Cold War in the Islamic World Dilip Hiro.2019-02-01 For four decades Saudi Arabia and Iran have vied for influence in the Muslim world. At the heart of this ongoing Cold War between Riyadh and Tehran lie the Sunni-Shia divide, and the two countries' intertwined histories. Saudis see this as a conflict between Sunni and Shia; Iran's ruling clerics view it as one between their own Islamic Republic and an illegitimate monarchy. This foundational schism has played out in a geopolitical competition for dominance in the region: Iran has expanded its influence in Syria, Iraq and Lebanon, while Saudi Arabia's hyperactive crown prince, Muhammad bin Salman, has intervened in Yemen, isolated Qatar and destabilized Lebanon. Dilip Hiro examines the toxic rivalry between the two countries, tracing its roots and asking whether this Islamic Cold War is likely to end any time soon.

The Report: Dubai 2015 Oxford Business Group.2011-01-12 Already a regional and global centre for business and finance, Dubai's reputation has been bolstered by the MSCI's decision to upgrade the UAE from frontier to emerging market status in 2014, while the emirate's successful Expo 2020 bid is expected to generate myriad opportunities for private investors across a range of sectors. Construction is thriving once again, driven in large part by strong retail sector growth, with various projects, including plans for the world's largest mall, indicating that the sector will maintain its position as the emirate's biggest GDP contributor moving forward. The transport and logistics framework is set for major expansion in the coming years as well, furthering cementing the emirate's status as a leading transport and logistics hub not just regionally, but globally too. The continued development of Dubai's retail and hospitality offerings, alongside the upgrades to its airports, should help to ensure robust growth in visitor numbers from both the region and further afield.

Benefiting from Basic Education, School Quality and Functional Literacy in Kenya T. O. Eisemon.2014-06-28 Studies of the retention of literacy and numeracy by adults who have only obtained primary schooling have given little encouragement to the belief that the cognitive effects of schooling are enduring for many school leavers. How these findings can be reconciled with the claims made for the importance of schooling as an instrument of social and economic change is the subject of investigation in this volume. The cognitive outcomes of literacy acquisition and secular schools in coastal Kenya are the focus of this ethnographic study, which stresses the relevance of an international understanding of the particular problems and dilemmas that face the educational systems of individual countries.

Global Dynamics of Shi'a Marriages Yafa Shanneik,Annelies Moors.2021-10-15 Muslim marriages have been the focus of considerable public debate in Europe and beyond, in Muslim-majority countries as well as in settings where Muslims are a minority. Most academic work has focused on how the majority Sunni Muslims conclude marriages. This volume, in contrast, focuses on Twelver Shi'a Muslims in Iran, Pakistan, Oman, Indonesia, Norway, and the Netherlands. The volume makes an original contribution to understanding the global dynamics of Shi'a marriage practices in a wide range of contexts--not only its geographical spread but also by providing a critical analysis of the socio-economic, religious, ethnic, and political discourses of each context. The book sheds light on new marriage forms presented through a bottom up approach focusing on the lived experiences of Shi'a Muslims negotiating a diverse range of relationships and forms of belonging.

Hadhramaut and its Diaspora Noel Brehony.2017-06-30 The Hadhramis of Yemen have migrated for centuries in large numbers, establishing a diaspora that extends around the Indian Ocean, Saudi Arabia and the other Gulf States. This migration has deeply affected the host countries as well as Hadhramaut itself. Yet the region has not been able to use its population size, capabilities or resources to wield significant political influence in successive Yemeni regimes. This book examines the people of the Hadhrami diaspora, who travelled as religious scholars, traders, labourers and soldiers, to understand their enduring influence and identity. In doing so, the book explores key aspects of their history, including the impact of Yemeni nationalist movements, the significance of land reforms, the importance of social and tribal origins and how the Hadhrami resisted European domination as a Muslim community. Although a distinctive part of geographical Yemen, Hadhramaut was not regarded as a Yemeni political entity until the twentieth century.This research asks if the recent turmoil in Yemen following the Arab Spring, the growth of Al-Qa'ida and ISIS, and war involving a coalition led by Saudi Arabia, will produce even greater instability in the region or perhaps lead to a united Yemen, a restored South Yemen or even to Hadhramaut as an independent state.

My Creature, My Love Alfredo R. Sandoval.2014-06-15 *My Creature, My Love* begins with a young girl's admiration and deep unrelenting reverence for a serpent she sees close to the foot of a cross on a mountaintop. An unnatural and consecrated attraction and adoration to a skillfully prepared stuffed rattlesnake she insisted her father buy for her in an antique shop in Albuquerque, New Mexico provides a morbid and suspenseful setting for this story. A bizarre and lurid companionship exists between the girl and the reptile. This communal love and veneration relationship is a very

strong weapon she uses on anybody to have her own way, especially to hold her widowed father's love for herself and nobody else. Unlike the current-day portrayal of horror in movies and other media, *My Creature, My Love* conveys a suspenseful illustration of bestiality and the power it has when used to serve the willful desires of the main character.

The Arab Lobby and the US Dania Koleilat Khatib.2015-10-23 All the components needed to construct an Arab lobby exist; the significant Arab Diaspora in the US, the historic strategic relationship between Arab Gulf States and the US, and the Gulf's economic wealth. However, lobbying is alien to Arab culture and largely absent from its political landscape. To achieve a fair and objective assessment of Arab Gulf lobbying it is necessary to have a thorough understanding of the prevailing Arab Gulf political culture that shapes it. *The Arab Lobby and the US* provides a timely contribution to this understanding. Studying attempts by Arab Gulf states to effectively lobby the US government, it explores aspects of their lobbying behaviour in order to identify the factors that lead to success and those that lead to failure from their lobbying endeavours. In this respect, the research utilizes two case studies: one in which Arab Gulf state lobbying was successful, and another in which lobbying failed. In tandem with an analysis of the strategies—or lack of them—behind Arab Gulf states' lobbying, the research examines additional relevant factors such as the organization and activism of the US Arab American community, the strategic value of the Arab Gulf to the US, and the negative image of Arabs in America. The book considers the obstacles to the establishment of an effective Arab Gulf lobby in the US in order to reach an informed conclusion that evaluates the prospects of an effective Arab Gulf lobby. As one of the few academic research works on the Arab Lobby, this work will be of value to scholars and policy makers interested in US domestic politics and Arab American activism, as well as students of Middle Eastern Studies, Arab Gulf studies and communication and public relations, among others.

Teaching to Close the Achievement Gap for Students of Color Theodore S. Ransaw, Richard Majors.2020-10-08 This volume highlights approaches to closing the achievement gap for students of color across K-12 and post-secondary schooling. It uniquely examines factors outside the classroom to consider how these influence student identity and academic performance. *Teaching to Close the Achievement Gap for Students of Color* offers wide-ranging chapters that explore non-curricular issues including trauma, family background, restorative justice, refugee experiences, and sport as determinants of student and teacher experiences in the classroom. Through rigorous empirical and theoretical engagement, chapters identify culturally responsive strategies for supporting students as they navigate formal and informal educational opportunities and overcome intersectional barriers to success. In particular, chapters highlight how these approaches can be nurtured through teacher education, effective educational leadership, and engagement across the wider community. This insightful collection will be of interest to researchers, scholars, and post-graduate students in the fields of teacher education, sociology of education, and educational leadership.

The Report: Morocco 2015 Oxford Business Group.2015-10-09 Morocco's economy is well diversified, particularly relative to many countries in the MENA region. Tourism is a substantial contributor, generating nearly \$6bn (€5.4bn) in annual revenues, as is the agricultural sector, which

can be susceptible to variations in rainfall. Manufacturing industries include textiles, automotive and aeronautics, while recent years have seen the expansion of the ICT sector, particularly outsourcing. Investment in ports, transport and industrial infrastructure, and the establishment of a free trade zone, have boosted competitiveness and left the kingdom well-positioned to act a transport hub and business broker across many African markets.

Accountability in education: meeting our commitments UNESCO.2017-10-30 The second edition of the Global Education Monitoring Report (GEM Report) presents the latest evidence on global progress towards the education targets of the UN Sustainable Development Goals. With hundreds of millions of people still not going to school, and many not achieving minimum skills at school, it is clear education systems are off track to achieve global goals. The marginalized currently bear the most consequences but also stand to benefit the most if policy-makers pay sufficient attention to their needs. Faced with these challenges, along with tight budgets and increased emphasis on results-oriented value for money, countries are searching for solutions. Increased accountability often tops the list. The 2017/8 GEM Report shows the entire array of approaches to accountability in education. It ranges from countries unused to the concept, where violations of the right to education go unchallenged, to countries where accountability has become an end in itself instead of a means to inclusive, equitable and high-quality education and lifelong learning for all. The report emphasizes that education is a shared responsibility. While governments have primary responsibility, all actors - schools, teachers, parents, students, international organizations, private sector providers, civil society and the media 03 have a role in improving education systems. The report emphasized the importance of transparency and availability of information but urges caution in how data are used. It makes the case for avoiding accountability systems with a disproportionate focus on narrowly defined results and punitive sanctions. In an era of multiple accountability tools, the report provides clear evidence on those that are working and those that are not.--Back cover.

We Can't Say We Didn't Know Sophie McNeill.2020-03-01 Dispatches from an age of impunity by the ABCTV award-winning investigative reporter and former foreign correspondent Shortlisted for the 2020 Walkley Book Award For more than 15 years, award-winning journalist Sophie McNeill has reported on some of the most war-ravaged and oppressive places on earth, including Syria, Gaza, Yemen, West Bank and Iraq. In *We Can't Say We Didn't Know*, Sophie tells the human stories of devastation and hope behind the headlines -- of children, families and refugees, of valiant doctors, steadfast dissidents and Saudi women seeking asylum. These innocent civilians bear the brunt of the lawlessness of the current age of impunity, where war crimes go unpunished and human rights are abused. Many risk everything they know to stand up for what they believe in and to be on the right side of history, and their courage is extraordinary and inspiring, McNeill also examines what happens when evidence and facts become subjective and debatable, and how and why disinformation, impunity and hypocrisy now reign supreme. *We can't say we didn't know - the question now is, what are you going to do about it?*

International Students' Challenges, Strategies and Future Vision Anas Hajar.2018-12-05 Study abroad is now both an international industry and an experience that can have a deep impact on students' linguistic, cultural and personal development. This book explores 'the social turn' in the fields of study abroad and language learning strategies. The longitudinal qualitative study reported in this volume investigates the international educational experiences of Arab university students

from diverse countries (Iraq, Libya, Jordan, Saudi Arabia, Syria and the United Arab Emirates) and represents one of the few empirical studies to capture an in-depth understanding of the study abroad experiences of newly-arrived international students in higher education. Particular attention is paid to their changing learning goals, underlying motivations and strategy uses during their attendance on both short and long academic programmes in a study abroad context. It also examines their past language learning experiences in their homelands retrospectively. Readers will gain a better understanding of international students' study abroad experiences in terms of their expectations, aspirations, diverse difficulties and the strategies they deploy to deal with these difficulties.

Urban Design in the Arab World Robert Saliba.2016-03-09 The Arab World is perceived to be a region rampant with constructed and ambiguous national identities, overwhelming wealth and poverty, religious diversity, and recently the Arab uprisings, a bottom-up revolution shaking the foundations of pre-established, long-standing hierarchies. It is also a region that has witnessed a remarkable level of transformation and development due to the accelerated pace imposed by post-war reconstruction, environmental degradation, and the competition among cities for world visibility and tourism. Accordingly, the Arab World is a prime territory for questioning urban design, inviting as it does a multiplicity of opportunities for shaping, upgrading, and rebuilding urban form and civic space while subjecting global paradigms to regional and local realities. Providing a critical overview of the state of contemporary urban design in the Arab World, this book conceptualizes the field under four major perspectives: urban design as discourse, as discipline, as research, and as practice. It poses two questions. How can such a diversity of practice be positioned with regard to current international trends in urban design? Also, what constitutes the specificity of the Middle Eastern experience in light of the regional political and cultural settings? This book is about urban designers 'on the margins': how they narrate their cities, how they engage with their discipline, and how they negotiate their distance from, and with respect to global disciplinary trends. As such, the term margins implies three complementary connotations: on the global level, it invites speculation on the way contemporary urban design is being impacted by the new conceptualizations of center-periphery originating from the post-colonial discourse; on the regional level, it is a speculation on the specificity of urban design thinking and practice within a particular geographical and cultural context (here, the Arab World); and finally, on the local level, it is an a

The Report: Saudi Arabia 2014 Oxford Business Group.2014-08-18 Home to an estimated 15.9% of the world's proven oil reserves, Saudi Arabia is the single largest economy in the Middle East and North Africa. According to the Ministry of Finance, real GDP grew by 3.8% to \$746bn in 2013. While oil income is expected to continue to account for the majority of government revenues for the foreseeable future, the non-oil sector has expanded significantly in recent decades growing 9.3% in 2013. Indeed, while some Western countries may be seeing a return to cautious optimism and leading emerging economies are weighing the potential impact on capital flows of tapering in the US Federal Reserve's quantitative easing programme, Saudi Arabia is seeing sustained growth buoyed by high global oil prices and internal investment in its own infrastructure. Some 15 years after Saudi Arabia attended the inaugural meeting of G20 countries, its key economic indicators make it the envy of many other member states. Given the size of Saudi economy within the regional and indeed global market, OBG looks in depth at bilateral trade between ASEAN nations and the GCC.

how and why to get an international library job, what to expect when you arrive in your host country, and how to overcome challenges in your new home. For those who possess an ALA-accredited degree, there are opportunities to work in library settings around the world—and many of these attractive career options do not require non-English language skills or an EEC/Commonwealth citizenship. This guide to library work in countries outside the United States and Canada explains the benefits of taking on a library position in an international setting, how to find such a job, what to expect in working in a library outside of North America, and what strategies to employ to be successful and happy living and working in your host country. This guide answers all the questions that a librarian considering a position abroad would have, and it also covers subjects and concerns that might not be as obvious. Based on the direct experiences of the authors as well as anecdotal accounts from other librarians who have worked around the world, the book informs readers about common cultural differences with the application and interview process; explains how workplaces and working assumptions can be different from American expectations; profiles the different procedures, collection scope, curricular support, and intellectual freedom policies of libraries outside the United States and Canada; and describes the unique experience of moving to another country and living as an expat.

Oman Reborn Linda Pappas Funsch. 2015-12-29 The Sultanate of Oman is one of the few good news stories to have emerged from the Middle East in recent memory. This book traces the narrative of a little-known and relatively stable Arab country whose history of independence, legacy of interaction with diverse cultures, and enlightened modern leadership have transformed it in less than fifty years from an isolated medieval-style potentate to a stable, dynamic, and largely optimistic country. At the heart of this fascinating story is Oman's sultan, Qaboos bin Sa'id, friend to both East and West, whose unique leadership style has resulted in both domestic and foreign policy achievements during

more than four decades in office. Exploring Oman from a historical perspective, Funsch examines how the country's unique blend of tradition and modernization has enabled it to succeed while others in the region have failed. Accounts of the author's own experiences with Oman's transformation add rich layers of depth, texture, and personality to the narrative.

The World Factbook .2016

Half Past Ten in the Afternoon James Budd.2014-05-31 Much of this book is a record of the time the author spent between 1965 and 1970 as an English teacher in Aneiza □ a provincial town in central Saudi Arabia. In an entertaining series of anecdotes, he describes the daily life and customs of its people, his relations with colleagues and students at the local secondary school, and the events leading up to his □removal□ from the town he had come to regard as home, his transfer to Riyadh, and final departure from the country. In the 1960s Aneiza was still living partly in the age of Charles Doughty, the 19th-century explorer who stayed there for some weeks in the 1870s, and architecturally the town had changed little over the intervening decades. On the other hand, its mid-20th-century inhabitants were very much aware of what was happening in the wider world and felt deeply involved with events in the region. This involvement is reflected in a chapter on inter-Arab politics, the Six-Day War of June 1967, and its causes and aftermath. The author's story does not end in 1970. In □Journey to Makkah□ he writes of his transition from agnosticism to Islam and gives us an account of his pilgrimage to Makkah in 1996 in the company of one of his old students from Aneiza. Finally, in □Aneiza Revisited□, he describes the town in its 21st-century incarnation during his return visit in 2011. Despite Aneiza's material transformation, however, with its concrete and glass buildings and fast food outlets, he found that, despite looking very different, it had still managed to retain its intimate social character and essential congeniality.

Education as the Driving Force of Equity for the Marginalized Boivin, Jacquelynne Anne, Pacheco-Guffrey, Heather.2022-01-14 In the USA, racism is the most widespread root of oppression. Black people in America, specifically, have suffered from centuries of discrimination and still struggle to receive the same privileges as their white peers. In other countries, however, there are other groups that face similar struggles. Discrimination and oppression based on religion, ethnicity, socio-economic status, political affiliation, and caste are just a few categories. However, education is a root for widespread societal change, making it essential that educators and systems of education enact the changes that need to occur to achieve equity for the groups being oppressed. Education as the Driving Force of Equity for the Marginalized highlights international research from the past decade about the role education is playing in the disruption and dismantling of perpetuated systems of oppression. This research presents the context, ideas, and mechanics behind impactful efforts to dismantle systems of oppression. Covering topics such as teacher preparation, gender inequality, and social justice, this work is essential for teachers, policymakers, college students, education faculty, researchers, administrators, professors, and academicians.
