**Facilitating Global Collaboration and Knowledge Sharing in Higher Education With Generative AI** Yu, Poshan, Mulli, James, Syed, Zain Ali Shah, Umme, Laila. 2023-12-29 Chatbots powered by artificial intelligence (AI) have captivated the academic world as tools for human-like interaction across various settings. Within the realm of education, AI-powered chatbots, such as ChatGPT, hold the potential to revolutionize teaching, learning, and research processes. By simulating human conversation through vast data and machine learning algorithms, generative AI has unveiled new opportunities for personalized and adaptive learning experiences. *Facilitating Global Collaboration and Knowledge Sharing in Higher Education With Generative AI* delves into the promising prospects and challenges of applying generative AI in education while employing a critical interdisciplinary perspective. The book offers comprehensive insights into the transformative effects of generative AI on teaching, learning, and research. However, the application of generative AI in education also brings ethical, pedagogical, and technical challenges to the forefront. Concerns over privacy, data protection, and the impact of automation on human interaction and creativity demand thorough examination and practical solutions. Intended for educators, researchers, and administrators in higher education institutions, as well as policymakers and industry professionals at the intersection of AI and higher education. The book encompasses a wide range of themes, including the impact of AI-generated content on student engagement and performance in online learning environments, ethical implications of automating education through AI-powered chatbots, personalization of learning experiences for diverse student populations, and the challenges of integrating generative AI into traditional classroom settings.

**Undernutrition and Public Policy in India** Sonalde Desai, Lawrence Haddad, Deepta Chopra, Amit Thorat. 2015-12-14 Despite substantial economic growth, India has one of the highest undernutrition rates in the world; it is home to almost 40 per cent of the world's stunted children. This volume assesses the status and causes of undernutrition in the country, and examines the effectiveness of policies designed to address undernutrition. The essays tackle wide-ranging themes and challenging issues including nutrition; water, sanitation and hygiene (WASH); maternal, neonatal and child health; Integrated Child Development Services (ICDS); Public Distribution System (PDS); crop procurement; and National Food Security Act 2013. With contributions from leading academic researchers, policymakers, as well as civil society representatives, this volume will be indispensable to scholars, teachers and students of public policy, development economics, development sociology, and Indian economy. It will also be useful to government institutions, think tanks and NGOs.

**Administration in India** Ashish Kumar Srivastava, Iva Ashish Srivastava. 2023-11-24 This book offers a comprehensive analysis of the administration in India from independence to date. It examines the major transformation in the administrative service initiated by the 'Minimum Government and Maximum Governance' initiative of the Government of India in 2014. In spite of enormous diversity and population, India has made remarkable progress in various fields such as health, education, infrastructure, and technology. Structured in three parts, (1) social sector, (2) infrastructure and economy, and (3) e-governance and service delivery, the book examines challenges of governance and provides insight into different innovations undertaken to address these challenges. E-governance lies at the core of this transformation of accountability, transparency, and time-bound service delivery. Contributions in this book are written by experts working in the Indian Administrative Service (IAS), academia, and the private sector and cover a wide spectrum of administration from the point of view of different departments of government, as well as the experiences of the authors ranging from senior bureaucrats to mid-career officers and analyses of researchers on administration and its challenges. The initiatives covered in this book can serve as solutions to similar challenges faced by other developing countries in the world. The book will be of interest to researchers in the fields of administration and policy, civil service, public management, South Asian politics, and Development Studies.

**Intelligent Computing in Control and Communication** G.T. Chandra Sekhar, H. S. Behera, Janmenjoy Nayak, Bighnaraj Naik, Danilo Pelusi. 2021-01-04 This book consists of peer-reviewed papers presented at the First International Conference on Intelligent Computing in Control and Communication (ICCC 2020). It comprises interesting topics in the field of applications of control engineering, communication and computing technology. As the current world is witnessing the use of various intelligent techniques for their independent problem solving, so this book may have a wide importance for all range of researchers and scholars. The book serves as a reference for researchers, professionals and students from across electrical, electronic and computer engineering disciplines.

**Clinical Protocols in Perinatology** Ashish Jain, Ballambattu Vishnu Bhat. 2022-02-27 This textbook is a comprehensive guide to perinatology for trainees in obstetrics, trainees in paediatrics, and neonatal nurses. Divided into seven sections, the book covers foetal wellbeing, foetal disorders, maternal illness and effects on the foetus, obstetric conditions and effects on the foetus or newborn, congenital infections, and delivery room management. The final section discusses foetal death and still birth, and placental examination. Each section is further divided into various chapters covering different topics relevant to that section. Each chapter is presented in a structured manner, with objectives clearly outlined, a concluding summary, and extensive references. Topics are covered from a multidisciplinary approach, drawing on expertise from both obstetricians and neonatologists. The book includes online access to video lectures, notes and self assessment.

**Electoral Politics in India** Suhas Palshikar, Sanjay Kumar, Sanjay Lodha. 2017-02-03 The general elections held in 2014 in India — the largest democracy in the world — to elect the 16th Lok Sabha brought in dramatic results. This important volume explains not only the startling victory of the Bharatiya Janata Party (BJP) but also the equally surprising downfall of the Congress Party. It examines not why BJP won and the Congress lost, but why the scale of BJP's victory and that of Congress's defeat was so very different from the results in the years 2004 and 2009. The volume presents an in-depth analysis of the electoral results, state-wise studies, the factors leading up to these outcomes, and the road India has travelled since then. With contributions from India's leading political scientists, psephologists, sociologists and political commentators, this book will be of great interest to scholars and researchers of Indian politics, democracy and political parties, as well as South Asian studies.

**ICT in Education in Global Context** Ronghuai Huang, Kinshuk, Jon K. Price. 2014-07-30 This book presents the current advances and emerging trends in digital technologies for learning and education through a number of invited chapters on key research areas. It addresses information and communications technology (ICT) in a global context, reporting on emerging trends and issues in four areas - basic education, technical and vocational education, distance and continuing education and higher education -, as these four areas represent the primary contexts in which ICT is used to support learning and instruction. This book provides a brief overview of the potential benefits of ICT used in education and some of the best approaches in which different ICTs have been used in education thus far in a global context. It also presents the expertise and the most current research and practices of recognized international educators and researchers in the field of ICT in education. Third, this volume is both informative and transformative in its coverage of the conceptual and practical impact of technology on current educational practices, making it a valuable resource for policymakers, educators and educational researchers around the globe.

**Human-Centered System Design for Electronic Governance** Saeed, Saqib, Reddick, Christopher G. 2013-03-31 As e-government policies and procedures become widely practiced and implemented, it is apparent that the

success of technology in e-government hangs on its consistency with human practices. Human-Centered System Design for Electronic Governance provides special attention to the most successful practices for implementing e-government technologies. This highly regarded publication highlights the benefits of well designed systems in this field, while investigating the implications of poor practices and designs. This book is beneficial for academics, researchers, government officials, and graduate students interested and involved in design of information systems within the context of e-government.

**PERSONALITIES OF ODISHA** A P Subhakanta Samal.2022-01-14 Reading stories of successful people can leave an indelible impression on the people and their lives. From their struggles to their passion and achieving great reputation, there is an endless number of things that you can actually learn from such personalities. Keeping that in mind, we have formulated a list of twenty one great personalities from Odisha who not only excelled in their careers but also gave the power to dream to million of others.

*CONTEMPORARY ISSUES IN MULTIDISCIPLINARY SUBJECTS: VOLUME-1* Sruthi. S,Dr. Shalini Jiwan Chahande,Shantaram Baban Bhoje,Prof. R. Anita,Dr. Shalini Chaturvedi,Dr. Satyendra Nath,Dr. Umesh D. Laddha,Bhagyashree M S,S.R.K. Rao.

**Arbuscular Mycorrhizal Fungi** Periyasamy Panneerselvam,Pradeep Kumar Das Mohapatra,Amaresh Kumar Nayak,Debasis Mitra,Kulandaivelu Velmourougane,Sergio De Los Santos-Villalobos.2023-07-31 Arbuscular mycorrhizal fungi (AMF) are considered enormously important in contemporary agriculture and horticulture due to their important role in nutrient, biotic and abiotic stress management apart from enhancing plant health and soil fertility. AMF is one of the important fungi for soil aggregation, which helps in drought management. Hence this book brings out an exclusive text on AMF for sustainable rice production. It provides comprehensive up-to-date knowledge on AMF in rice cultivation, and for sustainable rice production in different ecologies without damaging the environment. Salient Features: 1. Covers all the aspects of AMF in rice cultivation from diversity to applications 2. Documents AMF diversity based on metagenomic approach in rice ecosystems 3. Explains the importance of AMF in soil aggregation, which helps in drought management 4. Provides new unraveling knowledge about AMF for sustainable rice production in different ecologies without damaging the environment 5. Discusses the AMF role in induction of resistance in rice plants against some pests.

*Comparative Research in Adult Education* Lisa Breitschwerdt,Jörg Schwarz,Sabine Schmidt-Lauff.2023-06-22 The volume presents research that emerges from the 9th international Adult Education Academy (2022), which brings together researchers, students and practitioners from around the world to share perspectives comparatively. More than 80 participants from almost 20 different countries have exchanged, compared and expanded their individual knowledge and experience on adult learning and education. This volume consisting of eight contributions (including one fundamental article beforehand) assumes that globalisation affects national, regional and local levels of adult learning and education. Transformational relations are observed and analysed through the lens of participation, sustainability and digitalisation. All contributions apply an international comparative research approach to empirically investigate these areas with their upcoming needs. This approach takes place under consideration of comparison as a research method which not only grounds on a long tradition and relies on a set of rules and techniques, but also on an inner attitude and sensitivity with which we look at the world and its global needs while trying to understand.

**Social Inclusion and Education in India** Ghanshyam Shah,Joseph Bara.2020-05-27 This book examines social inclusion in the education sector in India for scheduled tribes (ST), denotified tribes and nomadic tribes. It investigates the gaps between what was promised to the marginalized sections in the constitution, and what has since been delivered. The volume: • Examines data from across the Indian states on ST and non-ST students in higher, primary and secondary education; • Analyses the success and failures of education policy at the central and state level; • Brings to the fore colonial roots of social exclusion in education. A major study, the volume will be of great interest to scholars and researchers of education, sociology and social anthropology, development studies and South Asian studies.

*Financing of Higher Education* N.V. Varghese,Jinusha Panigrahi.2023-01-24 This book reviews and analyses higher education financing and explores the innovative ways by both public higher education and private higher education institutes in the context of globalization, with India, Russia and Tanzania as a case study. It examines the diverse policy discourses which greatly influence the higher education systems based on evidence-based research. This book is arranged into four major themes. Part 1 deals with the various possible modes of financing of higher education, such as the credit market and voucher system. Part 2 deals with strategies to mobilize the resources. Part 3 deals with innovative and sustainable approaches to financing private higher education institutions. Part 4 discusses the policies and limitations with external financing of higher education. It is an interesting collection of various themes in different chapters by serious researchers. It is an excellent read for students, educators and policymakers interested in alternative and innovative practices in higher education financing. It is a highly informative book for researchers providing insights on how social and political dynamics impact higher education financing.

**Secondary Education in Modern India (1800 - 2022)** Dr V.B. Shastry.2023-03-24 Secondary Education in Modern India (1800 - 2022) is a rare treatise of educational research, based on authentic primary data collected directly from archives. It spans two centuries and two decades of development of Secondary Education in India - from its faint faltering beginnings to the nationwide obsession with it today. It covers the gradual evolution of secondary education in India, presenting in detail the changing policies and programs, reports of different National Education Commissions, and the structural changes over a vast time frame. It is an invaluable reference book for students of education and those engaged in researching the development of education in India.

**Changing World Economic Order in the Post-Pandemic Period** Mahapatra, Sushanta Kumar,Sarin, Vishal.2023-06-02 Post COVID-19, the world will never be the same. The pandemic not only shattered many assumptions about economic developments and growth, but it also challenged our preparedness to face any unpredictable challenge as a human civilization in an era where science and technology is at its peak. To suppress the spread of COVID-19, many countries resorted to partial or full closure of their borders and restricted the movement of people. Mandatory quarantine restricted labor mobility and workplace closure, which later converted into supply shocks in the economy, as these measures impaired the economy's production capacity, disrupting supplies. This later spilled over to the demand side as people were locked down in their homes and workers were laid off and lost income. This disruption posed many new challenges for policymakers to formulate appropriate macroeconomic policy responses and also provided them the opportunity to ponder upon the preparedness of countries in terms of health facilities, appropriately compensating human resources, how to cushion immediate and severe economic shocks, and how to maintain the livelihood of the society as a whole. Changing World Economic Order in the Post-Pandemic Period provides scientific knowledge of the current economic scenarios across the globe with a comprehensive overview of the pandemic and regional initiatives, trends of trade and development, and approaches to overcome obstacles of globalization and the impacts on global trade and economic development in light of the pandemic. The chapters present tangible solutions and attainable perspectives for fighting a battle against the pandemic while keeping the morale of the people and economy high. Highlighted topics include post-pandemic economic development, public policy in emergency situations, socio-economic impacts on enterprises, risk governance, and impacts of COVID-19. This book is ideally intended for university students, researchers, policymakers, economic actors, economists, practitioners, stakeholders, government officials, academicians, and anyone interested in the impact of a pandemic on the global economy and how to deal with such issues in the future.

**PEACE EDUCATION** Dr. Bimal Charan Swain & Dr. Rajalakshmi Das.2020-07-01 The growing literature on Peace Education reflects a dynamic field. Since the early decades of the 20th century, "Peace Education" programmes around the world have represented a number of focal themes, including anti-nuclearism, environmental responsibility, international understanding, communication skills, non-violence, human right awareness, democracy, conflict resolution techniques, tolerance of diversity, co-existence and gender equality among others. Peace Education includes cultivation of peacebuilding skills, e.g. dialogue, mediation, artistic

endeavors. Peace educators, then teach the value of respect, understanding and nonviolence, present skills for analyzing international conflict, educate for alternative security systems and use a pedagogy that is democratic and particular. Thus, peace education as a practice and philosophy refers to matching complementary element between education and society, where the social purpose (i.e. why teach), educative process are conducive to fostering peace. Accordingly, peace education is dialogical experience conducted through participatory learning, where learners communally and co-operatively grapple with contemporary issues (i.e., talking points) related to local and global contexts (Akaamaa, 2013).

*Higher Education In India* Dr. Venkata Rao Edara. With one of the youngest population in the world, India is considered a world leader of the next generation. There are many industries in which India is at the forefront including Information Technology, Media, IT enabled services, Outsourcing, Telecommunication et al. But is the Indian education system ready to fuel the next wave of global leaders by providing them the right knowledge, adequate infrastructure and exemplary skills required to succeed? In this ground-breaking book, Dr. Venkata Rao Edara, a global champion in education aims to decode the India Higher Education system and offer an in-depth overview of the sector. In this book you will see Dr. Edara masterly analysing everything from the general setup of the education sector in India and the trends being witnessed in the industry, to the potential of India becoming a higher education powerhouse. His research on the higher education sector in various countries such as USA, China, Russia, South Korea & South Africa and its further comparison with India makes this book aptly positioned to lead the much required positive change which this sector needs. An educationist for 24 years, Dr. Edara displays rare insight and professional prowess while dealing with the issues plaguing the current education sector in the country and provides a skilful understanding of the way forward. This book is a must read for students, academicians, policy makers and professionals looking to make a mark in the education sector.

**Environmental Micropollutants** Muhammad Zaffar Hashmi, Shuhong Wang, Zulkifil Ahmed. 2022-04-08 Environmental Micropollutants, the latest volume in the Advances in Environmental Pollution Research series, presents the latest research on various environmental micropollutants, as well as their impacts on health and the economy, also addressing the best possible solutions to address the risks presented by these pollutants. The book covers solutions for dusts, infectious particles, heavy metals, organophosphates, atmospheric toxic organic micropollutants, fungal spores, pollutants from E-waste, and antibiotics threats, providing researchers working in environmental science and management with key knowledge to address this increasingly important concern. These types of micropollutants can be present in water, air and soil and can harm health even in low quantities, hence this book covers the challenges these pollutants pose to the environment and human health, presenting practical solutions. Identifies key micropollutants in the environment and examines their impacts on human health and the economy Presents methods and treatment technologies for addressing the problem of micropollutants Offers the latest research on a variety of micropollutants and the best solutions for each

Real-Life Applications of the Internet of Things Monika Mangla, Ashok Kumar, Vaishali Mehta, Megha Bhushan, Sachi Nandan Mohanty. 2022-08-01 This new volume provides an overview of the Internet of Things along with its architectures, its vital technologies, and their uses in our daily life. The book explores the integration of IoT with other emerging technologies, such as blockchain and cloud. Topics in the volume cover the many powerful features and applications of IoT, such as for weather forecasting, in agriculture, in medical science, in surveillance systems, and much more. The first section of the book covers many of the issues and challenges that arise from the Internet of Things (IoT), exploring security challenges, such as attack detection and prevention systems, as well as energy efficiency and resource management in IoT. The volume also introduces the use of IoT and smart technology in agricultural management, in healthcare diagnosis and monitoring, and in the financial industry. Chapters also focus on surveillance network technology, the technology shift from television to video streaming apps, using IoT-fog computing for smart healthcare, detection of anomalies in climate conditions, and even detection of illegal wood logging activity.

Language Education in a Changing World Rod Bolitho, Richard Rossner. 2020-03-04 This book considers the importance of language education in a rapidly changing world. The authors look at language education from different perspectives: the teaching and learning of foreign or second languages; the role of literacy, oracy and language across the curriculum; the part played by different stakeholders in educational policy; and the current state of language teacher education and the ways in which language is addressed in the education of teachers of all subjects. Drawing on their extensive experience of language education, and on case studies and data from around the world, the authors consider how a different approach to language in education might help students to develop the language awareness and linguistic and communicative competences they need in order to participate fully and confidently in our increasingly diverse societies.

It has firmly established itself as a trusted source for expert guidance, featuring contributions from esteemed mental health professionals in India.

*Digital Divide in Higher Education System in Odisha* Tarun Shyam. 2023-02-13 Doctoral Thesis / Dissertation from the year 2022 in the subject Pedagogy - School System, Educational and School Politics, , language: English, abstract: The perceived difference between those who have access to the newest information technology and those who do not is referred to as the digital divide. The digital divide is commonly measured by means of computer ownership and internet access. The two groups of people on opposite sides of the split are referred to as haves, or information rich, or have-nots, or information poor, respectively, in literature. In the knowledge economy, the former has the most powerful computers and has the finest internet access to strong streams of continuous information, whereas the latter does not. In today's society, information is a development resource, and the lack of trustworthy information is the heart of underdevelopment. In today's society, information is a development resource, and the lack of reliable information is the essence of underdevelopment. Information is essential for societal advancements in education, culture, science, and technology, as well as individual personal and professional development. Apart from greater internet access, there has been an upsurge in web-based educational programs, which have received mixed reviews. The rise of digital libraries merely adds to the problem (also called electronic or virtual libraries). Web-based

education is linked to constructivist learning environments, which are technology-driven environments in which students can contribute something meaningful and useful. Technologies provide students with the ability to explore, experiment, construct, and reflect on their work so that they can learn from it. The use of information resources is important in this method, as it is in many other models, including collaborative learning models. The effective use of information and resources has become increasingly important in academic life, in addition to the workplace and daily life. All of these are susceptible to the digital divide.

**Affine Arithmetic Based Solution of Uncertain Static and Dynamic Problems** Snehashish Chakraverty, Saudamini Rout. 2022-05-31 Uncertainty is an inseparable component of almost every measurement and occurrence when dealing with real-world problems. Finding solutions to real-life problems in an uncertain environment is a difficult and challenging task. As such, this book addresses the solution of uncertain static and dynamic problems based on affine arithmetic approaches. Affine arithmetic is one of the recent developments designed to handle such uncertainties in a different manner which may be useful for overcoming the dependency problem and may compute better enclosures of the solutions. Further, uncertain static and dynamic problems turn into interval and/or fuzzy linear/nonlinear systems of equations and eigenvalue problems, respectively. Accordingly, this book includes newly developed efficient methods to handle the said problems based on the affine and interval/fuzzy approach. Various illustrative examples concerning static and dynamic problems of structures have been investigated in order to show the reliability and efficacy of the developed approaches.

**Big Data Analytics and Computing for Digital Forensic Investigations** Suneeta Satpathy, Sachi Nandan Mohanty. 2020-03-17 Digital forensics has recently gained a notable development and become the most demanding area in today's information security requirement. This book investigates the areas of digital forensics, digital investigation and data analysis procedures as they apply to computer fraud and cybercrime, with the main objective of describing a variety of digital crimes and retrieving potential digital evidence. Big Data Analytics and Computing for Digital Forensic Investigations gives a contemporary view on the problems of information security. It presents the idea that protective mechanisms and software must be integrated along with forensic capabilities into existing forensic software using big data computing tools and techniques. Features Describes trends of digital forensics served for big data and the challenges of evidence acquisition Enables digital forensic investigators and law enforcement agencies to enhance their digital investigation capabilities with the application of data science analytics, algorithms and fusion technique This book is focused on helping professionals as well as researchers to get ready with next-generation security systems to mount the rising challenges of computer fraud and cybercrimes as well as with digital forensic investigations. Dr Suneeta Satpathy has more than ten years of teaching experience in different subjects of the Computer Science and Engineering discipline. She is currently working as an associate professor in the Department of Computer Science and Engineering, College of Bhubaneswar, affiliated with Biju Patnaik University and Technology, Odisha. Her research interests include computer forensics, cybersecurity, data fusion, data mining, big data analysis and decision mining. Dr Sachi Nandan Mohanty is an associate professor in the Department of Computer Science and Engineering at ICFAI Tech, ICFAI Foundation for Higher Education, Hyderabad, India. His research interests include data mining, big data analysis, cognitive science, fuzzy decision-making, brain-computer interface, cognition and computational intelligence.

**Modeling and Applications in Operations Research** Jyotiranjana Nayak, Shreekant Varshney, Chandra Shekhar. 2023-11-29 The text envisages novel optimization methods that significantly impact real-life problems, starting from inventory control to economic decision-making. It discusses topics such as inventory control, queueing models, timetable scheduling, fuzzy optimization, and the Knapsack problem. The book's content encompasses the following key aspects: Presents a new model based on an unreliable server, wherein the convergence analysis is done using nature-inspired algorithms Discusses the optimization techniques used in transportation problems, timetable problems, and optimal/dynamic pricing in inventory control Highlights single and multi-objective optimization problems using pentagonal fuzzy numbers Illustrates profit maximization inventory model for non-instantaneous deteriorating items with imprecise costs Showcases nature-inspired algorithms such as particle swarm optimization, genetic algorithm, bat algorithm, and cuckoo search algorithm The text covers multi-disciplinary real-time problems such as fuzzy optimization of transportation problems, inventory control with dynamic pricing, timetable problem with ant colony optimization, knapsack problem, queueing modeling using the nature-inspired algorithm, and multi-objective fuzzy linear programming. It showcases a comparative analysis for studying various combinations of system design parameters and default cost elements. It will serve as an ideal reference text for graduate students and academic researchers in the fields of industrial engineering, manufacturing engineering, production engineering, mechanical engineering, and mathematics.

**Role of Green Chemistry in Ecosystem Restoration to Achieve Environmental Sustainability** Arun Lal Srivastav, Ajmer Singh Grewal, Markandeya Tiwari, Tien Duc Pham. 2023-11-24 Role of Green Chemistry in Ecosystem Restoration to Achieve Environmental Sustainability deals with current challenges of environmental problems along with the approaches of environmental sustainability in alliance with green chemistry. The book shows how to lessen the impact on the environment by maintaining a balance between society, the environment, and the economy, all of which are regarded as fundamental pillars of sustainability. Furthermore, policymakers and scholars will gain insights into how to develop and explore innovative techniques for achieving sustainable development goals. This book is unique in the field of environmental sustainability, as it is based on green chemistry concepts. Addresses root causes of prominent environmental problems, including environmental management, water sustainability and agricultural sustainability Discusses recent knowledge about the concepts of environmental sustainability Highlights various approaches of green chemistry to achieve sustainable development goals

**31st Annual Conference of Orissa Chemical Society and National Seminar on Recent Developments and Applications of Functional Materials** Dr. Susanta Kumar Biswal. 2017-12-23 The 31st Annual Conference of Orissa Chemical Society and National Seminar on Recent Developments and Applications of Functional Materials is the field of Science which forms the basic layer for each and every field of research. The innovative products of chemistry lead to cutting edge advancements and applied Technology. The recent techniques and challenges in the advanced areas of the Chemical Sciences through this conference will provide a platform to the Young Scientists, researchers, faculties and students to refresh their enthusiasm and create an interest to contribute more to the advancements of the society through their innovative research. The aim of this platform is to facilitate easy communication among Orissa Chemical Society members and also provide an opportunity to reconnect.

**Emotion and Information Processing** Sachi Nandan Mohanty. 2020-10-21 This book consists of thirteen chapters covering many facts like psycho-social intervention on emotional disorders in individuals, impact of emotion and cognition on blended theory, theory and implication of information processing, effects of emotional self esteem in women, emotional dimension of women in workplace, effects of mental thinking in different age groups irrespective of the gender, negative emotions and its effect on information processing, role of emotions in education and lastly emotional analysis in multi perspective domain adopting machine learning approach. Most of the chapters having experimental studies, with each experiment having different constructs as well as different samples for each data collection. Most of the studies measure information processing within altered mood states, such as depression, anxiety, or positive emotional states, with mental ability tasks being conducted in addition to the experiments of quasi-experimental design.
