Film and Stereotype Jörg Schweinitz.2011 Since the early days of film, critics and theorists have contested the value of formula, cliché, conventional imagery, and recurring narrative patterns of reduced complexity in cinema. Whether it's the high-noon showdown or the last-minute rescue, a lonely woman standing in the window or two lovers saying goodbye in the rain, many films rely on scenes of stereotype, and audiences have come to expect them. Outlining a comprehensive theory of film stereotype, a device as functionally important as it is problematic to a film's narrative, Jörg Schweinitz constructs a fascinating though overlooked critical history from the 1920s to today. Drawing on theories of stereotype in linguistics, literary analysis, art history, and psychology, Schweinitz identifies the major facets of film stereotype and articulates the positions of theorists in response to the challenges posed by stereotype. He reviews the writing of Susan Sontag, Roland Barthes, Theodor W. Adorno, Rudolf Arnheim, Robert Musil, Béla Balázs, Hugo Münsterberg, and Edgar Morin, and he revives the work of less-prominent writers, such as René Fülöp-Miller and Gilbert Cohen-Séat, tracing the evolution of the discourse into a postmodern celebration of the device. Through detailed readings of specific films, Schweinitz also maps the development of models for adapting and reflecting stereotype, from early irony (Alexander Granowski) and conscious rejection (Robert Rossellini) to critical deconstruction (Robert Altman in the 1970s) and celebratory transfiguration (Sergio Leone and the Coen brothers). Altogether a provocative spectacle, Schweinitz's history reveals the role of film stereotype in shaping processes of communication and recognition, as well as its function in growing media competence in audiences beyond cinema.

Three Lives Oliver Matuschek.2011-11-29 Drawing on a great wealth of newly available sources, this definitive biography recounts the eventful life of a great writer spoilt by success—a life lived in the shadow of two world wars, and which ended tragically in a suicide pact. Matuschek examines three major phases in the life of the world-famous Austrian author—his years of apprenticeship, his years of success as a professional working writer in Salzburg, and finally his years of exile in Britain, the USA and Brazil. Including the sort of personal detail conspicuously absent from Zweig's memoir, and incorporating newly discovered documents, Matuschek's biography offers us a privileged view into the private world of the master of psychological insight. From the Trade Paperback edition.

What I Believe Hans Küng.2010-09-16 Hans Kung is one of the most celebrated theologians of the present day. His audience, which is strong within his own Roman Catholic Church, is equally solid among Christians of other denominations, among those outside the churches and indeed among those at the frontiers of organised religion. From the start, he has been a rebel, being Swiss and a lover of personal freedom. Many of his books such as *Infallible?* and *On Being a Christian* have rocked the Papal boat. Now after publishing two magnificent and acclaimed volumes of memoirs, Kung has written a much shorter and more personal book to explain his own beliefs. If one sets aside all scientific knowledge and learning, all formal theological language and the skilful construction of theories, what remains as the core of faith? What do we need for our lives? What is indispensable to us? Kung writes of trust in life, joy in life and suffering in life and in so doing gives us a summa of his own faith - and life.

Mapping Courtship and Kinship in Classical Japan Doris G. Bargen.2015-08-31 Literary critiques of Murasaki Shikibu's eleventh-century *The Tale of Genji* have often focused on the amorous adventures of its eponymous hero. In this paradigm-shifting analysis of the *Genji* and other mid-Heian literature, Doris G. Bargen emphasizes the thematic importance of Japan's complex polygynous kinship system as the domain within which courtship occurs. Heian courtship, conducted mainly to form secondary marriages, was driven by power struggles of succession among lineages that focused on achieving the highest position possible at court. Thus interpreting courtship in light of genealogies is essential for comprehending the politics of interpersonal behavior in many of these texts. Bargen focuses on the genealogical maze—the literal and figurative space through which several generations of men and women in the *Genji* moved. She demonstrates that courtship politics sought to control kinship by strengthening genealogical lines, while secret affairs and illicit offspring produced genealogical uncertainty that could be dealt with only by reconnecting dissociated lineages or ignoring or even terminating them. The work examines in detail the literary construction of a courtship practice known as *kaimami*, or “looking through a gap in the fence,” in pre-*Genji* tales and diaries, and Sei Shōnagon's famous *Pillow Book*. In Murasaki Shikibu's *Genji*, courtship takes on multigenerational complexity and is often used as a political strategy to vindicate injustices, counteract sexual transgressions, or resist the pressure of imperial succession. Bargen argues persuasively that a woman observed by a man was not wholly deprived of agency: She could choose how much to reveal or conceal as she peeked through shutters, from behind partitions, fans, and kimono sleeves, or through narrow carriage windows. That mid-Heian authors showed courtship in its innumerable forms as being influenced by the spatial considerations of the Heian capital and its environs and by the architectural details of the residences within which aristocratic women were sequestered adds a fascinating topographical dimension to courtship. In *Mapping Courtship and Kinship in Classical Japan* readers both familiar with and new to *The Tale of Genji* and its predecessors will be introduced to a wholly new interpretive lens through which to view these classic texts. In addition, the book includes charts that trace *Genji* characters' lineages, maps and diagrams that plot the movements of courtiers as they make their way through the capital and beyond, and color reproductions of paintings that capture the drama of courtship.

Beyond the Multiplex Barbara Klinger.2023-09-01 Since the mid-eighties, more audiences have been watching Hollywood movies at home than at

movie theaters, yet little is known about just how viewers experience film outside of the multiplex. This is the first full-length study of how contemporary entertainment technologies and media—from cable television and VHS to DVD and the Internet—shape our encounters with the movies and affect the aesthetic, cultural, and ideological definitions of cinema. Barbara Klinger explores topics such as home theater, film collecting, classic Hollywood movie reruns, repeat viewings, and Internet film parodies, providing a multifaceted view of the presentation and reception of films in U.S. households. Balancing industry history with theoretical and cultural analysis, she finds that today cinema's powerful social presence cannot be fully grasped without considering its prolific recycling in post-theatrical venues—especially the home.

The New Role Of Women Hans-peter Blossfeld, Kathleen Kiernan. 2019-07-11 This is the first book to systematically track postwar changes in family formation in Western Europe and the United States. Cohabitation and motherhood outside of marriage have become more widespread at the same time that women's social roles are evolving. Women are attaining higher levels of education, marrying at an older age, more frequently working outside the home, and have more reproductive freedom due to new advances in contraception. In this original collection of essays, sociologists and demographers from eight Western European countries and the United States use longitudinal data to compare national variations and explain the connection between the new role of women and family formation in postwar society. The contributors provide a thorough review of the social demographic literature to advance a variety of hypotheses about the relationships between changing women's education and family formation

outcomes, which are empirically examined and compared across countries.

Nobiltà Di Dame Fabritio Caroso.1986 Fabritio Caroso was dancing master to some of the greatest princely families of Italy, and Nobiltà di dame, his sumptuous collection of ballroom dances and their music, reflects an age that believed that the person of high rank should be a work of art, uniting strength and beauty. Caroso's detailed instructions (including rules for steps, style and etiquette, and forty-eight actual choreographies) are unequalled by any contemporary manual in their specificity and clarity. Most dances are preceded by an engraving showing the opening position and illustrating many aspects of dress, posture, and gesture. A full scholarly apparatus, giving new information unavailable elsewhere, makes the book even more valuable to dancers and to students of dance and music at the junction of the Renaissance and Baroque eras.

The Frenzy of Renown Leo Braudy.1997-11-25 “Remarkably ambitious . . . an impressive tour de force.” —Washington Post Book World For Alexander the Great, fame meant accomplishing what no mortal had ever accomplished before. For Julius Caesar, personal glory was indistinguishable from that of Rome. The early Christians devalued public recognition, believing that the only true audience was God. And Marilyn Monroe owed much of her fame to the fragility that led to self-destruction. These are only some of the dozens of figures that populate Leo Braudy’s panoramic history of fame, a book that tells us as much about vast cultural changes as it does about the men and women who at different times captured their societies’ regard. Spanning thousands of years and fields ranging from politics to literature and mass media, *The Frenzy of Renown* explores the unfolding relationship between the famous and their audiences, between fame and the representations that make it possible. Hailed as a landmark at its original publication and now reissued with a new Afterword covering the last tumultuous decade, here is a major work that provides our celebrity-obsessed, post-historical society with a usable past. “Expansive . . . Braudy excels at rocketing a general point into the air with the fuel of drama.” —Harper’s

Not by Love Alone Margaret Mehl.2014-09-19 Suzuki Shin'ichi, the Tokyo String Quartet, Midori - How did Japanese violinists manage to revolutionize violin teaching, win international competitions, conquer Western concert stages, study at world-famous conservatoires and take up positions in leading orchestras and prestigious music faculties? What enabled the Japanese to master Western classical music within a few decades? What are the true origins of the Suzuki Method? How did Mozart and Beethoven come to be more widely heard in Japan today than Japan's own traditional music? *Not by Love Alone* presents Japan's biggest success story: the complete assimilation of an alien musical tradition within a few decades and Japan's rise to a musical superpower in the latter half of the twentieth century. The violin played a key role in this story and is still one of the most popular instruments. Mass-produced by Suzuki Masakichi already in 1900, it became the vehicle for Suzuki Shin'ichi's pioneering teaching method fifty years later. *Not by Love Alone* traces the history of the violin in Japan from its beginnings to the present day. It presents the most important pioneers of Western music and the violin, both Japanese and foreign, the first students, violin makers and composers for the violin,

early child prodigies, pioneering teachers, and today's leading violinists, including those who have crossed stylistic boundaries. In addition Not by Love Alone discusses the relationship between the violin and the traditional music of Japan as well as the violin's part in expressing Japan's modern identity.
