not only counterproductive but self-destructive. This book studies a wide range of areas pertaining to Hoxha's impact upon Albania's development. O'Donnell shows that, while it is necessary to give Hoxha a mixed report card, he nonetheless enabled a small nation with a multitude of limitations to maintain its sovereignty and modernize through unorthodox methods.

Sapiens Yuval Noah Harari.2015-02-10 New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark

Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity’s creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be “human.” One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—homo sapiens. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, *Sapiens* integrates history and science to reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

Philosophy of Nonsense Jean-Jacques Lecercle.2012-11-12 'Jean-Jacques Lecercle's remarkable Philosophy of Nonsense offers a sustained and important account of an area that is usually hastily dismissed. Using the resources of contemporary philosophy - notably Deleuze and Lyotard - he manages to bring out the importance of nonsense' - Andrew Benjamin, University of Warwick Why are we, and in particular why are philosophers and linguists, so fascinated with nonsense? Why do Lewis Carroll and Edward Lear appear in so many otherwise dull and dry academic books? This amusing, yet rigorous new book by Jean-Jacques Lecercle shows how the genre of nonsense was constructed and why it has proved so enduring and enlightening for linguistics and philosophy.

The Archer Paulo Coelho.2020-11-10 From the #1 best-selling author of *The Alchemist* comes an inspiring story about a young man seeking wisdom from an elder, and the practical lessons imparted along the way. Includes stunning illustrations by Christoph Niemann. “A novelist who writes in a universal language.” —The New York Times In *The Archer* we meet Tetsuya, a man once famous for his prodigious gift with a bow and arrow but who has since retired from public life, and the boy who comes searching for him. The boy has many questions, and in answering them Tetsuya illustrates the way of the bow and the tenets of a meaningful life. Paulo Coelho's story suggests that living without a connection between action and soul cannot fulfill, that a life constricted by fear of rejection or failure is not a life worth living. Instead one must take risks, build courage, and embrace the unexpected journey fate has to offer. With the wisdom, generosity, simplicity, and grace that have made him an international best seller, Paulo Coelho provides the framework for a rewarding life: hard work, passion, purpose, thoughtfulness, the willingness to fail, and the urge to make a difference.

The Siege Ismail Kadare.2010-02-12 From Ismail Kadare, winner of the inaugural Man Booker International Prize - a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie - the stunning new translation of one of his major works. In the early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with the Ottoman Empire, and war is now inevitable. Soon enough, dust kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the fortress has fallen. The Siege tells the enthralling story of the weeks and months that follow - of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. Believe me, the general said. I've taken part in many sieges but this, he waved towards the castle walls, is where the most fearful carnage of our times will take place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside by squealers who never went to war. Brilliantly vivid, as insightful as it is compelling, The Siege is an unforgettable account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries.

The Forty Rules of Love Elif Shafak.2010-02-18 In this lyrical, exuberant tale, acclaimed Turkish author Elif Shafak, author of *The Island of Missing Trees* (a Reese's Book Club Pick), incarnates Rumi's timeless message of love *The Forty Rules of Love* unfolds two tantalizing parallel narratives—one contemporary and the other set in the thirteenth century, when Rumi encountered his spiritual mentor, the whirling dervish known as Shams of Tabriz—that together explore the enduring power of Rumi's work. Ella Rubenstein is forty years old and unhappily married when she takes a job as a reader for a literary agent. Her first assignment is to read and report on *Sweet Blasphemy*, a novel written by a man named Aziz Zahara. Ella is mesmerized by his tale of Shams's search for Rumi and the dervish's role in transforming the successful but unhappy cleric into a committed mystic, passionate poet, and advocate of love. She is also taken with Shams's lessons, or rules, that offer insight into an ancient philosophy based on the unity of all people and religions, and the presence of love in each and every one of us. As she reads on, she realizes that Rumi's story mirrors her own and that Zahara—like Shams—has come to set her free.

First published in 1922, Pupin's autobiography won the Pulitzer Prize in 1924, but Pupin's insightful and incisive words are their own greatest recommendation. American physicist and writer MICHAEL IDVORSKY PUPIN (1858-1935) was born in Serbia and emigrated to the United States as a teenager. As a professor and researcher at Columbia University, he invented sonar and made important discoveries in the fields of X-ray physics and telecommunications.

Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.

The Outsider Albert Camus.1961 When a young Algerian named Meursault kills a man, his subsequent imprisonment and trial are puzzling and absurd.
