L'art de marcher en pleine conscience Daniel Zanin.2019-03-15

La marche, en plus de soulager les tensions et de nous libérer des charges physiques et émotionnelles, est également propice à la méditation et la pleine conscience. Pour sublimer pas à pas ces moments de présence, pour aller plus loin, pour s'ouvrir à tous les bienfaits et les plaisirs de la marche, les connaissances et l'expérience d'un guide sont primordiales. Danilo Zanin, accompagnateur en montagne et sophrologue, nous propose d'expérimenter cet art de la marche. Choisir son matériel, apprendre à marcher avec et sans bâtons, respirer en montée et en descente, pratiquer des exercices de méditation ou de relaxation... Toutes les informations pratiques sont ici compilées avec une méthode unique permettant de s'ouvrir à soi et au monde. A vous d'accueillir ce qui se présente en suivant votre rythme !

Nationalism and Classicism A. Leoussi.1998-07-08 This is a comparative study of the national significance of the classical revival which marked English and French art during the second half of the nineteenth century. It argues that the main focus of artists' interest in classical Greece, was the body of the Greek athlete. It explains this interest, first, by artists' contact with the art of Pheidias and Polycletus which portrayed it; and second, by the claim, made by physical anthropologists, that the classical body typified the race of the European nations.

French Ecocriticism Daniel A. Finch-Race, Stephanie Posthumus. 2017 This book expounds fruitful ways of analysing matters of ecology, environments, nature, and the non-human world in a broad spectrum of material in French. Scholars from Canada, France, Great Britain, Spain, and the United States examine the work of writers and thinkers including Michel de Montaigne, Victor Hugo, Émile Zola, Arthur Rimbaud, Marguerite Yourcenar, Gilbert Simondon, Michel Serres, Michel Houellebecq, and Éric Chevillard. The diverse approaches in the volume signal a common desire to bring together form and content, politics and aesthetics, theory and practice, under the aegis of the environmental humanities.

Multilingual Metal Music Amanda DiGioia. 2020-12-18 This multidisciplinary book explores the textual analysis of heavy metal lyrics written in languages other than English including Japanese, Yiddish, Latin, Russian, Hungarian, Austrian German, and Norwegian. Topics covered include national and minority identity, politics, wordplay, parody, local/global, intertextuality, and adaptation.

Interpretation James Nolan. 2012-10-09 In recent decades the explosive growth of globalization and regional integration has fuelled parallel growth in multilingual conferences. Although conference interpreting has come of age as a profession, interpreter training programs have had varied success, pointing to the need for an instructional manual which covers the subject comprehensively. This book seeks to fill that need by providing a structured syllabus and an overview of interpretation accompanied by exercises in various aspects of the art. It is meant to serve as a practical guide for interpreters and as a complement to interpreter training programs in the classroom and online, particularly those for students preparing for conference interpreting in international governmental and

business settings. This expanded second edition includes additional exercises and provides direct links to a variety of web-based resources and practice speeches, also including additional language combinations.

What the Buddha Taught Walpola Rahula.2007-12-01 “A terrific introduction to the Buddha’s teachings.” —Paul Blairon, California Literary Review This indispensable volume is a lucid and faithful account of the Buddha’s teachings. “For years,” says the Journal of the Buddhist Society, “the newcomer to Buddhism has lacked a simple and reliable introduction to the complexities of the subject. Dr. Rahula’s *What the Buddha Taught* fills the need as only could be done by one having a firm grasp of the vast material to be sifted. It is a model of what a book should be that is addressed first of all to ‘the educated and intelligent reader.’ Authoritative and clear, logical and sober, this study is as comprehensive as it is masterly.” This edition contains a selection of illustrative texts from the Suttas and the Dhammapada (specially translated by the author), sixteen illustrations, and a bibliography, glossary, and index. “[Rahula’s] succinct, clear overview of Buddhist concepts has never been surpassed. It is the standard.” —Library Journal

Conscripts and Deserters Alan I. Forrest.1989 Between the outbreak of war with Austria in 1792 and Napoleon's final debacle in 1814, France remained almost continuously at war, recruiting in the process some two to three million frenchmen--a level of recruitment unknown to previous generations and widely resented as an attack on the liberties of rural communities. Forrest challenges the notion of a nation heroically rushing to arms by examining the massive rates of desertion and avoidance of service as well as their consequences on French society--on military campaigns and the morale of armies, on political opinion at home, on the social fabric of local villages, and on the

Napoleonic dream of bringing about a coherent and centralized state.

Passion and Action Susan James.1997-10-16 Passion and Action explores the place of the emotions in seventeenth-century understandings of the body and mind, and the role they were held to play in reasoning and action. Interest in the passions pervaded all areas of philosophical enquiry, and was central to the theories of many major figures, including Hobbes, Descartes, Malebranche, Spinoza, Pascal, and Locke. Yet little attention has been paid to this topic in studies of early modern thought. Susan James surveys the inheritance of ancient and medieval doctrines about the passions, then shows how these were incorporated into new philosophical theories in the course of the seventeenth century. She examines the relation of the emotions to will, knowledge, understanding, desire, and power, offering fresh analyses and interpretations of a broad range of texts by little-known writers as well as canonical figures, and establishing that a full understanding of these authors must take account of their discussions of our affective life. Passion and Action also addresses current debates, particularly those within feminist philosophy, about the embodied character of thinking and the relation between emotion and knowledge. This ground-breaking study throws new light upon the shaping of our ideas about the mind, and provides a historical context for burgeoning contemporary investigations of the emotions.

In the Grip of Minos Matthew Senior.1994 Following Trent, a new mode of confession makes its appearance, a baroque discourse in which the heart speaks to the heart. Senior argues that Corneille similarly creates a new kind of hero who distinguishes himself as much by the confessional trial of self-statement as by his military exploits. In the work of Racine, Senior notes, Minos appears again, tormenting the conscience of Phedre.

Journal pour tous .1860

The Essence of Manifestation M. Henry.2012-12-06 This book was born of a refusal, the refusal of the very philosophy from which it has sprung. After the war, when it had become apparent that the classical tradition, and particularly neo-Kantianism, was breathing its last, French thought looked to Germany for its inspiration and renewal. Jean Hyppolite and Kojeve reintroduced Hegel and the existentialists and phenomenologists drew the attention of a curious public to the fundamental investigations of Husserl and Heidegger. If only by being understood as a phenomenological ontology, this books speaks eloquently enough of the debt it owes to these thinkers of genius. The conceptual material which it uses, particn1arly in chapters 1 to 44, outlines the Husserlian and Heideggerian horizon of the investigations. However, it is precisely this horizon which is questioned. In spite of its profundity and achievements, I wanted to show that contemporary ontology pushes to the absolute the presuppositions and the limits of the philosophy of consciousness since Descartes and even of all Western philosophy since the Greeks. An 'External' critique, viz. the opposing of one thesis to another, would have no sense whatever. Rather, it is interior to these presuppositions whose insufficiency had to be shown that we placed ourselves; the very concepts which were rejected were also the ones which guided the problem initially.

Learning to Breathe Patricia C. Broderick. 2021-06-01 A fully revised and updated second edition, including new research and skills in the areas of trauma and compassion Disruptive behavior in the classroom, poor academic performance, and out-of-control emotions: if you work with adolescents, you are well-aware of the challenges this age group presents, as well as how much time can be lost on your lessons while dealing with this behavior. What if there was a way to calm these students down and arm them with the mindfulness skills needed to really excel in school and life? Written by mindfulness expert and licensed clinical psychologist Patricia C. Broderick, Learning to Breathe is a secular program that tailors the teaching of mindfulness to the developmental needs of adolescents to help them understand their thoughts and feelings and manage distressing emotions. Students will be empowered by learning important mindfulness meditation skills that help them improve emotion regulation, reduce stress, improve overall performance, and, perhaps most importantly, develop their attention. Since its publication nearly a decade ago, the L2B program has transformed classrooms across the US, and has received praise from educators, parents, and mental health professionals alike. This fully revised and updated second edition offers the same powerful mindfulness interventions, and includes compelling new research and skills in the areas of trauma and compassion. The book integrates certain themes of mindfulness-based stress reduction (MBSR), developed by Jon Kabat-Zinn, into a program that is shorter, more accessible to students, and compatible with school curricula. This easy-to-use manual is designed to be used by teachers, but can also be used by any mental health provider teaching adolescents emotion regulation, stress reduction and mindfulness skills. The book is structured around six themes built upon the acronym BREATHE, and each theme has a core message: Body, Reflection, Emotions, Attention, Tenderness, and Healthy Mind Habits, and Empowerment. Along with The Learning to Breathe Student Workbook, this is the

perfect tool for empowering students as they grapple with the psychological tasks of adolescence. Make this new edition a part of your professional library today!

Courbet's Realism Michael Fried.1992-11-15 'This book,' Michael Fried's work opens, 'was written not so much chapter by chapter as painting by painting over a span of roughly ten years.'

Courbet's Realism is a magnificent work and its very first sentence brings us up against the qualities of mind of its author, qualities that make it as impressive as it is. It allows us to reconstruct the keen eye, the commitment to perception, the gift of rapt concentration, the conviction that great paintings are not necessarily understood easily, and the further conviction that a great painter deserves to get from us as good as he gives. By drawing on these qualities, Fried achieves something out of reach for all but a handful of his colleagues. In his writing, art history takes on some of the character of art itself. It is driven by the same stubborn resolve to open our eyes.—Richard Wollheim, San Francisco Review of Books Courbet's Realism is clearly a major contribution to the highly active field of Courbet studies. . . . But to contribute here and now is necessarily also to contribute to central debates about art history itself, and so the book is also—I hesitate to say 'more importantly,' because of the way object and method are woven together in it—a major contribution to current attempts to rethink the foundations and objects of art history. . . .

It will not be an easy book to come to terms with; for all its engagement with contemporary literary theory and related developments, it is not an application of anything, and its deeply thought-through arguments will not fall easily in line with the emerging shapes of the various 'new art histories' that tap many of the same theoretical resources. At this moment, there may be nothing more valuable than such a work.—Stephen Melville, *Art History*

The Violence of Modernity Debarati Sanyal.2020-03-03 The *Violence of Modernity* turns to Charles Baudelaire, one of the most canonical figures of literary modernism, in order to reclaim an aesthetic legacy for ethical inquiry and historical critique. Works of modern literature are commonly theorized as symptomatic responses to the trauma of history. In a climate that tends to privilege crisis over critique, Debarati Sanyal argues that it is urgent to rethink literary experience in terms that recall its contestatory potential. Examining Baudelaire's poems afresh, she shifts the focus of critical attention toward an account of modernism as an active engagement with violence, specifically the violence of history in nineteenth-century France. Sanyal analyzes a literary current that uses the traditional hallmarks of modernism—irony, intertextuality, self-reflexivity, and formalism—to challenge the historical violence of modernity. Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history, and thereby to challenge the melancholy tenor of our contemporary wound culture. In a series of provocative readings, Sanyal presents Baudelaire's poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity, counterviolence, and critique. The book develops a new account of Baudelaire's significance as a modernist by dislodging him both from his traditional status as a practitioner of art for art's sake and from his more recent incarnation as the poet of trauma.

Following her extended analysis of Baudelaire's poetry, Sanyal in later chapters considers a number of authors influenced by his strategies—including Rachilde, Virginie Despentes, Albert Camus, and Jean-Paul Sartre—to examine the relevance of their interventions for our current climate of trauma and terror. The result is a study that underscores how Baudelaire's legacy continues to energize literary engagements with the violence of modernity.

Emotional Minds Sabrina Ebbersmeyer.2012-07-30 The thoroughly contemporary question of the relationship between emotion and reason was debated with such complexity by the philosophers of the 17th century that their concepts remain a source of inspiration for today's research about the emotionality of the mind. The analyses of the works of Descartes, Spinoza, Leibniz, and many other thinkers collected in this volume offer new insights into the diversity and significance of philosophical reflections about emotions during the early modern era. A focus is placed on affective components in learning processes and the boundaries between emotions and reason.

Karl Marx: Man and Fighter (RLE Marxism) Boris

Nicolaievsky, Otto Maenchen-Helfen.2015-04-24 Strife has raged about Karl Marx for decades, and never had it been so embittered as at the time of this book's first publication, 1936. Marx had impressed his image on the time as not other had done. To some he was - and still is - a fiend, the arch-enemy of human civilisation, and the prince of chaos, while to others he is a far-seeing and beloved leader, guiding the human race towards a brighter future. The arena in which Marx was fought about in 1936 was in the factories, in the parliaments and at the barricades. In both camps, the bourgeois and the socialist, Marx

was first of all, if not exclusively, the revolutionary. This book sets out to describe the life of Marx the fighter.

Grotesque Figures Virginia E. Swain.2020-03-03 Charles Baudelaire is usually read as a paradigmatically modern poet, whose work ushered in a new era of French literature. But the common emphasis on his use of new forms and styles overlooks the complex role of the past in his work. In *Grotesque Figures*, Virginia E. Swain explores how the specter of the eighteenth century made itself felt in Baudelaire's modern poetry in the pervasive textual and figural presence of Jean-Jacques Rousseau. Not only do Rousseau's ideas inform Baudelaire's theory of the grotesque, but Rousseau makes numerous appearances in Baudelaire's poetry as a caricature or type representing the hold of the Enlightenment and the French Revolution over Baudelaire and his contemporaries. As a character in *Le Poème du hashisch* and the *Petits Poèmes en prose*, Rousseau gives the grotesque a human form. Swain's literary, cultural, and historical analysis deepens our understanding of Baudelaire and of nineteenth-century aesthetics by relating Baudelaire's poetic theory and practice to Enlightenment debates about allegory and the grotesque in the arts. Offering a novel reading of Baudelaire's ambivalent engagement with the eighteenth-century, *Grotesque Figures* examines nineteenth-century ideological debates over French identity, Rousseau's political and artistic legacy, the aesthetic and political significance of the rococo, and the presence of the grotesque in the modern.

Shrines and Pilgrimage in the Modern World Peter Jan Margry.2008 The modern pilgrimage—to sites ranging from Graceland to the veterans' annual ride to to the Vietnam Veterans Memorial to Jim Morrison's Paris grave—is intertwined with man's existential uncertainties in the face of a rapidly changing world. In a climate that reproduces the religious quest in seemingly secular places, it's no longer clear exactly what the term pilgrimage infers—and *Shrines and Pilgrimage in the*

Modern World critiques our notions of the secular and the sacred, while commenting on the modern media’s multiplication of images that renders the modern pilgrimage a quest without an object. Using new ethnographical and theoretical approaches, this volume offers a surprising new vision on the non-secularity of the “secular” pilgrimage. This book will be sure to stoke our intellectual fire and heat up the discussion over the highly charged topic of secular pilgrimage.”—Simon Bronner, Penn State University
