*The Post-Mortem Vindication of Jesus in the Sayings Gospel Q* Daniel A. Smith.2007-01-06 Q 13:34-35, the Jerusalem Logion, aligns the rejection of the speaker by Jerusalem both with the abandonment of Jerusalem's house and with the future invisibility and return of the speaker: 'You will not see me until you say, Blessed is the Coming One in the name of the Lord' (13:35b). The coincidence of not seeing language with a reference to a future coming is reminiscent of the connection, in Jewish literature especially, between the assumption and eschatological function. The book proposes that this reference to Jesus' assumption is a clue to how Q conceives of the post-mortem vindication of Jesus, since numerous Q sayings presuppose a knowledge of Jesus' death. In support of this, the book argues that in Hellenistic Jewish writings assumption was not always considered to be an escape from death (as in the biblical instances of Enoch and Elijah), but could happen at or after death, as was more clearly the case in Greek thought. Such a strategy of vindication is necessary for Q because it evidences a belief in Jesus' ongoing existence and future return as the Son of Man, and because resurrection though a feature of Q's eschatology is not individually applied to Jesus. A similar view is presupposed by the pre-Markan empty tomb tradition, which describes the disappearance of Jesus' body but narrates neither the resurrection itself nor an appearance of the risen Jesus. The book also draws out implications of the thesis for the place of the Sayings Gospel Q within the early Christian movements, particularly vis-vis the vindication of Jesus.

**Rome Eternal** Guy Lanoue.2017-07-05 What does 'Roman' mean? How does the mythical city touch people's identities, values and attitudes? In the long-established and official imaginary of the West, Rome is the citta dell'arte, the city of faith, an heirloom city inspired by the traces of ancient Empire, by the brooding aura of the Church, by Hollywood fairy-tale romance, and by the spicy tang of veiled decadence. But what of its contemporary residents? Are they now merely guides and waiters servicing throngs of tourists indifferent to the city's contemporary charms? Guy Lanoue, a former resident of Rome, explores how Romans live the modern myth of Rome Eternal. Since the 19th century, it has defined an important community, the fatherland, a home-spun society where the rules of everyday life become 'tradition': ways of eating, dressing, making and keeping friends and acquaintances, 'proper' ways of speaking and a hard to define but nonetheless tangible air of composure. Guy Lanoue is a Professor of Anthropology at the Universite de Montreal.

**Africa from the Sixteenth to the Eighteenth Century** Bethwell A. Ogot.1992 The result of years of work by scholars from all over the world, The UNESCO General History of Africa reflects how the different peoples of Africa view their civilizations and shows the historical relationships between the various parts of the continent. Historical connections with other continents demonstrate Africa's contribution to the development of human civilization. Each volume is lavishly illustrated and contains a comprehensive bibliography. This fifth volume of the acclaimed series covers the history of the continent from the beginning of the sixteenth century to the close of the eighteenth century in which two themes emerge: first, the continuing internal evolution of the states and cultures of Africa during this period second, the increasing involvement of Africa in external trade--with major but unforeseen consequences for the whole world. In North Africa, we see the Ottomans conquer Egypt. South of the Sahara, some of the

larger, older states collapse, and new power bases emerge. Traditional religions continue to coexist with both Christianity (suffering setbacks) and Islam (in the ascendancy). Along the coast, particularly of West Africa, Europeans establish a trading network which, with the development of New World plantation agriculture, becomes the focus of the international slave trade. The immediate consequences of this trade for Africa are explored, and it is argued that the long-term global consequences include the foundation of the present world-economy with all its built-in inequalities.

**Achtung-Panzer!** Heinz Guderian.1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

**The Sayings Gospel Q in Greek and English** James McConkey Robinson.2001 The Sayings Gospel Q in Greek and English with Parallels from the Gospels of Mark and Thomas is the outcome of a generation's work by the International Q Project, in reconstructing the collection of sayings ascribed to Jesus (and some to John) that lies behind the Gospels of Matthew and Luke. It thus makes available in a convenient form the most important source for reconstructing the message of Jesus' original Galilean followers, as they proclaimed anew after his death his message of God's reign. Q is, as a result, the most important single source for the study of the historical Jesus. It should be in the hands of every student of theology and of every layperson seriously interested in knowing more about Jesus. This small volume presents, on facing pages, the Greek and English reconstruction of the text of Q. It is in a simplified and more readable format than its original massive publication of 1990, *The Critical Edition of Q: Synopsis including the*

Gospels of Matthew and Luke, Mark and Thomas with English, German and French Translations of Q and Thomas, edited by James M. Robinson, Paul Hoffmann, and John S. Kloppenborg, Managing Editor Milton C. Moreland, at Peeters and Fortress Press.

**Copepods in Aquaculture** Cheng-Sheng Lee,Patricia J. O'Bryen,Nancy H. Marcus.2008-02-15 The importance of copepods in aquaculture has long been recognized, especially in the larval rearing of many marine fishes. This timely publication provides a single source of information on copepod biology, culture methods and practical use in marine finfish hatcheries. Originating out of a workshop held on copepods by the Oceanic Institute in Hawaii, this proceedings includes review articles and papers presented by leading international experts in copepod biology and aquaculture. It is a seminal work that integrates the most up-to-date information on selecting copepod species, effects of algal species on reproduction, ways to increase production, the nutritional value of copepods, behavioral characteristics of copepods, potential use of copepod nauplii and eggs, and their application to larval rearing of various marine finfish species.

*Censorship in Canadian Literature* Mark Cohen.2001-10-09 Cohen critiques Timothy Findley's broad anti-censorship position; he traces Margaret Atwood's evolution from implicit support for the censorship of pornography in *Bodily Harm* to the rejection of censorship in *The Handmaid's Tale*; and he provides the first detailed study of the draft of Margaret Laurence's unfinished novel, showing the degree to which her final silence was a result of her censorship ordeal. Finally, an analysis of the writing of Beatrice Culleton and Marlene Nourbese Philip shows how different kinds of socio-cultural censorship - from gate-keepers to self-censorship - silence Native and black Canadian voices. Cohen's re-definition of censorship as essentially a practice of judgment takes us beyond the traditional Enlightenment delineation of censorship as an oppressive government practice and the consequent neutralist liberal condemnation of censorship on principle. Since judgment is enmeshed in the fabric of human endeavour, censorship is inevitable; since censorship is inevitable, Cohen concludes, debate over whether censorship itself is desirable should give way to a search for censorship practices that are more just. *Censorship in Canadian Literature* is an essential text for scholars of Canadian literature as well as for anyone concerned with contemporary debates about censorship and civil rights.

**On the Move** Mark Breusers.1999 This book analyses the complex interplay between livelihood practices in northern Burkina Faso and diverse processes of geographic mobility, among which massive migration by Moose to the south and west of the country and to the Ivory Coast. Supported by extensive ethnographic data it is demonstrated how the flexibility of land tenure arrangements allows for and is fuelled by actors geographic mobility, how the meaning of migration and the way it is embedded in social organization changed over the last century, and how differential accumulation of cattle by migrants strains relations among Moose farmers and complicates the latter relations with Fulbe herdsmen.

Earthrise Robert Poole,Robert K. Poole.2008 Earthrise tells the remarkable story of the first photographs of Earth from space and the totally unexpected impact of those images. The Apollo "Earthrise" and "Blue Marble" photographs were beamed across the world some forty years ago. They had an astounding effect, Robert Poole explains, and in fact transformed thinking about the Earth and its environment in a way that echoed throughout religion, culture, and science. Gazing upon our whole planet for the first time, we saw ourselves and our place in the universe with new clarity. Poole delves into new areas of research and looks at familiar history from fresh perspectives. With intriguing anecdotes and wonderful pictures, he examines afresh the politics of the Apollo missions, the challenges of whole Earth photography, and the story of the behind-the-scenes

struggles to get photographs of the Earth put into mission plans. He traces the history of imagined visions of Earth from space and explores what happened when imagination met reality. The photographs of Earth represented a turning point, Poole contends. In their wake, Earth Day was inaugurated, the environmental movement took off, and the first space age ended. People turned their focus back toward Earth, toward the precious and fragile planet we call home.
