Teaching English as a Foreign Language Carola Surkamp, Britta Viebrock. 2018-03-24 Diese Einführung in englischer Sprache präsentiert in 14 Kapiteln die grundlegenden Themen und Gegenstandsbereiche der Englischdidaktik. Gleichermaßen praxisnah wie theoretisch fundiert, behandelt der Band zentrale Prinzipien und Kompetenzbereiche eines modernen Fremdsprachenunterrichts. Ausgehend von den zentralen Akteur/innen (Lehrende und Lernende) und mit Blick auf die Teilbereiche der Sprach-, Literatur- und Kulturdidaktik werden zudem Vorschläge für den Einsatz unterschiedlicher Materialien und Medien diskutiert. Weitere Kapitel widmen sich den institutionellen Organisationsstrukturen und dem Bereich Assessment/Diagnose. Der Band erscheint in zweifarbiger Gestaltung, mit Definitionen und Beispielen sowie mit zahlreichen Abbildungen. This comprehensive introduction presents the fundamental topics and issues of TEFL (Teaching English as a Foreign Language) in 14 chapters. Integrating both profound theoretical and creative practical considerations, the central principles and competence domains of modern foreign language teaching are discussed. Starting with the main classroom agents (teachers and learners), the chapters outline a variety of content areas (language, literature, cultural issues) and thoroughly review materials, media and methods. Additional chapters are concerned with the historical development of English language teaching, its current institutional organisation as well as assessment and evaluation.

Globalization and the Future of German Andreas Gardt, Bernd Hüppauf. 2008-08-22 Is the world en route to becoming a linguistic colony of the United States? Or is this dramatic view an exaggeration, and there is no danger to linguistic diversity at all? The German language is at the center of an intensive debate on this issue. Its position in the world is under increasing pressure due to the growing importance of (American) English as the language of globalization. The articles in this volume deal with the national and international position of German in relation to English, language policies, the future of German as a language of science, German in the USA, and the intellectual and aesthetic dimensions of encountering a foreign language. They present critical assessments addressing the dangers for the future of languages other than English, as well as positions which perceive the growing importance of English as a challenge and resource rather than as a threat.
