Legal Education in Asia Jiaxiang Hu,Andrew J. Harding,Maartje de Visser.2017-11-27 Legal Education in Asia: From Imitation to Innovation is a curated collection of case studies that critically examine how conventional transplanted approaches to legal education are, or are on the cusp of being, redesigned across East Asia.

A Purposive Approach to Labour Law Guy Davidov.2016-05-06 The mismatch between goals and means is a major cause of crisis in labour law. The regulations that we use - the legal instruments and techniques - are no longer in sync with the goals they are supposed to advance. This mismatch leads to a problem of coverage, where many workers who need the protection of labour law are not covered by it, as well as a problem of obsolescence, as labour laws are not sufficiently updated in light of dramatic changes in the labour market. Adopting a purposive approach to interpretation and legislative reform, this volume addresses this crisis of mismatch. It first articulates the goals of labour law, both general and specific, through an in-depth normative discussion and a consideration of critiques. The book then proceeds to reconsider our means, asking what we need to change or improve in the laws themselves in order to better advance the goals. Some of the proposed solutions are at the level of judicial interpretation, others at the legislative level. The book offers several examples of the way a purposive analysis should be performed in concrete cases. It also recommends institutional structures that are suited to ongoing adaptation of the law to ensure that our goals are advanced even when circumstances frequently change. Finally, in response to the crisis of enforcement in this field, which frustrates the achievement of labour law's goals, several proposals to improve compliance and enforcement are considered.

Labour Law in Iceland Elín Blöndal.2022-10-20 Derived from the renowned multi-volume International Encyclopaedia of Laws, this monograph on Iceland not only describes and analyses the legal aspects of labour relations, but also examines labour relations practices and developing trends. It provides a survey of the subject that is both usefully brief and sufficiently detailed to answer most questions likely to arise in any pertinent legal setting. Both individual and collective labour relations are covered in ample detail, with attention to such underlying and pervasive factors as employment contracts, suspension of the contracts, dismissal laws and covenant of non-competition, as well as international private law. The author describes all important details of the law governing hours and wages, benefits, intellectual property implications, trade union activity, employers' associations, workers' participation, collective bargaining, industrial disputes, and much more. Building on a clear overview of labour law and labour relations, the book offers practical guidance on which sound preliminary decisions may be based. It will find a ready readership among lawyers representing parties with interests in Iceland, and academics and researchers will appreciate its value in the study of comparative trends in laws affecting labour and labour relations.

Employment Law Richard Benny,Malcolm Sargeant,Michael Jefferson.2003 Examination questions in Employment Law can seem particularly daunting to students. This book shows how to successfully tackle the sort of problems and essay questions frequently found in examination papers. The authors suggest how answers should be structured, providing advice on what to include, and on what to leave out. No matter how good your research and study skills, the ultimate test for the law student is the exam. The more preparation you have, the better equipped you will be. Blackstone's Law Questions and Answers Series gives students the opportunity to practise their exam techniques and evaluate and assess their progress. Written by experienced lecturers, the series covers all the topics found on law degree courses, CPE courses, and other undergraduate courses where law is an essential element. Each title is divided into chapters covering each major topic and contains up to fifty questions and answers. Each chapter has an introduction focusing on important points and suggestions for further reading. Each question is followed by clear commentary highlighting the essential elements of each question and indicating exactly what the examiners are looking for. This addition to the series also contains bullet pointed answer plans listing the main issues to be raised in each chapter, further reading at the end of every chapter, and diagrams illuminating key points to provide students with instant confidence.

California 2020 Master Electrician Exam Questions and Study Guide Ray Holder. The California 2020 Master study guide will help you prepare for the exam by providing 12 practice open book exams and 2 Final Closed Book Exams. Includes California License Forms and Sample Applications. This book also covers most topics that are included on all Master Electricians exams such as conductor sizing and protection, motors, transformers, voltage drop, over-current protection and residential and commercial load calculations. The text contains the most widely used electrical calculations and formulas the reader needs to pass the Master electrical competency exam.About the AuthorRay Holder has worked in the electrical industry for more than 40 years as an apprentice, journeyman, master, field engineer, estimator, business manager, contractor, inspector, and instructor. He is a graduate of Texas State University and holds a Bachelor of Science Degree in Occupational Education. A certified instructor of electrical trades, he has been awarded a lifetime teaching certificate from the Texas Education Agency in the field of Vocational Education. Mr. Holder has taught thousands of students at Austin Community College; Austin Texas Odessa College at Odessa, Texas; Technical-Vocational Institute of Albuquerque, New Mexico; Howard College at San Angelo, Texas, and in the public school systems in Fort Worth and San Antonio, Texas. He is currently Director of Education for Electrical Seminars, Inc. of San Marcos, Texas. Mr. Holder is an active member of the National Fire Protection Association, International Association of Electrical Inspectors, and the International Brotherhood of Electrical Workers.

International Labour Law Reports Zvi H. Bar-Niv,B. Aaron,Peter Elmann.1979-10-11 The International Labour Law Reports (ILLR) is a series of annual publications of labour law judgments by the highest courts in a number of jurisdictions. ILLR is a particularly useful resource for judges, labour law practitioners, industrial relations specialists, and students who seek ready access to authoritative information of a comparative nature on problems arising in the field of labour law and industrial relations. ILLR accompanies each reprinted judgement with Headnotes and, in practically all cases, an Annotation which sets forth, among other things, -the legal issues involved, - the basic facts of the case (if not included in the judgment itself), - the relevant statutory provisions and judicial precedents, - the labour law and industrial relations context in which the case arose, and - the significance of the judgment in the development of the law. ILLR provides the reader with factual information not coloured by the personal views of the annotators. As a rule, judgments are printed in extenso; the editors summarize or cut portions of judgments that are purely technical or only of marginal interest. ILLR also provides a list of cases both by jurisdiction and by subject matter. As a result, this work offers the reader a concise, readily-accessed statement of law. Volume 16 covers the period 1 October 1995 to 30 September 1996. (Volume 15 covers the period 1 October 1994 to 30 September 1995 and is also available, as are all earlier volumes.)

Commonwealth Caribbean Employment and Labour Law Natalie G.S. Corthésy,Carla-Anne Harris-Roper.2014-07-17 This new edition to the series will provide an up-to-date textbook covering a wide-range of employment and labour law issues which affect the Commonwealth Caribbean. Initially the book will embark on a comparative analysis of employment and labour law in Jamaica, Trinidad and Barbados, as a reference

point for distinguishing the laws of other Commonwealth Caribbean jurisdictions. The book will continue to examine how the law operates within the legal systems of the Caribbean, taking into account the umbilical link to British jurisprudence and the persuasive precedent of other Commonwealth jurisdictions, and the impact this has had on the growth and development of the area. Commonwealth Caribbean Employment and Labour Law will be essential reading for students enrolled on Employment Law, Discrimination and Dismissal Law courses in the Caribbean.

Employment Law 2006-2007 Richard Benny, Malcolm Sargeant, Michael Jefferson. 2006 No matter how good your research and study skills, the ultimate test for the law student is the exam. The more preparation you have, the better equipped you will be. Blackstone's Questions and Answers Series gives students the opportunity to practise their exam technique and evaluate and assess their progress.

The Examination Chronicle

The Idea of Labour Law Guy Davidov, Brian Langille. 2011-06-02 There is growing interest in trying to understand and rethink the goals of labour law in light of changing realities in the labour market and regulation.

Responding to such fundamental questions as: What is labour law for? How can it be justified? And on what should reforms be based? this book challenges the way we think about labour law.

Labour Law Robert Upex, R. V. Upex, Richard Benny, Stephen Hardy, Stephen T. Hardy. 2006 The second and updated edition of Labour Law Core Text covers the core elements in labour and employment law courses and presents these clearly and concisely. Its clear layout makes this an accessible text for undergraduates who are learning the subject from the beginning. The self-test questions further support students preparing for exams and bulleted lists are helpful for revision.

Boundaries and Frontiers of Labour Law Guy Davidov, Brian Langille. 2006-11-06 Labour law has always been preoccupied with boundaries. One can either be an 'employee' or not, an 'employer' or not, and the answer dictates who comes within the scope of labour law, for better or worse. But such divisions have always been difficult, and in recent years their shortcomings have become ever more pronounced. The proliferation of new work arrangements and heightened global competition have exposed a world-wide crisis in the regulation of work. It is therefore timely to re-assess the idea of labour law, and the concepts, in particular the age-old distinctions - that are used to delimit the field. This collection of essays, by leading experts from around the world, explores the frontiers of our understanding of labour law itself. Contributors: Harry Arthurs, Paul Benjamin, Hugh Collins, Guy Davidov, Paul Davies, Simon Deakin, Mark Freedland, Judy Fudge, Adrin Goldin, Alan Hyde, Jean-Claude Javillier, Csilla Kollonay Lehoczky, Brian Langille, Enriqu e Marin, Kamala Sankaran, Silvana Sciarra, Katherine Stone and Anne Trebilcock.

Q&a Employment Law 2014 And 2015 Richard Benny,Michael Jefferson,Malcolm Sargeant.2014 Q&A Employment Law gives students the opportunity to practise and hone their exam technique with clear guidance and tips from experienced examiners.

Employment Law Robert Upex,R. V. Upex,Richard Benny,Stephen Hardy.2009 'Employment Law' guides students through the core principles of employment legislation. The topics covered are tailored to meet the needs of employment law modules, providing balanced coverage of all the core areas.

International Labour Law Reports Alan Gladstone,Benjamin Aaron,T Verdier Sigeman.2005-10-01 The International Labour Law Reports is a series of annual publications of labour law judgements by the highest courts in a number of jurisdictions. ILLR is intended primarily for the use of judges, labour law practitioners, industrial relations specialists and students who need or desire ready access to authoritative information of a comparative nature on problems arising in the field of labour law and industrial relations. Each judgement reprinted in ILLR is accompanied by Headnotes and in practically all cases by an Annotation which sets forth, among other things, the legal issues involved, the basic facts of the case (if not included in the judgement itself), the relevant statutory provisions and judicial precedents, the labour law and industrial relations context in which the case arose and the significance of the judgement in the development of the law. As a rule, judgements are printed in extenso; editorial discretion has been relied upon to delete or to summarize portions of judgements that are purely technical or only of marginal interest. This volume covers the period 1 October 2003 to 30 September 2004.

Digital Work Platforms at the Interface of Labour Law Eva Kocher.2022-03-10 This open access book shows how to design labour rights to effectively protect digital platform workers, organise accountability on digital work platforms, and guarantee workers' collective representation and action. It acknowledges that digital work platforms entail enormous risks for workers, and at the same time it reveals the extent to which labour law is in need of reconstruction. The book focusses on the conceptual links – often overlooked in the past – between labour law's categories and its regulatory approaches. By explaining and analysing the wealth of approaches that deconstruct and reconceptualise labour law, the book uncovers the organisational ideas that permeate labour law's categories as well as its policy approaches in a variety of jurisdictions. These ideas reveal a lack of fit between labour law's traditional concepts and digital platform work: digital work platforms rarely behave like hierarchical organisations; instead, they more often function as market organisers. The book provides a fresh perspective for international academic and policy debates on the regulation of digital work platforms, as well as on the purposes and foundations of labour law. It offers a way out of the impasse the debate around labour law classification has reached, by showing what labour law could learn from digital law approaches to platforms – and vice versa. The ebook editions of this book are available open access under a CC BY-NC-ND 4.0 licence on bloomsburycollections.com.

Principled Labor Law Sergio Gamonal C.,César F. Rosado Marzán.2019-10-06 The gig economy, precarious work, and nonstandard employment have forced labor law scholars to rethink their discipline. Classical remedies for unequal power, capabilities approaches, third way market regulation, and laissez-faire all now vie for attention - at least in English. Despite a deep history of labor activism, Latin American scholarship has had scant presence in these debates. This book introduces to an English-language audience another approach: principled labor law, based on Latin American perspectives, using a jurisprudential method focused on worker protection. The authors apply this methodology to the least likely case of labor-protective jurisprudence in the industrialized world: the United States. In doing so, Gamonal and Rosado focus on the Thirteenth Amendment as a labor-protective constitutional provision, the National Labor Relations Act, and the Fair Labor Standards Act. This book shows how principled labor law can provide a clear and simple method for consistent, labor-protective jurisprudence in the United States and beyond.

Legal Education Caroline Strevens,Richard Grimes,Edward Phillips.2016-04-22 The importance of simulation in education, specifically in legal subjects, is here discussed and explored within this innovative collection. Demonstrating how simulation can be constructed and developed for learning, teaching and assessment, the text argues that simulation is a pedagogically valuable and practical tool in teaching the modern law curriculum. With contributions from law teachers within the UK, Australia, Hong Kong, South Africa and the USA, the authors draw on their experiences in teaching law in the areas of clinical legal education, legal process, evidence, criminal law, family law and employment law as well as teaching law to non-law students. They claim that simulation, as a form of experiential and problem-based learning, enables students to integrate the 'classroom' experience with the real world experiences they will encounter in their professional lives. This book will be of relevance not only to law teachers but university teachers generally, as well as those interested in legal education and the theory of law.

Labour Law in Motion Roger Blanpain,Takashi Araki,Shinya Ouchi.2005-01-01 While legislation protecting employees exists in most advanced countries, the notion of who actually is an employee has become unstable. Moreover, the decentralization of traditional collective bargaining is clearly under way everywhere, and the all-important balance between workers' security and employers' flexibility continues to change radically, either retreating toward individual statutory rights or seeking new forms of employee representation. Labour Law in Motion reprints sixteen reports originally submitted to the seventh Comparative Labor Law Seminar (Tokyo Seminar) sponsored by the Japan Institute for Labour Policy and Training in March 2004. Eleven expert authors describe the situation in their respective countries with regard to issues such as the following:criteria used to determine whether a person is an employee;what categories of non-employee exist, and what measure of statutory protection is afforded to such persons;variations in the concept of employee among labour law, tax law, and social security law;regulation of terms and conditions of employment; the forms and legal nature of employee representation;current trends in deregulation or 're-regulation' of labour laws;mechanisms permitting deviation from legal norms; and,the manner and extent of labour law intervention in the labour market. All eleven authors emphasize recent and ongoing changes in their countries' labour laws and evaluate the factors that have contributed to such changes. Each author concludes that reform of traditional labour laws is indeed necessary. However, the book as a whole clearly demonstrates that the content of such reform differs from country to country, particularly in the extent to which labour law entrusts the regulation of working conditions to the market. Offering as it does a clear and concise summary of the recent and current experience of labour relations in eight major industrialized countries, Labour Law in Motion is an essential resource for professionals and officials engaged in any aspect of labour law or regulation in any country.

IBPS SO 15 Practice Sets Preliminary Exam 2021 Vinay Sharma , Ritesh Ranjan , Priya Mittal , Nikita Todarwal , Varun Bali, Jatin Kinger . Smriti Patwardhan . 1. Subjectwise practice, this section provides 15 full length practice sets exactly based on the latest pattern giving real time practice along with their explanatory answers and lastly, The Real Nuts – after getting the exact idea of the exam pattern, this section gives you 3 full length previous years’ solved papers for the real time practice. TOC Section I: Prep Checkers – English Language, Reasoning Ability, Quantitative Aptitude, Section II: The Knock Outs – (1-15), Section III: The Real Nut – Solved Papers (2017-19)

Labour Law in Namibia Collins Parker.2012-04-24 Labour Law in Namibia is the first comprehensive and scholarly text to analyse labour law in the country, the Labour Act of 2007, and how it affects the common law principles of employment relations. Concise and extensively researched, it examines the Labour Act in detail in 16 chapters that include the employment relationship; duties of employers and employees; unfair dismissal and other disciplinary actions; the settlement of industrial disputes; and collective bargaining. Over 500 relevant cases are cited, including court rulings in other countries, and comparative references to the labour laws of other Commonwealth countries, notably South Africa, Swaziland, Zambia and the United Kingdom, making it a reference and comparative source book for common law countries in the SADC region and beyond. Written by an authority in the field of labour law, this is a unique reference guide for key players in labour relations, including teachers and students of law, legal researchers and practitioners, human resource and industrial relations practitioners, employers and employers organisations, employees and trade unions, public servants and public policy advisors, and the academic community internationally. In clear and uncomplicated English, the book is accessible to professional and lay people. A comprehensive list of contents, tables of cases and statutes, bibliography and index, assist the reader.

Restatement of Labour Law in Europe Bernd Waas,Guus Heerma van Voss.2017-07-27 The concept of 'employee' is arguably the most important one in labour law, defining, as it does, the scope of the discipline as a whole. This important new publication aims to develop a restatement of the concept of the employee in European labour law. The study identifies both problems and solutions that have emerged, clearly setting out comparisons between the different member states' approaches. The country reports explore both statutes and case law, tracking their contribution to legal doctrine. The objective of the restatement is to increase knowledge and gain a better understanding of one of the most crucial aspects of European labour law. Assistant Editors: - Marta Otto - Effrosyni Bakirtzi

Employment Law in Context David Cabrelli.2014 This brand new text offers a rich learning resource, combining extracts from leading cases and articles with insightful author commentary. This unique approach places employment law in context, enabling the reader to develop a clear and sophisticated understanding of this dynamic area. A running case study provides a practical perspective.

A Casebook on Labour Law Ewan McGaughey.2018-11-29 A Casebook on Labour Law supports every university labour or employment law course in the UK, set within European Union and international law. It covers history and theory, contract and rights, participation, equality, and job security. It also has chapters on essential topics for modern labour policy: the right to vote for company boards, in work councils and pension funds, and laws to achieve full employment by ending underpaid underemployment. Each chapter summarises further reading from noteworthy books and journals, and follows a unified conceptual structure. This aims to transcend historic divisions between common law or statute, private or public, and national or international law. The book invites the reader to engage in the economic and social evidence about labour law's empirical consequences and political principles.

Systems of Employee Representation at the Enterprise Roger Blanpain.2012-08-01 Amid the trend towards decentralized industrial relations, various new and modified systems of employee representation are taking hold in many countries worldwide. In this highly informative examination of this field of international labour law – originally presented as a series of papers for the 11th JILPT Comparative Labor Law Seminar held in Tokyo in February 2012 – twelve distinguished scholars from Australia, China, France, Germany, Japan, Korea, Sweden, Taiwan, the United Kingdom, and the United States describe their countries’ current perspectives on this issue, along with their own analysis and commentary. Among the specific questions addressed for each jurisdiction are the following: What is the legal framework for an employee representation system? How is the representative body formed and what are its declared powers? Are there legal mechanisms preventing intervention by the employer? Are non-standard employees involved? What methods of deliberation and decision-making are used? How are the activities of representatives protected? Who bears the costs? What is the relationship with collective bargaining? With labour unions? Each contributor also describes typical ways in which the employee representative system works, offering concrete examples such as dismissal, wage determination, and equal treatment. Some deal with situations in which employee representation is in fact nonexistent or malfunctioning in real workplaces. There is also pervasive attention paid to the fundamental matter of what ‘representation’ is for, and the probable future direction of employee representation. Given the need to secure representation for non-union and non-standard employees at the workplace, these reports on the conditions and new developments in this important field provide ample basis on which to build a better system of employee representation in this era of diversified workforces in the globalized market. Accordingly, this book will prove of inestimable value to practitioners and policymakers in labour and employment law anywhere in the world.
