Le droit des étrangers pratique Bojana Claire Stojanović.2011-03-01 Quelle est la bonne carte de séjour à demander ? Quelles conditions permettent d'obtenir le droit d'asile ? Comment procéder au regroupement familial ? Comment devenir Français ? Quels dangers courent les immigrés clandestins ? Cet ouvrage apporte des réponses concrètes à ces questions et à bien d'autres auxquelles sont confrontés les candidats à l'immigration aussi bien que les immigrés. Guide pratique écrit en langage non technique, il se veut une aide précieuse pour les non juristes confrontés au très complexe droit des étrangers. Indiquant systématiquement toutes les références aux textes juridiques visés, de la loi jusqu'aux circulaires, il sera aussi un outil indispensable pour les professionnels.

Map Men Steven Seegel.2018-06-29 More than just colorful clickbait or pragmatic city grids, maps are often deeply emotional tales: of political projects gone wrong, budding relationships that failed, and countries that vanished. In *Map Men*, Steven Seegel takes us through some of these historical dramas with a detailed look at the maps that made and unmade the world of East Central Europe through a long continuum of world war and revolution. As a collective biography of five prominent geographers between 1870 and 1950—Albrecht Penck, Eugeniusz Romer, Stepan Rudnyts'kyi, Isaiah Bowman, and Count Pál Teleki—*Map Men* reexamines the deep emotions, textures of friendship, and multigenerational sagas behind these influential maps. Taking us deep into cartographical archives, Seegel re-creates the public and private worlds of these five mapmakers, who interacted with and influenced one another even as they played key roles in defining and redefining borders, territories, nations—and, ultimately, the interconnection of the world through two world wars. Throughout, he examines the transnational nature of these processes and addresses weighty questions about the causes and consequences of the world wars, the rise of Nazism and Stalinism, and the reasons East Central Europe became the fault line of these world-changing developments. At a time when East Central Europe has surged back into geopolitical consciousness, *Map Men* offers a timely and important look at the historical origins of how the region was defined—and the key people who helped define it.

Budapest's Children Friederike Kind-Kovács.2022-07-05 In the aftermath of World War I, international organizations descended upon the destitute children living in the rubble of Budapest and the city became a testing ground for how the West would handle the most vulnerable residents of a former enemy state. Budapest's Children reconstructs how Budapest turned into a laboratory of transnational humanitarian intervention. Friederike Kind-Kovács explores the ways in which migration, hunger, and destitution affected children's lives, casting light on children's particular vulnerability in times of distress. Drawing on extensive archival research, Kind-Kovács reveals how Budapest's children, as iconic victims of the war's aftermath, were used to mobilize humanitarian sentiments and practices throughout Europe and the United States. With this research, Budapest's Children investigates the dynamic interplay between local Hungarian organizations, international humanitarian donors, and the child relief recipients. In tracing transnational relief encounters, Budapest's Children reveals how intertwined postwar internationalism and nationalism were and how child relief reinforced revisionist claims and global inequalities that still reverberate today.
