*The Torture Garden* Octave Mirbeau. 2022-11-13 Clara is a sadist and hysteric, who delights in witnessing flayings, crucifixions and numerous tortures, all done in beautifully laid out and groomed gardens, and explaining the beauty of torture to her companion—the narrator. Her hysterical orgasm and resulting exhaustion is a curious exploration of pain and pleasure and made this novel a truly erotic BDSM masterpiece! Excerpt: One evening some friends were gathered at the home of one of our most celebrated writers. Having dined sumptuously, they were discussing murder—apropos of what, I no longer remember probably apropos of nothing. Only men were present: moralists, poets, philosophers and doctors—thus everyone could speak freely, according to his whim, his hobby or his idiosyncrasies, without fear of suddenly seeing that expression of horror and fear which the least startling idea traces upon the horrified face of a notary. I—say notary, much as I might have said lawyer or porter, not disdainfully, of course, but in order to define the average French mind...

hairstyles from the 1930s, 40s, 50s, and 60s and breaking them down into simple, easy-to-follow instructions. It uses brand new photographs and detailed directions. Sprinkled in introductions and throughout the book are interesting facts about the history of hairstyling, origins of styles, and information about starlets and performers who made the styles popular.

Permanent Waves Julie A. Willett.2000-06 Throughout the twentieth century, beauty shops have been places where women could enjoy the company of other women, exchange information, and share secrets. The female equivalent of barbershops, they have been institutions vital to community formation and social change. But while the beauty shop created community, it also reflected the racial segregation that has so profoundly shaped American society. Links between style, race, and identity were so intertwined that for much of the beauty shop's history, black and white hairdressing industries were largely separate entities with separate concerns. While African American hair-care workers embraced the chance to be independent from white control, negotiated the meanings of hair straightening, and joined in larger political struggles that challenged Jim Crow, white female hairdressers were embroiled in struggles over self-definition and opposition to their industry's emphasis on male achievement. Yet despite their differences, black and white hairdressers shared common stakes as battles were waged over issues of work, skill, and professionalism unique to women's service work. *Permanent Waves* traces the development of the American beauty shop, from its largely separate racial origins, through white recognition of the ethnic market, to the present day.
