Autobiographical Comics Elisabeth El Refaie.2012-10-24 A troubled childhood in Iran. Living with a disability. Grieving for a dead child. Over the last forty years the comic book has become an increasingly popular way of telling personal stories of considerable complexity and depth. In *Autobiographical Comics: Life Writing in Pictures*, Elisabeth El Refaie offers a long overdue assessment of the key conventions, formal properties, and narrative patterns of this fascinating genre. The book considers eighty-five works of North American and European provenance, works that cover a broad range of subject matters and employ many different artistic styles. Drawing on concepts from several disciplinary fields—including semiotics, literary and narrative theory, art history, and psychology—El Refaie shows that the traditions and formal features of comics provide new possibilities for autobiographical storytelling. For example, the requirement to produce multiple drawn versions of one's self necessarily involves an intense engagement with physical aspects of identity, as well as with the cultural models that underpin body image. The comics medium also offers memoirists unique ways of representing their experience of time, their memories of past events, and their hopes and dreams for the future. Furthermore, autobiographical comics creators are able to draw on the close association in contemporary Western culture between seeing and believing in order to persuade readers of the authentic nature of their stories.

Schneider.2016-06-30 Boredom and melancholy in the experience of reading Contemporary graphic novels show an interesting shift from the extraordinary to the ordinary in slice-of-life stories in which nothing happens. Present-day graphic accounts are inhabited by melancholic characters whining about the lack of meaning in life. This book examines this intriguing transition and brings a historical, aesthetical and narratological approach to comics in which boredom is not only a topic, but also awakens a deliberate affective response in the very experience of reading. This volume brings together close readings of work by Lewis Trondheim, Chris Ware and Adrian Tomine. With a foreword by Raphaël Baroni (University of Lausanne).

Michaël Ferrier, Transnational Novelist: French Without Borders

Akane Kawakami.2023-11-15 Michaël Ferrier is a prize-winning novelist, essayist and academic whose cosmopolitan life - he grew up in Chad and France, has Mauritian roots and lives in Japan - has inspired him to write some fascinating novels that cross generic and geographical boundaries. This book is the first ever monograph dedicated to his works, which explore themes as various as an African childhood, notions of Frenchness, inter-identities, and post-Fukushima life in Japan. Hybridity is key to his themes, forms and genres, which include - as befits a twenty-first century author - a website, called 'Tokyo-Time-Table' and discussed in this study. Kawakami uses an eclectic range of frameworks to analyse Ferrier's output, ranging from translingualism to Environmental Humanities and Ferrier's own vision of his oeuvre, which he discloses for the first time in this book in the interview that he grants Kawakami. This interview, first published in this volume, is rich in insights into Ferrier's views on dreams, Japan, the internet, and collaborating with other artists. This book is an indispensable guide to an author who is one of the rising stars of contemporary French and Francophone literature, and a unique voice that crosses all kinds of borders across the globe.

**Visualising Small Traumas** Pedro Moura.2022-02-28 Cultural history of contemporary Portuguese comics and their creative responses to trauma Portugal's vibrant comics scene originated as early as the 19th century, bringing forth brilliant individual artists, but has remained mostly unknown beyond Portugal's borders to this day. Now a new generation employs this medium to put into question hegemonic views on the economy, politics, and society. Following the experience of the financial crisis of the past decades and its impact on social policies, access to and rules of public discourse, and civil strife, comics have questioned what constitutes a traumatogenic situation and what can act as a creative response. By looking at established graphic novels by Marco Mendes and Miguel Rocha, fanzine-level, and even experimental productions, Visualising Small Traumas is the first English-language book that addresses Portuguese contemporary comics and investigates how trauma studies can both shed a light on comics making and be informed by that very same practice. This publication is GPRC-labeled (Guaranteed Peer-Reviewed Content).

moins d'essence ultime. S'il faut le dire avec force c'est que nous sortons à peine de deux discours prédominants sur la bande dessinée. L'un dénonçant une forme dégradée de Culture. L'autre, apologique et militant dont le prix à payer en a été une nouvelle essentialisation du médium qui mimait parfois les positions des dénonciateurs (en les inversant). Pour rompre avec ces discours hérités du siècle passé et finalement assez sclérosants, cet ouvrage aborde une troisième voie, « constructiviste ». Il refuse la limitation identitaire de la bande dessinée et propose une ouverture du champ des possibles. Elle est proposée ici par des auteurs qui ne partagent pas toujours les mêmes opinions et les mêmes ancrages théoriques mais qui croient en la diversification et en la richesse explosive d'une constellation culturelle en expansion. Ouvrage dirigé par Éric Maigret, professeur de sociologie des médias et études culturelles à la Sorbonne Nouvelle, Université Paris 3 et Matteo Stefanelli, chercheur à la Faculté de Sciences Politiques de l'Università Cattolica del Sacro Cuore di Milano.

Surrealism, Science Fiction and Comics Gavin Parkinson.2015 Although the self-definition of Surrealism and the initial defining of science fiction as a genre both took place in the 1920s and the links between the two are manifest, no full study has appeared till now on Surrealism and SF. Across ten original essays, *Surrealism, Science Fiction and Comics* looks at how the Surrealist movement in France and the USA used, informed, contributed to, and criticised SF from that moment, whilst including discussion of the related genre of comics. Among its aims are a reassessment of Jules Verne in the light of Surrealism and an analysis of the debate in the 1950s on the 'new' Anglo-American literature arriving in France. This received, in fact, a mixed reception from the Surrealists of that decade even though writers and intellectuals close to the movement in the 1920s were directly responsible for its success. The book includes further essays on the subsequent impact of Surrealism on SF novelists J.G. Ballard and Alan Burns, and features essays that argue for Salvador Dalí's closeness to SF in the 1960s and his disagreement with the earlier scientific romance defined by Verne. The chapters that bring in comics range from theoretical discussions of the relation between the original comic strips of Rodolphe Töpffer and the key Surrealist technique of automatism, used in art and

writing, through the cybernetic implications of the proto-SF Surrealist ciné-roman 'M. Wzz...' of 1929, which has never discussed in any detail before, to the 1948 Vache paintings by René Magritte, inspired by Louis Forton's strip Les Pieds nickelés. This pioneering set of essays shows how Surrealism from the 1920s to the 1970s did not just receive and adapt SF but impacted the genre in its later manifestations.

célébration des plaisirs du vin Fred Bernard a comme qui dirait le vin dans le sang. Né peu avant les vendanges en Bourgogne, il a grandi au milieu des cartons et des caisses de grands crus : ses terrains de jeux préférés étaient les caves de son grand-père et de son arrière-grand-père, tous deux vigneron. Sans cesse on lui répétait : « Quand tu seras grand, tu feras du vin ». Las, il a choisi une carrière d'auteur ; mais le plaisir du vin, lui, est resté. Au fil des pages, Bernard traduit cette passion en une série d'histoires courtes issues des anecdotes de ses aïeux et de ses réflexions personnelles sur le vin et la dégustation. On y retrouve, comme à son habitude, sa sensibilité, son humour, son sens aigu de l'observation des gens et son trait sensuel, pour une ode aux plaisirs du nectar des vignes.
