The Daughter's Way Tanis MacDonald.2012-09-01 The Daughter's Way investigates negotiations of female subjectivity in twentieth-century Canadian women's elegies with a special emphasis on the father's death as a literary and political watershed. The book examines the work of Dorothy Livesay, P.K. Page, Jay Macpherson, Margaret Atwood, Kristjana Gunnars, Lola Lemire Tostevin, Anne Carson, and Erin Mouré as elegiac daughteronomies—literary artifacts of mourning that grow from the poets' investigation into the function and limitations of elegiac convention. Some poets treat the father as a metaphor for socio-political power, while others explore more personal iterations of loss, but all the poets in The Daughter's Way seek to redefine daughterly duty in a contemporary context by challenging elegiac tradition through questions of genre and gender. Beginning with psychoanalytical theories of filiation, inheritance, and mourning as they are complicated by feminist challenges to theories of kinship and citizenship, The Daughter's Way debates the efficacy of the literary "work of mourning" in twentieth-century Canadian poetry. By investigating the way a daughter's filial piety performs and sometimes reconfigures such work, and situating melancholia as a creative force in women's elegies, the book considers how elegies inquire into the rhetoric of mourning as it is complicated by father-daughter kinship.

Writing Beyond the End Times? / Écrire au-delà de la fin des temps ? Ursula Mathis-Moser,Marie Carrière.2019-10-03 This collection of essays examines how the sense of crisis that occasionally seems to overwhelm us directs and transforms Canadian and Quebec writings in English and French, and conversely, how literature and criticism set out to counterbalance the social, economic, and ideological insecurities we live in. Ce recueil de textes étudie les manières dont le sentiment de crise qui peut parfois sembler nous submerger, oriente et transforme les écrits canadiens et québécois d'expressions anglaise et française, et inversement, comment la littérature et la critique s'efforcent de contrebalancer les insécurités sociales, économiques et idéologiques dans lesquelles nous vivons. Sharing Common Ground Robert Harvey.2017-06-15 A deep contribution to literary theory that champions the virtues of thinking in common--that is, cultural imagination--and the ethical power of art--

Poetry & Barthes Calum Gardner.2018 What kinds of pleasure do we take from writing and reading? What authority has the writer over a text? What are the limits of language's ability to communicate ideas and emotions? Moreover, what are the political limitations of these questions? The work of the French cultural critic and theorist Roland Barthes (1915-80) poses these questions, and has become influential in doing so, but the precise nature of that influence is often taken for granted. This is nowhere more true than in poetry, where Barthes' concerns about pleasure and origin are assumed to be relevant, but this has seldom been closely examined. This innovative study traces the engagement with Barthes by poets writing in English, beginning in the early 1970s with one of Barthes' earliest Anglophone poet readers, Scottish poet-theorist Veronica Forrest-Thomson (1947-75). It goes on to examine the American poets who published in *L=A=N=G=U=A=G=E* and other small but influential journals of the period, and other writers who engaged with Barthes later, considering his writings' relevance to love and grief and their treatment in poetry. Finally, it surveys those writers who rejected Barthes' theory, and explores why this was. The first study to bring Barthes and poetry into such close contact, this important book illuminates both subjects with a deep contemplation of Barthes' work and a range of experimental poetries.

Ground Zero: (Zero Hour Book One) Aimee Nicole Walker.2019-09-18 Ground zero, noun: the center or origin of rapid, intense, or violent activity or change.Heat, humidity, and homicide are things veteran detective Sawyer Key expects to encounter on his first day with the Savannah Police Department, but the hostile reception from his new partner catches him by surprise. Sawyer isn't a stranger to heartache and recognizes that Royce Locke is a wounded man who's reeling from a devastating loss. Relentless and patient in all things, Sawyer is determined to make the new partnership work. Savannah, Georgia is known for her quirky people, oak trees draped in Spanish moss, and antebellum architecture. Beneath the Southern charm and hospitality, festering hatred and violence is soaring with the summer temperatures. Locke and Key find themselves at the epicenter when their first case involves the death of a former shock jock who appears to be the victim of vigilante justice. Opposites in nearly every way, the two detectives set aside their differences to take back their city and restore law and order. From this reluctant truce, an intense attraction grows that will either tighten or shatter their tenuous bond. Falling for his partner spells inevitable disaster, but Sawyer's always been a sucker for wounded things. Sawyer could be the key to the life Royce has always wanted, if he's brave enough to trust him. The fuse is lit, the clock is running, and the zero hour is upon them. Tick tock. Ground Zero is the first book in the Zero Hour series, which follows Locke and Key's investigations and evolving relationship. Ground Zero has a happy-for-now ending with no cliffhanger. It contains mature language and sexual content intended for adults 18 and older.

To the Heart of It Maxine Platt.2003 In April 2002, I went to New York with four co-workers to volunteer at Ground Zero for a week. At the time I was the director of an AmeriCorps program in Wisconsin. I announced this opportunity to the AmeriCorps members serving in my program and then coordinated the trip for those who were able to come. I knew this experience would change my life so I brought a journal with me to record my thoughts and experiences. I wanted to remember what it was like when I was there, so I brought the journal with me everywhere I went and wrote in it every opportunity I had. Reading it can be difficult for me, but I do it when I feel the need to reflect. I wanted to write out the notes of my journal because I needed to release my feelings from Ground Zero. I also felt it was important to share this experience with others. Many of my loved ones asked me what it was like volunteering at Ground Zero but I couldn't verbalize it; this memoir is a recollection of what I experienced while in New York, based on my journal. I changed some of the names to respect the privacy of those I met. To separate the time I spent exploring New York, and time at Ground Zero, boldface type highlights time spent at Ground Zero. Because it was such an emotional experience for me, and because I experienced a lot, some details are fuzzy, but this is how I remember New York and Ground Zero. This is my experience, from the bus trip, to volunteering at Ground Zero, and exploring New York.

Balcony View, Living at Ground Zero After 9/11 Julia Frey.2021-08-06 Very quietly Ron said, "You know, I think the Towers are going to go. Maybe we'd better get out of here." ¶We suddenly realized that if either of the Towers fell at a certain angle, our building was directly in the line of fall. Above the raging flames, the perpendicular steel I-beams were beginning to bulge out, softening in the heat. Again his unnaturally quiet voice, "I can't stay here. If the Towers fall on us, I'll die of fright." (BALCONY VIEW - a 9/11/ Diary) Julia Frey's account begins on September 11, 2001, as the couple decide that despite her husband's illness, they must somehow flee. They abandon his wheelchair; he is too frail to climb on a boat. Later that day, covered with ashes, they struggle home through a neighborhood pitched into destruction and chaos, to look out his study window at their new view: "the stage set for Dante's Inferno." The domino effect of one burning, collapsing building setting fire to the next one makes it clear that their own building could still go. "The electricity was out. Ron could never go down 26 flights on his rear end. We were trapped in the sky." That's when Julia decides to write it all down -- if only for the people who will find their bodies. Describing the first night in the ruins, being evacuated, then returning weeks later, to live at Ground Zero, she discovers that their world has totally changed, yet finally not changed at all. "Our previous problems didn't magically disappear. They were just waiting for us to come back in the door." This powerful narrative of double coping -- with Ron's progressing disability and with the after-effects of 9/11 -- describes a situation the manuals don't cover -- caregiving in a disaster. Julia Frey's intense, wryly humorous 'you are there' style buoys up the diary and moves it swiftly along, catching us in a gripping, touching, brave, tender, funny story of falling towers, a failing husband and a floundering ménage à trois. "Nothing happens in a vacuum," she says, weaving in the leitmotif of a long-term love affair. Unflinchingly, she faces the ruins out the window and her own disturbing ambivalence as she sacrifices her creative and professional life to become a full-time caregiver. Ron is no angel, either. He's a self-centered, willful novelist who after convincing her to take a lover, now wants her to give him up. "What makes him think he can turn us off and on like televisions?" she wonders. Ron's own writing creates an important counterpoint to Julia's voice, as she weaves into her diary quotations from his posthumous novel, *Last Fall* (FC2, 2005). In a poignant Coda, another tale comes to light -- the almost supernatural coincidences between Ron's last short story and a series of events that occur after Ron dies. There is even a happy ending. Now, twenty years later, Julia's experience is no longer an extraordinary occurrence. This historical diary is important not only to historians, sociologists and psychologists helping patients recover from PTSD, but above all, to those who find themselves unexpectedly plunged into similar catastrophic situations: becoming caregivers during a major emergency. The international Covid-19 pandemic and regional climate-change disasters like wildfires, tornadoes, hurricanes, repeated Gulf Coast flooding and the 2021 Texas freezes have left many unprepared people to deal with a very ill family member, without electricity, gas or clean water. Julia's dilemma unfortunately is no longer rare. Many people will find it comforting to know that even unheroic people manage to get through such times. Book Review: "An intimate memoir of love and loss in the shadow of 9/11 (...) Engaging and candid; an insightful look at how one woman copes with personal and national trauma." -- Kirkus Indie

Liberty Street Peter Josyph.2012-08-20 A haunting record of the destruction and rebirth of the neighborhood surrounding Ground Zero. When writer and feature filmmaker Peter Josyph spent a year and a half combing the historic streets and debris-blasted buildings of Ground Zero in Lower Manhattan, talking with workers and residents, capturing its struggles and transformations, he became what he calls a "citizen-artist," personally shooting over two hundred hours of footage for his film *Liberty Street: Alive at Ground Zero*, and writing this haunting, eyewitness account of the extraordinary world that was created on September 11 and has vanished now forever. When the Ground Zero neighborhood was misinformed and marginalized by city and federal agencies, it was left to its own devices in coping with round-the-clock deconstruction, toxic infestation, corrupt landlords, reluctant insurers, and simple access to the place they were proud—and cursed—to call their home. But loyal Downtowners who ran for their lives from the collapse of the Twin Towers returned with a resolve to restore their world to order. Exploring this "dust-driven world of collateral damage," Josyph documented their struggle at a time when there were few there to witness it, and bans against photography made him "a spy in the house of destruction." In what the New York Times called "a personal, impressionistic, almost poetic account," Josyph finds in each detail a new way to envision that terrible morning, and he challenges the more simplistic, mainstream views of Ground Zero with vivid portraits of brave, exceptional—and complex—New Yorkers who made a place for themselves in that tragic and transitory neighborhood. This expanded edition includes a new chapter and additional photographs. Peter Josyph is an award-winning writer, painter, actor, and filmmaker. He is the author of *What One Man Said to Another*:

Writing-between-Worlds Ottmar Ette.2016-02-22 This book proposes that there is no better, no more complex way to access a community, a society, an era and its cultures than through literature. For millennia, literature from a wide variety of geocultural areas has gathered knowledge about life, about survival, and about living together, without either falling into discursive or disciplinary specializations or functioning as a regulatory mechanism for cultural knowledge. Literature is able to offer its readers knowledge through direct participation in the form of step-by-step intellectual and affective experiences. Through this ability, it can reach and affect audiences across great spatial and temporal distances. Literature – what different times and cultures have been able to understand as such in a broad sense – has always been characterized by its transareal and transcultural origins and effects. It is the product of many logics, and it teaches us to think polylogically rather than monologically. Literature is an experiment in living, and living in a state of experimentation. About the author Ottmar Ette has been Chair of Romance Literature at the University of Potsdam, Germany, since 1995. He is Honorary Member of the Modern Language Association of America (MLA) (elected in 2014), member of the Berlin-Brandenburg Academy of Sciences and Humanities (elected in 2013), and regular member of the Academia Europaea (since 2010).

Towards Zero Agatha Christie.1980-06-02 I like a good detective story, but they begin in the wrong place! They begin with the murder. But the murder is the end. The story begins long before that. So remarks esteemed criminologist Mr. Treves. Truer words have never been spoken, for a psychopathic killer has insinuated himself, with cunning manipulation, into a quiet village on the river Tern. But who is his intended victim? What are his unfathomable motives? And how and when will he reach the point of murder...the zero point? In the ingenious and noteworthy departure for Agatha Christie, it's the intricate workings of a pathological mind that becomes the stuff of startling mystery as group of friends at a seaside resort remain blithely unaware that their weekend will be the death of them all...

Images of War in Contemporary Art Uroš Cvoro, Kit Messham-Muir.2021-08-12 In *Images of War in Contemporary Art*, Uroš Cvoro and Kit Messham-Muir mount a challenge to the dominance of theoretical tropes of trauma, affect, and emotion that have determined how we think of images of war and terror for the last 20 years. Through analyses of visual culture from contemporary war art to the meme wars, they argue that the art that most effectively challenges the ethics and aesthetics of war and terror today is that which disrupts this flow-art that makes alternative perceptions of wartime both visible and possible. As a theoretical work, *Images of War in Contemporary Art* is richly supported by visual and textual evidence and firmly embedded in current artistic practice. Significantly, though, the book breaks with both traditional and current ways of thinking about war art-offering a radical rethinking of the politics and aesthetics of art today through analyses of a diverse scope of contemporary art that includes Ben Quilty, Abdul Abdullah (Australia), Mladen Miljanovic, Nebojša Šeric Šoba (Bosnia and Herzegovina), Hiwa K, Wafaa Bilal (Iraq), Teresa Margolles (Mexico), and Arthur Jafa (United States).

Zero Hour Tom Clancy, Martin H. Greenberg, Jerome Preisler.2003-11-04 Seventh in the #1 New York Times bestselling *Power Plays* series created by Tom Clancy and Martin Greenberg and written by Jerome Preisler. Competition is heating up between the powerful telecommunications company Uplink International and new technological giant Ambright Industries. To keep Uplink on top, owner Roger Gordian is not above a little "friendly snooping," especially when one of Ambright's corporate sales agents disappears under mysterious circumstances. On the surface, Ambright specializes in creating flawless artificial sapphires used in advanced laser development. But, a little digging by Uplink operatives reveals a major flaw: a Pakistani terrorist is using Ambright's laser technology to further his own political agenda—and it's only a matter of time before he launches the ultimate attack...on U.S. soil. Higher Ground: Zero Hour T. M. Carpenter.2015-07-26 As mankind continues to ravage the planet we call home, the Earth refuses to become just another victim of our destructive nature. It is the Earth that gives us life, not us who gives life to the Earth. She will fight back with billions of years of experience on her side. She shows favor to those who live in harmony with her, and delivers devastating blows to those who mean her harm. She tries to warn us that her beauty will not always be evident, that danger lurks in her many facets, and that her ugliness, when it does appear, is not intentional. She was just born that way. She will warm us, feed us, clothe us and protect us if we are wise. Freeze us, starve us, strip us and destroy us if we are not. We are at her mercy for our survival. Yet, we expect her to bend to our will, as if it were the other way around. We blindly ignore warnings that if our current global consumption and production patterns continue, by 2050 we'd need three planets to sustain our current lifestyles. We selfishly expect her to bear the burden on her own. Meanwhile, man looks to the stars for answers to all the wrong questions, and then looks into polluted waters down here and wonders why he sees no reflection. What stories will we tell our children when they ask us how things got like this? Will it be a story of how we learned from our mistakes and realized every human is precious? Will we tell them that we came to our senses and found ways to live in harmony with the planet and each other? Will we be able to tell them how we finally demanded that love conquer hatred? That when we finally figured out we had no place else to go, we cried to the Earth for her forgiveness? Will we be able to tell them that it's not problems they should fear, rather, they should fear those who deny the problem exists, and therefore stand in the way of finding a solution? We live amongst plants and animals great and small, and when we were few in number, all other living things were better off. Air was pur

Cultural and Political Nostalgia in the Age of Terror Matthew Leggatt.2017-11-14 This book re-examines the role of the sublime across a range of disparate cultural texts, from architecture and art, to literature, digital technology, and film, detailing a worrying trend towards nostalgia and arguing that, although the sublime has the potential to be the most powerful uniting aesthetic force, it currently spreads fear, violence, and retrospection. In exploring contemporary culture, this book touches on the role of architecture to provoke feelings of sublimity, the role of art in the aftermath of destructive events, literature's establishment of the historical moment as a point of sublime transformation and change, and the place of nostalgia and the returning of past practices in digital culture from gaming to popular cinema.

Nation and Identity in the New German Cinema Inga Scharf.2008-06-30 In this original study, Scharf investigates issues of national identity in films of the New German Cinema. Using a cultural studies analysis, Scharf argues that the conflict between this generation of critical filmmakers and their 'German-ness' translate into feature films that construct, and are pervaded by, a sense of homelessness at home. As the first cultural studies investigation of this cinematic movement, the book challenges existing film studies accounts by analyzing the New German Cinema within its social, temporal, and spatial contexts. Furthermore, with its broad concerns for the West German production context, the New German Cinema's reception both nationally and internationally, as well as issues of representation, narration, and 'Othering,' *Nation and Identity in the New German Cinema* offers an interdisciplinary contribution to the ongoing debate on national cinema.

In the Midst of Chaos. My 30 Days at Ground Zero David W. Ausmus.2004 In the *Midst of Chaos* is the story of a volunteer safety representative's 30 days in the middle of the World Trade Center disaster. His task was to assist the rescue and recovery teams, construction workers, and volunteers in protecting themselves from injury in the debris field of WTC Tower 2, where thousand of victims lay buried. Urged by his wife to keep a record of his experiences for their children and grandchildren, he documented the daily sights, sounds, smell, frustrations, and profound tragedy of Ground Zero. Staggered by the horrible sights of death, grief, and the uncertainty of his own survival, he frequently turns his own thoughts inwards. He allows the reader to experience the reality of the disaster, his innermost thoughts and fears, the painful, personal emotions, and the life altering changes taking place within.

Zero Charles Seife.2019-11-28 A NEW YORK TIMES NOTABLE BOOK The Babylonians invented it, the Greeks banned it, the Hindus worshipped it, and the Christian Church used it to fend off heretics. Today it's a timebomb ticking in the heart of astrophysics. For zero, infinity's twin, is not like other numbers. It is both nothing and everything. Zero has pitted East against West and faith against reason, and its intransigence persists in the dark core of a black hole and the brilliant flash of the Big Bang. Today, zero lies at the heart of one of the biggest scientific controversies of all time: the quest for a theory of everything. Within the concept of zero lies a philosophical and scientific history of humanity. Charles Seife's elegant and witty account takes us from Aristotle to superstring theory by way of Egyptian geometry, Kabbalism, Einstein, the Chandrasekhar limit and Stephen Hawking. Covering centuries of thought, it is a concise tour of a world of ideas, bound up in the simple notion of nothing.
