Multimedia Learning Sanne Dijkstra, David H. Jonassen, Detlef Sembill. 2001 In the last two decades of the former century different developments changed instructional-design theory and practice substantially. First, shifts in epistemological beliefs lead to the design of learning environments that foster the construction of knowledge and the engagement of problem-solving skills. Second, commitment to communities of learners has emphasized cooperative learning. Third, the digitalization of both visual and auditory information, which are stored in one format, and the rapid transport of this information on a global scale by using the Internet, lead to the multimedia revolution. This revolution together with the development of hypermedia techniques has offered the instructional-designers and students the possibility to search all available databases for information that they can use for their problem-solving activities. Moreover the revolution has offered designers and teachers the option of telecoaching or telementoring, which now are becoming normal practice for many teachers in the academic and distance education sectors. Finally, the use of interactive classrooms in which the students can engage with virtual environments has changed the nature of learning for students. In this volume, these developments will be addressed by scholars in the field of instructional design and multimedia use.

A Brief History of the Vikings Jonathan Clements.2013-02-07 'From the Fury of the Northmen deliver us, O Lord.' Between the eighth and eleventh centuries, the Vikings surged from their Scandinavian homeland to trade, raid and invade along the coasts of Europe. Their influence and expeditions extended from Newfoundland to Baghdad, their battles were as far-flung as Africa and the Arctic. But were they great seafarers or desperate outcasts, noble heathens or oafish pirates, the last pagans or the first of the modern Europeans? This concise study puts medieval chronicles, Norse sagas and Muslim accounts alongside more recent research into ritual magic, genetic profiling and climatology. It includes biographical sketches of some of the most famous Vikings, from Erik Bloodaxe to Saint Olaf, and King Canute to Leif the Lucky. It explains why the Danish king Harald Bluetooth lent his name to a twenty-first century wireless technology; which future saint laughed as she buried foreign ambassadors alive; why so many Icelandic settlers had Irish names; and how the last Viking colony was destroyed by English raiders. Extending beyond the traditional 'Viking age' of most books, A Brief History of the Vikings places sudden Scandinavian population movement in a wider historical context. It presents a balanced appraisal of these infamous sea kings, explaining both their swift expansion and its supposed halt. Supposed because, ultimately, the Vikings didn't disappear: they turned into us.

Teaching English to Children - Interactivity and Teaching Strategies in the Primary FL Classroom
Yvette Coyle, Mercedes Verdú, Marisol Valcárcel. 2002 This book focuses on teaching English as a FL to young learners in the Primary school. Set within a Vygotskian framework, it describes a longitudinal classroom-based research project carried out in Spain with children aged between 8 and 10. After reviewing related literature from the fields of SLA and educational psychology, the teacher-student interaction is analysed on two different levels: Firstly, an Activity Classification System designed by the authors is used to trace the development of the classroom activity within topic-based units and secondly, a more finely-grained analysis of the discourse reveals the different types of strategies through which the teacher mediates and guides the children's learning. This book is of interest to EFL teachers, teacher trainers and student teachers at the primary level, since it offers both theoretical reflection and methodological insights for all those involved in teaching English to children.

The Clasp Sloane Crosley.2015-10-06 Part comedy of manners, part treasure hunt, the first novel from the writer whom David Sedaris calls perfectly, relentlessly funny Kezia, Nathaniel, and Victor are reunited for the extravagant wedding of a college friend. Now at the tail end of their twenties, they arrive completely absorbed in their own lives—Kezia the second-in-command to a madwoman jewelry designer in Manhattan; Nathaniel the former literary cool kid, selling his wares in Hollywood; and the Eeyore-esque Victor, just fired from a middling search engine. They soon slip back into old roles: Victor loves Kezia. Kezia loves Nathaniel. Nathaniel loves Nathaniel. In the midst of all this semi-merriment, Victor passes out in the mother of the groom's bedroom. He wakes to her jovially slapping him across the face. Instead of a scolding, she offers Victor a story she's never even told her son, about a valuable necklace that disappeared during the Nazi occupation of France. And so a madcap adventure is set into motion, one that leads Victor, Kezia, and Nathaniel from Miami to New York and L.A. to Paris and across France, until they converge at the estate of Guy de Maupassant, author of the classic short story *The Necklace*. Heartfelt, suspenseful, and told with Sloane Crosley's inimitable spark and wit, *The Clasp* is a story of friends struggling to fit together now that their lives haven't gone as planned, of how to separate the real from the fake. Such a task might be possible when it comes to precious stones, but is far more difficult to pull off with humans.

ICT, Integrating Computers in Teaching David Barr.2004 This book examines the role of computers in language learning and teaching in higher education. In particular, it considers the pedagogical and practical value of designing a language-learning environment around computer

technology. Whereas considerable research has already been undertaken in analysing the value of individual computer tools and packages (such as e-mail), the study gives a broad appraisal of their individual and collective value, without being too exhaustive. Using quantitative and qualitative data, based on research visits to three universities, Ulster, Cambridge and Toronto, this study provides examples of effective practice in the area of the exploitation of Information and Communication Technology for language learning and teaching. It draws on the experience of these three institutions, as well as the findings of current literature in this area, in order to establish a set of essential criteria that institutions need to meet when creating a computer-based environment. Although these criteria are based on experience with language-learning environments, they are essentially generic in nature and may be applied to other computer-based learning environments.

Learner Autonomy in Language Learning Sara Cotterall.1999 This book is a collection of papers that explores the notion of learner autonomy and the problem of helping language learners to manage their learning effectively. The first part of the book deals with issues of definition: what is the cognitive base for autonomous learning behaviour and how is this mediated by social and cultural expectations of a learner's role? The second part reports on experiences of working with learners and with teachers to promote learner autonomy. In working with learners, the focus is on language learning strategies and how strategic learning might be developed through strategy training, materials design, reflection and counselling. In working with teachers, the focus is on bringing about change in traditional perspectives on the roles of learners and teachers within education systems.

The New Media Literacy Handbook Dr. Cornelia Brunner, William Tally. 1999 A concise and comprehensive guide to the ever-growing world of new media and new technology, as well as a sourcebook for teachers seeking to harness these resources and bring them into the classroom. From CD-ROMs to the Internet to graphic design programs, the vast array of new media products and information available to the average person can be overwhelming and confusing. As media increasingly enter the classroom, teachers are expected to help their students develop a set of critical skills that enable them to use and analyze media products for a variety of purposes: to understand, inform, persuade, and tell stories. But what to use, and where to begin? Even if teachers have access to these materials, they are often at a loss as to how to make them a valuable part of their students' learning experiences. The New Media Literacy Handbook is an invaluable resource for educators seeking information on, and guidance in, navigating through the vast new media landscape. The book has been designed to help teachers develop their own visual literacy skills, become more sophisticated and reflective users of media in the classroom and in general, and develop evaluation criteria for media products. In addition to their overview and evaluation guide, the authors provide information on how new media can be used in several academic disciplines-- language arts, history, science, and art--and specific products and Web sites to explore. Clearly written, with helpful exercises for teachers included in each chapter, The New Media Literacy Handbook is an essential tool for today's educators.

Living with Regret Riann C. Miller.2016-04-07 Sometimes the simplest choice has the power to change your life. Chase Ten years ago, I turned a hard decision into a simple one. I allowed others to decide my future . . . then I lost the best thing that ever happened to me. I let go of the girl I loved in exchange for a life I was told I wanted. Then one day I woke up with no recollection of my reality and instead I believed my life had turned out how I had once dared to imagine. Now everyone is waiting for me to remember the day I ruined my future as I struggle to recall a life without the person I so carelessly tossed away. Somehow, I was gifted a second chance with the woman I love, and I'm going to fight like hell to keep her. Jordan Your brain has a funny way of convincing you what is real and what is not; even if your heart never lets you forget the truth. After Chase Adams broke my heart, my life moved forward, even though the light I once felt had extinguished. Then I received an unexpected phone call that changed everything. Every day we make choices, but most of the time they don't affect the rest of our lives. I wanted to love again. I wanted to trust the gift I was given, but every choice has consequences. Now I have to decide to let go of the past for the sake of my future. . . or risk living with regret.

Addiction Is a Choice Jeffrey A. Schaler. 2011-09-30 Politicians and the media tell us that people who take drugs, including alcohol or nicotine, cannot help themselves. They are supposedly victims of the disease of 'addiction', and they need 'treatment'. The same goes for sex addicts, shopping addicts, food addicts, gambling addicts, or even addicts to abusive relationships. This theory, which grew out of the Temperance movement and was developed and disseminated by the religious cult known as Alcoholics Anonymous, has not been confirmed by any factual research. Numerous scientific studies show that 'addicts' are in control of their behavior. Contrary to the shrill, mindless propaganda of the 'war on drugs', very few of the people who use alcohol, marijuana, heroin, or cocaine will ever become 'addicted', and of those who do become heavy drug users, most will mature out of it in time, without treatment. Research indicates that 'treatment' is completely ineffective, an absolute waste of time and money. Instead of looking at drug addiction as a disease, Dr. Schaler proposes that we view it as willful commitment or dedication, akin to joining a religion or pursuing a romantic involvement. While heavy consumption of drugs is often foolish and self-destructive, it is a matter of personal choice.

Polymer Clay Gemstones-The Art of Deception Kim Schlinke, Randee M. Ketzler. 2013-10 This is not your ordinary how-to book! Austin TX based authors and polymer clay artists Kim Schlinke and Randee M. Ketzler artfully mix a clever mystery with 20 how-to projects that show step-by-step photographs and instructions to create your own ancient artifacts. These polymer clay masterpieces are beautiful enough to grace a museum collection-or yours! At 206 pages, this lavishly photographed book is stuffed with a multitude of projects that can be done just as presented with highly detailed step-by-step instruction, or used as starting points to make faux gems for use in all

sorts of designs. Priced retail at \$30, the hefty book's how-to projects weigh in at the mere cost of \$1.50 each. Animal lovers will be pleased to note that our authors also give us the secrets of making replicas of ivory and tiger claw that involve no cruelty towards elephants or wild cats whatsoever! Projects featured in this compendium include: Celtic Bronze Fibula, Navajo Silver Pendant, Art Nouveau Golden Ginkgo Brooch, Carnelian Choker of Ancient Rome, Amethyst Cabochons and Nugget Beads, Amethyst Silver Art Nouveau Pendant, Black Opal Cabochons, Barbarian Bracelet, Chrysoprase Cabochons (A and B Grade), Hammered Cuff Bracelet, Ancient Limestone Fossil Pebbles, Cycladic Goddess, Leopardskin Jasper, Primitive Pebble Bracelet, Faux Twigs, Fantastical Forgeries Bracelet, Blue Lace Agate Tile Bracelet, Copper & Rhodochrosite Tiered Necklace, Snowflake Jades, Qin Dynasty Bangles, Amber Caravan Necklace, Primeval Coral Rock Hound Necklace, Ammolite Cabochons, Gothic Revival Pendant, Victorian Mourning Brooch, Faux Tiger Claw, Victorian Raj Brooch, Faux Tiffany Glass Scarabs, Faux Ivory Cuff Bracelet Find out how it is all done-and who done it-along with our intrepid protagonists, Parker and Peele. What is this stuff? wondered Parker, and her companion pointed her umbrella to the drawings that plastered the walls. The raw materials for the best forgeries ever seen replied her friend. This is where they were created. Together they examined the drawings, exclaiming softly as they recognized several objects from the Museum. Parker picked up one of the colorful lumps and frowned. What is this, Peele? It's soft like clay, but I've never seen these colors before. No, said her friend, nor have I-at least in this form. I suspect it requires a catalyst of some type to render it into the false gems-ah, here! Peele uncovered an array of electric ovens. Heat-how charming. This must be some type of polymer, which, when brought to the proper temperature, then hardens. I have heard rumors. Could become just about anything, in skilled hands.

Language, Autonomy and the New Learning Environments Douglas Allford, Norbert Pachler. 2007 The emergence of new learning environments, technological and institutional, implies a need for language understanding and autonomous learning. What do they mean? Why are they necessary? How do they interrelate? This book looks at these questions. The authors consider mother tongue and second/foreign language education in relation to 'language understanding', which includes formal knowledge and an ability to use language communicatively, and should cover the 'new' literacies. Autonomous language learning has been interpreted in various ways, and setting language understanding as a goal allows some of these (such as 'training' models) to be challenged and others endorsed. Some implications of the information society for education are considered. Learning increasingly takes place outside educational establishments, and the authors examine changes from face-to-face teacher-student interaction to mixed-mode and distance learning. The new environments create new possibilities, such as knowledge construction through computer-mediated interaction and learner autonomy in online networks, and these are explored. Throughout the book, the centrality of the teacher's role is affirmed, as educator and guide on autonomous second/foreign language programmes, and as a moderator of online discussions and a designer of online materials.

Help for the Haunted John Searles. 2013-09-17 "Part ghost story, part coming-of-age story, John Searles' *Help for the Haunted* is a dazzling, dark portrait of a troubled family beset by the supernatural. Searles ratchets up the tension with every passing chapter, and delivers authentic and well-earned scares--all written through the lens of a lonely teenager searching for answers. The result is a novel both frightening and beautiful." — Gillian Flynn An unforgettable story of a most

unusual family, their deep secrets, their harrowing tragedy, and ultimately, a daughter's discovery of a dark and unexpected mystery. Sylvie Mason's parents have an unusual occupation—helping “haunted souls” find peace. After receiving a strange phone call one winter's night, they leave the house and are later murdered in an old church in a horrifying act of violence. A year later, Sylvie is living in the care of her older sister, who may be to blame for what happened to their parents. Now, the inquisitive teenager pursues the mystery, moving closer to the knowledge of what occurred that night—and to the truth about her family's past and the secrets that have haunted them for years. Capturing the vivid eeriness of Stephen King's works with the compelling quirkiness of John Irving's beloved novels, *Help for the Haunted* is that rare story that brings to life a richly imagined and wholly original world. From the very first page, it takes readers on a captivating journey, told in the heartbreakingly resonant voice of a young heroine who is determined to discover the truth about her family and what went wrong one snowy winter night.
