Marketing William O. Bearden, Thomas N. Ingram, Raymond W. LaForge. 2003-03 Marketing: Principles and Perspectives, 4e is a cutting edge text. In the first edition, we demonstrated this leading coverage with our strong integration of Integrated Marketing Communication and Direct Marketing. In the second edition we continued our modern coverage by integrating cross-functional teams, customer loyalty, and the Internet / technology. The third edition includes an Internet Marketing chapter and continues to fully integrate the Internet throughout. The authors not only talk about what marketing is, but prepare the students to be marketers by involving them in interactive exercises which strengthen decision making skills. Marketing, 4e offers the latest coverage, quality professor supplements, and an interactive student web tool and still it is approximately \$20 less than most principles of marketing competitors. The perspectives approach is present in the fourth edition, however, the over-riding theme concentrates on building customer equity.

Principles of Marketing Jay Diamond,Gerald Pintel.1972 Principles of Marketing was written to introduce students to the various activities in the field of marketing and to provide the technical and theoretical knowledge necessary for employment for graduates and even those with work experience. Typical of the jobs at this level are middle management, executive assisting, or executive training. An overview of marketing is presented, which includes such vital areas as channels of distribution, transportation and warehousing, consumer and industrial goods, and pricing and product development. Much of the material included in the text reflects the actual practices of the leading marketers in the United States. Their procedures and recommendations have been incorporated to insure that the student entering the field will be able to apply what he has learned through formal study. - Preface.
