The Institutional Position of Seaports H. Stevens.2007-08-27 The phenomenon of international seaport administration is the subject of this book. As a Ph.D.-student at the Delft University of Technology (period 1993 - 1997) I had the opportunity to develop and exercise my hobby on a full time base. The result was a Ph.D.-dissertation which was defended in December 1997. Unfortunately, these research results were published in Dutch while the majority of the interviewees and employees in the world of international seaport administration are English speaking people. Both for the reason of high international relevance of the results I felt the necessity to get this Ph.D.-research translated and published in English. With the excellent help of my promotor Prof.dr. W.G.M. Salet I found Prof.dr. H. van der Wusten prepared to cover this study on international seaport administration in the Kluwer GeoJournal Library series. I thank Mr. Van der Wusten for giving me this opportunity. But also due to the outstanding help of my current employer 'Zeeland Seaports Authority' the funding for the translation became very quickly possible. I thank the Managing Director of Zeeland Seaports Authority, Mr. J.M.H.G. Philippen, and the Commercial Director, Capt. J. Verkiel, for their interest and wonderful help in getting this study translated. And of course my sincere thanks go to Katy Owen who actually made this dream come true.

Become a Better Writer Donald Powers.2022-08-05 Improving the quality of your writing starts with rethinking your assumptions and developing healthier writing habits. This book will help you do both. *Become a Better Writer: How to Write with Clarity and Simplicity* is a practical guide for those who wish to write more clearly and concisely. Drawing on their extensive experience as writers and editors, the authors discuss tools and tips for making your writing accessible and meaningful to your target audience. The book is readable and engaging, covering different kinds of writing (including reports, essays, emails, novels and speeches) across a wide range of subjects. The examples discussed are derived from real-world material and are particularly relevant to the African context. The book will be especially useful to writers of non-fiction.

Multi-Sited Ethnography Mark-Anthony Falzon.2016-04-15 Multi-Sited Ethnography has established itself as a fully-fledged research method among anthropologists and sociologists in recent years. It responds to the challenge of combining multi-sited work with the need for in-depth analysis,

allowing for a more considered study of social worlds. This volume utilizes cutting-edge research from a number of renowned scholars and empirical experiences, to present theoretical and practical facets charting the development and direction of new research into social phenomena. Owing to its clear contribution to a rapidly emerging field, Multi-Sited Ethnography will appeal to anyone studying social actors, including scholars within human geography, anthropology, sociology and development and migration studies.

Better Choices Greg Mills, Mcebisi Jonas, Haroon Borat, Ray Hartley. 2022-04-01 'A must-read, accessible and skilful account of South Africa's socio-economic challenges, policy and governance choices.' - THEMBA MASEKO All the numbers on South Africa's crisis dashboard are blinking red. The economy is failing to grow and more and more young people find themselves on the outside looking in as education falters and jobs disappear. Energy and transport are in crisis. Governance is floundering as debt mounts and government runs out of money. *Better Choices* is a collection by South Africa's top thinkers on the political economy, providing an unflinching account of the myriad challenges the country faces. The picture that emerges is of a nation on the brink of a catastrophic slide into failure unless better, if tough, policy choices are made. As stark as these problems are, their solutions are tantalisingly close at hand. The chapters in this book outline exactly the solutions - those 'better choices' - that need to be made by leadership to alter the country's bleak trajectory. South Africa cannot talk its way out of trouble. Key to success is removing the sources of friction - the red tape, over-regulation and rents - that slow down investment. This is only possible if a more effective, focused government acts decisively. Compiled by The Brenthurst Foundation, Africa's leading think tank on economic development, *Better Choices* is for those who want to build a positive, inclusive future for South Africa.

When McKinsey Comes to Town Walt Bogdanich, Michael Forsythe. 2023-10-03 NEW YORK TIMES BESTSELLER • A NEW YORK TIMES NOTABLE BOOK OF THE YEAR • ONE OF THE WASHINGTON POST's 50 NOTABLE WORKS OF NONFICTION An explosive, deeply reported exposé of McKinsey & Company, the international consulting firm that advises corporations and governments, that highlights the often drastic impact of its work on employees and citizens around the world McKinsey & Company is the most prestigious consulting company in the world, earning billions of dollars in fees from major corporations and governments who turn to it to maximize their profits and enhance efficiency. In *When McKinsey Comes to Town*, two prizewinning investigative journalists have written a portrait of the company sharply at odds with its public image. Often McKinsey's

advice boils down to major cost-cutting, including layoffs and maintenance reductions, to drive up short-term profits, thereby boosting a company's stock price and the wealth of its executives who hire it, at the expense of workers and safety measures. McKinsey collects millions of dollars advising government agencies that also regulate McKinsey's corporate clients. Shielded by NDAs, McKinsey has escaped public scrutiny despite its role in advising tobacco and vaping companies, purveyors of opioids, repressive governments, and oil companies. McKinsey helped insurance companies' boost their profits by making it incredibly difficult for accident victims to get payments; worked its U.S. government contacts to let Wall Street firms evade scrutiny. And much more. *When McKinsey Comes to Town* is a landmark work of investigative reporting that amounts to a devastating portrait of a firm whose work has often made the world more unequal, more corrupt, and more dangerous.

Adjudicating Employment Rights S. Corby,P. Burgess.2014-01-28 Adjudicating Employment Rights compares and analyses institutions for resolving employment rights disputes in ten countries. In addition to detailed individual chapters, the study offers a theoretical perspective and an evaluation of national institutions against key yardsticks.

Perspectives on Africa-China Infrastructural and Industrial Cooperation Bhaso Ndzendze,David Monyae.2023-10-19 This edited volume discusses infrastructural cooperation and industrial cooperation between China and several countries in Africa. In contributions by academics and practitioners alike, the book distils the conceptual implications of empirical and ethnographic findings and explores probable future developments in the Africa-China relationship. The chapters deal with numerous countries across the African continent, covering nearly all regions, showcasing the dynamics of China's relations with different countries while highlighting African agency over major infrastructure projects and industrial activity. Providing an in-depth look at the evolving economic cooperation across these two regions, this volume will appeal to researchers and students of African politics, international relations, area studies, and comparative politics. The book will be of relevance to policymakers in governments, international organizations, and non-governmental organizations involved in policy formulation particularly regarding the Africa-China/China-Africa relationship.

The Report: South Africa 2013 Oxford Business Group.2013-09-04 The Rainbow Nation benefits from an internationally competitive private sector, which accounts for roughly 70% of GDP, and extremely competitive infrastructure; its utility sector, for example, produces just under half of the total power generated on the African continent. South Africa represents by far the most developed market in Africa, but there are still some structural challenges it is grappling with. Government strategies have set a target of increasing labour market participation from 54% in 2010 to 65% by 2030, bringing the number of workers in the formal sector to 25.3m people and lowering unemployment from 25% to 6%. While its fiscal space is narrow, long-term investments in infrastructure, education and health are expected to be key to attaining its growth potential. Recent years have seen both the public and private sectors look to strengthen regulatory frameworks in mining and industry - in some cases, like the automotive sector, with impressive results.

FIDIC Contracts in Africa and the Middle East Donald Charrett.2023-09-20 FIDIC contracts are the most widely used contracts for international construction around the world and are used in many different jurisdictions, both common law and civil law. For any construction project, the General Conditions of Contract published by FIDIC need to be supplemented by Particular Conditions that specify the specific requirements of that project.

FIDIC Contracts in Africa and the Middle East: A Practical Guide to Application provides readers with detailed guidance and resources for the preparation of the Particular Conditions that will comply with the requirements of the laws that apply to the site where the work is carried out, and for the governing law of the contract, for a number of the jurisdictions in which FIDIC contracts are or can be used. This book closely follows the format of The International Application of FIDIC Contracts. Each jurisdiction features an outline of its construction industry and information on the impact of COVID-19 on both the execution and operation of construction contracts. This book is essential reading for construction professionals, lawyers and students of construction law.

Human Rights at Work Colin Fenwick,Tonia Novitz.2010-10-12 Concerns associated with globalisation of markets, exacerbated by the 'credit crunch', have placed pressure on many nation states to make their labour markets more 'flexible'. In so doing, many states have sought to reduce labour standards and to diminish the influence of trade unions as the advocates of such standards. One response to this development, both nationally and internationally, has been to emphasise that workers' rights are fundamental human rights. This collection of essays examines whether this is an appropriate or effective strategy. The book begins by considering the translation of human rights discourse into labour standards, namely how theory might be put into practice. The remainder of the book tests hypotheses posited in the first chapter and is divided into three parts. The first part investigates, through a number of national case studies, how, in practice, workers' rights are treated as human rights in the domestic legal context. These ten chapters cover African, American, Asian, European, and Pacific countries. The second part consists of essays which analyse the operation of regional or international systems for human rights promotion, and their particular relevance to the treatment of workers' rights as human rights. The final part consists of chapters which explore regulatory alternatives to the traditional use of human rights law. The book concludes by considering the merits of various regulatory approaches.
