Coping Systems for Employee Turnover Sebastian

Reiche.2003-02-03 Inhaltsangabe:Abstract: As business activities become increasingly global and cross-nationally intertwined, human resource management is no longer defined by national boundaries. In particular, multinational corporations (MNCs) face the challenge of managing their globally dispersed work force effectively. Yet, the field of international human resource management (IHRM) remains an understudied domain, lacking substantial empirical and conceptual research. Also, a prevailing focus on quantitative data suggests a need for deeper qualitative investigations, which allows a more profound assessment of the context in which IHRM unfolds. By addressing IHRM at MNCs, the current empirical work contributes additional scientific insights into this domain. In this respect, the author has selected an approach of inductive comparative case study research, mainly based on qualitative data, that enables the generation of theory through an iterative, data-driven process. This method has been applied to investigate IHRM because it is particularly fruitful when examining new and narrowly developed scientific fields as well as considering contextual conditions. Thus, a multiple case study was conducted through exploratory and semi-structured interviews with managerial employees at six western MNCs which maintain their regional headquarters for South-East Asia in Singapore. The initial guiding objective was to provide a more thorough understanding of the forces that influence IHRM. Due to the exploratory nature of the research set-up, this broad focus has narrowed during the conduct of the study and the subsequent data analysis. Based on the interviews, employee turnover emerged as a key concern for international organizations operating in Singapore. Although a tight local labour market has

led to the effect that job turnover is a widespread phenomenon, there is a lack of research addressing this issue and the resulting implications for foreign MNCs. The present study's focus on employee turnover also takes into account the growing importance of local staff for MNCs. Indeed, by acknowledging the critical role that local nationals play at the host country level, it will be increasingly imperative for international organizations to establish effective retention strategies. Despite this obvious significance, the field of managing employee turnover also remains considerably underdeveloped. Building on the results of the conducted multiple case study, the purpose of [...]

Auf dem Weg nach Rom - und dann kam alles anders

Marianne Birkmann.2023-08-31 Obwohl sie sich solch anstrengende Wanderungen nicht mehr zumuten wollte, hat sich Marianne wenige Monate nach ihrer letzten Pilgerreise wieder auf den Weg gemacht. Einmal Pilger, immer Pilger. So begann sie 2017 den Spuren der Päpstin auf der Via Romea zu folgen. Anfangs noch nicht sicher, wie weit sie diesen Weg gehen wird, war schon nach einigen Etappen klar, sie will den Weg zu Ende gehen und irgendwann zu Fuß in Rom ankommen. Wird sie es schaffen und ihr Ziel erreichen? Auch dieses Buch bietet eine spannende, feinsinnige Reisebeschreibung mit vielen Fotos. Man bekommt das Gefühl selbst dabei zu sein, so die Aussage einer Leserin. Die Autorin schreibt mit leichter Feder: spannend, nachdenklich, humorvoll, informativ. Lesevergnügen pur, nicht nur für Wanderer.

Negotiating the Boundaries of Belonging Nils

Witte.2017-09-27 Nils Witte explores Turkish migrants' destigmatization strategies and investigates their legal and symbolic motives for naturalisation. Using mixed methods and unique data the author shows that Turkish migrants' inclination to naturalise would be stronger if they were allowed to retain their former citizenship and if they were recognized as symbolic members of German society. Minority members enjoy expansive rights as permanent residents and many are entitled to hold German citizenship. However, they often experience symbolic exclusion making symbolic membership a rare motive for naturalisation.

Entering successful the Indian market: Recommendations and challenges for German small and medium-sized companies Diana Bednarek.2014-02-01

The objective of this study is to identify, to analyse, and to evaluate the market entry barriers for German small and medium-sized companies in India. Moreover, this study provides recommendations in order to minimize or overcome those barriers. Existing studies are discussing the market entry of big companies such as of Siemens AG and Robert Bosch GmbH in India, but issues of small and medium-sized companies are neglected. This academic void is closed by this study with the help of the implementation of questionnaires and interviews. Based on these primary sources, market entry barriers for German small and medium-sized companies in India are identified as well as analysed, and recommendations to reduce or even overcome them are presented.

From Westphalia into the World Michael Rosenkötter.2003 Im ersten Teil des Buches werden die sozialen und wirtschaftlichen Hintergründe des bäuerlichen Lebens vom ausgehenden Mittelalter bis zum Beginn der Industriellen Revolution in Westfalen dargestellt. Zahlreiche Dokumente illustrieren die vielfältigen Beziehungen der Kötterfamilie zu dem Grund- und Lehns Herrn, dem Kloster Quernheim bei Kirchlengern. Im zweiten Teil wird die Geschichte der Familie im 19. Jahrhundert erzählt, als ein Fünftel der Bevölkerung Westfalen verlässt und vor allem nach Amerika auswandert. Es wird von der oft beschwerlichen Reise von Bremerhaven nach New Orleans und weiter den Misissippi hinauf berichtet. Die deutschen Einwanderer gehören zu den ersten Siedlern nördlich von St. Louis, Missouri. Der Autor zeichnet ein facettenreiches Bild der Jahre von 1840 an: die Siedlungsgeschichte, das kirchliche und schulische Leben, die Arbeit und das Freizeitverhalten werden ausführlich geschildert.

Germans Going Global Anke S. Biendarra.2012-10-30 *Germans Going Global* is the first monograph in English to address in depth the interrelatedness between contemporary German literature and globalization. In an interdisciplinary framework and through detailed readings of a wide variety of texts, the study shows how the challenges globalization has posed for Germany over the last two decades have been manifested and reimaged in aesthetic production. Analyses of the literary marketplace and public debates illuminate the more material sides of this development. The study also analyzes the ways in which German-language writers born between 1955 and 1975, such as Chr. Kracht, Th. Meinecke, J. Hermann, S. Berg, F. Illies, K. Röggl, J. v. Düffel, and G. Hens, respond to the pressures of globalizing factors, and how these have influenced notions of authorship and literary aesthetics. It shows how narratives dealing with the neoliberal work world, global travel, and the aftermath of 09/11 implicitly comment on contemporary debates on globalization, its socio-economic nature, and the impact for local culture. By presenting a literary history of the present, *Germans Going Global* deepens the reader's understanding of contemporary Germany and its cultural production.
