Rights and Constitutionalism Dawid Hercules Van Wyk. 1996 This major work, written by prominent South African academics, is an introduction to the new constitutional order in South Africa. It does not aim to provide a detailed commentary on fundamental rights in South Africa, but instead seeks to place the rights affirmed in the constitution in a comparative and international context. In doing so the book focuses upon the principles that form the foundation of the new constitutional order: the supremacy of the Constitution, the notion of a democratic constitutional state, and the judicial protection of fundamental rights. This is a book which will be of interest to all lawyers and political scientists particularly those interested in constitutionalism and constitutional litigation.
