America's Survival Guide Michael Warren.2007 America was founded on certain First Principles which are the critical underpinnings of our free society: the rule of law, unalienable rights, equality, the Social Compact, and limited government. Supported by extensive research and fuelled by a true passion and respect for the profound vision of America's Founding Fathers, Michael Warren proves how they have guided us in our journey to become the greatest and most free nation in the world. He exposes how our knowledge of our principles and history has eroded to the point of near non-existence-and that this is a threat to our survival much more serious than what may come to us from outside our borders. Warren proposes thoughtful and needed reforms to enable America to rise above the impending doom from within and reclaim the greatness envisioned by the Founding Fathers.

Enemy Invasion Survival Guide Ronald Williams.2017-07-21 While it can be hard to know just what kind of disasters would deal the biggest blow to America, I'm here to tell you that a coordinated and large scale enemy invasion would be one of the most catastrophic and damaging disasters that could ever happen to the United States. But who could possibly dare to attack America, you might ask. We have the most powerful military that mankind has ever seen. Why would Russia invade the U.S? Their military is weak (supposedly) compared to ours. Why would China invade the U.S? They are reliant on us for their imports. How could North Korea invade? Their military is obsolete, outdated, and malnourished (again, supposedly). But are these statements really true? The reality is that each of those nations has far greater capabilities than we commonly give them credit for. Russia, for instance, has a very huge stockpile of nuclear weapons and the ability to distribute them across the world. China has also been building up its military capabilities and been doing business with common enemies of the United States, including North Korea and Iran. The United States simply has to be extremely concerned about China, Iran, North Korea, and Russia all meeting and discussing things behind closed doors. In fact, Iran and North Korea have publically and repeatedly made clear their strong desire to completely and utterly destroy the United States. Regardless of how serious you believe these threats are, one thing is clear: there is perfectly just cause to believe that a future war on U.S soil is a possibility, and it's something that you need to be prepared for. What if North Korea makes good on its threat to attack the U.S with nuclear weapons and places their nukes in cargo ships that are headed for the West Coast, for example? In this beginner's guide, we are going to talk about how the average

American citizen like you can prepare for an invasion of the United States by enemy forces and how to survive if the invasion happens. We're going to break down how to prepare for an enemy invasion into steps, and the steps that we are going to cover are: -Step #1: How Would The United States Be Invaded? -Step #2: Possible Invasion Scenarios -Step #3: How The Enemy Invasion Will Affect You -Step #4: How Will American Citizens Respond To An Invasion? -Step #5: How To Survive In A War Zone -Step #6: Living Under Occupation By the end of this guide, you will have a greater understanding of how and why the U.S could be invaded in the future, what life will be like as a result of the invasion, and how you can survive when you home has been turned into a war zone. This is a very serious matter and it is not a subject that you should take lightly. I'm deliberately going to make this book short so it's a quick and easy read for you, but it's your responsibility to take the information you are about to learn seriously.

Only the Strong Survive Joe Hently.2012-11-28 My military career would be from February 28, 1956 to March 31, 1976. My Air Force specialty code was 65170-Procurement Supervisor, secondary specialty was 64570, Inventory Management Supervisor, which was a political correct name for the Supply Sergeant or NCOIC. I worked in about every field in the service part of Air Force from Physical Ed. Instructor to teaching warfare technique. I always had a great group people and we were successful, because I was able to always teach respect for one another, which led to a good outfit. Great leaders are born and I was a damn good leader of human beings! I would have been great in the military or civilian life, but the military was able to give me my discipline and organizational skills to accomplish any task given, because with my faith, prayer and the knowledge that I am who I am, I knew I could do anything that I was able to do to completion! I was top of my NCO leadership school, and top of the NCO Academy. I was one of the first to enter a one year school in N.Y. called the Blue Suiter Program Military Group for the first computer system to be operated by military personnel, the UNIVAC 1050 computer system for the Air Force (1964). My job was NCOIC of 100, 000 line items (spare parts) for the complete system. Procurement school, Lowry AFB, Denver Colorado, I held a GPA of 4.0 and was class president. There was a college ECI course through the University of Maryland. I completed 71 courses in other career fields as an Airman that I was in charge of. I knew as much about other missions as other folks did. I also completed all the other 27 courses and related jobs of my career field, which gave me enough credits for a BA college degree! Some of my accomplishments were EOC NCOIC, Commissioner of the 5 BX Program, Exercise and Diet base level, Base schools and all squadron activity to operate a Base. My Masonic Order and my involvement as a captain of the semi-pro football team gave a platform to involve the Base and the city in football, flag football, softball, baseball, bowling, little and pony leagues (8-14 yr old boys after school football program) for training if there grade point average were up to a 3.0, a Thanksgiving Program for the needy every November, a program for the disadvantage kids, which included seven Masonic brothers as big brother and role models. If they had a problem they would call their best troubleshooter and I was always successful, because I treated each person as a human being and with respect, not as cattle. Decorations and Awards: VSM w/2 BSS, RVSM, AFOVA, AFGCM w/3 OLC, AFLSA w/4 OLC, AFM 900-3. There would have been other medals if I had showed up for the award ceremonies. I would not accept the damn medals if I was not accepted as human being or as a patriot in this racist system. I was never promoted passed the rank of Technical Sgt/ E-6, because I could not in good conscience stay out of the movement for the rights of all humans, not just my Black Pride, which was also on display, so the Air Force has labeled me as a Communist Agitator.

Heart of a Patriot Max Cleland.2009-10-06 By the time he had reached middle age, Max Cleland thought he had nothing to live for. Vietnam had left him a triple amputee. He had lost his seat in the U.S. Senate, and in the grip of depression he had lost his fiancée, too. But instead of giving up, Cleland discovered that he has what it takes to survive: the heart of a patriot. Doctors did not give Cleland much hope when he returned from Vietnam, but he overcame his despair through his bonds with other wounded soldiers. Against all odds, he realized his dream of becoming a Senator. But after being smeared as unpatriotic in a reelection campaign, a long-dormant case of Post-Traumatic Stress Disorder sent him back to Walter Reed Hospital. Surrounded by the veterans of Iraq and Afghanistan, Cleland again found the faith and endurance to regain control of his life. In a gut-wrenching memoir that is free of bitterness but frank about the costs of being a soldier, Max Cleland describes with love the ties America's soldiers forge with one another, along with the disillusionment many of them experience when they come home. *Heart of a Patriot* is a story about the joy of serving the country you love, no matter the cost—and how to recover from the deepest wounds of war.

The Prepper's Medical Handbook M. D. Forgey.2020-04-01 The basis of adequate prepping is being prepared for both common and dire events that may occur under the worst of all possible circumstances. These circumstances might include the breakdown in normal emergency support services (such as calling 911), the lack of an ability to obtain additional supplies, and the probability that you will not be able to rely on anyone but members of your immediate group or yourself. Prepping requires forethought with regard to food, water supplies, power, and protection - all areas of significant technical preparation. Self-reliant medical care is no exception. This book provides the basis of prevention, identification, and long-term management of survivable medical conditions and can be performed with minimal training. It helps you identify sources of materials you will need and should stock-pile, it discusses storage issues, and directs you to sources for more complex procedures that require advanced concepts of field-expedient techniques used by trained medical persons such as surgeons, anesthesiologists, dentists, or midwives and obstetricians.

The Ultimate Survival Medicine Guide Joseph Alton,Amy Alton.2015-08-04 No one knows what the next disaster will be: earthquake, Coronavirus, flu epidemic, flood, terrorist attack. But everyone should know how to survive a medical emergency if a medical professional isn't available. From Dr. Joe Alton and Amy Alton ARNP comes an updated edition of their bestseller *The Survival Medicine Handbook*. This unique medical book is meant to enable the average person to handle injuries and illness in situations in which modern medical facilities and professionals aren't available due to a disaster. This book is written by America's top medical preparedness experts: Joe Alton, MD, and Amy Alton, ARNP. Their mission: to put a medically prepared person in every family for when medical help is not on the way. Using decades of medical experience, they address, in plain language, dozens of medical issues associated with surviving disasters and epidemics. The Altons also discuss the medical supplies needed to become a medical asset to your family and community as well as alternative and natural strategies for when pharmaceuticals aren't available. Topics include: Appendicitis and Conditions that Mimic It Urinary Tract Infections Mosquito-Borne Illnesses Allergic Reactions and Anaphylaxis Head Injuries Animal Bites Snake Bites Head injuries Kidney Stones Dislocations and Fractures Nosebleeds Pain Medications Natural Pain Relief And much much more! Most medical books will send you to the doctor or hospital when an emergency happens. The Altons assume that the worst might actually happen—that the average person could be left without medical help in a disaster. With their book, you can keep your family healthy in times of trouble.
