Strategies of Humor in Post-Unification German Literature, Film, and Other Media Jill Twark.2011-01-18 The fourteen chapters in this anthology feature original analyses of contemporary German-language literary texts, films, political cartoons, cabaret, and other types of performance. The artworks display a wide spectrum of humor modes, such as irony, satire, the grotesque, Jewish humor, and slapstick, as responses to unification with the accompanying euphoria, but also alienation and dislocation. Kerstin Hensel's Lärchenau, Christoph Hein's Landnahme, and vignette collections by Jakob Hein (Antrag auf ständige Ausreise und andere Mythen der DDR) and Wladimir Kaminer (Es gab keinen Sex im Sozialismus) are interpreted as examples of the grotesque. The popular films Lola rennt, Sonnenallee, Herr Lehmann, NVA, Alles auf Zucker!, and Mein Führer—Die wirklich wahrste Wahrheit über Adolf Hitler are reexamined through the lens of traditional and more recent humor or comic book theories. The contributors focus on how each artwork enriches four prominent postwall German cultural trends: post-unification identity reconstruction, Vergangenheitsbewältigung (including Hitler humor), New German Popular Literature (Christian Kracht's ironic subtexts), and immigrant perspectives (a "third voice" in the East-West binary reflected here pointedly in Eulenspiegel cartoons). To date, no other scholarly work provides as comprehensive an overview of the diverse strategies of humor used in the past two decades in German-speaking countries.

Essays on Art Johann Wolfgang von Goethe.1845

From Goethe to Gundolf Roger Paulin.2021-08-24 From Goethe to Gundolf: Essays on German Literature and Culture is a collection of Roger Paulin's groundbreaking essays, spanning the last forty years. The work represents his major research interests of Romanticism and the reception of Shakespeare in Germany, but also explores a broader range of themes, from poetry and the public memorialization of poets to fairy stories - all meticulously researched, yet highly accessible. As a comprehensive examination of German literary history in the period 1700-1900, the collection not only includes accounts of the lives and work of Goethe, Schiller, the Schlegels, and Gundolf (amongst others), serving to nuance our understanding of these figures in history, but also considers diverse (and often underexplored) topics, from academic freedom to the rise of travel literature. The essays have been reformulated, corrected, and updated to add references to recent works. However, the core foundations of the originals remain, and just as when they were first published, the value of these essays - to researchers, students, and all those who are interested in German literary history - cannot be overstated.

The Tyranny of Elegance Daniel L. Purdy.1998 He traces the elite reaction against fashion that followed the example of the king, Frederick the Great, who dressed poorly - in worn and even dirty clothes - to separate himself from the francophile fastidiousness typical of absolutist armies.

They put Humboldt's basic academic principles into context and discuss their significance for the current debate about the university.

But Joachim was also a composer of virtuoso pieces, violin concertos, orchestral overtures and chamber music works. Uhde's book will be the standard work on the music of Joseph Joachim for many years to come.

Forget English! Aamir R. Mufti.2016-02-16 World literature advocates have promised to move humanistic study beyond postcolonial theory and antiquated paradigms of national literary traditions. Aamir Mufti scrutinizes these claims and critiques the continuing dominance of English as both a literary language and the undisputed cultural system of global capitalism.

Carnap Brought Home Steve Awodey,Carsten Klein.2004 Rudolf Carnap (1891-1970) was the most important philosopher of the movement known as logical empiricism or logical positivism, still the basis of much modern analytic philosophy. It was long thought that this movement had been destroyed by the polemics of Quine, Popper, and Kuhn. But recently, leading philosophers have been re-appraising this verdict. It is no longer universally agreed that Quine or Popper won their disputes with Carnap, and some have now been arguing that Kuhn's ideas are--as Carnap himself thought--perfectly compatible with logical empiricism. This volume presents the latest contributions to this discussion from both sides, and adds a number of new voices, who look at Carnap from a more international point of view -- bringing out, for instance, the roots of his thought in Continental neo-Kantianism and Dilthey's Lebensphilosophie, and stressing his deep commitment to political and cultural change. Carnap grew up in Jena, and in his student days was an active member there of the utopian Sera Group, part of the German youth movement. At the same time, he was one of Frege's few students, and was deeply influenced by him.

The Problem of Distraction Paul North.2011-10-19 We live in an age of distraction. Contemporary analyses of culture, politics, techno-science, and psychology insist on this. They often suggest remedies for it, or ways to capitalize on it. Yet they almost never investigate the meaning and history of distraction itself. This book corrects this lack of attention. It inquires into the effects of distraction, defined not as the opposite of attention, but as truly discontinuous intellect. Human being has to be reconceived, according to this argument, not as quintessentially thought-bearing, but as subject to repeated, causeless blackouts of mind. The Problem of Distraction presents the first genealogy of the concept from Aristotle to the largely forgotten, early twentieth-century efforts by Kafka, Heidegger, and Benjamin to revolutionize the humanities by means of distraction. Further, the book makes the case that our present troubles cannot be solved by recovering or enhancing attention. Not-always-thinking beings are beset by radical breaks in their experience, but in this way they are also receptive to what has not and cannot yet be called experience.

The Philosophical Foundations of Early German Romanticism Manfred Frank.2012-02-01 Explores the philosophical contributions and contemporary relevance of early German Romanticism.

German Romantic Literary Theory Ernst Behler,Behler Ernst.1993-04-22 Professor Behler provides a view of the literary work and the artistic process developed in the German Romantic period.

Schiller's Aesthetic Essays Lesley Sharpe.1995 Friedrich Schiller, the dramatist and poet, greatly influenced the development of aesthetics through his essays. He sums up the eighteenth century while anticipating modern ideas; his notions of the naive and the sentimental, of art as play, and of beauty as semblance, have had a lasting impact on aesthetic speculation. Dr Sharpe's book is the first study devoted to tracing the attempts of successive generations of philosophers and literary critics to expound the works and deal with the problems they present. Surveying Anglo-American as well as German-language criticism, she illuminates the impact of critical and political change on their evaluation.

Hermeneutics and the Humanities Madeleine Kasten,Herman Paul,Rico Sneller.2012 Hans-Georg Gadamer's Wahrheit und Methode (1960) is one of the most influential books on interpretation to have appeared in the past half century. This volume aims to continue this conversation between hermeneutics and the humanities, but also tries to map Gadamer's influence on the humanities so far.

The Imagination in German Idealism and Romanticism Gerad Gentry,Konstantin Pollok.2019-06-13 Explores imagination and human rationality in a crucial period of philosophy, from hermeneutics and transcendental logic to ethics and aesthetics.

Literary Translation, Reception, and Transfer Norbert Bachleitner.2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena; they are based on similarities that are related to a form of 'travelling' and imitation or adaptation

of entire texts, genres, forms or contents. Transfer comprises all sorts of 'travelling', with translation as a major instrument of transferring literature across linguistic and cultural barriers. Transfer aims at the process of communication, starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading, and interpretation. Translation, therefore, forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across linguistic and cultural borders; thus, they pave the way for gaining prestige in the world of literature. The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature.

The Activity of Being Aryeh Kosman.2013-03-01 Understanding "what something is" has long occupied philosophers, and no Western thinker has had more influence on the nature of being than Aristotle. Focusing on a reinterpretation of the concept of *energeia* as "activity," Aryeh Kosman reexamines Aristotle's ontology and some of our most basic assumptions about the great philosopher's thought.

Logotherapy and Existential Analysis Alexander Batthyány.2016-04-08 This landmark volume introduces the new series of proceedings from the Viktor Frankl Institute, dedicated to preserving the past, disseminating the present, and anticipating the future of Franklian existential psychology and psychotherapy, i.e. logotherapy and existential analysis. Wide-ranging contents keep readers abreast of current ideas, findings, and developments in the field while also presenting rarely-seen selections from Frankl's work. Established contributors report on new applications of existential therapies in specific (OCD, cancer, end-of-life issues) and universal (the search for meaning) contexts as well as intriguing possibilities for opening up dialogue with other schools of psychology. And this initial offering establishes the tenor of the series by presenting varied materials across the field, including: Archival and unpublished articles and lectures by Frankl. Peer-reviewed studies on logotherapy process, measures, and research. New case studies using logotherapy and existential analysis in diverse settings. Papers advocating cross-disciplinary collaboration. Philosophical applications of existential psychology. Critical reviews of logotherapy-related books. Volume 1 of *Logotherapy and Existential Analysis* will attract a wide audience, including psychologists (clinical, social, personality, positive), psychotherapists of different schools, psychiatrists in private practice, and researchers in these fields. Practitioners in counseling, pastoral psychology, coaching, and medical care will also welcome this new source of ideas and inspiration.

Recoding World Literature B. Venkat Mani.2016-12-01 Winner, 2018 Aldo and Jeanne Scaglione Prize for Studies in Germanic Languages and Literatures, Modern Language Association Winner, 2018 German Studies Association DAAD Book Prize in Germanistik and Cultural Studies. From the current vantage point of the transformation of books and libraries, B. Venkat Mani presents a historical account of world literature. By locating translation, publication, and circulation along routes of "bibliomigrancy"—the physical and virtual movement of books—Mani narrates how world literature is coded and recoded as literary works find new homes on faraway bookshelves. Mani argues that the proliferation of world literature in a society is the function of a nation's relationship with print culture—a Faustian pact with books. Moving from early Orientalist collections, to the Nazi magazine *Weltliteratur*, to the European Digital Library, Mani reveals the political foundations for a history of world literature that is at once a philosophical ideal, a process of exchange, a mode of reading, and a system of classification. Shifting current scholarship's focus from the academic to the general reader, from the university to the public sphere, *Recoding World Literature* argues that world literature is culturally determined, historically conditioned, and politically charged.

Disgust Winfried Menninghaus.2012-02-01 Disgust (*Ekel*, *dégoût*) is a state of high alert. It acutely says no to a variety of phenomena that seemingly threaten the integrity of the self, if not its very existence. A counterpart to the feelings of appetite, desire, and love, it allows at the same time for an acting out of hidden impulses and libidinal drives. In *Disgust*, Winfried Menninghaus provides a comprehensive account of the significance of this forceful emotion in philosophy, aesthetics, literature, the arts, psychoanalysis, and theory of culture from the eighteenth century to the present. Topics addressed include the role of disgust as both a cognitive and moral organon in Kant and Nietzsche; the history of the imagination of the rotting corpse; the counter-cathexis of the disgusting in Romantic poetics and its modernist appeal ever since; the affinities of disgust and laughter and the analogies of vomiting and writing; the foundation of Freudian psychoanalysis in a theory of disgusting pleasures and practices; the association of disgusting otherness with truth and the trans-symbolic real in Bataille, Sartre, and Kristeva; Kafka's self-representation as an Angel of disgusting smells and acts, concealed in a writerly stance of uncompromising purity; and recent debates on *Abject Art*.

Welt in Weimar Jakob Gehlen.2020

The Beethoven Sketchbooks Douglas Porter Johnson, Alan Tyson, Robert Winter.1985-01-01 A comprehensive description of Beethoven's sketchbooks--bound books of music paper in which Beethoven made sketches for his compositions from about 1798--has been long felt by Beethoven scholars. Although almost all the sketchbooks have survived in one form or another, it became clear in the 1960s that they were in a state of disarray. A reconstruction of their original condition was essential to the proper study of their musical contents.

Passions of the Sign Andreas Gailus.2006-03-23 Publisher description

Exemplarity and Mediocrity Paul Fleming.2008-12-11 Following Hegel's analysis of art's increasing difficulty to both engage and extricate itself from prosaic reality, Paul Fleming investigates the strategies employed by German literature from 1750 to 1850 for increasingly attuning itself to quotidian life—common heroes, everyday life, non-extraordinary events—while also avoiding all notions of mediocrity. He focuses on three sites of this tension: the average audience (Lessing), the average artist (Goethe and Schiller), and the everyday, or average life (Grillparzer and Stifter). The book's title, *Exemplarity and Mediocrity*, describes both a disjunctive and a conjunctive relation. Read disjunctively, modern art must display the exemplary originality (Kant) that only genius can provide and is thus fundamentally opposed to mediocrity as that which does not stand out or lacks distinctiveness; in the conjunctive sense, modern art turns to non-exceptional life in order to transform it—without forsaking its commonness—thereby producing exemplary forms of mediocrity that both represent the non-exceptional and, insofar as they stand outside the group they represent, are something other than mediocre.

Boris Pasternak and the Tradition of German Romanticism Karen Evans-Romaine.1997 This dissertation documents Pasternak's reception of literature from three periods within German Romanticism: the early Romanticism of the Jena School's literary representative, Friedrich von Hardenberg (Novalis), the second-generation Romanticism of E.T.A. Hoffmann; and the end and rejection of German Romanticism, represented by Heinrich Heine.

Santa Teresa Dr. Martina Bengert, Iris Roebing-Grau.2019-07-15 Even prior to her widely observed 500th anniversary, Teresa of Ávila (1515-1582) was already considered one of the most important authors of occidental mysticism. This volume gathers together contributions from a multitude of disciplines to explore the writings and reception of the Spanish author and saint. Previously disregarded lines of tradition are explored for a new understanding of her oeuvre, which is examined here with special regard to the potential to affect its readers. Teresa proves to not only be an accomplished, but also a very literary writer. Santa Teresa proves to be a figure of cultural memory, and the diffusion of her thinking is traced up to the present, whereby a recurrent focus is put on the phenomenon of ecstasy. Part of the widespread resonance of her work is the image of the iconic saint whose emergence as an international phenomenon is presented here for the first time. The volume is closed by an interview with Marina Abramovi answering four questions about Teresa.

Kant and the Power of Imagination Jane Kneller.2007-02-08 In this book Jane Kneller focuses on the role of imagination as a creative power in Kant's aesthetics and in his overall philosophical enterprise. She analyzes Kant's account of imaginative freedom and the relation between imaginative free play and human social and moral development, showing various ways in which his aesthetics of disinterested reflection produce moral interests. She situates these aspects of his aesthetic theory within the context of German aesthetics of the eighteenth century, arguing that Kant's contribution is a bridge between early theories of aesthetic moral education and the early Romanticism of the last decade of that century. In so doing, her book brings the two most important German philosophers of Enlightenment and Romanticism, Kant and Novalis, into dialogue. It will be of interest to a wide

range of readers in both Kant studies and German philosophy of the eighteenth and nineteenth centuries.

Who is this Schiller Now? Jeffrey L. High, Nicholas Martin, Norbert Oellers.2011 New essays by top international Schiller scholars on the reception of the great German writer and dramatist, emphasizing his realist aspects.

Goethe's Faust and the Divan of Ḥāfiẓ Hiwa Michaeli.2019-10-21 This book explores the poetic articulations of a shift from a transcendent to an immanent worldview, as reflected in the manner of evaluation of body and soul in Goethe's Faust and Ḥāfiẓ' Divan. Focusing on two lifeworks that illustrate their authors' respective intellectual histories, this cross-genre study goes beyond the textual confines of the two poets' Divans to compare important building blocks of their intellectual worlds.

Notes for a Romantic Encyclopaedia Novalis.2012-02-01 The first English translation of Novalis's unfinished notes for a universal science, Das Allgemeine Brouillon.

The Aesthetic Turn in Political Thought Nikolas Kompridis.2014-04-10 The growing exploration of political life from an aesthetic perspective has become so prominent that we must now speak of an "aesthetic turn" in political thought. But what does it mean and what makes it an aesthetic turn? Why now? This diverse and path-breaking collection of essays answers these questions, provoking new ways to think about the possibilities and debilities of democratic politics. Beginning from the premise that politics is already "aesthetic in principle," the contributions to The Aesthetic Turn in Political Thought from some of the world's leading political theorists and philosophers, disclose a distinct set of political problems: the aesthetic problems of modern politics. The aesthetic turn in political thought not only recognizes that these problems are different in kind from the standard problems of politics, it also recognizes that they call for a different kind of theorizing – a theorizing that is itself aesthetic. A major contribution to contemporary theoretical debates, The Aesthetic Turn in Political Thought will be essential reading to anyone interested in the interdisciplinary crossroads of aesthetic and politics.

Novalis: Fichte Studies Novalis.2003-08-28 This volume presents the first complete translation of Fichte Studies, a critique of Fichtean philosophy by the young philosopher-poet Friedrich von Hardenberg. Under the pen-name Novalis, von Hardenberg became the most well-known and beloved of the early German Romantic writers. Those interested in the fate of German philosophy and literature immediately following Kant will find that this collection of notes and aphorisms consists of original contributions on the nature of self-consciousness, the relationship of art to philosophy, and the nature of philosophical inquiry.

Four Treatises of Theophrastus Von Hohenheim Called Paracelsus Paracelsus.1996-12-20 Together these essays show one of the most original minds of the Renaissance at the height of his powers.

The Will to Create Astrida Orle Tantillo.2002-04-01 Better known as a poet and dramatist, Johann Wolfgang von Goethe (1749–1832) was also a learned philosopher and natural scientist. Astrida Orle Tantillo offers the first comprehensive analysis of his natural philosophy, which she contends is rooted in creativity. Tantillo analyzes Goethe's main scientific texts, including his work on physics, botany, comparative anatomy, and meteorology. She critically examines his attempts to challenge the basic tenets of Newtonian and Cartesian science and to found a new natural philosophy. In individual chapters devoted to different key principles, she reveals how this natural philosophy—which questions rationalism, the quantitative approach to scientific inquiry, strict gender categories, and the possibility of scientific objectivity—illuminates Goethe's standing as both a precursor and critic of modernity. Tantillo does not presuppose prior knowledge of Goethe or science, and carefully avoids an overreliance on specialized jargon. This makes The Will to Create accessible to a wide audience, including philosophers, historians of science, and literary theorists, as well as general readers.

Der Junge Carnap in Historischem Kontext: 1918-1935 Christian Damböck, Gereon Wolters.2021 This open access volume is based on the 'Early Carnap in Context' workshop that took place in Konstanz in 2017 and looks at Rudolf Carnap's philosophy, documented in his recently released diaries, from a combination of historical, cultural and philosophical perspectives. It enables further evaluation of the diaries and traces newly found interrelationships and their systematic definition. From a cultural and historical point of view, Logical Empiricism and Carnap's pivotal opus, The Logical Structure of the World, did not evolve in a vacuum. This applies equally in a history of philosophy context as well as under consideration of contemporary historical and cultural influences such as the socio-cultural setting in Vienna and Prague, the correlation between Logical Empiricism and Bauhaus modernism, the connection to the Life Reform Movement or the Youth Movement with its own life philosophy. Pursuing Carnap's progression on a micro level of history and referring the results back to Carnap's philosophy is now facilitated by recent access to his Diaries from 1908-1935. These shorthand records, reading lists, travel reports and notes constitute a valuable source for the research of networks and social movements which left their mark on him.

Hafiz and the Religion of Love in Classical Persian Poetry Leonard Lewisohn.2010-06-02 The romantic lyricism of the great Persian poet Hafiz (1315-1390) continues to be admired around the world. Recent exploration of that lyricism by Iranian scholars has revealed that, in addition to his masterful use of poetic devices, Hafiz's verse is deeply steeped in the philosophy and symbolism of Persian love mysticism. This innovative volume discusses the aesthetic theories and mystical philosophy of the classical Persian love-lyric (ghazal) as particularly exemplified by Hafiz (who, along with Rumi and Sa'di, is Persia's most celebrated poet). For the first time in western literature, Hafiz's rhetoric of romance is situated within the broader context of what scholars refer to as 'Love Theory' in Arabic and Persian poetry in particular and Islamic literature more generally. Contributors from both the West and Iran conduct a major investigation of the love lyrics of Hafiz and of what they signified to that high culture and civilization which was devoted to the School of Love in medieval Persia. The volume will have strong appeal to scholars of the Middle East, medieval Islamic literature, and the history and culture of Iran.
