Puberty, Sexuality and the Self examines voice change, breast development, shaving, expectations of sex, the decision to have sex, experiences of sex and how boys and girls manage their emotions and selves throughout all of these new experiences. Comparing boys and girls at adolescence, Martin takes a qualitative look at puberty and sexuality, supporting her theory in the words of the adolescents themselves.

The Mansion of Happiness Jill Lepore. 2013-03-26 Renowned Harvard scholar and New Yorker staff writer Jill Lepore has written a strikingly original, ingeniously conceived, and beautifully crafted history of American ideas about life and death from before the cradle to beyond the grave. How does life begin? What does it mean? What happens when we die? "All anyone can do is ask," Lepore writes. "That's why any history of ideas about life and death has to be, like this book, a history of curiosity." Lepore starts that history with the story of a seventeenth-century Englishman

who had the idea that all life begins with an egg, and ends it with an American who, in the 1970s, began freezing the dead. In between, life got longer, the stages of life multiplied, and matters of life and death moved from the library to the laboratory, from the humanities to the sciences. Lately, debates about life and death have determined the course of American politics. Each of these debates has a history. Investigating the surprising origins of the stuff of everyday life—from board games to breast pumps—Lepore argues that the age of discovery, Darwin, and the Space Age turned ideas about life on earth topsy-turvy. “New worlds were found,” she writes, and “old paradises were lost.” As much a meditation on the present as an excavation of the past, *The Mansion of Happiness* is delightful, learned, and altogether beguiling.

The authors recognize the primary role of parents and carers in the sexual education of their children, but this book is written for children rather than parents. It is illustrated throughout with witty and informative cartoons, and all of the questions that are used are based on the kinds of questions that children and teenagers everywhere ask all the time.

Artful History Aaron Sachs, John Demos. 2020-02-18 A collection of memorable, stirring, and eloquent historical essays, designed to help any historian write more artfully. Is there any reason serious historical scholarship cannot receive literary expression? Even the most committed empiricists and postmodernists might achieve better results by thinking of writing as a craft, rather than a means of packaging research. This book gathers some of the most compelling efforts to make history writing eloquent, stirring, and memorable, demonstrating that even the most rigorous scholarship can take on a wide range of creative forms. With selections from: Jonathan Spence, Simon Schama, Saidiya Hartman, Wendy Warren, Jill Lepore, Louis Masur, Jane Kamensky, and John Demos, among others.

Sexual Abuse And Eating Disorders Mark F. Schwartz, Leigh Cohn. 2018-10-24 Sexual Abuse and Eating Disorders is the first book to fully explore the complex relationship between sexual abuse and the eating disorders. The book encompasses the compelling writings of 26 specialists who thoughtfully consider the numerous questions surrounding this controversial topic: Why would early trauma influence eating behavior? What is the association between eating disorders and sexual abuse? What impact does the controversy surrounding false memory have on the thinking about this association? Working from the premise that children exposed to inescapable stress throughout childhood will be at risk for compulsivity and reenactment of trauma by self-abuse syndromes, this collection provides provocative answers to these and many other questions. Taken as a whole, this book provides an important global view of the topic. Chapters focus attention on the prevalence of sexual abuse among individuals with eating disorders; how a history of sexual violence can serve as a predictor of subsequent food-related syndromes; trauma-based theory, dissociation, abreactive, and ego-states therapy; and a practical and theoretical exploration of the sexual self of an eating-disordered person. New perspectives on body image, feminist approaches to treatment, false memory, and the sexual self, as well as a first-person narrative that powerfully links the two phenomena, round out the discussion. Finally, a dialogue about the controversies surrounding sexual abuse and eating disorders and an examination of false memory syndrome constitute the fitting finale for this stimulating presentation.
