**African Pentecostalism** Ogbu Kalu.2008-03-31 Across Africa, Christianity is thriving in all shapes and sizes. But one particular strain of Christianity prospers more than most -- Pentecostalism. Pentecostals believe that everyone can personally receive the gifts of the Holy Spirit such as prophecy or the ability to speak in tongues. In Africa, this kind of faith, in which the supernatural is a daily presence, is sweeping the continent. Today, about 107 million Africans are Pentecostals -- and the numbers continue to rise. In this book, Ogbu Kalu provides the first ever overview of Pentecostalism in Africa. He shows the amazing diversity of the faith, which flourishes in many different forms in diverse local contexts. While most people believe that Pentecostalism was brought to Africa and imposed on its people by missionaries, Kalu argues emphatically that this is not the case. Throughout the book, he demonstrates that African Pentecostalism is distinctly African in character, not imported from the West. With an even-handed approach, Kalu presents the religion's many functions in African life. Rather than shying away from controversial issues like the role of money and prosperity in the movement, Kalu describes malpractice when he sees it. The only book to offer a comprehensive look at African Pentecostalism, this study touches upon the movement's identity, the role of missionaries, media and popular culture, women, ethics, Islam, and immigration. The resulting work will prove invaluable to anyone interested in Christianity outside the West.

*Religion and Social Marginalization in Zimbabwe* Togarasei, Lovemore, Bishau, David, Chitando, Ezra.2020-07-13 Marginalization means being disregarded, ostracized, harassed, disliked, persecuted, or generally looked down upon. Marginalized people often include women and children, the poor, the disabled, sexual, religious, or ethnic minorities, refugees. The marginalized are those who are socially, politically, culturally, or economically excluded from main-stream society. In history, the Church in Zimbabwe has played a role in improving the lives of the marginalized, but what is religion, especially Christianity, doing for the marginalized now? Although religion is also implicated in marginalisation, the contributions in this volume did not address this angle as they focused on the role that religion can and should play to fight marginalization. The chapters come from two conferences (2012, 2014) that were held under the flag of ATISCA. The contributions have been updated to include later developments and publications--

Decolonising African University Knowledges, Volume 1 Amasa P. Ndofirepi, Felix Maringe, Simon Vurayai, Gloria Erima.2022-10-14 This timely work investigates the possibility of unyoking and decolonising African university knowledges from colonial relics. It claims that academics from socially, politically, and geographically underprivileged communities in the South need to have their voices heard outside of the global power structure. The book argues that African universities need a relevant curriculum that is related to the cultural and environmental experiences of diverse African learners in order to empower themselves and transform the world. It is written by African scholars and is based on theoretical and practical debates on the epistemological complexities affecting and afflicting diversity in higher education in Africa. It examines who are the primary custodians of African university knowledges, as well as how this relates to forms of exclusion affecting women, the

differently abled, the rural poor, and ethnic minorities, as well as the significance of the Fourth Industrial Revolution in the future of African universities. The book takes an epistemological approach to university teaching and learning, addressing issues such as decolonization and identity, social closure and diversity disputes, and the obstacles that come with the neoliberal paradigm. The book will be necessary reading for academics, scholars, and postgraduate students in the fields of Sociology of Education, decolonising education, Inclusive Education, and Philosophy of Education, as it resonates with existing discourses.

Religion and the COVID-19 Pandemic in Southern Africa Fortune Sibanda, Tenson Muyambo, Ezra Chitando. 2022-02-24 This book investigates the role of religion in the context of the COVID-19 pandemic in Southern Africa. Building on a diverse range of methodologies and disciplinary approaches, the book reflects on how religion, politics and health have interfaced in Southern African contexts, when faced with the sudden public health emergency caused by the pandemic. Religious actors have played a key role on the frontline throughout the pandemic, sometimes posing roadblocks to public health messaging, but more often deploying their resources to help provide effective and timely responses. Drawing on case studies from African indigenous knowledge systems, Islam, Rastafari and various forms of Christianity, this book provides important reflections on the role of religion in crisis response. This book will be of interest to researchers across the fields of African Studies, Health, Politics and Religious Studies. **Holy People of the World [3 volumes]** Phyllis G. Jestice. 2004-12-15 A cross-cultural encyclopedia of the most significant holy people in history, examining why people in a wide range of religious traditions throughout the world have been regarded as divinely inspired. The first reference on the subject to span all the world's major religions, *Holy People of the World: A Cross-Cultural Encyclopedia* examines the impact of individuals who, through personal charisma and inspirational deeds, served both as glorious examples of human potential and as envoys for the divine. *Holy People of the World* contains nearly 1,100 biographical sketches of venerated men and women.

Written by religious studies experts and historians, each article focuses on the basic question: How did this person come to be regarded as holy? In addition, the encyclopedia features 20 survey articles on views of holy people in the major religious traditions such as Islam, Buddhism, and African religions, as well as 64 comparative articles on aspects of holiness and veneration across cultures such as awakening and conversion experiences, heredity, gender, asceticism, and persecution. Whether exploring by religion, culture, or historic period, this extensively cross-referenced resource offers a wealth of insights into one of the most revealing—and least explored—common denominators of spiritual traditions.

*Weep, O Daughter of Zion* F. W. Dobbs-Allsopp.1993 The present study seeks to call attention to a literary genre whose existence in the Hebrew Bible, has gone largely unnoticed or at least not fully appreciated. The city lament is a genre well-known from ancient Mesopotamia. The laments that make up this genre vividly depict and mournfully lament the destruction of some of the most important cities in Mesopotamia and their chief shrines.

*Scaling up SDGs Implementation* Godwell Nhamo,Gbadebo O. A. Odularu,Vuyo Mjimba.2020-01-14 This volume challenges global leaders and citizenry to do more in order to resource the implementation of the 2030 Agenda for Sustainable Development (AfSD) and its 17 interwoven Sustainable Development Goals (SDGs). Starting from the concept 'we cannot manage what we cannot measure', the book presents some cases showing how to draw national level baselines for the domestication and localisation of the SDGs seeking to provide a clear roadmap towards achieving the 2030 AfSD. *Scaling up SDGs Implementation* is targeted at the United Nations, national and state governments, sub-national governments, the corporate sector and civil society, including higher education institutes, labour groups, non-governmental organisations and youth movements. The book is cognizant of these institutions' common, but differentiated responsibilities and capabilities within their socio-political, environmental and economic conditions. The book presents case studies of how the corporate sector has been scaling up SDGs implementation, from the tourism sector, insurance, to the aviation and agricultural sectors. To make sure that no one is left behind, the volume includes cases on solutions for pressing environmental and socio-economic problems ranging from cooperatives in Brazil to the conservation of springs in Zimbabwe. The matter of finding synergies between the climate SDG and the Paris Agreement's Nationally Determined Contributions (NDCs) is elaborated at length. Lastly, the book discusses how institutions of higher education remain critical pillars in SDGs scaling up, with cases of curriculum re-orientation in South Africa to the rolling out of the Women's University in Africa. In this context, this volume challenges every global citizen and organization to invest every effort into making the implementation of the SDGs a success as we welcome the second four to five year segment down the road to the year 2030.

*The Bible and Gender Troubles in Africa* Joachim Kügler,Rosinah Gabaitse,Johanna Stiebert.2019-06-25 Publisher's description: Quickly changing concepts on gender roles are a pivotal issue in after-colonial African societies. Many women (and men) are calling for a radical change as they feel traditional gender concepts as being oppressive, inhuman and un-Christian. Gender equality, gender fairness is on their agenda. On the other hand, for many men (and women) these societal changes are painful gender troubles and seem to be dangerous for gender-based identity, threatening traditional African values. Volume 22 of the BiAS series deals with this central topic by asking what gender troubles have to do with the Bible. Are biblical texts an obstacle for women's liberation? Is the Bible a divine guaranty for male supremacy or rather an advocate for gender equality? What are redemptive masculinities and how do they relate to a new, truly Christian understanding of the role of women in church, society and state? - Scholars from different disciplines and several countries are dealing with these urgent questions to help scholars, students, pastors, politicians and members of Christian churches to find a way to more gender fairness and gender joy.

**African Gifts of the Spirit** David Maxwell.2006 David Maxwell traces the transformation of the prophet Ezekiel Guti and his prayer band from small beginnings in the townships of the 1950s into the present day transnational business enterprise, which is now Zimbabwe Assemblies of God, Africa (ZAOGA). *Integrity of Gods Word* Ezekiel Guti.2018-10-31 The word of God is like its author, Eternal.

Deuteronomy 33:27: The eternal God is your refuge and underneath are the everlasting arms, He will thrust out the enemy from before you, and will say, 'Destroy.' It is unchanging and living, Malachi 3:6 For I am the Lord, I do not change, therefore you are not consumed, O sons of Jacob.

**Pentecostal Higher Education** Daniel Topf.2021-09-16 This book presents a theological and missiological argument for pentecostals to engage more forcefully in higher education by expanding and renewing their commitment toward operating their own colleges and universities. The volume's first part describes past and present developments within higher education, highlighting strengths and weaknesses of both pentecostal and (post)secular institutions. The second part highlights the future potential of pentecostal higher education, which is enriched by a Spirit-empowered and mission-minded spirituality that focuses on forming the hearts, heads, and hands of students. Pentecostals increasingly desire to influence all spheres of society, an endeavor that could be amplified through a strengthened engagement in higher education, particularly one that encompasses a variety of institutions, including a pentecostal research university. In developing such an argument, this research is both comprehensive and compelling, inviting pentecostals to make a missional difference in the knowledge-based economies that will characterize the twenty-first century.

Christianity and the African Imagination David Maxwell, Ingrid Lawrie.2022-08-08 During the twentieth-century, Christendom shifted its centre of gravity to the Southern Hemisphere, Africa becoming the most significant area of church growth. This volume explores Christianity's advance across the continent, and its capturing of the African imagination. From the medieval Catholic Kingdom of Kongo to a transnational Pentecostal movement in post-colonial Zimbabwe, the chapters explore how African agents - priests and prophets, martyrs and missionaries, evangelists and catechists - have seized Christianity and made it theirs. Emphasizing popular religion, the book shows how the Christian ideas and texts, practices and symbols, which have been adapted by Africans, help them accept existential passions and empower them through faith to deal with material concerns for health and wealth, and to overcome evil.

**Ghana's New Christianity** Paul Gifford.2004 In sub-Saharan Africa over the last two decades there has been an explosion of Christianity. This book sets out to identify its particular character, focusing on a particular place: Greater Accra, the capital of Ghana. Paul Gifford examines a wide range of Accra's new churches, giving priority to mega-churches. Every dimension -- discourse, theological vision, worship, rituals, music, media involvement, use of the Bible, conventions, finances, clientele -- is analysed. Gifford argues that this Christianity is not otherworldly: its emphasis is on success, achievement, wealth here and now. Yet within this general orientation there is diversity. At one end of the spectrum are churches that, building on the traditional religious imagination, see demonic forces everywhere blocking personal success. In the churches the key factor is the special 'man of God' who is understood to have the 'anointing' to conquer these forces, to 'reverse the curse' that is holding the believer back. At the other end is a strain of this new Christianity that discounts spiritual forces and sees victory resulting from the believer's own education and skills, and from transforming culture. The book also joins the debate over the role of this Christianity in modernizing economic and political structures. It sets the scene by describing Ghana's political and economic situation in the decades when these churches were proliferating, and outlines the current debate on the reasons for Africa's economic plight. It is argued that although focusing on success and wealth can provide motivation in circumstances where it is so easy to despair, the pervasive emphasis on miracles

militates against any natural fostering of a new work ethic. As for their political role, some churches are easily co-opted; others challenge the government, but for 'spiritual' reasons that provide little incentive to grapple with issues of governance; by contrast, Gifford finds one important church encouraging change of the entire political culture. No other book has set forth the complex nature of Africa's new Christianity with such clarity, or offered such a searching analysis of its power to tackle Africa's predicament.

80 Old Testament Characters of World History: Chronological, Historical and Archaeological Evidence Gerard Gertoux.2016-02-27 Despite the fact that the name of many characters mentioned in the Old Testament, like David, King of Israel, have been recently confirmed by archaeology as well as their epoch and the events in which they were involved, most archaeologists continue to deny the historicity of the Bible they view as pious fiction or a mythical account. They argue that the major events in the Bible such as the victory of Abraham against Chedorlaomer, an unknown king of Elam around 2000 BCE, the victory of Moses against an unknown Pharaoh around 1500 BCE or the victory of Esther, an unknown Persian Queen, against an unknown vizier of Xerxes, never existed because they left absolutely no evidence. They also explain that according to what we know today, these events could not have occurred. These logical arguments are impressive but a precise chronological analysis based on absolute dates, coupled with a rigorous historical investigation, shows that all those major events really took place at the dates and places indicated.

**African Pentecostalism, the Bible, and Cultural Resilience** Biri, Kudzai.2020-04-30 This volume, based on a PhD thesis submitted to the University of Zimbabwe, investigates the resilience of Shona religion and culture among ZAOGA Pentecostal Christians. Whereas the Pentecostal ideology suggests that 'old things' have passed away, it appears that 'old things' continue to have high significance for the 'new'. The book demonstrates how belief in avenging spirits, witches and witchcraft, value of words spoken prior to death, the role, status and significance of women, belief in unnatural events, liturgy and salvation have remained relevant to the lives of ZAOGA Shona converts. The patterns of continuity, discontinuity, extension, collaboration, contradiction, re-interpretation and rejection between Shona traditional religion and culture and ZAOGA are explored, challenging the framing of African Pentecostalism as a mere imitation and parroting of US theology. The conclusion is that while ZAOGA self-consciously presents itself as a sophisticated, trans-national and progressive Pentecostal movement, members continue to wrestle with Shona indigenous beliefs and practices. An African womanist framework is adapted to challenge ZAOGA to promote the well-being of women. --

Wandering a Gendered Wilderness Isabel Mukonyora.2007 Original Scholarly Monograph  
Environmental Resilience Percy Toriro, Innocent Chirisa.2021-05-21 This book discusses the production, distribution, regulatory and management frameworks that affect food in urban settings. It plugs a gap in knowledge especially in the sub-Saharan Africa region where food, despite its critical importance, has been ignored as a 'determinant of success' in the planning and management of cities and towns. The various chapters in the book demonstrate how urban populations in Zimbabwe and elsewhere have often devised ways to produce own food to supplement on their incomes. Food is produced largely by way of urban agriculture or imported from the countryside and sold in both formal and informal stores and stalls. The book shows how in spite of the important space food occupies in the lives of all city residents, the planning and regulatory framework does not facilitate the better performance of food systems.

**Modern Peoplehood** John Lie.2011-04 [A] most impressive achievement by an extraordinarily intelligent, courageous, and—that goes without saying—'well-read' mind. The scope of this work is enormous: it provides no less than a comprehensive, historically grounded theory of 'modern peoplehood,' which is Lie's felicitous umbrella term for everything that goes under the names 'race,' 'ethnicity,' and 'nationality.' Christian Joppke, *American Journal of Sociology* Lie's objective is to treat a series of large topics that he sees as related but that are usually treated separately: the social construction of identities, the origins and nature of modern nationalism, the explanation of genocide, and racism. These multiple themes are for him aspects of something he calls 'modern peoplehood.' His mode of demonstration is to review all the alternative explanations for each phenomenon, and to show why each successively is inadequate. His own theses are controversial but he makes a strong case for them. This book should renew debate. Immanuel Wallerstein, Yale University and author of *The Decline of American Power: The U.S. in a Chaotic World*

**Tabernacle of David Paperback Book** Dr T A Makoni.2017-10-19 The Tabernacle of David is a key revelation to national impact by the Church. It restores the place of believers as kings and priests who should not choose one function above another. They should exercise both functions for Kingdom expansion. It provides case studies from competing worldviews on how to disciple our world. Jesus said, Go disciple nations! So far the Church has been doing a poor job of this. I believe that this revelation is one more cog in the wheel that will help believers take their place of influence and

advance the Kingdom mandate on earth. May His Kingdom come and His will be done on earth as it is Heaven!
